**Page 2 of 2**

Code Enforcement uses this money to inspect waste tire facilities, tire dealers, auto dismantlers, tire haulers, and other points of waste of waste tire generation to ensure compliance with all applicable laws and regulations, including the manifest system and investigate complaints, referrals and illegal tire disposal activities.

The grant request is for \$600,000 per year. CalRecycle staff has indicated that the county may be eligible for similar level funding over the next five years, subject to the availability of funds and population served. All costs to be funded must be directly and clearly related to implementation and operation of the program funded by this grant.

The Boards action today will allow for Code Enforcement to submit an updated resolution and continue to apply annually for the Waste Tire Enforcement grant through fiscal year 2017/2018. Code Enforcement will return with any grant awards to the Board on an annual basis for approval to receive funding per Board Policy A-30.

Board Policy A-30 on personnel does not apply since the staff assigned to this program have other duties not related to the tire grant.
