The Honorable Board of Supervisors

RE: Pavement reconstruction on Market Street, Fleetwood Drive, Via Cerro and Via Ricardo in the Riverside County community of Rubidoux.

November 16, 2010

Page 2 of 2

BACKGROUND: The Transportation Improvement Program provides for the construction of road improvements on Market Street from 900-feet southerly of Agua Mansa Road to the Santa Ana River Bridge, and all of Fleetwood Drive, Via Cerro and Via Ricardo in the Riverside County community of Rubidoux. The improvements will include the road resurfacing and reconstruction of the existing pavement, asphalt concrete dike, construction, repair and replacement of concrete curbs, cross-gutter, curb ramps, signing, striping and other associated work.

The existing pavement on Market Street, Fleetwood Drive, Via Cerro and Via Ricardo has significant heavy truck traffic and is in very poor condition. The improvements are intended to benefit the local businesses, residents and users of these streets by providing a restored road surface for travel, as well as improved pedestrian access and street drainage.

The adjustments to utilities owned by the Rubidoux Community Services District (RCSD) are included in the bid package as alternate bid schedule 1. If the District approves the award of the alternate bid schedule as bid by the apparent low bidder, the costs for the work will be funded by the District, under the terms of a funding agreement which will be submitted prior to or concurrent with the award package.

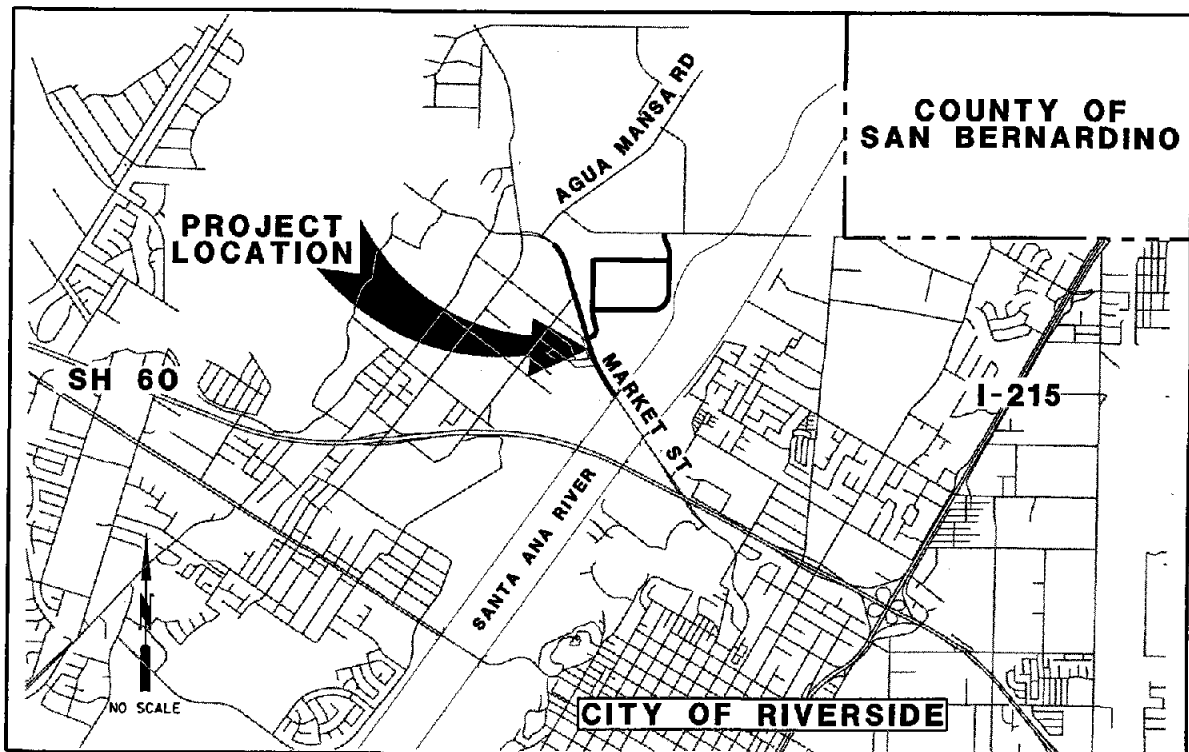

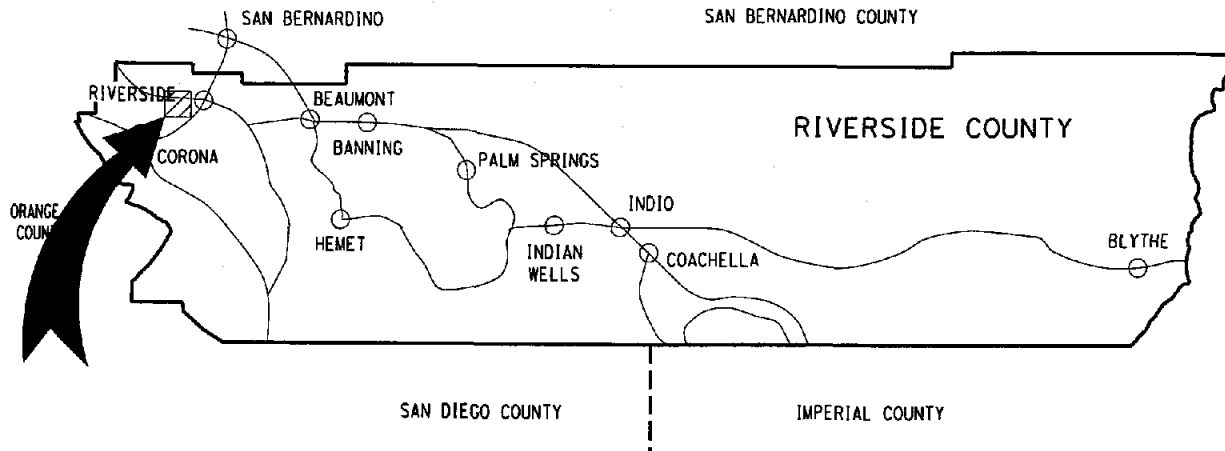

The submitted plans and specifications have been approved as to form by County Counsel.

Environmental clearance is complete.
