-------------------------	------------------------------	-------------------

BACKGROUND: The Coachella Valley Water District Weather Based Pilot Program was created in 2005. The water conservation program has been hugely successful. According to CVWI findings, there has been average savings of 131 gallons per day per clock, and overall savings of 26% over the control group.

We would like to contribute funding for residents of the unincorporated communities of the Fourth District to participate in this program.

Supervisor John J. Benoit
Fourth District
