The Honorable Board of Supervisors

RE: Interstate 15 at Clinton Keith Road Interchange Improvements in the City of Wildomar.

January 26, 2012

Page 2 of 3

BACKGROUND:

By Minute Order dated September 13, 2011 (agenda item 3.96) the Board authorized the Clerk of the Board to advertise for the reconstruction of the Interstate 15 at Clinton Keith Road Interchange and associated improvements, in the City of Wildomar.

During the advertisement period, four addenda were issued to all registered plan holders as a supplement to the specifications and special provisions. Bidders are required to acknowledge and to take into account all issued addenda on their Contractor's Proposal to be considered for award. The addenda were issued to clarify and modify the approved contract documents. The addenda are attached as Addenda No. 1 through No. 4.

Bids for the project were opened in the office of the Director of Transportation at 2:00 PM, Wednesday, October 26, 2011. Seven bids were received. The basis for the selection of a contractor is the lowest responsive and responsible bid for all schedules of work. The lowest responsive and responsible bid for all schedules of work was submitted by Griffith Company of Santa Fe Springs, CA, in the amount of \$13,518,675. The total bid price, submitted by Griffith Company is \$2,201,987 (14%) below the Engineer's Estimate.

The Clinton Keith Road Interchange is a very high priority improvement for the Cities of Wildomar and Murrieta and adjacent County areas. The existing Clinton Keith Road/I-15 interchange was constructed in 1979. The interchange is an important component of the area's traffic circulation system, and is a gateway to the City of Murrieta and the City of Wildomar. The improvements extend from west of Hidden Springs Road to east of Arya Drive.

Over the past ten years, traffic growth in the areas surrounding the existing interchange has resulted in a substantial increase in congestion at the interchange. The County has constructed several interim improvements over the years to help alleviate congestion, but there is a need to widen the existing overcrossing and build the ultimate interchange improvements.

The Clinton Keith overcrossing will be widened to accommodate 6 through lanes, dual left turn lanes, and right turn lanes approaching the ramps. The southbound exit ramp will be widened to 4 lanes and all other ramps will be widened to 3 lanes. In addition to the interchange improvements, an auxiliary lane will be added to both southbound and northbound I-15 to accommodate the heavy traffic volume, for a distance of approximately 1,000 feet north and south of the interchange.

The bid documents include the following schedules of work:

Base Bid: Primary items of work.

Alternate 1: Installation of pipeline casing, to be funded by the Gas Company in accordance with the executed funding agreement between the Gas Company and the County.

Construction costs for this project are being funded entirely by local funding programs. Fee programs participating in funding the improvements to Clinton Keith Road interchange at I-15 include the Transportation Uniform Mitigation Fee (TUMF) program, the Southwest Road and

Bridge Benefit District (RBBD) Zone A program, and the Development Impact Fee (DIF) program. The City of Murrieta has also provided funds.

DIF Major Improvement Funds (Fund 30525) were authorized under agenda item 3.35 on 6/19/2007.

A major funding source for this project is the Southwest Road and Bridge Benefit District. In May 2004 Supervisor Buster proposed, and the Board approved, the establishment of a special "Clinton Keith Road/I-15 Policy Area." This policy area provided for the early collection of RBBD fees at time of map recordation rather than on an individual building permit basis, which has allowed for sufficient funds to be collected on an accelerated basis to defray a major portion of the interchange costs.

The WRCOG Executive Committee has an item on its February 6th agenda to increase the TUMF amount by \$1.5 million, which was approved by the Southwest TUMF Zone Committee on January 19, 2012. This additional funding was the last piece needed to fully-fund the project since the construction bid savings under engineer's estimate was not as pronounced as we have seen on other projects.

The contractor is qualified.

The Contractor has executed the contract and has provided bonds which meet the requirements of the contract.
