The Honorable Board of Supervisors

RE: Amendment No. 3 to the On-Call Land Surveying Services Agreement with the firm of Inland Aerial Surveys, Inc.

June 22, 2009

Page 2 of 2

BACKGROUND: The Transportation Department needs additional aerial mapping/photogrammetric support services to assist in the delivery of the necessary road improvement projects identified and funded in the Transportation Improvement Program (TIP).

On June 21, 2005, the Board of Supervisors executed an agreement between the County and Inland Aerial Surveys, Inc. that authorized Inland Aerial Surveys, Inc. to perform on-call surveying services for the Transportation Department. The agreement provided the Transportation Department with the authority to approve consulting services up to a maximum of \$100,000 per year over a three year period with the option of providing up to two one-year extensions. On January 29, 2008 (1st Amendment), and on June 24, 2008 (2nd Amendment) the Board executed amendments that provided one year extensions as well as increasing the maximums for the Transportation Department to authorize these services.

The Transportation Department is currently going through the RFP process for On-call Surveying Services and until new agreements have been approved this amendment (3rd Amendment) will extend the expiration date to allow Inland Aerial Surveys, Inc. to complete work assignments that have already been approved by the Transportation Department but are not yet complete. This extension will expire on June 30, 2010.

The additional required funding for these services will come from the respective related project funds and development fees. All associated funds have been incorporated in the FY 09/10 Budget and are fully reimbursable by the related projects. There is no Net County Cost associated with these services.

County Counsel has approved Amendment No. 3 as to legal form.
