BACKGROUND continued:

The proposed amendment to Ordinance 860.5 will include rates the Auditor-Controller will charge for 20 of the services provided to county departments, taxing agencies outside the county (example cities and redevelopment agencies), special districts (example water districts) and the general public (for garnishments and similar services) as follows:

Affected Agencies	Number of Rates
Taxing Agencies (excluding county)	7
Public	8
Special Districts	3
County Departments	2

The rates that will be charged to all county departments are for payroll warrants and direct deposits. The internal audit rate, which will be charged to the Tax Collector, is for the required quarterly verification of the assets held in the treasury.

There will be increases to current charges for six of the Auditor-Controller's audited rates, particularly for property tax services where we were not fully recovering our costs; additionally, there will be decreases to five rates and no change to an additional eight rates. One new rate for general property tax services will be introduced. The Auditor-Controller will also discontinue the rate for an overnight rush of county warrants.

These changes are primarily the result of restructuring, auditing rather than reviewing processes and creating cost-cutting efficiencies.
