BACKGROUND:

The project site (Specific Plan Area) is approximately 200 acres, is located in the French Valley community, and is in the Sphere of Influence of the City of Murrieta. The General Plan amendment was initiated by the Board of Supervisors on March 31, 2009. The initiation was from Rural: Rural Residential to Community Development: Specific Plan.

The Planning Commission, through two public hearings (April 18, 2012 and October 17, 2012) recommended approval of the project, by a vote of 3-1 (Roth opposed, Sanchez abstained).

The Commission requested that the following text be added to the zoning Ordinance for the Project:

- All structures in Planning Area No. 3 shall have a height limitation of 15' not including parapets or architectural projections; except,
- 45' structures are permitted only in the northeast corner of the Planning Area No. 3, and then only where the building is opposite a commercial use. In addition, any three story building shall be stepped so that the third story is significantly set back from the ground floor. No vertical planes shall be permitted.

Additionally, some minor condition of approval modifications are being proposed:

- Six conditions of approval (60. E. Health.1, and 60. EPD. 2., 3., 4., and 5.) will be reorganized so they can be properly implemented when placed on future projects.
- One Transportation condition was deleted as it did not apply (60.Trans.1)

- 30. Planning. 11 added a maximum life to the Specific Plan. The Condition has been modified to clarify that the County would have to proactively begin revocation hearings should the life be exceeded. The permit cannot automatically expire.
