BACKGROUND: (Continued)

Gartner provides independent analysis regarding new technology and technology directions such as Social Networking, Communication Infrastructures, Radio Technologies, Security Directions and Conferencing Services.

Gartner provides industry technical experts that assist organizations in their vendor selections and assists organizations in making effective decisions and selections in a market where technology and communication providers continue to be volatile. In addition, they assist in pricing negotiations to ensure best values are received and comparable to other similar sized organizations.

In the fall of 2003, the California County Information Services Directors Association (CCISDA) went out to RFP for Industry Research firms to award to all responsible vendors. This was done in an effort to get better volume pricing through a consolidating government-purchasing vehicle. This three-year contract was awarded to Gartner in May 2004 and is intended for City, County and other local government entities. The County of Riverside took advantage of the contract award and was able to convert to the lower pricing realized from this effort – a 20% discount from standard cost. The contract award has been renewed by CCISDA for the period of May 1, 2012 to April 30, 2013.

The services utilized by Gartner are: monthly research notes (on trends and directions), access to Gartner analysts, on-line access to research, daily e-mails on the latest technology happenings, and access to Gartner conferences.

Subject: Sole Source Procurement for RCIT – Request for Approval and Renewal for Gartner's Core Research Services (May 1, 2012 through April 30, 2013) for the County of Riverside without Securing Competitive Bids

The below information is provided in support of my Department requesting approval for a sole source. Outside of a duly declared emergency, the time to develop a statement of work or specifications is not in itself justification for sole source.

1. Supply/Service being requested:

Gartner Research Subscription

2. Supplier being requested:

Gartner

3. Alternative suppliers that can or might be able to provide supply/service:

These research and advisory services are being purchased via a contract awarded by California Counties Information Services Director's Association (CCISDA) to Gartner. The County wishes to take advantage of the deep discounts offered by the CCISDA contract, and as Gartner is the only provider on the contract, there are no other alternatives to choose from.

4. Extent of market search conducted:

Consistent review of research offerings annually.

5. Unique features of the supply/service being requested from this supplier, which no alternative supplier can provide:

Since October of 1997, the County of Riverside has used Gartner to provide technology analysis, models and services to aid the County in the development of technology standards and guidelines, as well as provide independent analysis regarding technology directions. The County has used this subscription service to develop County technology standards and guidelines, and research new technologies and directions such as Social Networking, Communication Infrastructures, Radio Technologies, Security Directions and Speech Technologies. Gartner continues to be the number one provider in technology research, and is the most quoted research company in technology business. None of the other providers have a government specific practice.

¹ This is the upgrade to Gartner Core Research (renewal only) to get the features of Gartner Core Connect. \$2,500 is the upgrade fee for Core Reference licenses and \$3,500 for Advisor licenses. For example, a renewal only Core Advisor upgraded to Core Connect would be \$6,655 + \$3,500 = \$10,155. The upgrade fee cannot be pro-rated.

² Workgroup is a Gartner for IT Leaders Advisor, Enterprise for IT Leaders, or Industry Advisor Service with anywhere from 3 to 10 workgroup members. For example, the minimum workgroup configuration would have 4 users, the advisor level user and 3 workgroup members. Price shown is for the minimum Workgroup and the price to add each additional member up to 10 workgroup members.

³ Gartner for Technical Professionals services require a minimum spend on Gartner licenses. For agencies of 4,000 employees or less the minimum spend in Gartner licenses is \$30,400, for agencies over 4,000 employees it is \$60,800.
