**QUALIFICATIONS FOR
NON-CORE PRIVILEGES**

- See Specific Criteria
- If desired, non-core privileges are requested individually in addition to requesting the core. Each individual requesting non-core privileges must meet the specific threshold criteria governing the exercise of the privilege requested including training, required previous experience, and maintenance of clinical competence.

PARTICIPATE IN TEACHING PROGRAM

SUPERVISION: Supervision is an intervention provided by a supervising practitioner to a resident physician. This relationship is evaluative, extends over time, and has the simultaneous purposes of enhancing the professional functions of the resident while monitoring the quality of professional services delivered. Supervision is exercised through observation, consultation, directing the learning of the residents, and role modeling. (Note: This definition is adapted from Bernard J.M., & Goodyear, R.K., *Fundamentals of Clinical Supervision*, 2nd Ed. Needham Heights, MA: Allyn & Bacon 1998.)

CRITERIA: To be eligible to participate in the teaching program, the applicant must:

- Be credentialed and privileged at RCRMC in accordance with applicable requirements.
- Provide care and supervision only for those clinical activities for which they are privileged.
- Be responsible for and must be personally involved in the care provided to individual patients in the inpatient and outpatient settings and must continue to maintain this personal involvement when residents are involved in the care of these patients.

MAINTENANCE OF PRIVILEGE:

- Enhance the knowledge of the residents and ensure the quality of care delivered to each patient by any resident. This is exercised by observation, consultation, and direction to the resident.
- Assure that medical care for each patient is delivered in an appropriate, timely, and effective manner.
- Participate in the resident's evaluation process according to accrediting and certifying body requirements.
- Direct the care of the patient and provide the appropriate level of supervision based on the nature of the patient's condition, the likelihood of major changes in the management plan, the complexity of care, and the experience and judgment of the resident being supervised.
- Within 24 hours of a patient's admission or transfer (including weekends and holidays), shall personally examine the patient, establish a personal and identifiable relationship with the patient, and record an appropriate history, physical examination, working diagnostic impression(s) and plan for treatment. The attending shall countersign and add an addendum to the resident's note detailing his/her involvement and supervision.
- Ensure that discharge or transfer of the patient from an inpatient team or clinic is appropriate, based on the specific circumstances of the patient's diagnoses and therapeutic regimen.
- Meet with each patient who received consultation by a resident and perform a personal evaluation in a timely manner based on the patient's condition, unless otherwise stated in the graduated levels of responsibility.
- Shall be immediately available to the resident in person or by telephone and able to be present within a reasonable period of time, 45 minutes, if needed.
- Available for supervision during clinic hours and ensure the coordination of care that is provided to the patients.
- Provide an appropriate level of supervision during the performance of procedures. (Determination of this level of supervision is generally left to the discretion of the attending physician within the content of the previously described levels of responsibility assigned to the individual resident involved. This determination is a function of the experience and competence of the resident and the complexity of the specific case.)
- Documentation of resident supervision will be monitored during the course of peer review. Any case reviewed in which it appears that there is inadequate supervision will be forwarded to the Professional Practice Evaluation Committee.

SUPERVISE ALLIED HEALTH PROFESSIONALS

SUPERVISION: The supervising employing/alternate supervising physician provides general supervision of the activities and services of the allied health professional. The supervising physician provides supervision and direction on any specific patient. The AHP is not allowed to perform any clinical activity/procedure that is not within the clinical privileges of the supervising physician. The supervising physician must be immediately available by electronic communication or on hospital premises for consultation/direction of the AHP.

CRITERIA: To be eligible to supervise allied health professionals, the applicant must:

- Be credentialed and privileged at RCRMC in accordance with applicable requirements.
- Provide care and supervision only for those clinical activities for which they are privileged.
- Be responsible for and must be personally involved in the care provided to individual patients in the inpatient and outpatient settings and must continue to maintain this personal involvement when AHPs are involved in the care of these patients.

MAINTENANCE OF PRIVILEGE:

- Ensure the quality of care delivered to each patient by any allied health professional. This is exercised by observation, consultation, and direction to the AHP.
- Assure that medical care for each patient is delivered in an appropriate, timely, and effective manner.
- Participate in the AHP's competency assessment process according to accrediting and certifying body requirements.
- Direct the care of the patient and provide the appropriate level of supervision based on the nature of the patient's condition, the likelihood of major changes in the management plan, the complexity of care, and the experience and judgment of the AHP being supervised.
- Assume responsibility for supervision or monitoring of the practice as stated in the appropriate hospital or medical staff policy governing AHPs.
- Be continuously available or provide an alternate to provide consultation when requested and to intervene when necessary.
- Assume total responsibility for the care of any patient when requested by the AHP or in the interest of patient care.
- Co-sign orders entered by the AHP on the medical record of all patients seen or treated by the AHP in accordance with applicable requirements.

ACKNOWLEDGMENT OF PRACTITIONER

I have requested only those privileges for which by education, training, current experience, and demonstrated performance I am qualified to perform and which I wish to exercise at RCRMC.

I understand that:

- a. In exercising any clinical privileges granted, I am constrained by hospital and medical staff policies and rules applicable generally and any applicable to the particular situation.
- b. Any restriction on the clinical privileges granted to me is waived in an emergency situation and in such situation my actions are governed by the applicable section of the Medical Staff Bylaws or related documents.
