The Architect shall be allowed the option of providing on site services in lieu of in-office services for the express purpose of expediting the interpretation of drawings, processing of shop drawings and processing of clarification requests. The additional on-site time shall not be interpreted by the parties as any increased responsibility for actual construction observation.
- J. The laws of the State of California will govern the validity of this Agreement, its interpretation and performance. Litigation arising from this Agreement shall be brought in California Courts. The prevailing party will be entitled to recovery of all reasonable costs incurred, including staff time, court costs, attorneys' fees and other related expenses.
- K. It is acknowledged by both parties that the Architect's scope of services does not include any services related to asbestos or hazardous or toxic materials. In the event the Architect or any other party encounters asbestos or hazardous or toxic materials at the jobsite, or should it become known in any way that such materials may be present at the jobsite or any adjacent areas that may affect the performance of the Architect's services, the Architect may, at the Architect's option and without liability for consequential or any other damages, suspend performance of services on the project until the County retains appropriate specialist consultants or contractors to identify, abate and/or remove the asbestos or hazardous or toxic materials, and warrant that the jobsite is in full compliance with applicable laws and regulations.

L. Notwithstanding anything in this Agreement, the Architect, including the Architect's subconsultants, if any, shall not be responsible hereunder for any delay, default or nonperformance of this Agreement, if and to the extent that such delay, default or nonperformance is caused by an act of God, weather, accident, labor strike, fire, explosion, riot, war, rebellion, terrorist activity, sabotage, flood, epidemic, act of government authority in its sovereign capacity, labor, material, equipment or supply shortage, or any other cause beyond the reasonable control of such party.
