Form 11 – Approval of ESRI as a Sole Source Provider for GIS software, ongoing software licensing and maintenance support, and enrollment in the ESRI Enterprise Advantage Program (EAP) agreement.

February 8, 2012

Page 2

**BACKGROUND (continued):** TLMA continues to use the latest GIS tools to produce maps, reports and analyze large volumes of data for internal and external customers including the Southern California Association of Governments (SCAG), UCR and many county departments. Some examples of these activities include support of all land use decisions, emergency services, redistricting, and regional planning.

Our GIS system is a significant long-term asset of the county and requires ongoing annual renewal of software licenses and maintenance support agreements, procurement of additional server and end user licenses from ESRI, and enrollment in the ESRI Enterprise Advantage Program (EEAP). These actions support the overall missions of TLMA and the various county departments and outside agencies, we serve.

Specifically, TLMA is requesting to (1) renew the required annual software license and maintenance agreements with ESRI; (2) procure additional ESRI GIS software annually as required to support our agency and its customers; and (3) annually enroll in the EEAP which provides training, technical GIS system consultative services, advise on GIS strategies and architectures, and product utilization.

**PRICE REASONABLENESS:** ESRI is the sole source for their proprietary software. The annual ESRI software license and maintenance expense for TLMA in the current fiscal year was \$105,434.72 (authorized for payment on 1/15/08 item 3.41). For next fiscal year, FY 2012/13, ESRI has quoted a price of \$114,761.55 for annual license and maintenance software support. The cost increase reflects the additional required software purchased in the current fiscal year by TLMA and includes ongoing annual maintenance expenses associated with the requested ArcGIS 10 Server Staging License (one-time expense to purchase the license is \$43,100).

ESRI has quoted TLMA a price of \$51,500.00 for enrollment in the Enterprise Advantage Program in FY 2012/13. This price is consistent with the current year and reflects ESRI's desire to avoid cost increases to the county. Enrollment in this program is in addition to the annual software maintenance expenses identified above.

Subject: Sole Source Procurement; Request for ESRI Software, Licenses, Maintenance and Support

The below information is provided in support of my Department requesting approval for a sole source. Outside of a duly declared emergency, the time to develop a statement of work or specifications is not in itself justification for sole source.

**1. Supply/Service being requested:**

TLMA is requesting to (1) renew the required annual software license and maintenance agreements with ESRI; (2) procure additional ESRI GIS software annually as required to support our agency and its customers; and (3) annually enroll in the EEAP which provides training, technical GIS system consultative services, advise on GIS strategies and architectures, and product utilization.

During the current fiscal year TLMA requests to purchase ESRI's ArcGIS 10 Server Staging License. This will enable TLMA to design a Test/Staging environment for ArcGIS 10 Applications.

**2. Supplier being requested: ESRI**

**3. Alternative suppliers that can or might be able to provide supply/service: NONE**

**4. Extent of market search conducted:**

TLMA utilizes an integrated collection of software products developed by ESRI to meet its customer service mission and create Geographic Information system (GIS) maps, reports, analysis and web services. This collection of software products, known as ArcGIS, has been used by the county and TLMA since 1988.

**5. Unique features of the supply/service being requested from this supplier, which no alternative supplier can provide:**

ESRI's ArcGIS software is a collection of proprietary applications. Technical and developmental resources are controlled or owned by ESRI, with restricted access to third party vendors or suppliers.

**6. Reasons why my department requires these unique features and what benefit will accrue to the county:**

TLMA continues to use the latest ESRI GIS tools to produce maps, reports and analyze large volumes of data for internal and external customers including the Southern California Association of Governments (SCAG), UCR, our own departments and many others from throughout the county. Some examples of these activities include support of all land use decisions, emergency services, redistricting, and regional planning.

**7. Price Reasonableness including purchase price and any ongoing maintenance or ancillary costs from the supplier:**

ESRI is the sole source for their proprietary software. The annual ESRI software license and maintenance expense for TLMA in the current fiscal year was \$105,434.72 (authorized for payment on 1/15/08 item 3.41). For next fiscal year, FY 2012/13, ESRI has quoted a price of \$114,761.55 for annual license and maintenance software support. The cost increase reflects the additional required software purchased in the current fiscal year by TLMA and includes ongoing annual maintenance expense associated with the requested ArcGIS 10 Server Staging License (one-time expense to purchase the license is \$43,100).

ESRI has quoted TLMA a price of \$51,500.00 for enrollment in the Enterprise Advantage Program in FY 2012/13. This price is consistent with the current year and reflects ESRI's desire to avoid cost increases to the county. Enrollment in this program is in addition to the annual software maintenance expenses identified above.

	<u>FY 2011/12</u>	<u>FY 2012/13</u>
Annual Software License Maintenance	\$105,434 (paid)	\$114,761 (requested)
EEAP	\$51,500 (paid)	\$51,500 (requested)
ArcGIS 10 Server Staging License	\$43,100 (requested)	
<b>Total Annual Expense</b>	<b>\$200,034</b>	<b>\$166,261</b>

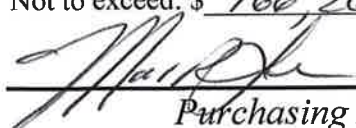

**8. Does moving forward on this product or service further obligate the county to future similar contractual arrangements or any ongoing costs affiliated with this sole source? (Maintenance, support, or upgrades, if so, please explain).**

Yes, the ESRI software requires annual licensing, maintenance and support renewal.

**9. Period of Performance:** Annually and for (4) additional one-year periods
