The Honorable Board of Supervisors

RE: Limonite Avenue Resurfacing Project, City of Eastvale and City of Jurupa Valley.

July 19, 2012

Page 2 of 2

BACKGROUND: The Transportation Improvement Program (TIP) provides for the resurfacing of Limonite Avenue from Eastvale Gateway entrance to Wineville Avenue within the City of Jurupa Valley. The project was programmed based on strong community concerns from both cities to provide relief from deteriorating pavement conditions. This project will also provide some safety improvements near the Caltrans Park and Ride facility by adding a raised median island from Wineville towards Interstate 15 (I-15); northbound ramps to restrict left turn movements from both Park and Ride facility and the shopping center. The left turn access to the Park and Ride facility for eastbound traffic will remain unchanged. The City of Eastvale made a request to extend the project limits westerly to Hamner Avenue as a cost effective measure in improving the pavement condition on Limonite within the City of Eastvale.

The City of Eastvale will be contributing funding for the improvements within the City. A cooperative agreement for this contribution to the County of Riverside will go to the Board prior to or concurrent with the award of the construction contract. The City's financial participation is estimated to be \$227,000. A separate cooperative agreement between the City of Jurupa Valley and the County of Riverside for the funding contribution for work within their city limits will also be going to the Board prior to or concurrent with the award of the construction project. The City of Jurupa Valley's share is estimated to be \$227,000.

The proposed road improvements include: cold planing the existing pavement, placing new asphalt concrete pavement and placing Slurry Seal Type II. Additional improvements include installation of new detector loops, striping, thermoplastic pavement markings, construction of median island, and other associated work. The Cities of Eastvale and Jurupa Valley concur with the proposed improvements.

The submitted plans and specifications have been approved as to form by County Counsel.

Environmental clearance is complete.
