## Treasurer's Pooled Investment Fund

### "Living in Interesting Times"

The month of October rolled in with a breeze and blew out with a hurricane. Superstorm Sandy was the largest Atlantic hurricane on record, as well as the second costliest in U.S. history, exceeded only by Katrina in 2005 in both scope and cost. The freak late season storm devastated portions of the Caribbean, as well as New Jersey and New York; at least twenty two other states from Florida to Maine, west to Michigan and as far north as Canada felt her fury.

The storm surge hit New York City on October 29th, flooding streets, tunnels and subway lines along with vast areas of the Atlantic coastline knocking out power throughout the region, causing an unheard of closing of the New York Stock Exchange for two days. Thankfully, per our investment objectives, the County Treasury had ample liquidity on hand to fund our operations here in Riverside County as well as that of our depositors since there was an inability to transact business as we would normally do. Sandy left hundreds dead, thousands upon thousands homeless and millions without electricity and other essential services. Cost estimates exceed \$50 billion with impacts to be felt for years to come.

Just as with other disasters, Riverside County has answered the call for help. The Board of Supervisors will be sending financial assistance as well as county employees, at their option, can donate through this year's Employee Campaign. Our hearts, thoughts and prayers go out to the victims of this horrible storm.

We are gearing up for one of the most contentious presidential elections in modern history on November 6<sup>th</sup> along with some races and ballot initiatives that could change the political and economic landscape closer to home. The CBO estimates that the economy could go back into recession next year if we slide off the fiscal cliff without compromise from both sides of the aisle. Furthermore, Moody's has

threatened to cut the U.S. government's credit rating if some agreement is not made. Standard and Poor's made good on that promise last year. Meanwhile, economic news continues to show the economy recovering while the housing market keeps on moving in a positive direction as well.

The FOMC echoed most of the economic news on Oct 24<sup>th</sup> at its regularly scheduled meeting stating, "Economic activity has continued to expand at a moderate pace in recent months. Growth in employment has been slow, and the unemployment rate remains elevated. Household spending has advanced a bit more quickly, but growth in business fixed investment has slowed. The housing sector has shown some further signs of improvement, albeit from a depressed level. Inflation recently picked up somewhat, reflecting higher energy prices." The Fed also stated "The Committee remains concerned that, without sufficient policy accommodation, economic growth might not be strong enough to generate sustained improvement in labor market conditions. Furthermore, strains in global financial markets continue to pose significant downside risks to the economic outlook." In other words, the Fed will continue to provide stimulus to the markets for the foreseeable future.

Just as the late Robert Kennedy said at his Cape Town speech in June 1966, "There is a Chinese curse which says, may he live in interesting times. They are times of danger and uncertainty; Like it or not we live in interesting times. They are times of danger and uncertainty; but they are also more open to the creative energy of men than any other time in history." Let us hope he was right as we are surely living in a time of volatility; politically, socially and economically.
