Riverside County Office on Aging was awarded a California Aging and Disability Resource Center Program Grant by the California Health and Human Services Agency in support of an initiative to provide older adults, persons with disabilities, and caregivers with comprehensive information, assistance and referrals to long-term services and supports.

Through this award, Riverside County Office on Aging's intent, in partnership with Community Access Center, is to: 1) have in place an effective and comprehensive "one-stop" resource delivery system that includes integrated programs to address seniors and persons with disabilities; 2) position its service delivery system to implement policy, regulatory, and administrative changes coming from state and federal levels, in order to maximize efficiency and number of individuals who can be served; 3) develop an integrated continuum of individualized preventive, diagnostic, therapeutic, rehabilitative, supportive, maintenance and customer tracking services that address the health, social, and personal needs in the least restrictive environment, and as an alternative to institutionalization, as per the Olmsted Decision; and 4) enhance the current database system for Office on Aging with integration of the CalCare Net database program.

The term of this agreement with the California Health and Human Services Agency is May 1, 2008 through April 30, 2011.
