Prev. Agn. Ref.: 3.61, 11/2/10; 3.20, 2/5/08 | **District:** 5 | **Agenda Number:** 3.3

BACKGROUND:

On November 2, 2010, the Board of Supervisors approved In-Principle, the design work for slope armor protection along the northern bank of Smith Creek in order to protect the recently completed Larry D. Smith Correctional Facility Expansion No. 3 from flood damage.

On October 6, 2009, the Board of Supervisors approved a pre-qualified list of architectural and engineering firms to be retained on an as-needed basis. EDA has selected RBF Consulting in Temecula from the pre-qualified list to provide engineering design services for the slope armor protection project at the Larry D. Smith Correctional Facility. RBF's fee is noted below.

Additionally, it is the objective of EDA to ensure that the project is designed to the standards of the Riverside County Flood Control and Water Conservation District (District) for proper conveyance of maintenance responsibilities when the project is constructed. The District has agreed to plan review and inspection of the project when necessary. Estimates for these services by the District are provided below.

The approximate allocation of the project budget is as follows:

Design Fee	$ 98,100
CEQA/MSHCP/ Regulatory Permitting	$ 50,000
Project Management	$ 25,000
District Plan review	$ 30,000
Project Contingency	$ 25,000
TOTAL	**$ 228,100**
