Mr. Tim Reyes

Dear Mr. Reyes:

Re: JPR 06-09-28-01 Determination Letter – No Conservation
HANS No. 1484
Case No. PM33262
Assessor's Parcel Number(s): 572-060-067

This letter is to inform you that the HANS determination for the subject property was forwarded to the Regional Conservation Authority (RCA) for Joint Project Review (JPR) pursuant to Section 6.6.2 of the Western Riverside Multiple Species Habitat Conservation Plan (MSHCP). As stated on the attached "RCA JPR Review", the RCA has concurred with the County that no conservation is described for this property.

You may proceed with the planning process for this property. Please note, however, that this determination does not preclude compliance with any conditions incorporated into your final project approval.

If you have further questions concerning the attached comments, please contact the Environmental Programs Department at (951) 955-6892.

Project Information

Permittee: Riverside County
 Case Information: HANS 1484
 Site Acreage: 9.1 acres
 Portion of Site Proposed for
 MSHCP Conservation Area: 0 acres

Criteria Consistency Review

Consistency Conclusion: *The project is consistent with both the Criteria and Other Plan requirements*

Data:

Applicable Core/Linkage: Proposed Linkage 15
 Area Plan: REMAP

APN	Sub-Unit	Cell Group	Cell
572060067	SU ^A - Tripp Flats	Independent	5810

Comments:

- a. Proposed Linkage 15 is comprised of upland Habitat connecting the San Jacinto Mountains to existing Noncontiguous Habitat Block C. This Linkage provides Habitat and connectivity for Quino checkerspot butterfly, known to occur in this area. Other Planning Species that may use this Linkage include bobcat and mountain lion. Maintenance of habitat quality and contiguous habitat blocks is important for these species. The dimensional data provided for the Proposed Linkage 4 indicate a width ranging from 1,500 to 7,500 feet.
- b. Conservation within Cell 5810 will contribute to assembly of Proposed Linkage 15. Conservation within this Cell will focus on chaparral habitat. Areas conserved within this Cell will be connected to chaparral habitat proposed for conservation in Cell #5709 to the north and #5824 to the east. Conservation within this Cell will range from 5%-15% of the Cell focusing in the northeastern portion of the Cell.
- c. The Applicant is proposing to subdivide the property into two single family parcels. The Applicant is not planning to dedicate land to the MSHCP Conservation Area. However, the configuration and size of the proposed development is consistent with the Reserve Assembly objectives because the project is located in the southern portion of Cell 5810, away from the area described for MSHCP Conservation in the northeastern portion of the Cell. Therefore, the proposed project would not conflict with Reserve Assembly in this area.

Other Plan Requirements

Data:

Section 6.1.2 – Riparian/Riverine/Vernal Pool Mapping Provided:

Yes. Information was provided.

Section 6.1.3 – Narrow Endemic Plant Species Surveys Provided:

No. The project site is not located within a Narrow Endemic Plant Species Survey Area.

Section 6.3.2 – Additional Species Surveys Provided:

No. Additional species surveys are not required.

Section 6.1.4 – Guidelines Pertaining to Urban/Wildland Interface:

No. The project is not located within or adjacent to areas described for conservation under the MSHCP.

Comments:

- a. According to the biological report for the project prepared by Principe and Associates, dated August 23, 2006, the site does not include riparian/riverine or vernal pool features, or fairy shrimp habitat. "Natural watercourse supporting riparian vegetation and habitat are not present on the site... No other kinds of aquatic features are present on the site (i.e. vernal pools or swales, vernal pool-like ephemeral ponds, stock ponds or other human-modified depressions, etc.)" (Principe and Associates, 2006). The project demonstrates compliance with Section 6.1.2 of the MSHCP.
- b. The proposed project is not located in close proximity to areas that are currently within or proposed for conservation as a part of the MSHCP Conservation Area, and therefore the guidelines contained in Section 6.1.4 are not applicable.
