BR 12-053

Page 2

The x-ray baggage scanner proposed for purchase from Astrophysics, Inc. displays organic materials (narcotics) and inorganic materials (weapons and other metal objects) in different colors, giving the machine operator more information about the objects being screened.

County Corrections staff can utilize x-ray scanners to assist in identifying and reducing the introduction of weapons and contraband into the County jails; assist in the detection of weapons and contraband already in the possession of inmates. The usage of such scanners will contribute significantly to overall security in the jail system.

Price Reasonableness: County of Riverside Purchasing and Fleet Services, on behalf of the Sheriff Department-Coroner-PA released a Request for Quotes (RFP SHARC-165), mailing solicitations to eight vendors with another four requesting solicitation information of their own volition. Three responses were received. The quotes ranged from \$152,898 to \$235,935. Staff determined Astrophysics, Inc. to be the lowest responsive and responsible bidder to provide the scanners.
