SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

FROM: TLMA - Planning Department

SUBMITTAL DATE:
March 30, 2010

SUBJECT: TENTATIVE PARCEL MAP NO. 35162 – Intent to Adopt a Mitigated Negative Declaration – Applicant: Inland Valley Development Consultants – Engineer/ Representative: Inland Valley Development Consultants – First Supervisorial District – Rancho California Zoning District – Southwest Area Plan: Rural: Rural Mountainous (R:RM) (10 Acre Minimum) – Location: Northerly of Tenaja Road, southerly Alpine View Lane, easterly of Calle Pino and westerly Aronimink Road – 20.31 Gross Acres - Zoning: Residential Agricultural- 5 Acre Minimum (R-A-5) – **REQUEST:** A Schedule “H” subdivision of 20.31 Gross Acres into there (3) parcels with a minimum lot size of five (5) Gross Acres- APN: 931-190-011. (Quasi-judicial)

RECOMMENDED MOTION:

RECEIVE AND FILE The Notice of Decision for the above references case acted on by the Planning Director on March 22, 2010

The Planning Department recommended Approval; and,
THE PLANNING DIRECTOR:

ADOPTED a **MITIGATED NEGATIVE DECLARATION** for **ENVIRONMENTAL ASSESSMENT NO. 41217**, based on the findings incorporated in the initial study and the conclusion that the project will not have a significant effect on the environment; and,

APPROVED TENTATIVE PARCEL MAP NO. 35162, subject to the attached conditions

Ron Goldman
Planning Director

**COUNTY OF RIVERSIDE PLANNING DEPARTMENT
STAFF REPORT**

PROJECT DESCRIPTION AND LOCATION:

TENTATIVE PARCEL MAP NO. 35162 proposes a Schedule "H" subdivision of 20.31 Gross Acres into 3 parcels with a minimum lot size of 5 Gross Acres.

The proposed project is located on the Santa Rosa Plateau northerly of Tenaja Road, southerly Alpine View Lane, easterly of Calle Pino and westerly Aronimink Road.

SUMMARY OF FINDINGS:

- | | |
|------------------------------------|--|
| 1. General Plan Land Use (Ex. #5): | Rural: Rural Mountainous (R:RM) (10 acre minimum) |
| 2. Existing Zoning (Ex. #2): | Residential Agricultural- 5 Acre Minimum (R-A-5) |
| 3. Surrounding Zoning (Ex. #2): | To the south, east, north and west is Residential Agricultural- 5 Acre Minimum (R-A-5), part of the area to the north is Residential Agricultural -10 Acre Minimum (R-A-10). |
| 4. Existing Land Use (Ex. #1): | Vacant land |
| 5. Surrounding Land Use (Ex. #1): | Single family residences to the north and vacant land to the south, east and west |
| 6. Project Data: | Total Acreage: 20.31 gross acres
Total Proposed Lots: 3
Proposed Min. Lot Size: 5 acres
Schedule: H |
| 7. Environmental Concerns: | See attached environmental assessment |

RECOMMENDATIONS:

ADOPTION of a **MITIGATED NEGATIVE DECLARATION** for **ENVIRONMENTAL ASSESSMENT NO. 41217**, based on the findings incorporated in the initial study and the conclusion that the project will not have a significant effect on the environment; and,

APPROVAL of **TENTATIVE PARCEL MAP NO. 35162**, subject to the attached conditions of approval and based upon the findings and conclusions incorporated in the staff report.

CONCLUSIONS:

1. The proposed project is in conformance with the Rural: Rural Mountainous (R:RM) (10 Acre Minimum) Land Use Designation, and with all other elements of the Riverside County General Plan.

Handwritten signature and date: MS 2/18/10

2. The proposed project is consistent with the Residential Agricultural- 5 Acre Minimum (R-A-5) zoning classification of Ordinance No. 348, and with all other applicable provisions of Ordinance No. 348.
3. The proposed project is consistent with the Schedule H map requirements of Ordinance No. 460, and with other applicable provisions of Ordinance No. 460.
4. The public's health, safety, and general welfare are protected through project design.
5. The proposed project is compatible with the present and future logical development of the area.
6. The proposed project will not have a significant effect on the environment.
7. The proposed project will not preclude reserve design for the Multi-Species Habitat Conservation Plan (MSCHP).

FINDINGS: The following findings are in addition to those incorporated in the summary of findings , and in the attached environmental assessment, which is incorporated herein by reference.

1. The project site is designated Rural: Rural Mountainous (R:RM) (10 Acre Minimum) on the Southwest Area Plan.
2. The proposed project is consistent with the Santa Rosa/De Luz General Plan Policy Area goals and policies as all required access does not cross areas of slope instability, grading has been minimized, all septic areas are to be contained in areas of less than 25% slope, and the project will have no impact to the ecological preserve.
3. The proposed residential parcels with a minimum of five (5) acres, are permitted in the Rural: Rural Mountainous (R:RM) (10 Acre Minimum) designation, per the Santa Rosa Plateau/De Luz policy.
4. The project site is surrounded by properties to the north, south, east, and west which are designated Rural: Rural Mountainous (R:RM) (10 Acre Minimum).
5. The zoning for the subject site is Residential Agricultural- 5 Acre Minimum (R-A-5).
6. The proposed residential subdivision is consistent with the development standards set forth in the Residential Agricultural- 5 Acre Minimum (R-A-5) zone.
7. The project site is surrounded by properties which are zoned Residential Agricultural- 5 Acre Minimum (R-A-5) the south, east, north and west is, part of the area to the north is Residential Agricultural -10 Acre Minimum (R-A-10).
8. There are single family residences and agricultural uses within the vicinity of the proposed project.
9. This project is not located within a Criteria Area of the Multi-Species Habitat Conservation Plan.
10. Environmental Assessment No. 41217 identified the following potentially significant impacts:

- a. Aesthetics
- b. Biological Resources
- c. Cultural Resources
- d. Hazards

These listed impacts will be fully mitigated by the measures indicated in the environmental assessment, conditions of approval, and attached letters. No other significant impacts were identified.

INFORMATIONAL ITEMS:

1. As of this writing, no letters, in support or opposition have been received.
2. The project site is not located within:
 - a. A city sphere of influence,
 - b. A 100-year flood plain, an area drainage plan, or dam inundation area, or
 - c. The Stephens Kangaroo Rat Fee Area or Core Reserve Area.
3. The project site is located within:
 - a. The boundaries of the Murrieta Valley Unified School District;
 - b. Unique Farmland; and
 - c. A High Fire Area.
4. The subject site is currently designated as Assessor's Parcel Number: 931-190-011.
5. This project was filed with the Planning Department on January of 2007.
6. This project was reviewed by the Land Development Committee two times on the following dates November 29, 2007 and September 24, 2009.
7. Deposit Based Fees charged for this project, as of the time of staff report preparation, total \$4,774.82.

COUNTY OF RIVERSIDE

ENVIRONMENTAL ASSESSMENT FORM: INITIAL STUDY

Environmental Assessment (E.A.) Number: EA41217
Project Case Type (s) and Number(s): Parcel Map No. 35162
Lead Agency Name: County of Riverside Planning Department
Address: P.O. Box 1409, Riverside, CA 92502-1409
Contact Person: Matt Straite, Project Manager
Telephone Number: 951-955-8631
Applicant/Engineer's Name: Inland Valley Development Consultants
Applicant/Engineer's Address: 31953 Cash Lane Wildomar CA 92595

I. PROJECT INFORMATION

A. Project Description: The Parcel Map proposes a Schedule H subdivision of 20.31 gross acres into three (3) parcels with a minimum five (5) acre lot size.

B. Type of Project: Site Specific ; Countywide ; Community ; Policy .

C. Total Project Area: 20.31 Gross Acres

Residential Acres: 20.31	Lots: 3	Units:	Projected No. of Residents: 9
Commercial Acres:	Lots:	Sq. Ft. of Bldg. Area:	Est. No. of Employees:
Industrial Acres:	Lots:	Sq. Ft. of Bldg. Area:	Est. No. of Employees:
Other:			

D. Assessor's Parcel No(s): 931-190-011

E. Street References: The project is located northerly of Tenaja Road, southerly of Alpine View Lane, easterly of Calle Pino, and westerly of Aronimink Road.

F. Section, Township & Range Description or reference/attach a Legal Description: \ Section 32, Township 7 South, Range 4 West

G. Brief description of the existing environmental setting of the project site and its surroundings:

The proposed project is located within the Southwest Area Plan of Riverside County. The Santa Rosa Plateau/ De Luz Area, for which the project is located has historically been used for predominately agricultural uses and is transitioning into residential estates with animal keeping. The project site is currently vacant and varies topographically with some areas of the site ranging in slope intensity from 15% to greater than 25%.

Surrounding land uses include a variety of vacant land and single family residences to the north, south, east and west. Also within a mile of the project site is the Santa Rosa Ecological Preserve, a California State run preserve that is open to the public.

II. APPLICABLE GENERAL PLAN AND ZONING REGULATIONS

A. General Plan Elements/Policies:

1. Land Use: The proposed project is located in the Southwest Area Plan of the RCIP. The General Plan Land Use Designation is Rural: Rural Mountainous (R:RM) (10 Acre Minimum). The project is located in the Santa Rosa Plateau/De Luz Policy Area. Policy

5.1 of the Santa Rosa Plateau/ De Luz Policy Area states that parcel maps may maintain an average density of one dwelling unit per five acres.

2. **Circulation:** The proposed project does not impact any transportation facilities referenced in the General Plan and meets all other applicable circulation policies.
 3. **Multipurpose Open Space:** The proposed project will avoid natural watercourses, floodplains, and will preserve any oak trees which are located on the site.
 4. **Safety:** The proposed project is located in a high fire area and has been reviewed by the Fire Department and the Transportation Land Management Agency (S 5.6) and will implement required fire safety standards.
 5. **Noise:** Existing land uses in the project vicinity will not present noise compatibility issues with the proposed project (N 1.4). Neither will the proposed project result in noise compatibility impacts on neighboring land uses.
 6. **Housing:** The project provides the appropriate number of housing units for the site.
 7. **Air Quality:** The project proposes residential uses, which are considered sensitive receptors. The project uses are separated and protected from polluting point sources (AQ 2.1).
- B. General Plan Area Plan(s):** Southwest Area Plan
- C. Foundation Component(s):** Rural
- D. Land Use Designation(s):** Rural Mountainous (RM) (10 Acre Minimum)
- E. Overlay(s), if any:** N/A
- F. Policy Area(s), if any:** Santa Rosa Plateau/ De Luz
- G. Adjacent and Surrounding Area Plan(s), Foundation Component(s), Land Use Designation(s), and Overlay(s) and Policy Area(s), if any:**
- General Plan Area Plan(s): Southwest Area Plan
Foundation Component(s): Rural
Land Use Designation(s): Rural Mountainous (RM) (10 Acre Minimum)
Overlay(s), if any: N/A
Policy Area(s), if any: Santa Rosa Plateau/ De Luz
- H. Adopted Specific Plan Information**
1. **Name and Number of Specific Plan, if any:** N/A
 2. **Specific Plan Planning Area, and Policies, if any:** N/A
- I. Existing Zoning:** Residential Agricultural- 5 Acre Minimum (R-A-5)
- J. Proposed Zoning, if any:** N/A

K. Adjacent and Surrounding Zoning: Residential Agricultural- 5 Acre Minimum (R-A-5) to the north, south, east and west

III. ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED

The environmental factors checked below (x) would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" or "Less than Significant with Mitigation Incorporated" as indicated by the checklist on the following pages.

- | | | |
|--|---|---|
| <input checked="" type="checkbox"/> Aesthetics | <input checked="" type="checkbox"/> Hazards & Hazardous Materials | <input type="checkbox"/> Public Services |
| <input type="checkbox"/> Agriculture Resources | <input type="checkbox"/> Hydrology/Water Quality | <input type="checkbox"/> Recreation |
| <input type="checkbox"/> Air Quality | <input type="checkbox"/> Land Use/Planning | <input type="checkbox"/> Transportation/Traffic |
| <input checked="" type="checkbox"/> Biological Resources | <input type="checkbox"/> Mineral Resources | <input type="checkbox"/> Utilities/Service Systems |
| <input checked="" type="checkbox"/> Cultural Resources | <input type="checkbox"/> Noise | <input type="checkbox"/> Other |
| <input type="checkbox"/> Geology/Soils | <input type="checkbox"/> Population/Housing | <input type="checkbox"/> Mandatory Findings of Significance |

IV. DETERMINATION

On the basis of this initial evaluation:

A PREVIOUS ENVIRONMENTAL IMPACT REPORT/NEGATIVE DECLARATION WAS NOT PREPARED

- I find that the proposed project **COULD NOT** have a significant effect on the environment, and a **NEGATIVE DECLARATION** will be prepared.
- I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project, described in this document, have been made or agreed to by the project proponent. **A MITIGATED NEGATIVE DECLARATION** will be prepared.
- I find that the proposed project **MAY** have a significant effect on the environment, and an **ENVIRONMENTAL IMPACT REPORT** is required.

A PREVIOUS ENVIRONMENTAL IMPACT REPORT/NEGATIVE DECLARATION WAS PREPARED

- I find that although the proposed project could have a significant effect on the environment, **NO NEW ENVIRONMENTAL DOCUMENTATION IS REQUIRED** because (a) all potentially significant effects of the proposed project have been adequately analyzed in an earlier EIR or Negative Declaration pursuant to applicable legal standards, (b) all potentially significant effects of the proposed project have been avoided or mitigated pursuant to that earlier EIR or Negative Declaration, (c) the proposed project will not result in any new significant environmental effects not identified in the earlier EIR or Negative Declaration, (d) the proposed project will not substantially increase the severity of the environmental effects identified in the earlier EIR or Negative Declaration, (e) no considerably different mitigation measures have been identified and (f) no mitigation measures found infeasible have become feasible.
- I find that although all potentially significant effects have been adequately analyzed in an earlier EIR or Negative Declaration pursuant to applicable legal standards, some changes or additions are necessary but none of the conditions described in California Code of Regulations, Section 15162 exist. An **ADDENDUM** to a previously-certified EIR or Negative Declaration has been prepared and will be considered by the approving body or bodies.
- I find that at least one of the conditions described in California Code of Regulations, Section 15162 exist, but I further find that only minor additions or changes are necessary to make the previous EIR adequately apply to the project in the changed situation; therefore a **SUPPLEMENT TO THE ENVIRONMENTAL IMPACT REPORT** is required that need only contain the information necessary to make the previous EIR adequate for the project as revised.
- I find that at least one of the following conditions described in California Code of Regulations,

Section 15162, exist and a **SUBSEQUENT ENVIRONMENTAL IMPACT REPORT** is required: (1) Substantial changes are proposed in the project which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; (2) Substantial changes have occurred with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or (3) New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete or the negative declaration was adopted, shows any the following:(A) The project will have one or more significant effects not discussed in the previous EIR or negative declaration;(B) Significant effects previously examined will be substantially more severe than shown in the previous EIR or negative declaration;(C) Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measures or alternatives; or,(D) Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR or negative declaration would substantially reduce one or more significant effects of the project on the environment, but the project proponents decline to adopt the mitigation measures or alternatives.

V. ENVIRONMENTAL ISSUES ASSESSMENT

In accordance with the California Environmental Quality Act (CEQA) (Public Resources Code Section 21000-21178.1), this Initial Study has been prepared to analyze the proposed project to determine any potential significant impacts upon the environment that would result from construction and implementation of the project. In accordance with California Code of Regulations, Section 15063, this Initial Study is a preliminary analysis prepared by the Lead Agency, the County of Riverside, in consultation with other jurisdictional agencies, to determine whether a Negative Declaration, Mitigated Negative Declaration, or an Environmental Impact Report is required for the proposed project. The purpose of this Initial Study is to inform the decision-makers, affected agencies, and the public of potential environmental impacts associated with the implementation of the proposed project.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
AESTHETICS Would the project				
1. Scenic Resources	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
a) Have a substantial effect upon a scenic highway corridor within which it is located?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings and unique or landmark features; obstruct any prominent scenic vista or view open to the public; or result in the creation of an aesthetically offensive site open to public view?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Source: Riverside County General Plan Figure C-7 "Scenic Highways"

Findings of Fact:

a) General Plan Figure C-7, identifies Interstate 15 as a State Eligible Scenic Highway. The proposed project is located on the Santa Rosa Plateau, portions of the Plateau are visible from Interstate 15. However, the proposed project site is not visible from Interstate 15, as such there will be no impact.

b) The project is located on the Santa Rosa Plateau in southwest Riverside County. The surrounding area can be characterized by rural and estate-density development in addition to the agricultural cultivation which permeates the vicinity. Local aesthetic concerns include the potential for negative impacts from the clearing and grading of hillsides. The project proposes grading or ground-disturbing activities to support four building pads, associated driveways, and septic systems. However the visual impacts of grading will not be significant on this site due to vegetative screening, which will obstruct public views of the grading area. The existing native specimen trees on the subject property identified for preservation shall remain undisturbed. In addition, the project has been conditioned to preserve the oak trees (Condition of Approval 10.Planning.11, 50.Planning.1, 60.Planning.20 and 60.Planning.6). There will be a less than significant impact with mitigation to scenic resources.

Mitigation: The project has been conditioned to preserve on-site native trees as follows:

1. The existing native specimen trees on the subject property identified for preservation on the approved Tentative Map shall remain undisturbed. Where they cannot be preserved they shall be relocated or replaced with specimen trees as approved by the Planning Director (Condition of Approval 10.Planning.11).

2. Oak tree and oak woodland tree preservation guidelines shall be incorporated into the project's approved grading, building, and landscaping plans, as described in Condition of Approval 50.Planning.1.
3. The land divider/permit holder shall cause grading plans to be prepared for the subject site which identify those existing native trees which are to be preserved, as identified on the Tentative Map. Those trees not identified for preservation are to be replaced with specimen trees as approved by the Planning Director. Replacement trees and retained trees shall be noted on approved landscaping plans (Condition of Approval 60.Planning.20 and 6).

Monitoring: Monitoring will occur through the Department of Building and Safety through the Plan Check process.

2. Mt. Palomar Observatory

a) Interfere with the nighttime use of the Mt. Palomar Observatory, as protected through Riverside County Ordinance No. 655?

Source: GIS database, Ord. No. 655 (Regulating Light Pollution)

Findings of Fact:

a) According to GIS, the proposed project is located in Zone B (28.23) of the Mt. Palomar Observatory. As such the proposed project is required to adhere to the lighting standards which are identified in Ordinance No. 655. The intent of Ordinance No. 655 is to restrict the permitted development of certain light fixtures emitting into the night sky undesirable light rays that may have a detrimental effect on astronomical observation and research. Ordinance No. 655 contains approved materials and methods of installation, definition, general requirements, requirements for lamp source and shielding, prohibition and exceptions. With the incorporation of standard lighting requirements of Riverside County Ordinance No. 655 into the proposed project, the project will have a less than significant impact. Interference with the nighttime use of the Mount Palomar Observatory, as protected through ORD No. 655 is considered less than significant. A note will be made on the Environmental Constraints Sheet that the properties are located within Zone B of County Ordinance 655 (COA 50. PLANNING. 23). This is a standard condition of approval and not considered mitigation for CEQA purposes.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

3. Other Lighting Issues

a) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?

b) Expose residential property to unacceptable light levels?

Source: On-site Inspection, Project Application Description

Findings of Fact:

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

a-b) The proposed residential land use will necessitate the installation of outdoor lighting for the maintenance of public safety and security. While the proposed development will increase the number and distribution of light sources in the vicinity of the project impacts related to this issue will be less than significant level. The project will not create substantial light or glare which would adversely affect day or nighttime views in the project's vicinity nor will it expose residential properties to unacceptable levels of light or glare. The project site is adjacent to existing and planned compatible uses.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

AGRICULTURE RESOURCES Would the project

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4. Agriculture	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland) as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Conflict with existing agricultural use, or a Williamson Act (agricultural preserve) contract (Riv. Co. Agricultural Land Conservation Contract Maps)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Cause development of non-agricultural uses within 300 feet of agriculturally zoned property (Ordinance No. 625 "Right-to-Farm")?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: Riverside County General Plan Figure OS-2 "Agricultural Resources," GIS database, and Project Application Materials.

Findings of Fact:

- a) According to GIS, the proposed project has a farmland designation of grazing land, therefore there will be no conversion of designated farmland to a non agricultural use and this will result in no impact.
- b) The proposed project is not located within the vicinity of land primarily used for agricultural purposes or any land currently under a Williamson Act Contract, therefore there will be no conflict or impact associated with the proposed residential uses.
- c) The proposed project is not located within the vicinity of land zoned primarily for agricultural uses, therefore it is not subject to Ordinance No. 625 Right to Farm, therefore there will be no impact.
- d) The project site is proposing residential development, which could encourage the addition of more residential development with the vicinity. The likelihood of future development is unknown and therefore it can be determined that the proposed development will have a less than significant impact on other changes in the environment which could result in the conversion of farmland.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Mitigation: No mitigation required.

Monitoring: No monitoring required.

AIR QUALITY Would the project	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5. Air Quality Impacts	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a) Conflict with or obstruct implementation of the applicable air quality plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d) Expose sensitive receptors which are located within 1 mile of the project site to project substantial point source emissions?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Involve the construction of a sensitive receptor located within one mile of an existing substantial point source emitter?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Create objectionable odors affecting a substantial number of people?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: SCAQMD CEQA Air Quality Handbook Table 6-2

Findings of Fact:

a-c) The South Coast Air Quality Management District (SCAQMD) is responsible for developing a regional air quality management plan to insure compliance with state and federal air quality standards. The SCAQMD has adopted the 2003 Air Quality Management Plan (AQMP). The primary implementation responsibility assigned to the County (i.e. local governments) by the 2003 AQMP is the implementation of air quality control measures associated with transportation facilities. This project does not propose any transportation facilities that would require transportation control measures, and therefore will not obstruct implementation of the AQMP.

The 2003 AQMP is based on socioeconomic forecasts (including population estimates) provided by the Southern California Association of Governments (SCAG). The County General Plan is consistent with SCAG's Regional Growth Management Plan and SCAQMD's Air Quality Management Plan. This project is consistent with the General Plan land use designations, and population estimates. The population proposed by this project will not obstruct the implementation of the 2003 AQMP.

Air quality impacts would occur during site preparation, including grading and equipment exhaust. Major sources of fugitive dust are a result of grading and site preparation during construction by vehicles and equipment and generated by construction vehicles and equipment traveling over exposed surfaces, as well as by soil disturbances from grading and filling. Blowing dust is also of concern in the dry desert areas where PM10 standards are exceeded by soil disturbance during grading, and vehicular travel over unpaved roads. These short-term construction related impacts will

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

be kept below a level of significance by standard dust control measures implemented during grading (COA. 10. BS GRADE. 5). This is a standard condition of approval and not considered mitigation for CEQA purposes.

The project will not result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard.

d-e) A sensitive receptor is a person in the population who is particularly susceptible to health effects due to exposure to an air contaminant than is the population at large. Sensitive receptors (and the facilities that house them) in proximity to localized CO sources, toxic air contaminants or odors are of particular concern. High levels of CO are associated with major traffic sources, such as freeways and major intersections, and toxic air contaminants are normally associated with manufacturing and commercial operations. Land uses considered to be sensitive receptors include long-term health care facilities, rehabilitation centers, convalescent centers, retirement homes, residences, schools, playgrounds, child care centers, and athletic facilities. Surrounding land uses include residential, which is considered a sensitive receptor, however, the project is not expected to generate substantial point source emissions. The project will not include major transportation facilities, commercial or manufacturing uses, or generate significant odors.

Surrounding uses do not include significant localized CO sources, toxic air contaminants or odors.

f) The project will not create objectionable odors affecting a substantial number of people.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

BIOLOGICAL RESOURCES Would the project

6. Wildlife & Vegetation

a) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Conservation Community Plan, or other approved local, regional, or state conservation plan?

b) Have a substantial adverse effect, either directly or through habitat modifications, on any endangered, or threatened species, as listed in Title 14 of the California Code of Regulations (Sections 670.2 or 670.5) or in Title 50, Code of Federal Regulations (Sections 17.11 or 17.12)?

c) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U. S. Wildlife Service?

d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident migratory wildlife corridors, or impede the use of native wildlife nursery sites?

e) Have a substantial adverse effect on any riparian

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U. S. Fish and Wildlife Service?				
f) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Source: GIS database, WRCMSHCP, On-site Inspection

Findings of Fact:

a) The proposed project is not located within a Multiple Species Habitat Conservation Plan (MSHCP) Criteria Cell. However, the onsite watercourse meets the criteria outlined under Section 6.1.2 of the MSHCP for riparian/riverine habitat and must be avoided. The Environmental Constraints Sheet (ECS) will be required to show the watercourses as an area not to be disturbed (Conditions of Approval 50.EPD.1 through 50.EPD. 2). The provision of the non-disturbance area on the ECS will meet the goals of adopted Habitat Conservation Plans, Natural Conservation Community Plans, or other approved local, regional, or state conservation plans. Therefore, the impact is considered less than significant after mitigation.

b) Based on the review conducted by the EPD, the land division will not have a substantial adverse affect, either directly or through habitat modifications, on any endangered or threatened species as listed in the California and Federal Code of Regulations since none are present within the project site. Therefore, impacts are considered less than significant.

c) Based on the review conducted by EPD, the land division will not have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate; sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Wildlife Service. The areas mapped as "Environmental Constraint Area" shall be preserved and all disturbances shall be avoided within this area. This mitigation will reduce impacts to sensitive species as defined by EPD; thus, impacts are expected to be less than significant.

d) With avoidance of the natural watercourse, (Conditions of Approval 50.EPD.1 through 50.EPD. 2), the proposed project will not interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident migratory wildlife corridors, or impede the use of native wildlife nursery sites. With the mitigation, less than significant impacts to wildfire corridors are anticipated.

e) The project site does contain drainage features and riparian/riverine habitat (refer to Finding of Fact 6a). However, the riparian/riverine habitat will be completely avoided through an Environmental Constraints Sheet (ECS) on the Final Map prior to recordation (Condition of Approval 50.EPD.2). Therefore, impacts are considered less than significant with mitigation incorporated.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

f) The Environmental Programs Department did not identify the natural watercourse as federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means. Therefore, the project will not have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act. Therefore, there is no impact.

g) Based on the review conducted by Planning, the land within the land division does contain oak trees that are protected by a Riverside County tree preservation policy. As such, the land division has been required to cause grading plans to be prepared for the subject site which identify those existing native trees which are to be preserved, as identified on the Tentative Map. Condition 10.Planning.11 and 60.Planning.16 require identified Oaks to remain. Condition 50.Planning.10, 60.Planning.6, and 60.Planning.20 require the actions intended to address future maintenance and conservation of the specimen trees. For a full discussion of mitigation measures related to specimen and oak trees, refer to Finding of Fact 1b and associated mitigation measures. Therefore, impacts are considered less than significant with mitigation incorporated.

Mitigation:

The following mitigation measures will be required:

1. The land divider shall prepare an Environmental Constraints Sheet (ECS) delineating areas that will be constrained (Condition of Approval 50.EDP.1 through 50.EPD.2).
 - a. No disturbances may occur within the boundaries of the constraint areas.
 - b. Brush management to reduce fuel loads to protect urban uses (fuel modification zones) will not encroach into the constraint areas.
 - c. Night lighting shall be directed away from the constraint area. Shielding shall be incorporated in project designs to ensure ambient lighting in the constraint areas is not increased. (Condition of Approval 50.EDP.1 through 50.EPD.2).
2. The proposed project will be required to preserve oak trees which are located on site in accordance with the County's Oak Tree Management Guidelines (Conditions of Approval 10.Planning.11, 60.Planning.16, 50.Planning.10, 60.Planning.6, and 60.Planning.20)

Monitoring: The Environmental Programs Department and the Building and Safety Department shall monitor the mitigation measures.

CULTURAL RESOURCES Would the project

7. Historic Resources

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Alter or destroy an historic site?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Cause a substantial adverse change in the significance of a historical resource as defined in California Code of Regulations, Section 15064.5?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Source: Site visit, Project Application Materials, PD-A-4569 – prepared by CRM Tech March 9, 2009

Findings of Fact:

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Findings of Fact:

a-b) A Cultural Resource Assessment dated March 9, 2009 found that this project has a close proximity to an existing recorded archeological site, though no significant material was found onsite. As a result of the neighboring site there is a high probability of archeological materials surfacing during excavation of the site. Condition of Approval 60.Planning.4 and 5 requires Archeologists and tribal monitors to be onsite, and Condition of Approval 10.Planning.2 requires grading to halt if archeological materials are found during excavation.

Mitigation: Condition of Approval 60.Planning.4 and 5 Archeologists and requires tribal monitors to be onsite, and Condition of Approval 10.Planning.2 requires grading to halt if archeological materials are found during excavation.

Monitoring: Monitoring will occur through the Department of Building and Safety through the Plan Check process.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8. Archaeological Resources	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
a) Alter or destroy an archaeological site.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to California Code of Regulations, Section 15064.5?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Disturb any human remains, including those interred outside of formal cemeteries?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d) Restrict existing religious or sacred uses within the potential impact area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Project Application Materials, PD-A-4569 – prepared by CRM Tech March 9, 2009

Findings of Fact:

a-b) A Cultural Resource Assessment dated March 9, 2009 found that this project has a close proximity to an existing recorded archeological site, though no significant material was found onsite. As a result of the neighboring site there is a high probability of archeological materials surfacing during excavation of the site. Condition of Approval 60.Planning.4 and 5 require Archeologists and tribal monitors to be onsite, and Condition of Approval 10.Planning.2 requires grading to halt if archeological materials are found during excavation.

c) The project proposes ground-disturbing activities which have the potential to uncover human remains. The project has been conditioned to contact the Riverside County Coroner’s office in the event that human remains area discovered (Condition of Approval 10.Planning.1). This is a standard condition of approval and not considered unique mitigation for CEQA purposes. The project will have a less than significant impact.

d) The project will not restrict existing religious or sacred uses within the potential impact area.

Mitigation: Condition of Approval 60.Planning.4 and 5 require Archeologists and tribal monitors to be onsite, and Condition of Approval 10.Planning.2 requires grading to halt if archeological materials are found during excavation.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Monitoring: The County Planning Department and the Building and Safety Department shall monitor the mitigation measures.

9. Paleontological Resources	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
a) Directly or indirectly destroy a unique paleontological resource, or site, or unique geologic feature?				

Source: Riverside County General Plan Figure OS-8 "Paleontological Sensitivity"

Findings of Fact:

a) Condition of Approval 10.Planning.5 explains that there is a low potential for paleontological sensitivity. Review by the County Geologist determined that the project did not have the potential to destroy a unique paleontological resource or unique geological feature. Therefore, the project will have no impact to paleontological resources.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

GEOLOGY AND SOILS Would the project

10. Alquist-Priolo Earthquake Fault Zone or County Fault Hazard Zones	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death?				
b) Be subject to rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: Riverside County General Plan Figure S-2 "Earthquake Fault Study Zones," GIS database, Geologist Comments

Findings of Fact:

a-b) According to RCLIS (GIS database) the proposed project is not located within one-half mile of a earthquake fault and is not located within an earthquake fault zone; therefore, there will be no impacts associated with the exposure of people or structures to adverse effects. Additionally, the project will not place people in an area subject to possible earthquake fault rupture.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

11. Liquefaction Potential Zone	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--	--------------------------	--------------------------	--------------------------	-------------------------------------

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

11. Liquefaction Potential Zone

a) Be subject to seismic-related ground failure, including liquefaction?

Source: Riverside County General Plan Figure S-3 "Generalized Liquefaction"

Findings of Fact:

a) According to RCLIS (GIS database), the proposed project is not located in an area which has potential to be affected by liquefaction; therefore, no impact related to liquefaction is not expected.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

12. Ground-shaking Zone

Be subject to strong seismic ground shaking?

Source: Riverside County General Plan Figure S-4 "Earthquake-Induced Slope Instability Map," and Figures S-13 through S-21 (showing General Ground Shaking Risk)

Findings of Fact:

There are no known active or potentially active faults that traverse the site and the site is not located within an Alquist-Priolo Earthquake Fault Zone. The principal seismic hazard that could affect the site is ground shaking resulting from an earthquake occurring along several major active or potentially active faults in southern California. California Building Code (CBC) requirements pertaining to residential development will mitigate the potential impact to less than significant. As CBC requirements are applicable to all residential development they are not considered mitigation for CEQA implementation purposes.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

13. Landslide Risk

a) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, collapse, or rockfall hazards?

Source: On-site Inspection, Riverside County General Plan Figure S-5 "Regions Underlain by Steep Slope"

Findings of Fact:

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

a) According to Figure S-4, the project site is not located within an area susceptible to seismically induced landslides and rockfalls. Therefore, no impacts are expected to occur.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

14. Ground Subsidence

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

a) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in ground subsidence?

Source: Resolution No. 94-125

*out of date
Please pick an alt.*

Findings of Fact:

a) According to RCLIS (GIS database), the proposed project is not located in a subsistence area; therefore, there is no impact.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

15. Other Geologic Hazards

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

a) Be subject to geologic hazards; such as seiche, mudflow, or volcanic hazard?

Source: On-site Inspection, Project Application Materials

Findings of Fact:

a) The project site is not located near any large bodies of water or in a known volcanic area; therefore, the project site is not subject to geologic hazards, such as seiche, mudflow, or volcanic hazard.

Mitigation: No mitigation required

Monitoring: No monitoring required.

16. Slopes

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	-------------------------------------	--------------------------

a) Change topography or ground surface relief features?

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	-------------------------------------	--------------------------

b) Create cut or fill slopes greater than 2:1 or higher than 10 feet?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

c) Result in grading that affects or negates subsurface sewage disposal systems?

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Source: Project Application Materials, Building and Safety – Grading Review

Findings of Fact:

a) The project proposes minimal grading which may slightly alter the site’s natural topography. However, this impact is less than significant. The proposed project will not substantially alter ground surface relief features. Therefore, the impact is considered less than significant.

b) The proposed project has been conditioned to limit the steepness of slopes to a ratio of 2:1 unless otherwise approved (Condition of Approval 10.BS Grade.7). This is a standard condition of approval and is, therefore, not considered unique mitigation pursuant to CEQA. Therefore, the impact is considered less than significant.

c) No infiltration lines will be disturbed during project grading or construction, since no lines currently exist onsite. Therefore, the proposed project will not result in grading that affects or negates subsurface sewage disposal systems. Therefore, there is no impact.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

17. Soils

a) Result in substantial soil erosion or the loss of topsoil?

b) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?

Source: Staff Review, Application Materials, Geology Review

Findings of Fact:

a) Graded, but undeveloped land shall provide, in addition to erosion control planting, any drainage facilities deemed necessary to control or prevent erosion. Additional erosion protection may be required during the rainy season from October 15th to April 15th (Condition of Approval 10.BS Grade.4). These requirements are typical conditions of approval and are not considered unique mitigation for CEQA purposes. Therefore, the impact is considered less than significant.

b) A Review by the County Geologist did not identify expansive soils as an issue of concern. Therefore, the site is considered as exhibiting a low expansion potential. Therefore, this impact is considered less than significant.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
18. Erosion	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a) Change deposition, siltation, or erosion that may modify the channel of a river or stream or the bed of a lake?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Result in any increase in water erosion either on or off site?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: U.S.D.A. Soil Conservation Service Soil Surveys

Findings of Fact:

Went to site. Please check another

a) As proposed the project would avoid the natural watercourse on site. Graded slopes which may infringe into the 100-year storm flow floodway boundaries shall be protected from erosion or other flood hazards by a method acceptable to the Building and Safety Departments District Grading Engineer which may include Riverside County Flood Control District's review and approval. However, no graded slope will be allowed which concentrates or diverts drainage flows (Condition of Approval 10.BS Grade.11). With implementation of these measures which are considered standard condition of approval, the project will not have an impact or change deposition, siltation, or erosion that may modify the channel of a river, stream, or the bed of a lake. Impacts are, therefore, are considered less than significant.

b) The proposed project has the potential to temporarily contribute to an increase in erosion by water during construction. The proposed project has been conditioned to comply with the National Pollutant Discharge Elimination System (NPDES) and develop and implement a Storm Water Pollution Prevention Plan for the project site (Conditions of Approval 10.BS Grade.15). This is a standard condition of approval and not considered mitigation for CEQA purposes.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

19. Wind Erosion and Blowsand from project either on or off site.	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a) Be impacted by or result in an increase in wind erosion and blowsand, either on or off site?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: Riverside County General Plan Figure S-8 "Wind Erosion Susceptibility Map," Ord. 460, Sec. 14.2 & Ord. 484

Findings of Fact:

a) According to General Plan Figure S-8, the project site lies within a moderate area of wind erosion. The project will decrease the amount of exposed dirt, which is subject to wind erosion, with the incorporation of hardscape and landscaping. The project will be required to control any dust created during grading activities (Condition of Approval 10.BS Grade.5). This is a standard condition of approval and not considered mitigation for CEQA purposes. The project will have a less than significant impact.

Mitigation: No mitigation required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Monitoring: No monitoring required.

HAZARDS AND HAZARDOUS MATERIALS Would the project

20. Hazards and Hazardous Materials

a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?

<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--------------------------	--------------------------	-------------------------------------	--------------------------

b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

c) Impair implementation of or physically interfere with an adopted emergency response plan or an emergency evacuation plan?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

d) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

e) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

Source: Project Application Materials

Findings of Fact:

a) The project proposes residential land uses; therefore, the project will not create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials.

b) The project proposes residential land uses; therefore, the project will not create a significant hazard to the public or the environment through reasonably foreseeable upset or accident conditions involving the release of hazardous materials into the environment.

c) The project will provide adequate access to the proposed residential use and will not encroach onto public right-of-way; the project will not impair implementation of or physically interfere with an adopted emergency response plan or an emergency evacuation plan.

d) The project proposes residential land uses and no schools are located within one-quarter mile of the project site. Therefore, the project will not emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.

e) The project is not located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, it would not create a significant hazard to the public or the environment.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact

a) Result in an inconsistency with an Airport Master Plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Require review by the Airport Land Use Commission?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) For a project within the vicinity of a private airstrip, or heliport, would the project result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County General Plan Figure S-19 "Airport Locations," GIS database

Findings of Fact:

- a) According to RCLIS (GIS database), the proposed project is not located in the vicinity of an airport; therefore, there will be no impact to an Airport Master Plan.
- b) According to RCLIS (GIS database), the proposed project is not located in the vicinity of an airport; therefore, it is not required to be reviewed by the Airport Land Use Commission.
- c) According to RCLIS (GIS database), the proposed project is not located within the vicinity of an airport; therefore, it is not located within an airport land use plan and will not result in a safety hazard for people living on the property.
- d) According to RCLIS (GIS database), the proposed project is not located within the vicinity of a private airstrip or heliport; therefore, there is no impact in relation to safety hazards for people residing in the area.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
22. Hazardous Fire Area	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
a) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Source: Riverside County General Plan Figure S-11 "Wildfire Susceptibility," GIS database

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Findings of Fact:

a) According to RCLIS (GIS database), the proposed project is located in a high fire area. The project has been reviewed by the Riverside County Fire Department to ensure that the design is suitable for this area and the safety of residents is ensured. To this end, the Environmental Constraints Sheet (ECS) must be stamped by the Riverside County Surveyor with the following notes: The land division is located in the "Hazardous Fire Area" of Riverside County as shown on a map on file with the Clerk of the Board of Supervisors. Any building constructed on lots created by this land division shall comply with the special construction provisions contained in Riverside County Ordinance 787.2. (Condition of Approval 50.FIRE.1) All buildings shall be constructed with class B material as per the California Building Code. (Condition of Approval 50.FIRE.2) Driveways exceeding 150' in length, but less than 800' in length, shall provide a turnout near the midpoint of the driveway. Where the driveway exceeds 800', turnouts shall be provided no more than 400' apart. Turnouts shall be a minimum of 10' wide and 30' in length, with a minimum 25' taper on each end. An approved turnaround shall be provided at all building sites on driveways over 150 feet in length, and shall be within 50' of the building. (Condition of Approval 50.FIRE.3) Access will not have an up, or downgrade of more than 15%. (access will not be less than 20 feet in width per the 2001 UFC, Article 9, Section 902.2.2.1) and will have a vertical clearance of 15'. Access will be designed to withstand the weight of 60 thousand pounds over 2 axles. Access will have a turning radius of 38 feet capable of accommodating fire apparatus. (Condition of Approval 50.FIRE.4) The required water system, including fire hydrants, shall be installed and accepted by the appropriate water agency prior to any combustible building material placed on an individual lot. (Condition of Approval 50.FIRE.5) Should the applicant or developer choose to defer the fire protection requirements, an Environmental Constraint Sheet shall be filed with the final map containing the following: Prior to the issuance of a building permit, the applicant or developer shall provide written certification from the water company that standard fire hydrant(s) (6"x4"x2 1/2") exist, within 250 feet of any portion of the lot frontage and at the driveway entrance to parcel #1. as measured along approved vehicular travelways; or that financial arrangements have been made to provide hydrant(s) (Condition of Approval 50.FIRE.7) With these mitigation measures listed above, less than significant impacts are anticipated.

Mitigation: The ECS map must be stamped by the Riverside County Surveyor with the following notes as indicated in Conditions of Approval 50.Fire 1 through 7.

Monitoring: Monitoring will be conducted by the Riverside County Fire Department and through the Department of Building and Safety through the plan check process.

HYDROLOGY AND WATER QUALITY Would the project

23. Water Quality Impacts

a) Substantially alter the existing drainage pattern of the site or area, including the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation on- or off-site?

b) Violate any water quality standards or waste discharge requirements?

c) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?				
d) Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e) Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
f) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
g) Otherwise substantially degrade water quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h) Include new or retrofitted stormwater Treatment Control Best Management Practices (BMPs) (e.g. water quality treatment basins, constructed treatment wetlands), the operation of which could result in significant environmental effects (e.g. increased vectors and odors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: Riverside County Flood Control District Flood Hazard Report/Condition.

Findings of Fact:

- a) The project does not feature any blue line streams or natural water courses of any kind, nor are any improvements planned that would significantly alter any drainage patterns. Therefore, the project is not anticipated to substantially alter the existing drainage patterns of the project site.
- b) The proposed project will not violate any water quality standards or waste discharge requirements. Septic is planned for the site; however, the size of the lots are large enough to permit proper percolation and avoid any environmental impacts. Therefore, there is no impact.
- c) Water service will be supplied by the Rancho Claifornia Water District. The proposed project will not deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted). Therefore, there is no impact.
- d) During the construction and grading phase of development, the project has the potential to contribute to additional polluted runoff water. However, the project will not exceed the capacity of existing or planned stormwater drainage systems. The project will be required to provide for adequate drainage facilities and/or appropriate easements should the project exceed current capacity (Conditions of Approval 10.TRANS.2). This is a standard condition of approval and is not considered unique mitigation pursuant to CEQA. Therefore, the impact is considered less than significant.
- e) The proposed project is not located within a 100-year flood zone. The parcel layout and building pad sites have been designed to mimic the natural drainage of the site. The project will not place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Flood Insurance Rate Map or other flood hazard delineation map. Therefore, no impacts are anticipated.

f) The proposed project is not located within a 100-year flood zone. The project will not place within a 100-year flood hazard area structures which would impede or redirect flood flows. Therefore, no impacts are anticipated.

g) The project site has a natural slope that is more than 25 percent and may have impacts to water quality. Therefore, is development of the project site creates more than 5,000 square feet of impervious surfaces, a Project Specific Water Quality Management Plan (WQMP) shall be submitted to the Riverside County Flood Control District. This shall be noted on the Environmental Constraints Sheet (ECS)(Condition of Approval 50.Flood RI.1). This is a standard condition of approval and not considered a mitigation measure per CEQA. Therefore, the project is not anticipated to substantially degrade water quality.

h) The site has been designed to minimize drainage infrastructure. Therefore, the proposed project does not include the construction of new or retrofitted stormwater Treatment Control Best Management Practices (BMPs) (e.g. water quality treatment basins, constructed treatment wetlands). Therefore, there is no impact.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

24. Floodplains

Degree of Suitability in 100-Year Floodplains. As indicated below, the appropriate Degree of Suitability has been checked.

NA - Not Applicable U - Generally Unsuitable R - Restricted

a) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or off-site?

b) Changes in absorption rates or the rate and amount of surface runoff?

c) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam. (Dam Inundation Area)?

d) Changes in the amount of surface water in any water body?

Source: Riverside County General Plan Figure S-9 "100- and 500-Year Flood Hazard Zones," Figure S-10 "Dam Failure Inundation Zone," Riverside County Flood Control District Flood Hazard Report/Condition, GIS database

Findings of Fact:

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

a) The project has been designed to mimic the natural drainage of the site and will not alter a blue line stream of substantially increase runoff as most of the site will remain in a natural, undisturbed state. Disturbances are minimized and any disturbance over 5,000 square feet or development of any surface over 25% slope would require a WQMP (Condition of Approval 50.Flood RI.2). This condition of approval is not considered unique mitigation per CEQA as it is a standard condition of approval. Any impacts will be less than significant.

b) Since the project proposes additional impervious surfaces, the existing absorption rates and the amount of surface runoff would be affected. However, due to the minimum lot size requirements of the project (five-acre minimum) and the amount of additional impervious surfaces, offsite flows would not be affected by implementation of the proposed project. Therefore, the impact is considered less than significant.

c) The proposed project would not expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam. The project site is not located in an area susceptible to the impacts of the failure of a levee or dam. Therefore, there is no impact.

d) The proposed project is not expected to change the amount of surface water in any body of water. Therefore, less than significant impacts to the amount of surface water are expected.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

LAND USE/PLANNING Would the project

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
25. Land Use				
a) Result in a substantial alteration of the present or planned land use of an area?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Affect land use within a city sphere of influence and/or within adjacent city or county boundaries?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: RCIP, GIS database, Project Application Materials

Findings of Fact:

a) The project is proposing residential uses which are in compliance with the future anticipated growth on the Santa Rosa Plateau. The proposed project will not result in an alteration of the present or planned land use of this area.

b) According to RCLIS (GIS Database), the proposed project is not located within a city sphere of influence or adjacent to a city or county; therefore, there will be no impact.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
26. Planning	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
a) Be consistent with the site's existing or proposed zoning?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Be compatible with existing surrounding zoning?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Be compatible with existing and planned surrounding land uses?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Be consistent with the land use designations and policies of the Comprehensive General Plan (including those of any applicable Specific Plan)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Disrupt or divide the physical arrangement of an established community (including a low-income or minority community)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County General Plan Land Use Element, Staff review, GIS database

Findings of Fact:

a) The proposed project site is currently zoned Residential Agricultural- Five (5) Acre Minimum (R-A-5). The proposed project will be in compliance with the standards for the proposed zoning, R-A-5.

b) The project site is surrounded by land which is zoned Residential Agricultural- Five (5) Acre Minimum (R-A-5) to the north, south, east and west. The proposed project is compatible with the existing and surrounding zoning.

c) The project is surrounded by single-family residences, avocado orchards and vacant land. The project is located in an area of the County that has historically been used for agricultural purposes and is currently transitioning into estate residences. The proposed project is in conformance with the existing and planned residential uses for the area. The project will have no impact with regard to compatibility of existing or future uses in the area.

d) The land use designation for the proposed project site is Rural: Rural Mountainous (R:RM) (10 Acre Minimum). According to Southwest Area Policy 5.1, parcels located within the Santa Rosa Plateau/ De Luz Policy Area are allowed a minimum lot size of five (5) acres within the R:RM land use designation. With employment of the policy the proposed project will be consistent with the land use designation and policies of the General Plan.

e) The proposed project will not disrupt or divide the physical arrangement of an established community.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

MINERAL RESOURCES Would the project

27. Mineral Resources	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a) Result in the loss of availability of a known mineral resource in an area classified or designated by the State that would be of value to the region or the residents of the	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
State?				
b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Be an incompatible land use located adjacent to a State classified or designated area or existing surface mine?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Expose people or property to hazards from proposed, existing or abandoned quarries or mines?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Riverside County General Plan Figure OS-5 "Mineral Resources Area"

a) The proposed project is located within an area designates as MRZ-3a: Areas where the available geologic information indicates that mineral deposits are likely to exist. However, the significance of the deposits is undetermined. The project area has not been used for mining. Therefore, the project would not result in the loss of availability of a known mineral resource in an area classified or designated by the State that would be of value to the region or the residents of the State. Therefore, the impact is considered less than significant.

b) The project site has not been used for mineral resources; therefore, the project will not result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan. Therefore, there is no impact.

c) Surrounding the project site are residential homes on large lots and vacant land. There are no existing surface mines surrounding the project site; therefore, the project will be compatible with the surrounding uses and will not be located adjacent to a State classified, designated area, or existing surface mine. Therefore, there is no impact.

d) The project site is not located adjacent or near an abandoned quarry mine; therefore, the project will not expose people or property to hazards from quarry mines. Therefore, there is no impact.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

NOISE Would the project result in

Definitions for Noise Acceptability Ratings

Where indicated below, the appropriate Noise Acceptability Rating(s) has been checked.

NA - Not Applicable

A - Generally Acceptable

B - Conditionally Acceptable

C - Generally Unacceptable

D - Land Use Discouraged

28. Airport Noise

a) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport would the project expose people residing or working in the project area to excessive noise levels?

NA A B C D

b) For a project within the vicinity of a private airstrip,

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

would the project expose people residing or working in the project area to excessive noise levels?

NA A B C D

Source: Riverside County General Plan Figure S-19 "Airport Locations," County of Riverside Airport Facilities Map

Findings of Fact:

a) The proposed project site is not located within an Airport Influence Area; therefore, the project will not expose people residing on the project site to excessive noise levels related to air traffic. Therefore, no impacts are expected.

b) The proposed project site is not located within the vicinity of a private air strip; therefore, the project will not expose people residing on the project site to excessive noise levels. No impacts are expected.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

29. Railroad Noise

NA A B C D

Source: Riverside County General Plan Figure C-1 "Circulation Plan", GIS database, On-site Inspection

a) The proposed project is not located in the vicinity of any railroads. Therefore, there is no impact.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

30. Highway Noise

NA A B C D

Source: On-site Inspection, Project Application Materials

a) The proposed project is not located in the vicinity of a major highway. Therefore, there is no impact.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

31. Other Noise

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

NA A B C D

Source: Project Application Materials, GIS database

a) Short-term, construction-related noise impacts may occur during project grading and construction. However, construction activities will be required to comply with County noise standards. Since the construction site is within one-quarter mile of an occupied residence, no construction activities shall be undertaken between the hours of 6:00 p.m. and 6:00 a.m. during the months of June through September and between the hours of 6:00 p.m. and 7:00 a.m. during the months of October through May. All construction vehicles, equipment fixed or mobile shall be equipped with properly operating and maintained mufflers. During construction, best efforts will be made to locate stockpiling and/or vehicle staging areas as far as practical from existing residential dwellings (Condition of Approval 10.PLANNING.18). This is a standard condition of approval and is, therefore, not considered unique mitigation pursuant to CEQA. Therefore, the impact is considered less than significant.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

32. Noise Effects on or by the Project

a) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?

b) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?

c) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?

d) Exposure of persons to or generation of excessive ground-borne vibration or ground-borne noise levels?

Source: Project Application Materials

a) The proposed project will raise ambient noise levels in the area which currently exist without the project. However, the project shall not create a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project. The project proposes the creation of five-acre residential lots which are similar in intensity to neighboring properties. The development of the proposed project will not substantially increase ambient noise levels. Therefore, this impact is considered less than significant.

b) The proposed project may create a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project during construction. As discussed in Finding of Fact 31a, construction hours would be limited due to the close proximity of the project site to occupied residences. This is a standard condition of approval and is, therefore, not considered unique mitigation pursuant to CEQA. Impacts are considered less than significant.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

c) The proposed project will not expose people to or generate noise levels in excess of standards established in the local general plan, noise ordinance (County Ordinance No. 847), or applicable standards of other agencies. Exterior noise levels will be limited to less than or equal to 45 dB(A) 10-minute LEQ between the hours of 10:00 p.m. to 7:00 a.m., and 65 dB(A) at all other times pursuant to County Ordinance No. 847. Therefore, impacts are expected to be less than significant.

d) The proposed project will not exposure people to or generate excessive ground-borne vibration or ground-borne noise levels. Therefore, there is no impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

POPULATION AND HOUSING Would the project

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
33. Housing	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
a) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b) Create a demand for additional housing, particularly housing affordable to households earning 80% or less of the County's median income?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Affect a County Redevelopment Project Area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Cumulatively exceed official regional or local population projections?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: Project Application Materials, GIS database, Riverside County General Plan Housing Element

Findings of Fact:

a) The proposed project site is currently vacant; thus, the proposed project will not displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere.

b) The proposed project will not create permanent employment opportunities; therefore, it will not create a demand for additional housing.

c) The proposed project site is currently vacant; therefore, it will not displace substantial numbers of people, necessitating the construction of replacement housing elsewhere.

d) The project is not located within or near a County Redevelopment Project Area.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

e) The project proposes the addition of three residential parcels, which equates to an increase of nine additional personas. This population increase will not exceed official regional or local population projections.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

PUBLIC SERVICES Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered government facilities or the need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:

34. Fire Services

Source: RCIP Safety Element, Ordinance No. 659.10, and Project Review.

Findings of Fact:

The proposed project will have an incremental increase in the potential need for fire services. The proposed project shall be required to pay development impact fees established by Ordinance No. 659. Upon compliance with Ordinance No. 659.10 (Condition of Approval 10.Planning.17), the proposed project will not have a significant impact on fire services. This is a standard condition of approval and is not considered unique mitigation pursuant to CEQA.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

35. Sheriff Services

Source: RCIP Safety Element, Ordinance No. 659.10, and Project Review

Findings of Fact:

The proposed project will have an incremental increase in the potential need for sheriff services. This increase will be mitigated to a less than significant level by the payment of fees. Upon compliance with Ordinance No. 659.10 (Condition of Approval 10.Planning.17), the proposed project will not have a significant impact on sheriff services. This is a standard condition of approval and is not considered unique mitigation pursuant to CEQA.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

36. Schools

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Source: GIS database

Findings of Fact:

The project site is located within the Murrieta Unified School District. The project will comply with State laws regarding any school fees (Condition of Approval 80.Planning.7). This is a standard condition of approval and is not considered mitigation for CEQA purposes.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

37. Libraries

Source: RCIP

Findings of Fact:

The proposed subdivision will result in an incremental increased demand for library services. This increase will be mitigated to a less than significant level by the payment of fees. Upon compliance with Ordinance No. 659.10 (Condition of Approval 10.Planning.17), the project will not have a significant impact on library services. This is a standard condition of approval and is not considered unique mitigation pursuant to CEQA.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

38. Health Services

Source: RCIP

Findings of Fact:

The use of the proposed 20.13-acre parcel would cause an incremental impact on health services. The site is located within the service parameters of County health centers. The project will not physically alter existing facilities or result in the construction of new or physically altered facilities. The presence of medical communities generally corresponds with an increase in population associated with new development. As such, no mitigation is necessary.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

RECREATION

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
39. Parks and Recreation	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a) Would the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Would the project include the use of existing neighborhood or regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) Is the project located within a C.S.A. or recreation and park district with a Community Parks and Recreation Plan (Quimby fees)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: GIS database, Ord. No. 460, Section 10.35 (Regulating the Division of Land – Park and Recreation Fees and Dedications), Ord. No. 659 (Establishing Development Impact Fees), Parks & Open Space Department Review

Findings of Fact:

a) The scope of the proposed project does not involve the construction of expansion of recreational facilities. Therefore, the impact is considered less than significant.

b) Future residents of the project site could potentially use neighboring recreational facilities. Due to the size of the proposed development, which entails the addition of approximately 9 persons to the area, it is not anticipated that the project will generate significant impacts to nearby parks or recreational facilities. Therefore, the impact is considered less than significant.

c) The proposed project could potentially incrementally increase the use of some types of recreational facilities in the Southwest Planning Area. The project site is not located within a Community Service Area (CSA). However, if a CSA forms prior to the Tentative Map recordation, it must join the newly formed CSA and will be subject to Quimby fees at that time (Conditions of Approval 50.Planning.7 and 90.Planning.6). This is a standard condition of approval and is not considered unique mitigation under CEQA. Thus, impacts would not be considered significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

40. Recreational Trails	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------------	--------------------------	--------------------------	--------------------------	-------------------------------------

Source: Southwest Area Plan Figure 8 “Trails and Bikeway Systems”

a) According to Southwest Area Plan Figure 8, the proposed project is not located adjacent to or within the vicinity of any recreational trails. The project will have no impact with regard to recreational trails.

Mitigation: No mitigation required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

Monitoring: No monitoring required.

TRANSPORTATION/TRAFFIC Would the project	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
41. Circulation	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
a) Cause an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in either the number of vehicle trips, the volume to capacity ratio on roads, or congestion at intersections)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Result in inadequate parking capacity?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated road or highways?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e) Alter waterborne, rail or air traffic?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f) Substantially increase hazards to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
g) Cause an effect upon, or a need for new or altered maintenance of roads?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
h) Cause an effect upon circulation during the project's construction?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
i) Result in inadequate emergency access or access to nearby uses?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
j) Conflict with adopted policies supporting alternative transportation (e.g. bus turnouts, bicycle racks)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Source: RCIP, Riverside County Transportation Department Review, Riverside County Fire Department Review

Findings of Fact:

a) The proposed project will increase vehicular traffic; however, The Transportation Department did not require a traffic study for the proposed project. The project will not cause an increase in traffic which is substantial in relation to the existing traffic loads and capacity of the street system. The impact is considered less than significant.

b) The project site meets all parking requirements of Ordinance 348 Section 18.12 "Off-Street Parking." Therefore, there is no impact.

c) Since the project was not required to submit a traffic study, as stated in Finding of Fact 41a, it is not anticipated that the proposed project would exceed levels of service standards established by the County Congestion Management Agency for designated road or highways. Therefore, there is no impact.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

d) The proposed project is not located within an Airport Influence Area. The project will not change air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks. Therefore, there is no impact.

e) The proposed project will not change or alter waterborne, rail or air traffic. Therefore, there is no impact.

f) The proposed project will not substantially increase hazards to a design feature (e.g. sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment). Therefore, there is no impact.

g) Per Condition of Approval 10.Trans.3, the proposed subdivision will not create the need for additional right-of-way. Therefore, this impact is less than significant.

h) It is not anticipated that there will be a substantial effect upon circulation during the proposed project's construction. The project will not result in road improvements to the streets discussed in Finding of Fact 41g. Therefore, this impact is considered less than significant.

i) The proposed project will not result in inadequate emergency access or access to nearby uses. Therefore, there is no impact.

j) Based on a review of General Plan and Ordinances, the proposed project will not conflict with adopted policies supporting alternative transportation (e.g. bus turnouts, bicycle racks). Therefore, there is no impact.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

42. Bike Trails	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
------------------------	--------------------------	--------------------------	--------------------------	-------------------------------------

Source: RCIP, SWAP Figure 8 "Trails and Bikeway Systems"

Findings of Fact:

a) According to Southwest Area Plan Figure 8, the proposed project is not located adjacent to or within the vicinity of a bike trail. The project will have no impact with regard to bike trails.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

UTILITY AND SERVICE SYSTEMS Would the project

a) Require or result in the construction of new water treatment facilities or expansion of existing facilities, the

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

construction of which would cause significant environmental effects?

b) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?

Source: Department of Environmental Health Review, Staff Review

Findings of Fact:

a) The proposed project is served by the Rancho California Water District and based on correspondence with the agency will not result in the construction of new water treatment facilities or expansion of existing facilities, the construction of which would cause significant environmental effects. Therefore, there is no impact.

b) The proposed project will be served by the Rancho California Water District. Therefore, it is anticipated that the project will have sufficient water supplies available and would not require new or expanded entitlements to serve the project. Therefore, the impact is considered less than significant.

Mitigation: No mitigation required.

Monitoring: No monitoring required.

44. Sewer

a) Require or result in the construction of new wastewater treatment facilities, including septic systems, or expansion of existing facilities, the construction of which would cause significant environmental effects?

b) Result in a determination by the wastewater treatment provider that serves or may service the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?

Source: Department of Environmental Health Review

Findings of Fact:

a-b) The proposed project will result in the construction of septic tanks. However, the construction of this new wastewater treatment system is not anticipated to cause significant environmental effects. Therefore, the impacts are considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

45. Solid Waste

h) Conflict with adopted energy conservation plans?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

Source: RCIP, correspondence

Findings of Fact:

a,b,c) The project proposes the addition of three possible residential dwellings. The project will require utility services in the form of electricity, natural gas, and telecommunications. Each of the utility systems is available at the project site and lines will have to be extended onto the site, which will already be disturbed by grading and other construction activities. These impacts are considered less than significant based on the availability of existing public facilities that support local systems. Compliance with the requirements of Southern California Edison, Southern California Gas, and the telephone company will ensure that potential impacts to utility systems are reduced to a non-significant level.

d) The project has been designed to mimic natural drainage characteristics for the area and will not impact the need for any storm water maintenance.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

e) The Santa Rosa Plateau is maintained by individual Home Owners Associations or Community Services Districts. The Tenaja Community Services District does not use street lights. These impacts are considered less than significant based on the availability of existing public facilities that support local systems.

f) Based on data available at this time, no offsite utility improvements will be required to support this project.

g) The project will not require additional government services.

h) The project design does not conflict with adopted energy conservation plans.

Mitigation: No mitigation required.

Monitoring: No monitoring required

MANDATORY FINDINGS OF SIGNIFICANCE

47. Does the project have the potential to substantially degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare, or endangered plant or animal to eliminate important examples of the major periods of California history or prehistory?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

Source: Staff review, Application materials

Findings of Fact:

Implementation of the proposed project would not degrade the quality of the environment, substantially reduce the habitat of fish or wildlife species, cause a fish or wildlife populations to drop below self sustaining levels, threaten to eliminate a plant or animal community, or reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory.

48. Does the project have the potential to achieve short-term environmental goals, to the disadvantage of long-term environmental goals? (A short-term impact on the environment is one that occurs in a relatively brief, definitive period of time while long-term impacts will endure well into the future.)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Source: Staff review, Project Application Materials

Findings of Fact:

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

The proposed project does not have the potential to achieve short-term environmental goals, to the disadvantage of long-term environmental goals.

49. Does the project have impacts which are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of an individual project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects as defined in California Code of Regulations, Section 15130)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

Source: Staff review, Project Application Materials

Findings of Fact:

The project does not have impacts which are individually limited, but cumulatively considerable.

50. Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

Source: Staff review, project application

Findings of Fact:

The proposed project would not result in environmental effects which would cause substantial adverse effects on human beings, either directly or indirectly.

VI. EARLIER ANALYSES

Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration as per California Code of Regulations, Section 15063 (c) (3) (D). In this case, a brief discussion should identify the following:

Earlier Analyses Used:

County of Riverside General Plan Final EIR, prepared by the County of Riverside, dated October 2003, certified by the Board of Supervisors October 7, 2003.

Southwest Area Plan EIR, prepared by the County of Riverside, dated October 2003, certified by the Board of Supervisors October 7, 2003.

The following technical studies were review and the findings and recommendations contained therein were incorporated into the analysis of this Initial Study:

PDB05542 – prepared by Brian F. Smith and Associates, Inc. Dated March 12, 2009

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--------------------------------------	--	---------------------------------------	--------------

PDB05608 – prepared by Brian F. Smith and Associates, Inc. Dated Sept 14, 2009

PARCEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

10. GENERAL CONDITIONS

EVERY DEPARTMENT

10. EVERY. 1 MAP - DEFINITIONS

RECOMMND

The words identified in the following list that appear in all capitals in the attached conditions of Tentative Parcel Map No. 35162 shall be henceforth defined as follows:

TENTATIVE MAP = Tentative Parcel Map No. 35162, Amended No. 1, dated 1/25/10.

FINAL MAP = Final Map or Parcel Map for the TENTATIVE MAP whether recorded in whole or in phases.

10. EVERY. 2 MAP - PROJECT DESCRIPTION

RECOMMND

The land division hereby permitted a Schedule H subdivision of 20.34 gross acres into three residential lots with a minimum 5 acre gross lot size.

10. EVERY. 3 MAP - HOLD HARMLESS

RECOMMND

The land divider or any successor-in-interest shall defend, indemnify, and hold harmless the County of Riverside

COUNTY), its agents, officers, or employees from any claim, action, or proceeding against the COUNTY, its agents, officers, or employees to attack, set aside, void, or annul an approval of the COUNTY, its advisory agencies, appeal boards, or legislative body concerning the TENTATIVE MAP, which action is brought within the time period provided for in California Government Code, Section 66499.37. The COUNTY will promptly notify the land divider of any such claim, action, or proceeding against the COUNTY and will cooperate fully in the defense. If the COUNTY fails to promptly notify the land divider of any such claim, action, or proceeding or fails to cooperate fully in the defense, the land divider shall not, thereafter, be responsible to defend, indemnify, or hold harmless the COUNTY.

BS GRADE DEPARTMENT

10.BS GRADE. 1 MAP-GIN INTRODUCTION

RECOMMND

Improvement such as grading, filling, over excavation and recompaction, and base or paving which require a grading permit are subject to the included Building and Safety

PARCEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

10. GENERAL CONDITIONS

10.BS GRADE. 1 MAP-GIN INTRODUCTION (cont.) RECOMMND

Grading Division conditions of approval.

10.BS GRADE. 2 MAP-G1.2 OBEY ALL GDG REGS RECOMMND

All grading shall conform to the California Building Code, Ordinance 457, and all other relevant laws, rules and regulations governing grading in Riverside County and prior to commencing any grading which includes 50 or more cubic yards, the applicant shall obtain a grading permit from the Building & Safety Department.

10.BS GRADE. 3 MAP-G1.3 DISTURBS NEED G/PMT RECOMMND

Ordinance 457 requires a grading permit prior to clearing, grubbing or any top soil disturbances related to construction grading.

10.BS GRADE. 4 MAP-G1.5 EROS CNTRL PROTECT RECOMMND

Graded but undeveloped land shall provide, in addition to erosion control planting, any drainage facility deemed necessary to control or prevent erosion. Additional erosion protection may be required during the rainy season from October 15 to April 15.

10.BS GRADE. 5 MAP-G1.6 DUST CONTROL RECOMMND

All necessary measures to control dust shall be implemented by the developer during grading.

10.BS GRADE. 6 MAP-G2.1 GRADING BONDS RECOMMND

Grading in excess of 199 cubic yards will require performance security to be posted with the Building & Safety Department. Single family dwelling units graded one lot per permit and proposing to grade less than 5,000 cubic yards are exempt.

10.BS GRADE. 7 MAP-G2.5 2:1 MAX SLOPE RATIO RECOMMND

Grade slopes shall be limited to a maximum steepness ratio of 2:1 (horizontal to vertical) unless otherwise approved.

PARCEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

10. GENERAL CONDITIONS

10.BS GRADE. 8 MAP-G2.6SLOPE STABL'TY ANLY RECOMMND

A slope stability report shall be submitted and approved by the County Geologist for all proposed cut or fill slopes steeper than 2:1 (horizontal to vertical) or over 30 feet in vertical height - unless addressed in a previous report.

10.BS GRADE. 9 MAP-G2.8MINIMUM DRNAGE GRAD RECOMMND

Minimum drainage grade shall be 1% except on portland cement concrete where 0.35% shall be the minimum.

10.BS GRADE. 10 MAP-G2.11DR WAY XING NWC RECOMMND

Lots whose access is or will be affected by natural or constructed drainage facilities, shall provide drive way drainage facilities which are adequate to allow access from the street to the house during 100 year storms.

10.BS GRADE. 11 MAP-G2.12SLOPES IN FLOODWAY RECOMMND

Graded slopes which infringe into the 100 year storm flow flood way boundaries, shall be protected from erosion, or other flood hazards, by a method acceptable to the Building & Safety Departments District Grading Engineer - which may include Riverside County flood Control & Water Conservation District's review and approval. However, no graded slope will be allowed which in the professional judgment of the District Grading Engineer blocks, concentrates or diverts drainage flows.

10.BS GRADE. 12 MAP-G2.13FIRE D'S OK ON DR. RECOMMND

Driveways shall be designed in accordance with Riverside County Fire Department standards - or the governing Fire Department if not the county - and shall require their approval prior to issuance of the grading permit. Approval shall be in the form of a conditional approval letter addressed to the related case file or by written approval from the Fire Department.

10.BS GRADE. 13 MAP-G2.21POST & BEAM LOT RECOMMND

Any lot conditioned to use post and beam design, which involves grading in excess of that required to construct the driveway, will need the Planning Department's approval prior to the issuance of a grading permit.

PARCEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

10. GENERAL CONDITIONS

10.BS GRADE. 15

MAP-G1.4 NPDES/SWPPP

RECOMMND

Prior to issuance of any grading or construction permits - whichever comes first - the applicant shall provide the Building and Safety Department evidence of compliance with the following: "Effective March 10, 2003 owner operators of grading or construction projects are required to comply with the N.P.D.E.S. (National Pollutant Discharge Elimination System) requirement to obtain a construction permit from the State Water Resource Control Board (SWRCB). The permit requirement applies to grading and construction sites of "ONE" acre or larger. The owner operator can comply by submitting a "Notice of Intent" (NOI), develop and implement a STORM WATER POLLUTION PREVENTION PLAN (SWPPP) and a monitoring program and reporting plan for the construction site. For additional information and to obtain a copy of the NPDES State Construction Permit contact the SWRCB at (916) 657-1146.

Additionally, at the time the county adopts, as part of any ordinance, regulations specific to the N.P.D.E.S., this project (or subdivision) shall comply with them.

E HEALTH DEPARTMENT

10.E HEALTH. 1

RCWD POTABLE WATER SERVICE

RECOMMND

Parcel Map#35162 is proposing Rancho California Water District (RCWD) potable water service only. It is the responsibility of the developer to ensure that all requirements to obtain potable water service are met with RCWD as well as all other applicable agencies.

Per discretion of RCWD, all existing wells may have to be properly abandoned or removed under permit with the Department of Environmental Health.

FIRE DEPARTMENT

10.FIRE. 1

MAP-#50-BLUE DOT REFLECTORS

RECOMMND

Blue retroreflective pavement markers shall be mounted on private streets, public streets and driveways to indicate location of fire hydrants. Prior to installation, placement of markers must be approved by the Riverside County Fire Department.

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

10. GENERAL CONDITIONS

10.FIRE. 2

MAP-#13-HYDRANT SPACING

RECOMMND

Schedule H fire protection. An approved standard fire hydrant (6"x4"x2 1/2") shall be located within 250 feet of any portion of the lot frontage and at the driveway entrance to parcel #1 as measured along approved vehicular travelways. Minimum fire flow shall be 1000 GPM for 2-hour duration at 20 PSI.

FLOOD RI DEPARTMENT

10.FLOOD RI. 1

MAP FLOOD HAZARD REPORT

RECOMMND

This is a proposal to subdivide 20.31 acres into 3 lots in Southwest area. The site is located at the southerly of Alpine View Lane, northerly of Tenaja Road, easterly of Calle Pino and westerly of Aronimik Road.

The topography of the area consists of well-defined ridges and natural watercourses that traverse the property. There is adequate area outside of the natural watercourses for building sites. The natural watercourses should be kept free of buildings and obstructions in order to maintain the natural drainage patterns of the area.

A note shall be placed on the ECS stating that "This project site has a natural slope that is more than 25 percent and may have impacts to water quality. Therefore, if development of this site including the construction of a residence on a single parcel creates 5,000 square feet or more of impervious surfaces, a Project Specific Water Quality Management Plan shall be submitted to the District.

All submittals shall be date stamped by the engineer and include a completed Flood Control Deposit Based Fee Worksheet and the appropriate plan check fee deposit.

PLANNING DEPARTMENT

10.PLANNING. 1

MAP - IF HUMAN REMAINS FOUND

RECOMMND

The developer/permit holder or any successor in interest shall comply with the following codes for the life of this project:

If human remains are encountered, State Health and Safety Code Section 7050.5 states that no further disturbance shall occur until the County Coroner has made the necessary findings as to origin. Further, pursuant to Public Resources Code Section 5097.98 (b), remains shall be left

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

10. GENERAL CONDITIONS

10.PLANNING. 1

MAP - IF HUMAN REMAINS FOUND (cont.)

RECOMMND

in place and free from disturbance until a final decision as to the treatment and their disposition has been made. If the Riverside County Coroner determines the remains to be Native American, the Native American Heritage Commission shall be contacted within the period specified by law. Subsequently, the Native American Heritage Commission shall identify the "Most Likely Descendant." The Most Likely Descendant shall then make recommendations and engage in consultation with the County and the property owner concerning the treatment of the remains as provided in Public Resources Code Section 5097.98. Human remains from other ethnic/cultural groups with recognized historical associations to the project area shall also be subject to consultation between appropriate representatives from that group and the County Planning /Director.

10.PLANNING. 2

MAP - INADVERTANT ARCHAEO FIND

RECOMMND

The developer/permit holder or any successor in interest shall comply with the following for the life of this project:

If during ground disturbance activities, cultural resources are discovered that were not assessed by the archaeological reports and/or environmental assessment conducted prior to project approval, the following procedures shall be followed. A cultural resources site is defined, for this condition, as being three or more artifacts in close association with each other, but may include fewer artifacts if the area of the find is determined to be of significance due to its sacred or cultural importance.

1.All ground disturbance activities within 100 feet of the discovered cultural resource shall be halted until a meeting is convened between the developer, the project archaeologist, the Native American tribal representative (or other appropriate ethnic/cultural group representative), and the Planning Director to discuss the significance of the find.

2.At the meeting, the significance of the discoveries shall be discussed and after consultation with the Native American tribal (or other appropriate ethnic/cultural group representative) and the archaeologist, a decision is made, with the concurrence of the Planning Director, as to the appropriate mitigation (documentation, recovery, avoidance,

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

10. GENERAL CONDITIONS

10.PLANNING. 2 MAP - INADVERTANT ARCHAEO FIND (cont.) RECOMMND

etc) for the cultural resource.

3.Further ground disturbance shall not resume within the area of the discovery until an agreement has been reached by all parties as to the appropriate preservation or mitigation measures.

10.PLANNING. 3 MAP - LC LANDSCAPE REQUIREMENT RECOMMND

Prior to the installation or rehabilitation of 5,000 square feet or more of landscaped area, the developer/ permit holder/landowner shall:

- 1)Submit landscape and irrigation plans to the County Planning Department for review and approval. Such plans shall be submitted as a Minor Plot Plan subject to the appropriate fees and inspections as determined by the County, comply with Ordinance No. 859 and be prepared in accordance with the County of Riverside Guide to California Friendly Landscaping. Emphasis shall be placed on using plant species that are drought tolerant and low water using.
- 2)Ensure all landscape and irrigation plans are in conformance with the APPROVED EXHIBITS;
- 3)Ensure all landscaping is provided with a weather based irrigation controller(s) as defined by County Ordinance No. 859;
- 4)Ensure that irrigation plans which may use reclaimed water conform with the requirements of the local water purveyor; and,

The developer/permit holder is responsible for the maintenance, viability and upkeep of all slopes, landscaped areas, and irrigation systems until the successful completion of the Installation Inspection or those operations become the responsibility of the individual property owner(s), a property owner's association, or any other successor-in-interest, whichever occurs later.

10.PLANNING. 4 MAP - LC LANDSCAPE SPECIES RECOMMND

The developer/ permit holder/landowner shall use the County of Riverside's California Friendly Plant List when making plant selections. The list can be found at the following web site
<http://www.rctlma.org/planning/content/devproc/landscape/lan>

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

10. GENERAL CONDITIONS

10.PLANNING. 4 MAP - LC LANDSCAPE SPECIES (cont.) RECOMMND

scape.html . Use of plant material with a "low" or "very low" water use designation is strongly encouraged.

10.PLANNING. 5 MAP - LOW PALEO RECOMMND

According to the County's General Plan, this site has been mapped as having a "Low Potential" for paleontological resources. This category encompasses lands for which previous field surveys and documentation demonstrates a low potential for containing significant paleontological resources subject to adverse impacts. As such, this project is not anticipated to require any direct mitigation for paleontological resources. However, should fossil remains be encountered during site development:

1.All site earthmoving shall be ceased in the area of where the fossil remains are encountered. Earthmoving activities may be diverted to other areas of the site.

2.The applicant shall retain a qualified paleontologist approved by the County of Riverside.

3.The paleontologist shall determine the significance of the encountered fossil remains.

4.Paleontological monitoring of earthmoving activities will continue thereafter on an as-needed basis by the paleontologist during all earthmoving activities that may expose sensitive strata. Earthmoving activities in areas of the project area where previously undisturbed strata will be buried but not otherwise disturbed will not be monitored. The supervising paleontologist will have the authority to reduce monitoring once he/she determines the probability of encountering any additional fossils has dropped below an acceptable level.

5.If fossil remains are encountered by earthmoving activities when the paleontologist is not onsite, these activities will be diverted around the fossil site and the paleontologist called to the site immediately to recover the remains.

6.Any recovered fossil remains will be prepared to the point of identification and identified to the lowest taxonomic level possible by knowledgeable paleontologists. The remains then will be curated (assigned and labeled with

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

10. GENERAL CONDITIONS

10.PLANNING. 5 MAP - LOW PALEO (cont.) RECOMMND

museum* repository fossil specimen numbers and corresponding fossil site numbers, as appropriate; places in specimen trays and, if necessary, vials with completed specimen data cards) and catalogued, an associated specimen data and corresponding geologic and geographic site data will be archived (specimen and site numbers and corresponding data entered into appropriate museum repository catalogs and computerized data bases) at the museum repository by a laboratory technician. The remains will then be accessioned into the museum* repository fossil collection, where they will be permanently stored, maintained, and, along with associated specimen and site data, made available for future study by qualified scientific investigators. * The County of Riverside must be consulted on the repository/museum to receive the fossil material prior to being curated.

10.PLANNING. 6 MAP - MAP ACT COMPLIANCE RECOMMND

This land division shall comply with the State of California Subdivision Map Act and to all requirements of County Ordinance No. 460, Schedule H, unless modified by the conditions listed herein.

10.PLANNING. 7 MAP - FEES FOR REVIEW RECOMMND

Any subsequent review/approvals required by the conditions of approval, including but not limited to grading or building plan review or review of any mitigation monitoring requirement, shall be reviewed on an hourly basis, or other appropriate fee, as listed in County Ordinance No. 671. Each submittal shall be accompanied with a letter clearly indicating which condition or conditions the submittal is intended to comply with.

10.PLANNING. 11 MAP - PRESERVE NATIVE TREES RECOMMND

The existing native specimen trees on the subject property identified for preservation on the approved TENTATIVE MAP shall remain undisturbed. Where they cannot be preserved they shall be relocated or replaced with specimen trees as approved by the Planning Director.

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

10. GENERAL CONDITIONS

10.PLANNING. 12 MAP - ZONING STANDARDS RECOMMND

Lots created by this TENTATIVE MAP shall be in conformance with the development standards of the R-A-5 zone.

10.PLANNING. 13 MAP - 90 DAYS TO PROTEST RECOMMND

The project applicant has 90 days from the date of approval of these conditions to protest, in accordance with the procedures set forth in Government Code Section 66020, the imposition of any and all fees, dedications, reservations and/or other exactions imposed on this project as a result of the approval or conditional approval of this project.

10.PLANNING. 16 MAP - ORD 810 OPN SPACE FEE RECOMMND

Prior to the issuance of either a certificate of occupancy or prior to building permit final inspection, the applicant shall comply with the provisions of Riverside County Ordinance No. 810, which requires payment of the appropriate fee set forth in the Ordinance. Riverside County Ordinance No. 810 has been established to set forth policies, regulations and fees related to the funding and acquisition of open space and habitat necessary to address the direct and cumulative environmental effects generated by new development projects described and defined in this Ordinance.

The fee shall be paid for each residential unit to be constructed within this land division.

In the event Riverside County Ordinance No. 810 is rescinded, this condition will no longer be applicable. However, should Riverside County Ordinance No. 810 be rescinded and superseded by a subsequent mitigation fee ordinance, payment of the appropriate fee set forth in that ordinance shall be required.

10.PLANNING. 17 MAP - ORD NO. 659 (DIF) RECOMMND

Prior to the issuance of either a certificate of occupancy or prior to building permit final inspection, the applicant shall comply with the provisions of Riverside County Ordinance No. 659, which requires the payment of the appropriate fee set forth in the Ordinance. Riverside County Ordinance No. 659 has been established to set forth policies, regulations and fees related to the funding and construction of facilities necessary to address the direct

10.PLANNING. 17 MAP - ORD NO. 659 (DIF) (cont.) RECOMMND

and cumulative environmental effects generated by new development projects described and defined in this Ordinance, and it establishes the authorized uses of the fees collected.

The fee shall be paid for each residential unit to be constructed within this land division. In the event Riverside County Ordinance No. 659 is rescinded, this condition will no longer be applicable. However, should Riverside County Ordinance No. 659 be rescinded and superseded by a subsequent mitigation fee ordinance, payment of the appropriate fee set forth in that ordinance shall be required.

10.PLANNING. 18 MAP - OFF-HIGHWAY VEHICLE USE RECOMMND

No off-highway vehicle use shall be allowed on any parcel used for stockpiling purposes. The landowners shall secure all parcels on which a stockpile has been placed and shall prevent all off-highway vehicles from using the property.

10.PLANNING. 19 MAP - SUBMIT BUILDING PLANS RECOMMND

The developer shall cause building plans to be submitted to the TLMA- Land Use Section for review by the Department of Building and Safety - Plan Check Division. Said plans shall be in conformance with the approved TENTATIVE MAP.

10.PLANNING. 20 MAP - EXISTING SECOND UNITS RECOMMND

Per section 18.28a. d. (2) of Riverside County ordinance 348, any second unit permitted on this land division on or after October 2, 2008 can not be considered a primary dwelling for any purpose. Therefore a primary dwelling will need to be constructed prior to new or continued occupancy of such a second unit, and if this does not occur, the aforementioned approved second unit may be subject to revocation and potential order requiring demolition or removal of the second unit.

From ordinance 348:

Section 18.28a. d. (2) A dwelling unit originally permitted as a second unit may not later be considered a primary dwelling unit for any purpose.

Parcel: 931-190-011

10. GENERAL CONDITIONS

10.PLANNING. 20 MAP - EXISTING SECOND UNITS (cont.) RECOMMND

Section 18.28a. f. REVOCATION OF PERMIT. A second unit permit may be revoked in accordance with the findings and procedure contained in Section 18.31 of this ordinance. The decision revoking a second unit permit may include, without limitation, an order requiring demolition of the second unit.

TRANS DEPARTMENT

10.TRANS. 1 MAP - TS/EXEMPT RECOMMND

The Transportation Department has not required a traffic study for the subject project. It has been determined that the project is exempt from traffic study requirements.

10.TRANS. 2 MAP - DRAINAGE 2 RECOMMND

The land divider shall accept and properly dispose of all off-site drainage flowing onto or through the site. In the event the Transportation Department permits the use of streets for drainage purposes, the provisions of Article XI of Ordinance No. 460 will apply. Should the quantities exceed the street capacity or the use of streets be prohibited for drainage purposes, the subdivider shall provide adequate drainage facilities and/or appropriate easements as approved by the Transportation Department.

10.TRANS. 3 MAP - NO ADD'L ON-SITE R-O-W RECOMMND

No additional on-site right-of-way shall be required on Alpineview Lane and Calle Jame since adequate right-of-way exists, per PM5/55/-56.

10.TRANS. 6 MAP - STD INTRO 3(ORD 460/461) RECOMMND

With respect to the conditions of approval for the referenced tentative exhibit, the land divider shall provide all street improvements, street improvement plans and/or road dedications set forth herein in accordance with Ordinance 460 and Riverside County Road Improvement Standards (Ordinance 461). It is understood that the tentative map correctly shows acceptable centerline elevations, all existing easements, traveled ways, and drainage courses with appropriate Q's, and that their omission or unacceptability may require the map to be

resubmitted for further consideration. These Ordinances and all conditions of approval are essential parts and a requirement occurring in ONE is as binding as though occurring in all. All questions regarding the true meaning of the conditions shall be referred to the Transportation Department.

10.TRANS. 7 MAP - COUNTY WEB SITE RECOMMND

Additional information, standards, ordinances, policies, and design guidelines can be obtained from the Transportation Department Web site:
<http://rctlma.org/trans/>. If you have questions, please call the Plan Check Section at (951) 955-6527.

20. PRIOR TO A CERTAIN DATE

PLANNING DEPARTMENT

20.PLANNING. 2 MAP - EXPIRATION DATE RECOMMND

The conditionally approved TENTATIVE MAP shall expire three years after the County of Riverside Planning Director's original approval date, unless extended as provided by County Ordinance No. 460. Action on a minor change and/or revised map request shall not extend the time limits of the originally approved TENTATIVE MAP. If the TENTATIVE MAP expires before the recordation of the FINAL MAP, or any phase thereof, no recordation of the FINAL MAP, or any phase thereof, shall be permitted.

50. PRIOR TO MAP RECORDATION

EPD DEPARTMENT

50.EPD. 1 MAP - ECS CONDITION RECOMMND

The constrained areas will conform to the areas mapped as "MSHCP AVOIDANCE AREA (RIPARIAN/RIVERINE)" on PM35162, AMD.#1, Dated: 1/25/10. These areas shall be mapped and labeled "Delineated Constraint Area (Riparian/Riverine)" on the Environmental Constraint Sheet to the satisfaction of the Environmental Programs Department.

The ECS map must be stamped by the Riverside County Surveyor with the following notes.

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

50. PRIOR TO MAP RECORDATION

50.EPD. 1 MAP - ECS CONDITION (cont.) RECOMMND

"No disturbances may occur within the boundaries of the of the constraint areas."

"Brush management to reduce fuel loads to protect urban uses (fuel modification zones) will not encroach into the constraint areas."

"Night lighting shall be directed away from the constraint area. Shielding shall be incorporated in project designs to ensure ambient lighting in the constraint areas is not increased."

50.EPD. 2 MAP - ECS PREP RECOMMND

The land divider shall prepare an Environmental Constraints Sheet (ECS) in accordance with Section 2.2 E. & F. of County Ordinance No. 460, which shall be submitted as part of the plan check review of the FINAL MAP

FIRE DEPARTMENT

50.FIRE. 1 MAP-#7-ECS-HAZ FIRE AREA RECOMMND

Ecs map must be stamped by the Riverside County Surveyor with the following note: The land division is located in the "Hazardous Fire Area" of Riverside County as shown on a map on file with the Clerk of the Board of Supervisors. Any building constructed on lots created by this land division shall comply with the special construction provisions contained in Riverside County Ordinance 787.2.

50.FIRE. 2 MAP-#43-ECS-ROOFING MATERIAL RECOMMND

Ecs map must be stamped by the Riverside County Surveyor with the following note: All buildings shall be constructed with class B material as per the California Building Code.

50.FIRE. 3 MAP-#64-ECS-DRIVEWAY ACCESS RECOMMND

Ecs map must be stamped by the Riverside County Surveyor with the following note: Driveways exceeding 150' in length, but less than 800' in length, shall provide a turnout near the midpoint of the driveway. Where the

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

50. PRIOR TO MAP RECORDATION

50.FIRE. 3 MAP-#64-ECS-DRIVEWAY ACCESS (cont.) RECOMMND

driveway exceeds 800', turnouts shall be provided no more than 400' apart. Turnouts shall be a minimum of 10' wide and 30' in length, with a minimum 25' taper on each end. A approved turnaround shall be provided at all building sites on driveways over 150 feet in length, and shall be within 50' of the building.

50.FIRE. 4 MAP-#73-ECS-DRIVEWAY REQUIR RECOMMND

Ecs map must be stamped by the Riverside County Surveyor with the following note: Access will not have an up, or downgrade of more than 15%. (access will not be less than 20 feet in width per the 2001 UFC, Article 9, Section 902.2.2.1) and will have a vertical clearance of 15'. Access will be designed to withstand the weight of 60 thousand pounds over 2 axles. Access will have a turning radius of 38 feet capable of accommodating fire apparatus.

50.FIRE. 5 MAP-#53-ECS-WTR PRIOR/COMBUS RECOMMND

Ecs map must be stamped by the Riverside County Surveyor with the following note: The required water system, including fire hydrants, shall be installed and accepted by the appropriate water agency prior to any combustible building material placed on an individual lot.

50.FIRE. 7 MAP-#59-ECS-HYDR REQUIR RECOMMND

Ecs map must be stamped by the Riverside County Surveyor with the following note: Should the applicant or developer choose to defer the fire protection requirements, an Environmental Constraint Sheet shall be filed with the final map containing the following: Prior to the issuance of a building permit, the applicant or developer shall provide written certification from the water company that standard fire hydrant(s) (6"x4"x2 1/2") exist, within 250 feet of any portion of the lot frontage and at the driveway entrance to parcel #1. as measured along approved vehicular travelways; or that financial arrangements have been made to provide hydrant(s)

CEL MAP Parcel Map #: PM35162

50. PRIOR TO MAP RECORDATION

FLOOD RI DEPARTMENT

50.FLOOD RI. 1 MAP SUBMIT ECS & FINAL MAP RECOMMND

A copy of the environmental constraint sheet and the final map shall be submitted to the District for review and approval. All submittals shall be date stamped by the engineer and include the appropriate plan check fee.

50.FLOOD RI. 2 MAP 25% SLOPE NEED WQMP RECOMMND

A note shall be placed on the ECS stating that "This project site has a natural slope that is more than 25 percent and may have impacts to water quality. Therefore, if development of this site including the construction of a residence on a single parcel creates 5,000 square feet or more of impervious surfaces, a Project Specific Water Quality Management Plan shall be submitted to the District. All submittals shall be date stamped by the engineer and include a completed Flood Control Deposit Based Fee Worksheet and the appropriate plan check fee deposit.

PLANNING DEPARTMENT

50.PLANNING. 1 MAP - PREPARE A FINAL MAP RECOMMND

After the approval of the TENTATIVE MAP and prior to the expiration of said map, the land divider shall cause the real property included within the TENTATIVE MAP, or any part thereof, to be surveyed and a FINAL MAP thereof prepared in accordance with the current County Transportation Department - Survey Division requirements, the conditionally approved TENTATIVE MAP, and in accordance with Article IX of County Ordinance No. 460.

50.PLANNING. 2 MAP - SURVEYOR CHECK LIST RECOMMND

The County Transportation Department - Survey Division shall review any FINAL MAP and ensure compliance with the following:

A. All lots on the FINAL MAP shall be in substantial conformance with the approved TENTATIVE MAP relative to size and configuration.

B. All lots on the FINAL MAP shall have a minimum lot size of 5 gross acres.

PARCEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

50. PRIOR TO MAP RECORDATION

50.PLANNING. 2 MAP - SURVEYOR CHECK LIST (cont.) RECOMMND

C. All lot sizes and dimensions on the FINAL MAP shall be in conformance with the development standards of the R-A-5 zone, and with the Riverside County Integrated Project (RCIP).

D. All lots on the FINAL MAP shall comply with the length to width ratios, as established by Section 3.8.C. of County Ordinance No. 460.

50.PLANNING. 7 MAP - QUIMBY/JOIN CSA (1) RECOMMND

The land divider shall submit to the County Planning Department - Development Review Division a duly and completely executed agreement with the County Service Area which demonstrates to the satisfaction of the County that the land divider has provided for the payment of parks and recreation fees and/or dedication of land for the TENTATIVE MAP in accordance with Section 10.35 of County Ordinance No. 460. The TENTATIVE MAP is located within an area of the County which does not have a CSA. If a CSA forms prior to the TENTATIVE MAP recording it must join the newly formed CSA and is at that time subject to QUIMBY Fees.

50.PLANNING. 10 MAP - OAK TREE ESMNT (1) RECOMMND

The land divider shall submit a copy of the final draft conservation easement (for the dedication and management by a private or public land conservancy for the purpose of reducing and mitigating impacts to oak trees and all other existing biological resources) to the County Planning Department for review and approval. Upon determination of its substantial conformance with the negotiated, unexecuted draft easement document, and the approved Environmental Constraint Exhibit, the Department shall then record said conservation easement. One copy of the recorded document shall be retained for the Planning Department's records and one copy shall be provided to the County Transportation Department - Survey Division. This condition shall be considered satisfied if Condition No. 60.PLANNING.20 has been complied with.

50.PLANNING. 13 MAP - FINAL MAP PREPARER RECOMMND

The FINAL MAP shall be prepared by a licensed land surveyor or registered civil engineer.

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

50. PRIOR TO MAP RECORDATION

50.PLANNING. 14 MAP - ECS SHALL BE PREPARED RECOMMND

The land divider shall prepare an Environmental Constraints Sheet (ECS) in accordance with Section 2.2. E. & F. of County Ordinance No. 460, which shall be submitted as part of the plan check review of the FINAL MAP.

50.PLANNING. 18 MAP - COMPLY WITH ORD 457 RECOMMND

The land divider shall provide proof to the County Planning Department - Land Use Division that all structures for human occupancy presently existing and proposed for retention comply with Ordinance No. 457.

50.PLANNING. 20 MAP - FEE BALANCE RECOMMND

Prior to recordation, the Planning Department shall determine if the deposit based fees for the TENTATIVE MAP are in a negative balance. If so, any unpaid fees shall be paid by the land divider and/or the land divider's successor-in-interest.

50.PLANNING. 23 MAP - ECS NOTE MT PALOMAR LIGH RECOMMND

The following Environmental Constraints Note shall be placed on the ECS:

"This property is subject to lighting restrictions as required by County Ordinance No. 655, which are intended to reduce the effects of night lighting on the Mount Palomar Observatory. All proposed outdoor lighting systems shall be in conformance with County Ordinance No. 655."

TRANS DEPARTMENT

50.TRANS. 2 MAP - CENTERLINE STUDY PROFIL RECOMMND

Plans shall be based upon a centerline study profile extending a minimum of 300 feet beyond the project boundaries at a grade and alignment as approved by the Riverside County Transportation Department.

50.TRANS. 3 MAP - EASEMENT RECOMMND

Any easement not owned by a public utility, public entity or subsidiary, not relocated or eliminated prior to final map approval, shall be delineated on the final map in addition to having the name of the easement holder, and

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

50. PRIOR TO MAP RECORDATION

50.TRANS. 3 MAP - EASEMENT (cont.) RECOMMND

the nature of their interests, shown on the map.

50.TRANS. 4 MAP - COMPLY W/CSD RECOMM RECOMMND

The landdivider shall comply with the Tenaja Community Services District's recommendations.

50.TRANS. 14 MAP - SOUTHWEST R&BBD/TUMF RECOMMND

Prior to the recordation of the final map, or any phase thereof, the project proponent shall pay fees in accordance with Zone A of the Southwest Road and Bridge Benefit District and shall pay the Transportation Uniform Mitigation Fee (TUMF) in accordance with the fee schedule in effect at the time of recordation, pursuant to Board Policy (dated May 25, 2004) and Ordinance 824.

50.TRANS. 24 MAP - STREET NAME SIGN RECOMMND

The land divider shall install street name sign(s) in accordance with County Standard No. 816 as directed by the Transportation Department.

60. PRIOR TO GRADING PRMT ISSUANCE

BS GRADE DEPARTMENT

60.BS GRADE. 1 MAP-G2.4GEOTECH/SOILS RPTS RECOMMND

Geotechnical soils reports, required in order to obtain a grading permit, shall be submitted to the Building and Safety Department's Grading Division for review and approval prior to issuance of a grading permit.

All grading shall be in conformance with the recommendations of the geotechnical/soils reports as approved by Riverside County.*

*The geotechnical/soils, compaction and inspection reports will be reviewed in accordance with the RIVERSIDE COUNTY GEOTECHNICAL GUIDELINES FOR REVIEW OF GEOTECHNICAL AND GEOLOGIC REPORTS.

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

60. PRIOR TO GRADING PRMT ISSUANCE

60.BS GRADE. 2

MAP-G2.7DRNAGE DESIGN Q100

RECOMMND

All grading and drainage shall be designed in accordance with Riverside County Flood Control & Water Conservation District's conditions of approval regarding this application. If not specifically addressed in their conditions, drainage shall be designed to accommodate 100 year storm flows.

Additionally, the Building and Safety Department's conditional approval of this application includes an expectation that the conceptual grading plan reviewed and approved for it complies or can comply with any WQMP (Water Quality Management Plan) required by Riverside County Flood Control and Water Conservation District.

60.BS GRADE. 3

MAP-G2.14OFFSITE GDG ONUS

RECOMMND

Prior to the issuance of a grading permit, it shall be the sole responsibility of the owner/applicant to obtain any and all proposed or required easements and/or permissions necessary to perform the grading herein proposed.

60.BS GRADE. 4

MAP-G1.4 NPDES/SWPPP

RECOMMND

Prior to issuance of any grading or construction permits - whichever comes first - the applicant shall provide the Building and Safety Department evidence of compliance with the following: "Effective March 10, 2003 owner operators of grading or construction projects are required to comply with the N.P.D.E.S. (National Pollutant Discharge Elimination System) requirement to obtain a construction permit from the State Water Resource Control Board (SWRCB). The permit requirement applies to grading and construction sites of "ONE" acre or larger. The owner operator can comply by submitting a "Notice of Intent" (NOI), develop and implement a STORM WATER POLLUTION PREVENTION PLAN (SWPPP) and a monitoring program and reporting plan for the construction site. For additional information and to obtain a copy of the NPDES State Construction Permit contact the SWRCB at (916) 657-1146.

Additionally, at the time the county adopts, as part of any ordinance, regulations specific to the N.P.D.E.S., this project (or subdivision) shall comply with them.

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

60. PRIOR TO GRADING PRMT ISSUANCE

60.BS GRADE. 5 MAP IMPORT/EXPORT

RECOMMND

In instances where a grading plan involves import or export, prior to obtaining a grading permit, the applicant shall have obtained approval for the import/export location from the Building and Safety department. If an Environmental Assessment, prior to issuing a grading permit, did not previously approve either location, a Grading Environmental Assessment shall be submitted to the Planning Director and the Environmental Programs Director for review and comment and to the Building and Safety Department Director for approval. Additionally, if the movement of import/export occurs using county roads, review and approval of the haul routes by the Transportation Department will be required.

EPD DEPARTMENT

60.EPD. 1 - GRADING PLAN CHECK

RECOMMND

The areas mapped as "MSHCP AVOIDANCE AREA (RIPARIAN/RIVERINE)" on PM35162, AMD.#1, Dated: 1/25/10, will be clearly delineated on the Grading Plan to ensure that no disturbances are proposed within these areas. These areas shall be mapped and labeled "Delineated Constraint Area (MSHCP Avoidance)" on the Grading Plan to the satisfaction of the Environmental Programs Department.

60.EPD. 2 - FENCING

RECOMMND

The area mapped as as "MSHCP AVOIDANCE AREA (RIPARIAN/RIVERINE)" on PM35162, AMD.#1, Dated: 1/25/10, will be fenced to avoid impacts during grading and construction. Signs must clearly indicate that no impacts will occur within the fenced areas. The Environmental Programs Department shall inspect the site prior to grading permit issuance.

FIRE DEPARTMENT

60.FIRE. 1 MAP - HFA REVIEW & APPROVAL

RECOMMND

Fire Department shall review and approve building setbacks, water and access for new ingle family dwellings that are in a hazardous fire area.

PLANNING DEPARTMENT

60.PLANNING. 4

MAP - CULTURAL RESOURCES PROFE

RECOMMND

As a result of the findings of archaeological study (PD-A-4569), the close proximity of a recorded archaeological site, and information submitted by the Pechanga Band of Luiseno Indians and teh Soboba Band of Luiseno Indians, archaeological monitoring shall be required for this project.

Prior to the issuance of grading permits, the developer/permit holder shall retain and enter into a monitoring and mitigation service contract with a qualified Archaeologist for services. This professional shall be known as the "Project Monitor." The Project Monitor shall be included in the pre-grade meetings to provide cultural/historical sensitivity training including the establishment of set guidelines for ground disturbance in sensitive areas with the grading contractors and special interest monitors. The Project Monitor shall manage and oversee monitoring for all initial ground disturbing activities and excavation of each portion of the project site including clearing, grubbing, tree removals, grading, trenching, stockpiling of materials, rock crushing, structure demolition and etc. The Project Monitor shall have the authority to temporarily divert, redirect or halt the ground disturbance activities to allow identification, evaluation, and potential recovery of cultural resources in coordination with the special interest monitors.

The developer/permit holder shall submit a fully executed copy of the contract to the Riverside County Planning Department to ensure compliance with this condition of approval. Upon verification, the Planning Department shall clear this condition.

NOTE:

1)The Project Monitor is responsible for implementing mitigation using standard professional practices for cultural resources. The Professional shall consult with the County, developer/permit holder and special interest group monitor throughout the process.

2)This agreement shall not modify any condition of approval or mitigation measure.

Parcel: 931-190-011

60. PRIOR TO GRADING PRMT ISSUANCE

60.PLANNING. 5

MAP - SPECIAL INTEREST MONITOR

RECOMMND

As a result of information submitted by the Soboba Band of Luiseno Indians and the Pechanga Band of Luiseno Indians, tribal monitoring shall be required for this project.

Prior to the issuance of grading permits, the developer/permit holder shall enter into contract and retain a monitor(s) designated by the Soboba Band of Luiseno Indians and the Pechanga Band of Luiseno Indians in a cooperative effort. These groups shall be known as the Special Interest Monitor (SI Monitor) for this project. The contract shall address the treatment and ultimate disposition of cultural resources which may include repatriation and/or curation in a Riverside County approved curation facility.

The SI Monitors shall be on-site during all initial ground disturbing activities and excavation of each portion of the project site including clearing, grubbing, tree removals, grading, trenching, stockpiling of materials, rock crushing, structure demolition and etc. The SI Monitors shall have the authority to temporarily divert, redirect or halt the ground disturbance activities to allow identification, evaluation, and potential recovery of cultural resources in coordination with the appropriate project Cultural Resources Professional.

The developer/permit holder shall submit a fully executed copy of the contract to the Riverside County Planning Department to ensure compliance with this condition of approval. Upon verification, the Planning Department (County Archaeologist) shall clear this condition.

NOTE:

1)The Cultural Resources Professional is responsible for implementing mitigation and standard professional practices for cultural resources. The Professional shall consult with the County, developer/permit holder and special interest group monitor throughout the process.

2)Special interest monitoring does not replace any required Cultural Resources monitoring, but rather serves as a supplement for consultation and advisory purposes for all groups interests only.

3)This agreement shall not modify any condition of approval

PARCEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

60. PRIOR TO GRADING PRMT ISSUANCE

60.PLANNING. 5 MAP - SPECIAL INTEREST MONITOR (cont.) RECOMMND

or mitigation measure.

4)The developer/permit holder shall contact the Planning Director for consideration of this condition after forty-five (45) days, if an agreement with the special interest groups has not been met.

5)Should repatriation be preferred, it shall not occur until after the Phase IV monitoring report has been submitted to the Riverside County Planning Department. Should curation be preferred, the developer/permit holder is responsible for all costs.

60.PLANNING. 6 MAP - OAK TREE PRESERVATION RECOMMND

The following tree preservation guidelines shall be incorporated in the project's approved grading, building, and landscaping plans:

1. No construction activities or placement of structures shall occur within the protected zone of any oak tree or oak woodland, except as provided herein. The protected zone is defined as a circle whose center is within the base of an oak tree, the radius of which is equal to an oak tree's height or ten (10) feet, whichever is greater. Where the outermost edge of an oak tree's drip line (the outermost edge of a tree's canopy) extends beyond this radius, that portion of the drip line shall also be included as part of that tree's protected zone. Protected zones do not apply to dead or dying oak trees, unless the tree's condition appears to be the result of human activity that indicates an intent to kill the tree.

2. Landscaping, trenching, or irrigation systems shall not be installed within the existing protected zone of any oak tree or oak woodlands, unless recommended by a qualified biologist.

3. Land uses that would cause excessive soil compaction within the protected zone of any individual oak tree shall be avoided. No recreational trails are permitted within the drip line of any individual oak tree.

4. Manufactured cut slopes shall not begin their downward cut within the protected zone of any individual oak tree, except as provided in these guidelines.

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

60. PRIOR TO GRADING PRMT ISSUANCE

60.PLANNING. 6

MAP - OAK TREE PRESERVATION (cont.)

RECOMMND

5. Manufactured fill slopes shall not extend within the protected zone, except as provided in these guidelines.

6. On-site retaining walls, if required, shall be designed to protect the root system of any individual oak tree by preserving the natural grade within the protected zone.

7. Redirection of surface runoff which results in increased soil moisture for an extended period of time within the drip line area of any individual oak tree shall be avoided. If unavoidable, a drainage system shall be designed to maintain the previous amount of soil moisture.

8. Sedimentation and siltation shall be controlled to avoid filling around the base of oak trees.

9. Redirection of surface runoff which results in decreased soil moisture for an extended period of time within the drip line area shall be avoided. If unavoidable, an irrigation system shall be designed to maintain the previous amount of soil moisture.

10. A construction zone at the interface with a protected zone shall be clearly delineated on the site in order to avoid impacts from construction operations and also to prevent the storage or parking of equipment outside the construction zone.

11. Dead or dying oak trees are necessary for the excavation of nest cavities by woodpeckers. Twelve species of birds use nest cavities. It is important to the health of the habitat to retain dead and dying oak trees that are not a hazard to humans. Such oak trees shall be retained in place unless determined to pose a health or safety hazard in which case they shall be discarded at an approved on-site location identified by the consulting biologist for habitat enhancement.

12. On-site to on-site, or on-site to off-site relocation of oak trees will not constitute mitigation and is considered the same as removal for the purposes of these guidelines.

13. Replacement of oak trees with plantings of saplings

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

60. PRIOR TO GRADING PRMT ISSUANCE

60.PLANNING. 6 MAP - OAK TREE PRESERVATION (cont.) (cont.) RECOMMND

or acorns is not required by these guidelines; however, replacement plantings may be used in addition to these guidelines when they are required by another agency or when it is determined to be biologically sound and appropriate to do so.

60.PLANNING. 7 MAP - BUILDING PAD GRADING RECOMMND

All grading for any proposed new dwellings and/or accessory buildings shall occur within the approved uilding pad sites shown on the TENTATIVE MAP.

60.PLANNING. 8 MAP - HILLSIDE DEV. STANDARDS RECOMMND

The land divider/permit holder shall cause grading plans to be prepared which conform to the Hillside Development Standards: all cut and/or fill slopes, or individual combinations thereof, which exceed ten feet in vertical height shall be modified by an appropriate combination of a special terracing (benching) plan, increase slope ratio (i.e., 3:1), retaining walls, and/or slope planting combined with irrigation.

60.PLANNING. 9 MAP - SLOPE GRADING TECHNIQUES RECOMMND

The land divider/permit holder shall cause grading plans to be prepared which show all cut slopes located adjacent to ungraded natural terrain and exceed ten (10) feet in vertical height to be contour-graded incorporating the following grading techniques:

1. The angle of the graded slope shall be gradually adjusted to the angle of the natural terrain.

2. Angular forms shall be discouraged. The graded form shall reflect the natural rounded terrain.

3. The toes and tops of slopes shall be rounded with curves with radii designed in proportion to the total height of the slopes where drainage and stability permit such rounding.

4. Where cut and/or fill slopes exceed 300 feet in horizontal length, the horizontal contours of the slope shall be curved in a continuous, undulating fashion.

CEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

60. PRIOR TO GRADING PRMT ISSUANCE

60.PLANNING. 10 MAP - GRADING & BRUSHING AREA RECOMMND

The land divider/permit holder shall cause grading plans to be prepared which restricts grading and brushing to public or private access roads, driveways, pad sites leach fields, existing agricultural areas, and fuel modification zones, as identified on the TENTATIVE MAP.

60.PLANNING. 11 MAP - POST & BEAM FOUNDATIONS RECOMMND

The land divider/permit holder shall cause grading plans to be prepared which reflect the utilization of post and beam foundations or the appropriate combination of split-level pads and post and beam foundations] when development is proposed on natural slopes of fifteen (15%) percent or greater measured over a horizontal distance of thirty (30) feet.

60.PLANNING. 15 MAP - PLANNING DEPT REVIEW RECOMMND

As part of the plan check review of the proposed grading plan for the subject property, the Department of Building and Safety - Grading Division shall submit a copy of the proposed grading plan, along with the applicable Log/Permit Numbers for reference, to the county Planning Department to be reviewed for compliance with the approved tentative map.

60.PLANNING. 16 MAP - IDENTIFY SPECIMEN TREES RECOMMND

The land divider/permit holder shall cause grading plans to be prepared for the subject site which identify those existing native trees which are to be preserved, as identified on the TENTATIVE MAP. Those trees not identified for preservation are to be replaced with specimen trees as approved by the Planning Director. Replacement trees and retained trees shall be noted on approved landscaping plans.

60.PLANNING. 20 MAP - OAK TREE EASMNT (2) RECOMMND

The land divider/permit holder shall submit a copy of the final draft conservation easement (for the dedication and management by a private or public land conservancy for the purposes of reducing and mitigating impacts to oak trees and all other existing biological resources) to the County Planning Department - Development Review Division for review and approval. Upon determination of its substantial conformance with the negotiated, unexecuted draft document,

PARCEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

80.E HEALTH. 1 ENV HEALTH CLEARANCE REQUIRED (cont.) RECOMMND

Upon building submittal, the applicant must submit to DEH for review at least three copies of detailed contoured plot plans drawn to an appropriate scale wet stamped and signed by AM/PAC and Associates showing the location of all applicable detail as required in the DEH Technical Guidance Manual.

If grading is proposed, the applicant must show all pertinent detail on scaled Precise Grading Plans wet stamped and signed by AM/PAC and Associates. Please note that any significant grading at the proposed OWTS area may require further soils percolation testing and/or engineering.

Furthermore, a floor plan of the proposed structure showing all proposed plumbing fixtures must also be submitted to DEH for review to ensure proper septic tank sizing.

80.E HEALTH. 2 DEH SITE EVALUATION REQUIRED RECOMMND

The Department of Environmental Health (DEH) site evaluation is required. The applicant must ensure that the groundwater detection boring (4" perforated pipe installed at a depth that extends at least 10 feet below the proposed leach line trench bottom) is installed for DEH staff to evaluate.

In addition, the applicant must ensure that the job property is clearly identified with a durable placard delineating the site address or APN# as well as ensure that all property corners are clearly staked or marked.
Please note that if groundwater encroachment is observed, further engineering as well as Regional Water Quality Control Board Clearance may be required.

FIRE DEPARTMENT

80.FIRE. 1 MAP-#50B-HYDRANT SYSTEM RECOMMND

Prior to the release of your installation, site prep and/or building permits from Building and Safety. Written certification from the appropriate water district that the required fire hydrant(s) are either existing or that financial arrangements have been made to provide them.

Also a map or APN page showing the location of the fire hydrant and access to the property.

Parcel: 931-190-011

80. PRIOR TO BLDG PRMT ISSUANCE

80.FIRE. 2 MAP - HFA REVIEW & APPROVAL RECOMMND

Fire department shall review and approve setbacks, water and access for all single family dwellings, additions and projections that are in a hazardous fire area.

PLANNING DEPARTMENT

80.PLANNING. 1 MAP - UNDERGROUND UTILITIES RECOMMND

All utility extensions within a lot shall be placed underground.

80.PLANNING. 7 MAP - SCHOOL MITIGATION RECOMMND

Impacts to the Murrieta Valley Unified School District shall be mitigated in accordance with California State law.

80.PLANNING. 9 MAP - FEE BALANCE RECOMMND

Prior to issuance of building permits, the Planning Department shall determine if the deposit based fees are in a negative balance. If so, any outstanding fees shall be paid by the applicant/developer.

90. PRIOR TO BLDG FINAL INSPECTION

E HEALTH DEPARTMENT

90.E HEALTH. 1 USE- E.HEALTH CLEARANCE REQ RECOMMND

Environmental Health Clearance prior to final inspection.

90.E HEALTH. 2 USE-FEE STATUS RECOMMND

Prior to final approval, the Environmental Health Department shall determine the status of the deposit based fees. If the fees are in a negative status, the permit holder shall pay any outstanding balances. Contact the accounting section at (951) 955-8982.

PLANNING DEPARTMENT

90.PLANNING. 2 GEN - CULTURAL RESOURCES RPT RECOMMND

Prior to final inspection of the first building permit, the developer/permit holder shall prompt the Cultural Resources Professional to submit two (2) copies of a Phase IV

PARCEL MAP Parcel Map #: PM35162

Parcel: 931-190-011

90. PRIOR TO BLDG FINAL INSPECTION

90.PLANNING. 2 GEN - CULTURAL RESOURCES RPT (cont.)

RECOMMND

Cultural Resources Monitoring Report that complies with the Riverside County Planning Department's requirements for such reports. The report shall include evidence of the required cultural/historical sensitivity training for the construction staff held during the pre-grade meeting. The Planning Department shall review the report to determine adequate mitigation compliance. Provided the report is adequate; the Planning Department shall clear this condition.

90.PLANNING. 6 MAP - QUIMBY FEES (2)

RECOMMND

The land divider shall submit to the County Planning Department - Development Review Division a duly and completely executed agreement with the County Service Area which demonstrates to the satisfaction of the County that the land divider has provided for the payment of parks and recreation fees and/or dedication of land for the TENTATIVE MAP in accordance with Section 10.35 of County Ordinance No. 460. The TENTATIVE MAP is located within an area of the County which does not have a CSA. If a CSA forms prior to the TENTATIVE MAP recording it must join the newly formed CSA and is at that time subject to QUIMBY Fees.

TRANS DEPARTMENT

90.TRANS. 1 MAP - WRCOG TUMF

RECOMMND

Prior to the issuance of an occupancy permit, the project proponent shall pay the Transportation Uniform Mitigation Fee (TUMF) in accordance with the fee schedule in effect at the time of issuance, pursuant to Ordinance No. 824.

Re: Tentative Parcel Map No. 35162 – EA41217, Ian Wilson Land Surveying/APN 931-190-011

Dear Mr. Straite:

We received the Comprehensive Project Review for a Tentative Parcel Map requesting a Schedule "H" subdivision of 20.31 gross acres into 3 parcels with a minimum lot size of 5 gross acres for two parcels and 10 gross acres for the third parcel. The project site is located north of Tenaja Road, south of Alpine View Lane, east of Calle Pino and west of Interstate 15 (I-15), in the County of Riverside.

The proposed project will not have a direct impact to the State Highway System (SHS). However, future residential development will have an indirect or cumulative impact on the SHS. No mitigation measures are required at this time.

Therefore, the Department solicits the County of Riverside to champion the development of policies and procedures that can evoke change by incorporating transportation planning into land use planning to balance or offset the transportation load on the regional transportation system.

Should this proposal be later modified please forward copies of revised plans as necessary so that we may reevaluate all proposed changes for potential impact to I-15. Also, if additional information is required regarding the Department's position please do not hesitate to contact Milele Robertson at (909) 383-6367 or me at (909) 383-6040.

Sincerely,

A handwritten signature in black ink, appearing to read "Nathaniel H. Pickett".

Re: Tentative Parcel Map 35162

Dear Mr. Straite:

This is to inform the Planning Department of the County of Riverside that I Roberta Christ owner of that property known as APN 931-190-011 as shown per Tentative Parcel Map 35162 do hereby inform the County that I have changed the Engineer of Record for my Tentative Parcel Map Ian Wilson Surveying to Inland Valley Development Consultants effective this date. Please replace Ian Wilson on all future correspondence to Jack W Bishop of Inland Valley Development Consultants.

Inland Valley Development will be amending the Tentative map per your preliminary conditions and preparing any additional Exhibits as required by the County of Riverside.

If you have any questions regarding the above request please call me at your convenience.

Respectfully submitted

Roberta Christ

**SUBJECT: WATER AVAILABILITY
TENTATIVE PARCEL MAP NO. 35162
PARCEL NO. 4 OF MAP BOOK 5/55-56; APN 930-190-011
[IAN WILSON]**

To Whom It May Concern:

Please be advised that the above-referenced property is located within the boundaries of Rancho California Water District (RCWD), and fronts existing 8-inch diameter water pipelines within Alpine View Lane and Aronimink Road (2550 Pressure Zone). Thus, water service would be available to proposed individual lots upon the completion of financial arrangements between RCWD and the property owner. The property owner should contact RCWD for fees and requirements.

In addition, water availability is contingent upon the property owner signing an Agency Agreement that assigns water management rights, if any, to RCWD.

Sanitary sewer service is not available to the subject project.

If you should have any questions or need additional information, please contact an Engineering Services Representative at this office.

Sincerely,

RANCHO CALIFORNIA WATER DISTRICT

RE: Tentative Parcel Map No. 35162
Proposal: Divide 20.31 acres into 3 lots
APN: 931-190-011

Dear Mr. Straite:

The Riverside County Waste Management Department has reviewed the proposed project located north of Tenaja Road, south of Alpine View Lane, east of Calle Pino, and west of Aronimink Road, in the Southwest Area Plan. This project has the potential to impact long-term landfill capacity by generating solid waste that requires disposal. In order to mitigate the project's potential solid waste impact, and to help the County's efforts to comply with State law in diverting solid waste from landfill disposal, the project's applicant should implement the following measures, as feasible:

- Recycle the project's construction and demolition (C&D) waste through a C&D recycling facility.
- Use mulch and/or compost in the development and maintenance of landscaped areas within the project boundaries. Recycle green waste through either onsite composting of grass, i.e., leaving the grass clippings on the lawn, or sending separated green waste to a composting facility.
- Consider xeriscaping and using drought tolerant/low maintenance vegetation in all landscaped areas of the project.
- Hazardous materials **are not** accepted at the Riverside County landfills. Any hazardous wastes, including paint used during construction must be properly disposed of at a licensed facility in accordance with local, state and federal regulations. For further information, please contact the Household Hazardous Waste Collection Program at 1-800-304-2226.

Thank you for the opportunity to review this proposal. If you have any questions, please call me at (951) 486-3351.

Sincerely,

Ryan Ross
Planner

NOTICE OF PUBLIC HEARING

A PUBLIC HEARING has been scheduled, pursuant to Riverside County Subdivision Ordinance No. 460, before the RIVERSIDE COUNTY DIRECTOR'S HEARING to consider the project shown below:

TENTATIVE PARCEL MAP NO. 35162 – Intent to Adopt a Mitigated Negative Declaration – Applicant: Inland Valley Development Consultants – Engineer/ Representative: Inland Valley Development Consultants – First Supervisorial District – Rancho California Zoning District – Southwest Area Plan: Rural: Rural Mountainous (R:RM) (10 Acre Minimum) – Location: Northerly of Tenaja Road, southerly Alpine View Lane, easterly of Calle Pino and westerly Aronimink Road – 20.31 Gross Acres - Zoning: Residential Agricultural- 5 Acre Minimum (R-A-5) – **REQUEST:** A Schedule "H" subdivision of 20.31 Gross Acres into there (3) parcels with a minimum lot size of five (5) Gross Acres- APN: 931-190-011. (Quasi-judicial)

TIME OF HEARING: 1:30 p.m or as soon as possible thereafter.
DATE OF HEARING: March 22, 2010
PLACE OF HEARING: RIVERSIDE COUNTY ADMINISTRATIVE CENTER
4080 LEMON STREET
12th FLOOR CONFERENCE ROOM 12A
RIVERSIDE, CA 92501

For further information regarding this project, please contact Matt Straite, at 951-955-8631 or e-mail mstraite@rctlma.org, or go to the County Planning Department's Director's Hearing agenda web page at http://www.tlma.co.riverside.ca.us/planning/content/hearings/dh/current_dh.html.

The Riverside County Planning Department has determined that the above project will not have a significant effect on the environment and has recommended adoption of a mitigated negative declaration. The Planning Director will consider the proposed project and the proposed mitigated negative declaration, at the public hearing. The case file for the proposed project and the proposed mitigated negative declaration may be viewed Monday through Friday, 8:30 a.m. to 4:30 p.m., (with the exception of Noon-1:00 p.m. and holidays) at the County of Riverside Planning Department, 4080 Lemon Street, 9th Floor, Riverside, CA 92502. For further information or an appointment, contact the project planner.

Any person wishing to comment on a proposed project may do so, in writing, between the date of this notice and the public hearing or appear and be heard at the time and place noted above. All comments received prior to the public hearing will be submitted to the Planning Director, and the Planning Director will consider such comments, in addition to any oral testimony, before making a decision on the proposed project.

If you challenge this project in court, you may be limited to raising only those issues you or someone else raised at the public hearing, described in this notice, or in written correspondence delivered to the Planning Director at, or prior to, the public hearing. Be advised that, as a result of public hearings and comment, the Planning Director may amend, in whole or in part, the proposed project. Accordingly, the designations, development standards, design or improvements, or any properties or lands, within the boundaries of the proposed project, may be changed in a way other than specifically proposed.

Please send all written correspondence to:

RIVERSIDE COUNTY PLANNING DEPARTMENT

PROPERTY OWNERS CERTIFICATION FORM

I, VINNIE NGUYEN, certify that on 1/5/2010

The attached property owners list was prepared by Riverside County GIS

APN (s) or case numbers Pm 35162 For

Company or Individual's Name Planning Department

Distance buffered ~~600'~~ 1000'

Pursuant to application requirements furnished by the Riverside County Planning Department, Said list is a complete and true compilation of the owners of the subject property and all other property owners within 600 feet of the property involved, or if that area yields less than 25 different owners, all property owners within a notification area expanded to yield a minimum of 25 different owners, to a maximum notification area of 2,400 feet from the project boundaries, based upon the latest equalized assessment rolls. If the project is a subdivision with identified off-site access/improvements, said list includes a complete and true compilation of the names and mailing addresses of the owners of all property that is adjacent to the proposed off-site improvement/alignment.

I further certify that the information filed is true and correct to the best of my knowledge. I understand that incorrect or incomplete information may be grounds for rejection or denial of the application.

Project Applicant *Address*

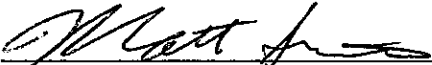

The proposed project is located northerly of Tenaia Road, southerly Alpine View Lane, easterly of Calle Pino and westerly Aronimink Road
Project Location

TENTATIVE PARCEL MAP NO. 35162 requests a Schedule "H" subdivision of 20.31 Gross Acres into 3 parcels with a minimum lot size of 5 Gross Acres for two parcels and 10 Gross Acres for the third parcel
Project Description

This is to advise that the Riverside County Planning Director, as the lead agency, has approved the above-referenced project on 3/22/2010 and has made the following determinations regarding that project:

- The project WILL NOT have a significant effect on the environment.
2. A Mitigated Negative Declaration was prepared for the project pursuant to the provisions of the California Environmental Quality Act (\$2,010.25+\$64)
 3. Mitigation measures WERE made a condition of the approval of the project.
 4. A Mitigation Monitoring and Reporting Plan/Program WAS adopted.
 5. A statement of Overriding Considerations WAS NOT adopted for the project.

This is to certify that the Mitigated Negative Declaration, with comments, responses, and record of project approval is available to the general public at: Riverside County Planning Department, 4080 Lemon Street, 9th Floor, Riverside, CA 92501.
