**SUBJECT:** Resolution No. 2010-6 - Authorization to Convey Easement Interests in Real Property – Unincorporated Area of Western Riverside County - portions of each APN 187-210-008 and 189-110-001 respectively – District II

**RECOMMENDED MOTION:**

3. Authorize the General Manager, or his designee, to execute any other documents to complete this transaction.

**BACKGROUND:**

The Riverside County Regional Park & Open-Space District ("District") is governed by the California Public Resources Code regarding the ownership of any interest in real property that may be dedicated and used for park and/or open-space purposes and whether replacement of park land is required. In certain situations, any interest in real property, that is used for parks and/or open-space purposes and actually dedicated for such purpose by a resolution adopted by the District Board of Directors ("Board"), could not be freely and voluntarily conveyed by the District without voter approval or a Legislative concurrence. In addition, if the real property interest is currently being used as a public park and a conveyance was to be made whereby a grantee will not use the property as a public park, then additional standards must be followed. The District owns fee simple interest in certain parcels of real property described above that the City of Riverside desires to acquire easement interests in that real property for the purpose of implementing a sewer utility project known as the Santa Ana River Trunk Sewer Project.

In accordance with California Public Resources Code Section 5540, a district may grant or dispose of real property, within or without the district, necessary to the full exercise of its powers; however, "...may not validly convey any interest in any real property actually dedicated and used for park or open-space, or both, purposes without the consent of a majority of the voters of the district voting at a special election called by the board and held for that purpose." The conveyance of the easement interests in this transaction is not in violation of Section 5540 because the District did not actually dedicate by a Board resolution the fee simple interest or any interest therein, in the real property in which the easement interest is to be created and conveyed.

The Public Park Preservation Act of 1971 ("Act") (California Public Resources Code Section 5400 et. seq) places conditions in which public agencies must follow when real property that is being used as a public park at the time of the acquisition is to be acquired for the purpose of utilizing such property for any nonpark purpose. A portion of the easement interests to be acquired by the City are located within real property commonly known as the Martha McLean/Anza Narrows Park. California Public Resources Code Section 5402 specifically provides an exception to the general rule whereby the provisions of the Act "shall not apply to the acquisition of real property or any interest in real property for the construction or maintenance of underground utility services". The purpose in which the City of Riverside desires to acquire the easement interests is to construct and maintain sewer utility services for its Santa Ana River Trunk Sewer Project. The conveyance does not require replacement of the easement interests to be acquired by the City.

**SUBJECT:** Resolution No. 2010-6 - Authorization to Convey Easement Interests in Real Property – Unincorporated Area of Western Riverside County - portions of each APN 187-210-008 and 189-110-001 respectively – District II

**BACKGROUND:**

The Park District authorizes to convey Easement Interests in Real Property located in the unincorporated area of Western Riverside County, portions of Assessor's Parcel Numbers 187-210-008 and 189-110-001 to the City of Riverside by Easement Deeds, more particularly legally described and depicted in Exhibit "A", for each respective real property interest, attached hereto. All costs for this transaction will be paid by the City. Resolution No. 2010-6 has been reviewed and approved as to form by County Counsel.
