**BACKGROUND:**

In May 2000 the County of Riverside entered into an Enforcement and Voluntary Compliance Agreement ("Agreement") as settlement to litigation. One of the conditions of settlement included an obligation of the County of Riverside to ensure that "restroom, shower, laundry, and adequate parking facilities", be provided for the benefit of migrant farm workers of the Eastern Coachella Valley. The attached Professional Services Agreement proposes to contract with the Desert Alliance for Community Empowerment (DACE) for the provision of the required services on a temporary basis until such time as a permanent facility can be developed.

The site is currently at the corner of Avenue 68 and Hammond within the unincorporated Riverside County community of Mecca, which is adjacent to the Desert Communities Project Area boundaries but not within it. However, the provision of the proposed services benefits the project area by alleviating blight created by homelessness.

The project is currently managed by DACE and has been offered as compliance with the Agreement since 2000. The proposed attached agreement expands the use to two seasons per year and to include laundry facilities.

The Redevelopment Agency for the County of Riverside proposes to fund this effort with non housing Desert Communities Project Area funds as permitted by Section 33021.1 of the California Community Redevelopment Law which states that "In a city and county, redevelopment includes improving, increasing, or preserving emergency shelters for homeless persons or households. These shelters may be located within or outside of established redevelopment project areas. Not with standing any other provision of law, only redevelopment funds other than those available pursuant to Section 33334.3 may be used to finance these activities"

County Counsel has reviewed and approved this Agreement. Staff recommends approval.
