RECOMMENDED MOTION: (Continued)

- b) No other reasonable means of financing the cost of the project are available because current economic conditions are such that general County of Riverside revenues are insufficient to provide such facilities;
 - c) The payments of funds for the cost of the project is consistent with the Implementation Plan for the project area and is necessary to effectuate the purpose of the project area's Redevelopment Plan which calls for the elimination of blighting conditions within the project area by providing such improvements to the community and encouraging economic growth; and
2. Adopt a Mitigated Negative Declaration and Mitigation Monitoring Program for Environmental Assessment Form No. EA05190004000, RDA/CEQA 2008-1 based on the findings incorporated in the Initial Study and the conclusion that the project will not have a significant impact on the environment;
 3. Approve the proposed Cabazon Civic Center Project;
 4. Approve the plans and specifications for the construction of the Cabazon Civic Center Project and authorize the Clerk of the Board to advertise the Notice Inviting Bids for the project; and
 5. Approve the demolition of the old Cabazon Fire Station #24 located on Assessor's Parcel Number 526-170-020;

BACKGROUND: On May 20, 2008, the Board of Directors for the Redevelopment Agency approved an agreement between the Agency and Harley Ellis Devereaux to design the Cabazon Civic Center. The proposed Cabazon Civic Center will be developed at the existing site of the James A. Venable Community Center in the community of Cabazon in Riverside County. The community center will remain as the hub of the civic center.

New facilities to be constructed include a library (5,470 square feet), a child development center (13,026 square feet), an administration building for Cabazon Water District (3,300 square feet), basketball courts, play areas, picnic shade shelters, a skate park, restroom building (772 square feet), additional multi-purpose turf area, a maintenance building (1,655 square feet), and associated parking. The old Cabazon Fire Station #24 (building number CB3102 on the County Building Asset List) will also be demolished as part of the plans and specifications for this project.

Street improvements will be completed along Carmen Avenue, Irene Street, and Broadway Street. Each street is currently two-lane and will be improved to Circulation Element designations as approved in the County General Plan. Existing electrical and telephone utilities will be undergrounded. This project will comply with County Policy H-29: Sustainable Building Policy which establishes the use of sustainable practices using Leadership in Energy and Environmental Design (LEED) criteria. A total of approximately 7.89 acres will be disturbed and 3.55 acres of vacant land will be developed.

BACKGROUND: (Continued)

The development of the project is consistent with the Redevelopment Agency's Implementation Plan, which calls for the building of community facilities and providing recreational opportunities for area residents.

Staff has prepared an Initial Study to assess the potential environmental effects of the project. The Initial Study indicated all issues of environmental concern can be adequately mitigated to a level of insignificance.

The Initial Study and Proposed Mitigated Negative Declaration has been distributed and reviewed in accordance with State CEQA guidelines and the notice has been published in the Press Enterprise newspaper.

A budget for the project will be approved after bids are received. Staff recommends approval of the above motions.
