BACKGROUND:

On November 10, 2011, the Redevelopment Agency for the County of Riverside, processed an invoice from Southern California Edison (SCE) in the amount of \$47,062 for the installation of a new commercial services request for this project, which includes the installation and maintenance of the extension of a primary electric distribution line.

Due to a redesign of the primary distribution line, it was determined that the length of the cabling would be much shorter along with the elimination of a structure (pull box). With less cable required for connection to the transformer and loss of structure, the cost for this request is now \$42,372. This change created a refund to the County in the amount of \$4,690 and hence required a “Contract for Extension of Electric Distribution Line – Rule 15” to be executed. This contract is reflected on the Initial Recognized Obligation Schedule prepared by the Successor Agency staff.

Staff recommends that the Board approve the new “Contract for Extension of Electric Distribution Line – Rule 15, between Southern California Edison and the County of Riverside and accept the refund amount of \$4,690.

3. AGREEMENT

3.1 Responsibilities of Applicant

Construction

Applicant shall, in accordance with SCE's specifications and timing requirements for the Project:

- Perform route clearing, tree trimming, trenching, excavating, backfilling, and compacting;
- Furnish imported backfill material and dispose of trench spoil as required;
- Furnish, install and transfer ownership to SCE any substructures, conduit, and protective structures required other than the conduit portion of cable-in-conduit;
- Obtain any necessary construction permits for all work performed by Applicant under this Contract.

If Applicant elects to have SCE perform any part of this work, Applicant shall pay to SCE, as specified herein and before the start of construction, SCE's estimated-installed costs thereof.

Rights of Way

Applicant hereby grants to SCE the rights of way and easements for the Distribution Line Extension over the shortest, most practical, available, and acceptable route within Applicant's property for the purpose of making delivery of electric service hereunder. Such easement shall include the right of access and right to trim trees as necessary. Where formal rights of way, easements, land leases, or permits are required by SCE for installation of facilities on or over Applicant's property, or the property of others, Applicant understands and agrees that SCE shall not be obligated to install the Distribution Line Extension for the Project unless and until any necessary permanent rights of way easements, land leases, and permits, satisfactory to SCE, are granted to or obtained for SCE without cost to or condemnation by SCE

Advances

Applicant shall contribute or advance, before the start of construction, the refundable and non-refundable amounts as set forth in Appendix A to this Contract. This includes the costs for substructures and conduits which SCE had previously installed at its expense in anticipation of the current Distribution Line Extension. Any necessary riser conduit, conduit covering, and miscellaneous riser material required for the Distribution Line Extension shall be furnished or paid for by Applicant and shall be installed by SCE.

All contributions and advances by Applicant are taxable and shall include an Income Tax Component of Contribution (ITCC) at the rate provided in SCE's Preliminary Statement. ITCC will be either refundable or non-refundable depending on whether the corresponding contribution or advance is refundable or non-refundable.

Joint Applicants. The total contribution or advance from joint Applicants will be apportioned by SCE among the members of the group in such manner as Applicants mutually agree.

3.2 Responsibilities of SCE

Construction

SCE shall install, own, operate, and maintain the Distribution Line Extension to serve the Project. SCE will install only those facilities that, in SCE's judgment, will be used within a reasonable time to serve permanent loads

Refunds

SCE shall make refunds to Applicant in accordance with the provisions of Rule 15.

3.3 Ownership of Facilities

Title to and ownership of the Distribution Line Extension shall vest in SCE. Applicant does hereby agree that upon completion and acceptance by SCE of any Applicant-installed facilities, title to each and every component part thereof shall immediately pass to SCE free and clear of all liens and encumbrances.

3.4 Service Facilities

Service extensions shall be installed pursuant to SCE's Rule 16, Service Extensions.

3.5 Street Lighting Facilities

Street lighting and Distribution Line Extensions within the Project solely for service to street lighting equipment shall be installed in accordance with the appropriate street light tariff schedule. Street light revenues are not applicable toward allowances or refunds for Distribution Line Extensions. Electroliers shall be located at points determined by the governmental agency having jurisdiction over streets to be dedicated to that agency or by Applicant for privately owned and maintained streets open to and used by the general public.

3.6 Non-Refundable Discount Option

In lieu of contributing the total refundable amount, Applicant has the option of contributing, on a non-refundable basis, a percentage of such refundable amount as set forth in Appendix A to this Contract. Applicant has or has not chosen this option as indicated by signature on Appendix A.

3.7 Refunds

The total refundable amount shall be subject to refund, without interest, in accordance with the provisions of Rule 15, which include the following:

Residential. Refunds will be made on the basis of any new customers permanent load connected to the Distribution Line Extension which produces additional revenues to SCE. The refund will be deducted from the total refundable amount, and the remaining amount subject to refund will represent that portion of the Distribution Line Extension cost not supported by revenues.

Non-Residential. Refunds will be made on the basis of Applicant or any new customers permanent load connected to the Distribution Line Extension which produces additional revenues to SCE. SCE shall be responsible to review Applicant's actual net revenue for the first three years from the date SCE is first ready to serve. Applicant shall be from the date SCE is first ready to serve. Such review shall determine if additional net revenue justifies refunds to Applicant.

Unsupported Distribution Line Extension Cost. When any portion of a refundable amount has not qualified for a refund at the end of twelve (12) months from the date SCE is first ready to serve, Applicant will pay to SCE an ownership charge on the remaining refundable balance. The difference between the total refundable advance and any refunds made or eligible to be made to Applicant shall serve as the basis of a monthly ownership charge (" base "). Monthly ownership charges are calculated by multiplying the base times the SCE - financed added facilities percentage in Rule 2. Monthly ownership charges are distinct from the refundable amount and will normally be accumulated and deducted from refunds due to Applicant. This provision does not apply to individual residential Applicants.

The monthly ownership charges herein shall automatically increase or decrease if the California Public Utilities Commission should subsequently authorize a higher or lower percentage rate for the monthly ownership charges, effective on the date of such authorization.

Refund Period. The total refundable amount is subject to refund for a period of ten (10) years after the Distribution Line Extension is first ready to serve. Any unrefunded amount remaining at the end of the ten-year period shall become property of SCE.

3.8 Payment Adjustments

Contract Compliance. If, after six (6) months following the date SCE is first ready to serve residential loads for which allowances were granted, one (1) year for non-residential loads, Applicant fails to take service, or fails to use the service contracted for, Applicant shall pay to SCE an additional contribution, based on the allowances for the loads actually installed.

Excess Facilities. If the load information provided by Applicant results in SCE having installed facilities which are in excess of those needed to serve the actual loads, and SCE elects to reduce such excess facilities, Applicant shall pay to SCE its estimated total costs to remove, abandon, or replace the excess facilities, less the estimated salvage of any removed facilities.

3.9 Reimbursement to Applicant

Where mutually agreed upon by SCE and Applicant, Applicant may perform SCE's work or install facilities normally installed by SCE. Such work shall be in accordance with SCE's specifications and timing requirements. SCE shall reimburse Applicant SCE's estimated installed cost of such facilities and work by applying a credit toward Applicant's advance. Any amount not so credited shall be reimbursed to Applicant upon acceptance of the work and facilities by SCE.

3.10 Delays in Construction

Force Majeure.
