## Exhibit A STANDARD AGREEMENT

### **SCOPE OF WORK**

The Department of Pesticide Regulation's (DPR) mission is to protect human health and the environment by regulating pesticide sales and use, and by fostering reduced-risk pest management which is mandated under the California Food and Agricultural Code section 11501 sets forth the general purposes of the legal code that fundamentally authorizes the State's pesticide regulatory program:

- To provide for the proper, safe, and efficient use of pesticides essential for production of food and fiber and for protection of the public health and safety.
- To protect the environment from environmentally harmful pesticides by prohibiting, regulating, or ensuring proper stewardship of those pesticides.
- To assure agricultural and pest control workers of safe working conditions where pesticides are present.
- To permit agricultural pest control by competent and responsible licensees and permittees under strict control of the Department of Pesticide Regulation and the County Agricultural Commissioners
- To assure consumers and users that pesticides are properly labeled and appropriate for the
  use designated by the label and that state or local governmental dissemination of information
  on pesticidal uses of any registered pesticide product is consistent with the uses for which the
  product is registered.
- To encourage the development and implementation of pest management systems, stressing
  application of biological and cultural pest control techniques with selective pesticides when
  necessary to achieve acceptable levels of control with the least possible harm to the public
  health, nontarget organisms, and the environment.

Pesticide use reporting is an ongoing program to collect and process data on full use reporting of agricultural and structural pesticide applications, per the Food Safety Act of 1989 (Chapter 1200, AB 2161). Under full use reporting, certain agricultural pesticide uses are required to be reported to the county agricultural commissioner (CAC), who, in turn, reports the data to DPR. DPR also collects reports from structural pest control businesses for pesticide use in schools. Full use reports include the amount and name of the pesticide applied, date and location (section, township, range) of the application, and, if the application was agricultural, the crop. The primary exceptions to the use reporting requirements are home and garden use, and most industrial and institutional use. The pesticide use reports are compiled by DPR and made available on disc and on DPR's Web site. DPR also provides support to the CACs on their administration of the computer systems and applications for the Restricted Material Permit Program, which is used to manage, track, and collect data for permits, operator identifications, and pesticide use reports.

- This Contract Agreement is entered into by and between the Department of Pesticide Regulation (DPR) and Riverside County (Contractor), P.O. Box 1089, Riverside, CA 92502-1089.
- The Contractor shall provide electronic submittal of pesticide use report records and shall provide data to DPR via electronic mail or the Internet, which shall meet the criteria outlined in paragraph 5 of this Exhibit.

PROCESS\_DT

Month and Year document processed. This is the month the document is

encoded and validated. Format is MMYY.

BATCH\_NO

Identify batched groups of documents for a particular month. Four digit code is divided into county number and a two-digit sequence number. This allows up to

100 batches to be processed each month for a county.

REPORT\_MONTH

Month of application. This is optional for record type 'A' but is required for record

type 'B'. this field and the next are keyed from the boxes for Month(1) and Year(2)

on the 33-017.

- B. This Agreement is valid and enforceable only if sufficient funds are made available to the State by the United States Government or the California State Legislature for the current year and/or any subsequent years covered under this Agreement. In addition, this Agreement is subject to any additional restrictions, limitations, or conditions enacted by the Congress or any statute enacted by the Congress or the California State Legislature which may affect the provisions, terms or funding of this Agreement in any manner.
