

**SUBMITTAL TO THE BOARD OF SUPERVISORS  
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

**FROM:** Supervisor Stone

**SUBMITTAL DATE:** November 26, 2012

**SUBJECT:** Implementation of Recycling All Stars Award Recognition Program.

**RECOMMENDED MOTION:** That the Board of Supervisors:

Approve and participate in this presentation of the award recognition program.

**BACKGROUND:** Waste Management of the Inland Empire serves many areas in the County of Riverside and has initiated a program that recognizes residential and commercial customers for their outstanding commitment to recycling, diverting waste from landfills, and conserving natural resources.

Waste Management started the Recycling All Stars Program approximately ten years ago to serve as a recycling recognition program for residential and business customers throughout the Inland Empire. Every year, Waste Management's drivers and staff select the winners and present them with a recognition award and a gift basket with recycling promotional items. This is first year for this program in the unincorporated areas of the county. Waste Management of the Inland Empire will choose two residents and one business from each Supervisorial Districts that is serviced by the company. Currently the company serves residents in Districts 1, 2, 3 and 5.

It is believed that this award program will continue to bring recycling awareness and promote the recycling efforts within the County.

The Department of Environmental Health and the Department of Waste Management strongly support the responsible and environmentally friendly actions demonstrated by the recipients of the Recycling All Stars Program.

This program has no financial impacts to the County of Riverside.

A handwritten signature in black ink that reads "Jeff Stone".
