FEDERALLY REQUIRED LEASE PROVISIONS

1. The Lessee for himself, his heirs, personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree, as a covenant running with the land, that in the event facilities are constructed, maintained, or otherwise operated on the said property described in this lease agreement for a purpose for which a U.S. Department of Transportation (DOT) program or activity is extended or for another purpose involving the provision of similar services or benefits, the Lessee shall maintain and operate such facilities and services in compliance with all other requirements imposed pursuant to Title 49, Code of Federal Regulations, DOT, Subtitle A, Office of the Secretary, Part 21, Nondiscrimination in Federally-Assisted Programs of the Department of Transportation-Effectuation of Title VI of the Civil Rights Act of 1964, and as said Regulations may be amended.
2. The Lessee for himself, his personal representatives, successors in interest, and assigns, as a part of the consideration hereof, does hereby covenant and agree, as a covenant running with the land, that: (1) no person on the grounds of race, color, or national origin shall be excluded from participation in, denied the benefits of, or be otherwise subjected to discrimination in the use of said facilities, (2) that in the construction of any improvements on, over, or under such land and the furnishing of services thereon, no person on the grounds of race, color, or national origin shall be excluded from participation in, denied the benefits of, or otherwise be subject to discrimination, and (3) that the Lessee shall use the premises in compliance with all other requirements imposed by or pursuant to Title 49, Code of Federal Regulations, Department of Transportation, Subtitle A, Office of the Secretary, Part 21, Non-Discrimination in Federally-Assisted Programs of the Department of Transportation-Effectuation of Title VI of the Civil Rights Act of 1964, and as said Regulations may be amended.
3. That in the event of breach of any of the above nondiscrimination covenants, the County of Riverside, herein called the County, shall have the right to terminate the lease agreement and to reenter and repossess said land and the facilities thereon, and hold the same as if said lease agreement had never been made or issued. This provision does not become effective until the procedures of 49 CFR Part 21 are followed and completed, including expiration of appeal rights.
4. The Lessee shall furnish its accommodations and/or services on a fair, equal, and not unjustly discriminatory basis to all users thereof, and it shall charge fair, reasonable, and not unjustly discriminatory prices for each unit or service; provided, however, that the Lessee may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar type of price reductions to volume purchasers.

5. **Non-compliance with Provision 4 above shall constitute a material breach thereof, and in the event of such noncompliance, the County shall have the right to terminate this lease agreement and the estate thereby created without liability therefore or, at the election of the County or the United States, either or both said Governments shall have the right to judicially enforce these Provisions.**
6. **The Lessee agrees that it shall insert the above five provisions in any sublease agreement by which said Lessee grants a right or privilege to any person, firm, or corporation to render accommodations and/or services to the public on the premises herein leased.**
7. **The Lessee assures that it will undertake an affirmative action program as required by 14 CFR Par 152, Subpart E, to ensure that no person shall on the grounds of race, creed, color, national origin, or sex be excluded from participating in any employment activities covered in 14 CFR Part 152, Subpart E. The Lessee assures that no person shall be excluded on these grounds from participating in or receiving the services or benefits of any program or activity covered by this subpart. The Lessee assures that it will require that its covered suborganizations provide assurances to the Lessee that they similarly will undertake affirmative action programs and that they will require assurances from their suborganizations, as required by 14 CFR 152, Subpart E, to the same effort.**
8. **The County reserves the right to further develop or improve the landing area of the airport as it sees fit, regardless of the desires or view of the Lessee and without interference or hindrance.**
9. **The County reserves the right, but shall not be obligated to the Lessee, to maintain and keep in repair the landing area of the airport and all publicly-owned facilities of the airport, together with the right to direct and control all activities of the Lessee in this regard.**
10. **This lease agreement shall be subordinate to the provisions and requirements of any existing or future agreement between the County and the United States relative to the development, operation, or maintenance of the airport.**
11. **There is hereby reserved to the County, its successors and assigns, for the use and benefit of the public, a right of flight for the passage of aircraft in the airspace above the surface of the premises herein leased. This public right of flight shall include the right to cause in said airspace any noise inherent in the operation of any aircraft used for navigation or flight through the said airspace or landing at, taking off from, or operating on the Desert Resorts Regional Airport.**

12. The Lessee agrees to comply with the notification and review requirements covered in Part 77 of the Federal Aviation Regulations in the event future construction of a building is planned for the leased premises, or in the event of any planned modification or alteration of any present or future building or structure situated on the leased premises.
13. The Lessee, by accepting this lease agreement, expressly agrees for itself, its successors and assigns that it will neither erect nor permit the erection of any structure or object, nor permit the growth of any tree, on land leased hereunder with a height that exceeds the height limitation formula specified in Part 77 of the Federal Aviation Regulations without first obtaining the approval of the DOT and the County, which approval can be sought by submitting FAA Form 7460-1 (copy attached). In the event that the aforesaid covenants are breached, the County reserves the right to enter upon the land leased hereunder and to remove the offending structure or object and cut the offending tree, all of which shall be at the expense of the Lessee.
14. The Lessee, by accepting this lease agreement, agrees for itself, its successors and assigns that it will not make use of the leased premises in any manner, which might interfere with the landing and taking off of aircraft from Desert Resorts Regional Airport or otherwise constitute a hazard. In the event that the aforesaid covenant is breached, the County reserves the right to enter upon the premises hereby leased and cause the abatement of such interference at the expense of the Lessee.
15. It is understood and agreed that nothing herein contained shall be construed to grant or authorize the granting of an exclusive right within the meaning of Section 308a of the Federal Aviation Act of 1958 (49 USC 1349a)
16. This lease agreement and all the provisions hereof shall be subject to whatever right the United States Government now has or in the future may have or acquire affecting the control, operation, regulation, and taking over of said airport or the exclusive or non-exclusive use of the airport by the United States during time of war or national emergency.

I. INTRODUCTION

Riverside County is the owner (sponsor) of the following six airports in Riverside County: Blythe, Chirlaco Summit, Desert Center, Desert Resorts Regional, French Valley, and Hemet Ryan. The Riverside County Economic Development Agency (EDA) is the county agency responsible for operation of the County's airports.

Minimum standards are established to promote and attract a professional level of aviation services to the County's airports while safeguarding the public's interest. The Minimum Standards provide a framework that strengthens the relationship between the Sponsor and the Fixed Base Operator (FBO). They offer information, advice and, where necessary, they provide strict regulation so that both the prospective and experienced FBO may have a firmer understanding of the many considerations which contribute to a safe, successful, and useful operation. The standards are intended to be the minimum requirements for those wanting to provide aeronautical services to the public at Riverside County airports. Operators are encouraged to exceed the minimum requirements.

FBOs are responsible for complying with the Minimum Standards and shall be familiar with revisions made to the Standards. All FBOs on the airports must comply with the standards herein as well as all applicable government regulations; however, leases executed prior to August 16, 1988, are exempt until lease renegotiations. The County's airports are subject to federal, state, and local rules and regulations. III. AIRPORT RULES AND REGULATIONS

A. Lease

All revenue generating, commercial and/or business activities, at County operated airports are required to secure a lease approved by the County Board of Supervisors (the "Board") prior to commencement of any commercial activity.

Prospective lessees should begin the process by requesting a meeting with County staff. The purpose of the initial meeting is to introduce staff, show the available sites, and answer any questions. At the conclusion of this meeting the prospective lessee will be asked to submit a Lease Application and proposal.

Upon receipt of a lease application and proposal, County staff will review the proposal and will provide a written response. Once an agreement has been reached on the deal points and development proposal, a lease will be developed for execution by the lessee. The lease shall be executed in three counterparts and all three copies shall be returned to the County. The County will then schedule the lease for consideration at the next available Board of Supervisors' meeting. *Please be advised that the County Board of Supervisors is the only entity that can provide a binding lease commitment and development may not proceed until the Board has approved the lease.*

Exclusive rights for any aeronautical activity will not be issued at any County airport. This is to ensure that airport patrons are offered competitive market prices for services.

B. Airport Layout

All new leases and new airport development shall comply with the current FAA approved Airport Layout Plan (ALP) for each airport. In addition, Desert Resorts Regional, French Valley, and Hemet Ryan airports have adopted Airport Master Plans and all new development shall comply with those master plans. Lessee proposals that conflict with ALPs and Master Plans will not be approved.

C. Signs

All signs (commercial, traffic, services, advertising, etc.) must receive written approval from the EDA Executive Director or Designee prior to their placement. The request for approval should include the size, location, and design of sign. All outdoor advertising shall comply with County Ordinance No. 348 and applicable federal and state laws. FAA Form 7480-1, *Building Design*,

Construction, and/or Alteration, must be submitted to the FAA Western Pacific Region for review and determination, with a copy of the form sent to the EDA Executive Director.

D. Building Design, Construction, and/or Alterations

All design, construction, and/or alterations shall be in compliance with Airport Design Guidelines. The County reserves the right to review and approve all architectural design of all construction or alterations to be performed on County operated airports.

The County reserves the right to review and approve the construction methods of all development at the County operated airports. All buildings shall comply with local codes and regulations as to their construction. FAA Form 7480-1, *Building Design, Construction, and/or Alteration*, must be submitted to the FAA for their review and assessment with a copy of the form submitted to the EDA Executive Director.

The County reserves the right to require a Performance Bond or Letter of Credit prior to the construction of any facility for the return of funds expended by the County in the event that the applicant defaults on any obligations.

E. Inspections

The County reserves the right to make periodic inspections of the leased premises during reasonable hours to ensure lease compliance and Lessee's adherence with all applicable regulations. Inspections, under this provision, may be conducted by County staff, County contractors, the FAA, and/or the State of California.

F. Flying Clubs

All flying clubs located at Riverside County operated airports shall be nonprofit organizations. All rights shall be equally shared between members. No member shall share in profits, earnings, salaries, or other forms of compensation. The Flying Club shall not be engaged in any type of commercial operation. A copy of the Flying Club's Charter and By-laws, or other comparable documents, must be filed with the Aviation Division. Flying clubs must submit annual financial reports and furnish the County with proof of insurance of the types listed on Appendix A.

A minimum of one (1) aircraft, properly certified, is required for a flying club. Flight instruction shall only be offered to club members. The instructor must be a club member or an instructor who is a lessee on the airport for the purpose of flight instruction.

G. Waiver from Minimum Standards

The EDA Executive Director has the discretion of approving or disapproving the waiver as it would apply to the future viability of the airport, subject to applicable provisions which may be contained in the tenant's lease approved by the Board. Waivers may be granted on a temporary basis, and may be withdrawn or terminated at the Director's discretion.

The FBO shall obtain and maintain insurance (See Appendix A), which contains an endorsement that the "County of Riverside, including its elected officials, officers, employees, and agents" are named as additional insured. Any insurance carrier providing insurance coverage hereunder shall be admitted to the State of California unless such requirement is waived, in writing, by the EDA Executive Director and/or the County Risk Manager. Each insurance company shall have an A.M. BEST rating of not less than A:VIII (A:8).

Proof of insurance must be submitted to the EDA Executive Director prior to commencement of operations and upon each insurance renewal. The FBO shall provide either 1) a properly executed original Certificate(s) of Insurance and 'certified original' copies of Endorsements effecting coverage as required herein, or 2) if requested to do so in writing by the EDA Executive Director and/or County Risk Manager, provide original Certified copies of policies including all endorsements and all attachments thereto, showing such insurance is in full force and effect. Certificate(s) shall contain the covenant that thirty (30) days written notice shall be given to the County of Riverside prior to any material modification, cancellation, expiration, or reduction in coverage of such insurance. Certificates of Insurance and the policies shall covenant that their coverage is primary and the County's insurance and/or deductibles and/or self-insured retentions or self-insured programs shall not be construed as primary.

If any policy contains a general aggregate limit, it shall apply separately to the Agreement with the County or be less than two (2) times the occurrence limit. All insurance policies are subject to review by the County's Department of Risk Management. The EDA Executive Director, upon the advice of the County Risk Manager, reserves the right to increase the limits, or require additional insurance coverage, beyond those set forth in these Minimum Standards, subject to applicable provisions of the tenant's lease.

J. Lot Size

Lot sizes may vary according to the type of operation. If available, aircraft tie-downs and hangar space, as well as automobile parking spaces, may be leased from the County to meet these minimum standards. The number of aircraft, hangar, or automobile parking spaces shall be determined during lease negotiations.

K. Outdoor Storage

No outside storage will be permitted except behind enclosed block walls, screened from public view, or as approved by the EDA Executive Director.

L. Maintenance

Lessee shall be responsible for the adequate maintenance of leased property and in compliance with all applicable Federal, State, and Local health and safety regulations.

IV. SCOPE OF SERVICES

Pollutant Lists

The airport is required to list any pollutants that have a reasonable potential to be present in the storm water discharge in significant quantities. The definition of significant quantities varies depending on the material. In general, a significant quantity of material larger than that consumed within a normal day's operations or a quantity resulting in spills beyond the immediate clean-up capabilities of the individual charged with the use of the materials. For regulated substances, a significant quantity is a "reportable" quantity of those substances. An estimate of the annual quantities of these pollutants in the discharge is also required. List substances and quantities in the following table (Table 3-1) and retain a copy in the SWPPP documentation.

Materials Management Practices:

- 1) All hazardous material spills must be reported to the airport manager, County Health and County Fire to insure immediate and proper cleanup and disposal. Liquid absorbent material is stored on site.
- 2) Areas where materials are stored and or have the possibility to spill are inspected monthly, with spot inspections during daily airport inspections
- 3) Insure material handlers have proper licenses and or training for each product being used.

Equipment Management Practices:

- 1) All equipment inspected monthly.
- 2) Routine maintenance to repair leaks and preventive maintenance scheduled to prevent leaks.
- 3) Drip pans installed under areas where leaks may occur.

Vehicle Management Practices:

- 1) Scheduled preventative maintenance.
- 2) Cleaning vehicles with biodegradable solvents and soaps, in designated areas only.
- 3) Routine daily inspections of vehicles.

Material Loading, Unloading, and Access Areas:

- 1) Insure all personnel are trained and or have proper license.
- 2) Restrict material-handling areas to trained personnel only.
- 3) Inspect equipment monthly to insure it is in proper working order and notify the responsible party if not.

Existing Structural Controls (to reduce pollutants in storm water):

1) Monthly inspections of all aircraft tie downs, auto parking lots, streets and hangar areas.

2) Daily spot inspections done during routine airport safety inspections.

Existing Non-Structural Controls (to reduce pollutants in storm water):

1) Use of dirt roads restricted to airport employees for inspections and maintenance.

2) Monthly inspections of all drains, inlets, flood control berms for unauthorized water runoff.

Methods of On-Site Disposal of Significant Materials:

1) All hazardous materials are disposed of in State approved sites or recycled. No hazardous materials are disposed of on the airport.

Methods of On-Site Storage of Significant Materials:

1) Aviation fuels are stored in above ground and under ground tanks or in fuel trucks.

2) Motor vehicle oils are stored inside buildings.

3) All pesticides and fertilizers are stored in building or on covered concrete slabs.

Activities that Generate Significant Quantities of Dust or Particulates (unpaved access roads or emissions from industrial processes):

1) All main access roads and parking lots are paved. Some airport maintenance roads are dirt but rarely used.

2) There are no significant industrial processes on the airport.

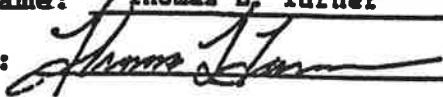

3) Dirt roads are restricted to airport personnel only.

STORM WATER POLLUTION PREVENTION PLAN INTRODUCTION AND PURPOSE

The California airport group members have submitted their Notices of Intent (NOI) and are now in the compliance phase of the California General Permit. The General Permit requires airport discharges to: eliminate non-storm water discharges; develop and implement a storm water pollution prevention plan; and perform monitoring of discharges to the storm water drainage system.

The required Storm Water Pollution Prevention Plan (SWPPP) must emphasize the storm water Best Management Practices (BMPs) and be designed to comply with Best Available Technology Economically Achievable (BAT) and Best Conventional Pollutant Control Technology (BCT). The SWPPP has two major objectives: 1) to identify the source of pollutants that affect the quality of the industrial storm water discharge; and 2) to describe practices which may be implemented to reduce the pollutants in the industrial storm water discharge.

The SWPPP is to be certified and implemented by October 1, 1992. Although the SWPPP is not submitted to the Regional Board, it must be retained on file at the airport for the duration of the permit. The SWPPP must be available for Regional Board and public review. The Regional Board may notify airport representatives if the SWPPP does not meet the minimal requirements. Within 30 days of the notice, the airport must submit a time schedule in which the required changes will be made. Once the changes have been made, the airport will provide written certification to verify the completed change. The documentation should then be retained as part of the SWPPP.

The airport is responsible for amending the SWPPP whenever there is a change in construction, operation, or maintenance, which will affect the quality or quantity of the industrial storm water discharge. The SWPPP should also be amended if the objective of controlling pollutants in the storm water discharge as not being achieved.

STORM WATER MANAGEMENT CONTROLS

This section of the SWPP describes storm water management controls, which are appropriate for the identified potential pollutant sources at the facility

The regulations require the following descriptions and information to be included in the storm water management control portion of the SWPPP:

- Prevention Maintenance and Inspections
- Good Housekeeping
- Spill Prevention and Response
- Storm Water Management Practices
- Sediment and Erosion Prevention
- Employee training

Preventative Maintenance

The preventative maintenance program should include the following:

- Identification of the equipment and systems targeted for the PM program
- Periodic inspections of identified equipment and systems
- Appropriate adjustments, repair, or replacement of parts
- Record keeping documenting inspections and follow-up action

Documentation and retention of records is a critical element of a good preventative maintenance and inspection program. A tracking and follow-up procedure is recommended to ensure that an appropriate response to the inspection findings has been made. All inspection documentation and records must be maintained with the SWPPP for a period of 5 years, Table 4-1 should be used to record inspection and maintenance activities, and any corrective actions implemented.

Good Housekeeping

Written Protocol

The protocols should be developed to meet the site-specific requirements of the airport.

The protocols should cover:

- 1) Daily inspections of tie down areas to look for leaks and spills.
- 2) Notices sent to F.B.O.s and aircraft owners to correct any problems.
- 3) Vehicle and equipment washing to be done in designated areas only.
- 4) No hangars, equipment storage or maintenance facilities are allowed to be hosed out. All oil and fuel will be cleaned by using oil absorbent materials or biodegradable solvents or soaps, then disposed of properly.

- 5) Drip pans and 100 pounds of absorbent material stored at each F.B.O. site near fuel storage and maintenance areas.
- 6) Drums and tanks containing used oil are to store in a covered area with retention.
- 7) The County and each co-Permittees will train all personnel on the proper handling of hazardous materials. List of agency's to notify if a spill occurs.
- 8) The designated airport representative will inspect the airport monthly to include co-Permittees areas to insure compliance with the S.W.P.P.P.
- 9) All unpaved roads restricted to necessary traffic.
- 10) All vehicle fueling to take place on paved areas to simplify clean up if a spill occurs. Also keeps cost down.

A protocol document should be included with the SWPPP document; Table 4-3 can be used for this purpose. Spill Prevention and Response

Table 4-4 will be used to record the spill control and countermeasures established by the airport. Please add any additional documentation relating to spill prevention countermeasures and control to this document.

NON-STORM WATER DISCHARGES

The California General Permit requires non-storm water discharges to be eliminated prior to the implementation of the SWPPP on October 1, 1992. The airports must certify that there are no non-storm water discharges present in the storm water drainage system. All airports in the group must certify and monitor outfalls for dry weather discharges.

The certification page, for non-storm water certification, is provided in the "Non-Storm Water Discharge Screening and Detection Manual." This page should be signed and a copy inserted into the SWPPP documentation. All forms filled out while surveying and evaluating outfalls should also be inserted into this section of the SWPPP document. A record of methods used, dates, and time conducted should be listed on the form.

For methods of detection and screening for non-storm water discharges, the SWPPP Committee should refer to the above referenced document for complete guidance.

If certification is not feasible, due to the inability to eliminate the non-storm water discharge because of the need for significant structural changes, the airport must notify the Regional Board prior to the October 1, 1992 deadline. This notification should include a summary of why the extension in eliminating non-storm water discharges is required and a schedule indicating when non-storm water discharges will be eliminated. The schedule is subjected to modification by the regional board. This is also required if the airport has applied for an NPDES permit for a non-storm water discharge and has not yet received approval. If the airport is unable to eliminate the non-storm water discharge, then a schedule for elimination of the discharge must be submitted to the Regional Board for approval. In no case will the Board allow for the elimination of non-storm water discharges to take longer than 3 years from the date of the NOI submittal.

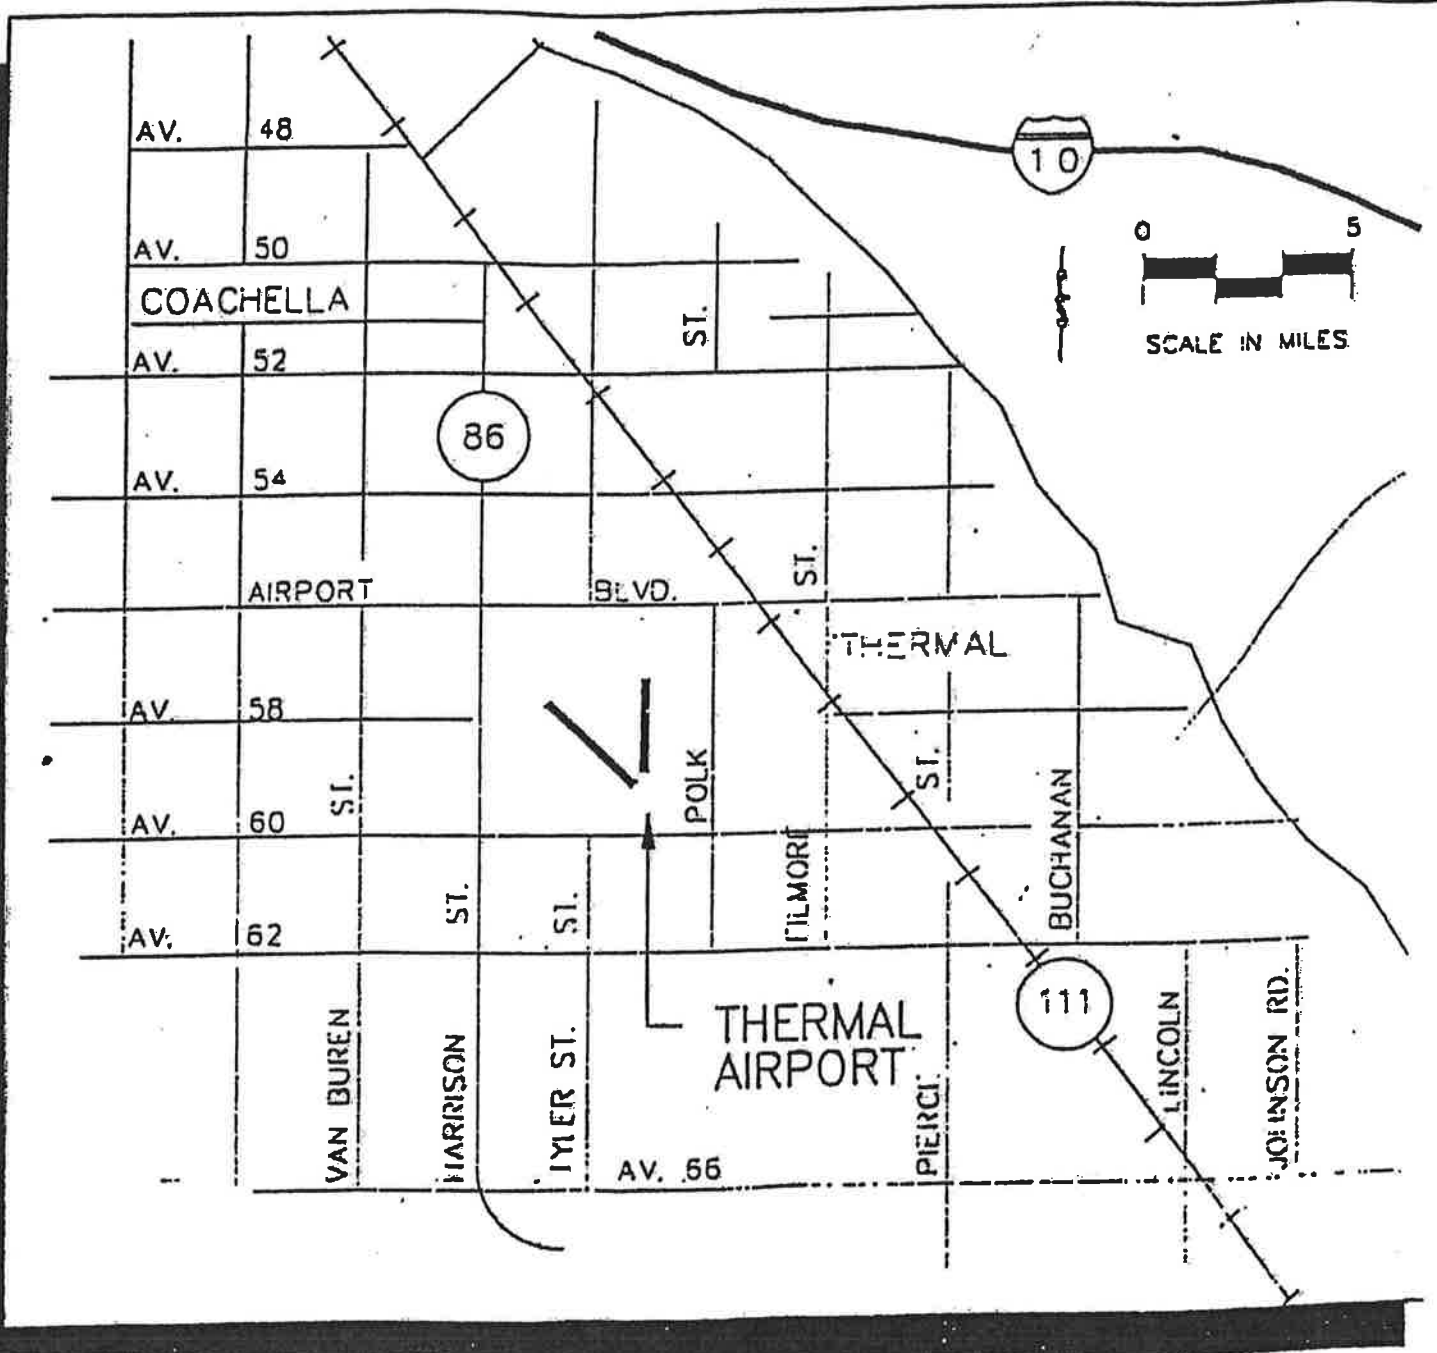

COMPLIANCE

Inspection

An annual inspection of the airport will be conducted by the Regional Board to verify elements of the SWPPP are accurate and have been implemented. The inspection may yield comments, which require a response to comments by the board and are required to be retained as part of the SWPPP. As listed under Section 311 of the Clean Water Act this SWPPP is considered a report that shall be available to the public.

Amendments to the SWPPP are required to include the signature and title of the person responsible for preparation of the SWPPP and the date.
