of service due to the close proximity of the interchange with the Valley Way and Mission Boulevard intersection.

To improve traffic circulation, this construction project will close the existing eastbound exit ramp. A new off ramp and on ramp will be constructed with an improved intersection located at Mission Boulevard and Byrne Road. Additionally, improvements to the intersection of Mission Boulevard and Valley Way will be constructed.

During construction it will be necessary to have short-term closures on the exiting SR-60 eastbound off-ramp at Valley Way. Appropriate signage will be erected to redirect traffic to alternate routes.

The County competed for Federal Economic Stimulus funds under the American Recovery and Reinvestment Act for this project and was successful in obtaining \$4,482,000. The Valley Way and SR-60 interchange project will create construction jobs, improve the traffic operation and improve safety at this interchange.

The Transportation Department is working with RCTC for the provision of Regional Measure A funds designated for interchange improvements at key locations. A funding agreement will be presented for approval prior to or concurrently with the award of construction contract agreement.

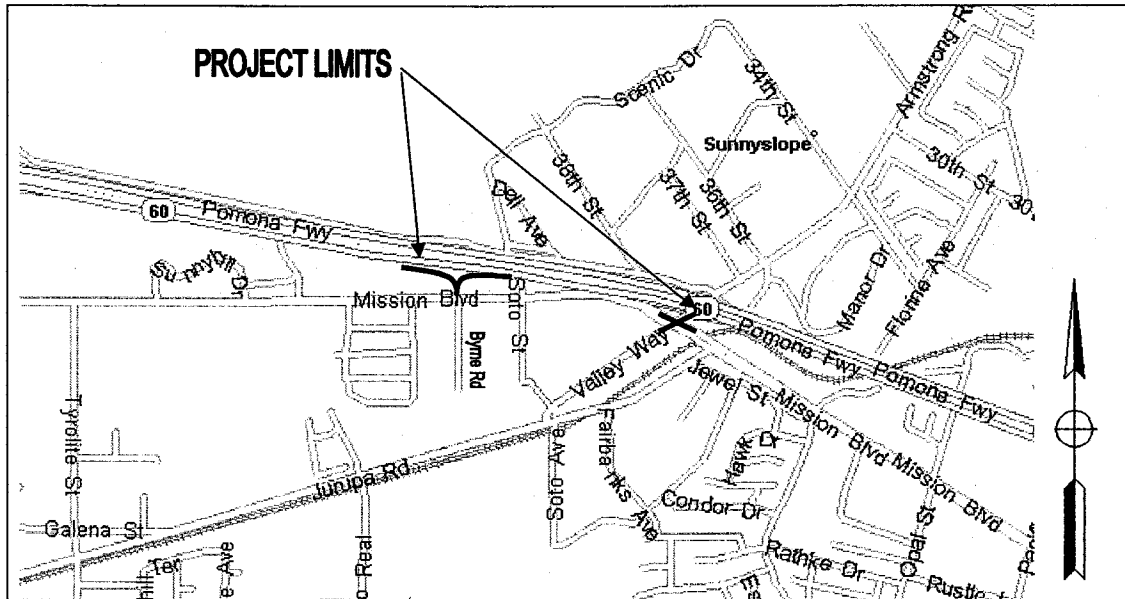

The submitted plans and specifications have been approved as to form by County Counsel.

Environmental clearance is complete.
