

**SUBMITTAL TO THE BOARD OF SUPERVISORS
COUNTY OF RIVERSIDE, STATE OF CALIFORNIA**

262

FROM: Waste Management Department

SUBMITTAL DATE:
July 1, 2013

SUBJECT: Riverside Countywide Integrated Waste Management Plan – 2013 Five-Year Review Report

RECOMMENDED MOTION: That the Board of Supervisors:

1. Approve the Riverside Countywide Integrated Waste Management Plan (CIWMP), 2013 Five-Year Review Report, as prepared by the Riverside County Waste Management Department; and
2. Direct the General Manager-Chief Engineer of the Waste Management Department to forward the final report to the Department of Resources Recycling and Recovery (CalRecycle).

BACKGROUND: The CIWMP, 2013 Five-Year Review Report (Report) has been prepared by the Riverside County Waste Management Department on behalf of Riverside County, its twenty-eight (28) cities, and its Local Task Force (LTF) to comply with California law (Public Resource Code (PRC) Section 41822 and California Code of Regulations (CCR) Section 18788), which requires that the County's LTF review the CIWMP and its elements every five years, to assure that the County's waste management practices remain consistent with the hierarchy of waste management practices.

(continued)

Hans W. Kernkamp, General Manager-Chief Engineer

ATTACHMENTS FILED
WITH THE CLERK OF THE BOARD

BACKGROUND (continued):

The purpose of the review is to determine if the County's waste management practices remain consistent with the hierarchy of waste management practices that were established under the California Integrated Waste Management Act of 1989, et seq. (AB 939) and defined in PRC Section 40051, in order of priority, as: 1) Source reduction; 2) Recycling and composting; and, 3) Environmentally safe landfill disposal and transformation.

To determine if the Riverside CIWMP and its elements remain consistent or require revision, the Report includes a review of demographics, quantities of waste, funding sources for administration of the Countywide Siting Element and Summary Plan, administrative responsibilities, programs and implementation, permitted disposal capacity, and changes in available markets for recyclable materials. The draft report was mailed to city representatives and LTF members for review and comment. Comments were incorporated into the final report. The final report was sent via e-mail on May 28, 2013, to city representatives and the LTF members for final review by June 20, 2013. Three (3) comments were submitted to County staff and those comments have been addressed and included in the CIWMP. It has been determined that the final report adequately represents that the Riverside CIWMP and its elements, when augmented and updated through annual reports to the CIWMB, are still applicable in defining the goals, policies, and objectives to achieve compliance with AB 939 and in describing the County's waste management system, programs, funding, and implementation. If approved by the Board of Supervisors, as recommended, the Report will be submitted to CalRecycle for approval.

California Environmental Quality Act (CEQA)

The activity is covered by the general rule that CEQA applies only to projects which have the potential for causing a significant effect on the environment. It can be seen with certainty that there is no possibility that the project (approval of the five-year Review Report) could have a significant effect on the environment; therefore, the activity is not subject to CEQA.

PD # 136698v1

Five-Year CIWMP/RAIWMP Review Report Template

Public Resources Code (PRC) Sections 41770 and 41822, and Title 14, California Code of Regulations (CCR) Section 18788 require that each countywide or regional agency integrated waste management plan (CIWMP or RAIWMP), and the elements thereof, be reviewed, revised if necessary, and submitted to the Department of Resources Recycling and Recovery (CalRecycle) every five years. CalRecycle developed this Five-Year CIWMP/RAIWMP Review Report template to streamline the Five-Year CIWMP/RAIWMP review, reporting, and approval process.

A county or regional agency may use this template to document its compliance with these regulatory review and reporting requirements and as a tool in its review, including obtaining Local Task Force (LTF) comments on areas of the CIWMP or RAIWMP that need revision, if any. This template also can be finalized based on these comments and submitted to CalRecycle as the county or regional agency's Five-Year CIWMP or RAIWMP Review Report.

The Five-Year CIWMP/RAIWMP Review Report Template Instructions describe each section and provide general guidelines with respect to preparing the report. Completed and signed reports should be submitted to the CalRecycle's Local Assistance & Market Development (LAMD) Branch at the address below. Upon report receipt, LAMD staff may request clarification and/or additional information if the details provided in the report are not clear or are not complete. Within 90 days of receiving a complete Five-Year CIWMP/RAIWMP Review Report, LAMD staff will review the report and prepare their findings for CalRecycle consideration for approval.

If you have any questions about the Five-Year CIWMP/RAIWMP Review Report process or how to complete this template, please contact your LAMD representative at (916) 341-6199. Mail the completed and signed Five-Year CIWMP/RAIWMP Review Report to:

Dept. of Resources Recycling & Recovery
Local Assistance & Market Development, MS-25
P. O. Box 4025
Sacramento, CA 95812-4025

To edit & customize this template, the editing restrictions (filling in forms) must be disengaged. Select the Review tab, Protect Document, and then Restrict Formatting and Editing (uncheck editing restrictions). There is no password (options). Please contact your LAMD representative at (916) 341-6199 with related questions.

General Instructions: Please complete Sections 1 through 7, and all other applicable subsections. Double click on shaded text/areas () to select or add text.

SECTION 1.0 COUNTY OR REGIONAL AGENCY INFORMATION			
I certify that the information in this document is true and correct to the best of my knowledge, and that I am authorized to complete this report and request approval of the CIWMP or RAIWMP Five-Year Review Report on behalf of:			
County or Regional Agency Name Riverside County Waste Management Department		County(s) [if a RAIWMP Review Report] Riverside	
Authorized Signature		Title General Manager – Chief Engineer

Additional Information (optional)

SECTION 3.0 LOCAL TASK FORCE REVIEW

- a. In accordance with Title 14 CCR, Section 18788, the Local Task Force (LTF) reviewed each element and plan included in the CIWMP and finalized its comments
 at the LTF meeting. electronically (fax, e-mail) 5/28/2013 other (Explain):

- b. The county received the written comments from the LTF on 6/20/2013.

The City of Temecula contacted the County via e-mail on April 22, 2013 to inform them that there is a discrepancy in the disposal tonnage for the years 2008 and 2009 (13 and 9 tons respectively). County staff gathered the disposal tonnage information directly from the CalRecycle website. County staff spoke to Karla Miller at CalRecycle and she said that the difference in tonnage is not enough to warrant a revision in the CIWMP documents. The City of Temecula staff will work with their CalRecycle representative to correct the disposal tonnage reported on the CalRecycle website.

The City of Calimesa representative phoned the County on May 6, 2013 to inform staff that he had no corrections or comments on the CIWMP document.

The City of Riverside contacted the County via e-mailed the County on May 31, 2013 to inform staff that the City no longer sends material to the Synagro Biosolids. County staff spoke to Karla Miller at CalRecycle and was informed that CalRecycle had no procedure for removing a NDFE facility; however, a jurisdiction would make a note of any changes in the jurisdictions Electronic Annual Report (EAR). County staff will make a note in the CIWMP documents as well as the EAR of the closure.

- c. A copy of the LTF comments
 is included as Appendix A.
 was submitted to CalRecycle on

SECTION 4.0 TITLE 14, CALIFORNIA CODE of REGULATIONS SECTION 18788 (3) (A) THROUGH (H)

The subsections below address not only the areas of change specified in the regulations, but also provide specific analyses regarding the continued adequacy of the planning documents in light of those changes, including a determination on any need for revision to one or more of the planning documents.

Section 4.1 Changes in Demographics in the County or Regional Agency

When preparing the CIWMP Review Report, the county or regional agency must address at least the changes in demographics.

The following resources are provided to facilitate this analysis:

1. Demographic data, including population, taxable sales, employment, and consumer price index by jurisdiction for years up to 2006, are available at: <http://www.calrecycle.ca.gov/LGCentral/Tools/DivMeasure/JuAdjFac.asp>. Data for years beyond 2006 can be found on their following websites:
 - Population: [Department of Finance](#)
 - Taxable Sales: [Board of Equalization](#)
 - Employment: [Employment Development Department](#)

- Consumer Price Index: [Department of Industrial Relations](#)
2. The [Demographic Research Unit](#) of the California Department of Finance is designated as the single official source of demographic data for State planning and budgeting (e.g., find E-5 City/County Population and Housing Estimates under Reports and Research Papers and then Estimates).
 3. The Department of Finance's Demographic Research Unit also provides a list of [State Census Data Center Network Regional Offices](#).

Analysis

Upon review of demographic changes since 1990:¹

- The demographic changes since the development of the CIWMP do not warrant a revision to any of the countywide planning documents.
- These demographic changes since the development of the CIWMP warrant a revision to one or more of the countywide planning documents. Specifically, . See the revision schedule in Section 7.

Section 4.2 Changes in Quantities of Waste within the County or Regional Agency; and Changes in Permitted Disposal Capacity and Waste Disposed in the County or Regional Agency

A number of tools to facilitate the analysis and review of such changes in the waste stream are available from the following CalRecycle sources:

1. Various statewide, regional, and local disposal reports are available at <http://www.calrecycle.ca.gov/LGCentral/Reports/DRS/Default.aspx>.
 - a. CalRecycle's [Disposal Reporting System](#) tracks and reports the annual estimates of the disposal amounts for jurisdictions in California; additional California solid waste [statistics](#) are also available.
 - b. CalRecycle's [Waste Flow by Destination or Origin](#) reports include solid waste disposal, export, and alternative daily cover. They show how much waste was produced within the boundaries of an individual city, or within all of the cities comprising a county or regional agency. These data also cover what was disposed at a particular facility or at all facilities within a county or regional agency.
2. The [Waste Characterization Database](#) provides estimates of the types and amounts of materials in the waste streams of individual California jurisdictions in 1999.
3. CalRecycle's [Countywide, Regionwide, and Statewide Jurisdiction Diversion Progress Report](#) provides both summary and detailed information on compliance, diversion rates/50 percent equivalent per capita disposal target and rates, and waste diversion program implementation for all California jurisdictions. Diversion program implementation summaries are also available at <http://www.calrecycle.ca.gov/LGCentral/Tools/PARIS/jurpgmsu.asp> and <http://www.calrecycle.ca.gov/LGCentral/Reports/DiversionProgram/jurhist.aspx>.

Together, these reports help illustrate changes in the quantities of waste within the county or regional agency as well as in permitted disposal capacity. This information also summarizes each jurisdiction's progress in implementing the Source Reduction and Recycling Element (SRRE) and complying with the 50percent diversion rate requirement (now calculated as the 50 percent equivalent per capita disposal target), see Per Capita Disposal and Goal Measurement (2007 and Later) for details.

- The county or regional agency (if it includes the entire county) continues to have adequate disposal capacity (i.e., equal to or greater than 15 years).
- The county does not have 15 years remaining disposal capacity within its physical boundaries, but the Siting Element does provide a strategy⁷ for obtaining 15 years remaining disposal capacity.
- The county does not have 15 years remaining disposal capacity and the Siting Element does not provide a strategy² for obtaining 15 years remaining disposal capacity. Attached is a revision schedule for the Siting Element (Section 7).

⁷ Such a strategy includes a description of the diversion or export programs to be implemented to address the solid waste capacity needs. The description shall identify the existing solid waste disposal facilities, including those outside of the county or regional agency, which will be used to implement these programs. The description should address how the proposed programs shall provide the county or regional agency with sufficient disposal capacity to meet the required minimum of 15 years of combined permitted disposal capacity.

Analysis

- These changes in quantities of waste and changes in permitted disposal capacity since the development of the CIWMP do not warrant a revision to any of the countywide planning documents.
- These changes in quantities of waste and changes in permitted disposal capacity since the development of the CIWMP warrant a revision to one or more of the planning documents. Specifically, . The revision schedule(s) is included in Section 7.

Additional Analysis (optional)

Disposal Capacity

AB 939 Time Horizon	Available Permitted Disposal Capacity (Million Tons)	Projected Disposal Capacity Need (Minimum 15 Years Required)
1992 (SRRE) ⁸	42.8 as of 12/31/1991	More than 15 years
1995 (25% Diversion Mandate) ⁹	18.9 as of 12/31/1994 ¹⁰	13 years
1997 (Starting CIWMP 5-Year Review) ¹¹	20.2 as of 12/31/1997 ¹²	More than 15 years
2000 (50% Diversion Mandate) ¹³	21.5 as of 12/31/2000 ¹⁴	More than 15 years
2001 (Ending CIWMP 5-Year Review) ¹⁵	60.4 as of 12/31/2001 ¹⁶	More than 15 years
2006 (Ending CIWMP 5-Year Review) ¹⁷	59.3 as of 12/31/2006 ¹⁸	More than 15 years
2011 (Ending CIWMP 5-Year Review) ¹⁹	56.3 as of 12/31/2011 ²⁰	More than 15 years

⁸ The 1992 capacity data was excerpted from Table 8-1 of the Riverside County Source Reduction & Recycling Element (SRRE), dated June 1992. <http://www.rivcowm.org/opencms/ab939/pdf/55294-RC-SRRE-HHWE.pdf>

⁹ The 1995 capacity data was excerpted from Table 3-2 of the Riverside County Siting Element in the Riverside Countywide Integrated Waste Management Plan (CIWMP), dated September 1996. <http://www.rivcowm.org/opencms/ab939/pdf/55402-Riverside-CIWMP-Final-Draft-Sept1996.pdf>

¹⁰ The significant reduction in permitted disposal capacity shown in the 1995 Time Horizon was primarily the result of the loss of planned disposal capacity at the Coachella Landfill, due to discovery of an active fault, and at the Edom Hill, Anza, Mecca II, and Oasis Landfills, due to a decision not to expand beyond the 1993 footprints established under Subtitle D.

¹¹ The 1997 capacity data was excerpted from Revised Table 3-2 of the Riverside County Siting Element in the Riverside Countywide Integrated Waste Management Plan, dated September 1996. <http://www.rivcowm.org/opencms/ab939/pdf/55402-Riverside-CIWMP-Final-Draft-Sept1996.pdf>

¹² The increase in permitted disposal capacity shown in the 1997 Time Horizon was primarily due to permitted expansion of the Lamb Canyon Landfill in the same year.

¹³ The 2000 capacity data was excerpted from the 2000 Annual Report supplemental documentation: 2000 Annual Report Appendix E-2.

¹⁴ The increase in permitted disposal capacity shown in the 2000 Time Horizon was primarily due to permitted expansion of the Badlands Landfill in 1998.

¹⁵ The 2001 capacity data was excerpted from the 2001 Annual Report supplemental documentation: 2001 Annual Report Appendix E-2.

¹⁶ The significant increase in permitted capacity shown in the 2001 Time Horizon was primarily due to permitted expansion of the El Sobrante Landfill, which added 40 million tons of Countywide disposal capacity, starting in 2001.

¹⁷ The 2006 capacity data was excerpted from the 2007 Annual Report supplemental documentation: 2007 Annual Report Appendix E-1.

¹⁸ The increase in permitted capacity in the 2006 Time Horizon was primarily due to a gain in permitted capacity at Badlands Landfill and permitted expansion of the Lamb Canyon Landfill in 2006.

¹⁹ The 2011 capacity data was excerpted from the 2011 Annual Report supplemental documentation: 2011 Annual Report Appendix E-1.

Disposal Tons²¹

The cities of Wildomar, Menifee, Eastvale and Jurupa Valley incorporated during this Third Five-Year Review Report. Annual report data for these cities is not available on CalRecycle's website. The

available population and employment target information for these cities from CalRecycle²³ is listed in the table below as well as the CalRecycle approval dates of each jurisdiction's planning documents.

Jurisdictions	Year of Incorporation	Population Target	Employment Target	Planning Document Approval Date (CalRecycle)
Wildomar	2008	4.8	36.2	October 18, 2011
Menifee	2008	4.6	29.8	October 18, 2011
Eastvale	2010	3.6	25.9	August 21, 2012
Jurupa Valley	2011	N/A	N/A	Time extension was approved on 2/19/2013. The new deadline is 12/15/13.

Section 4.3 Changes in Funding Source for Administration of the Siting Element (SE) and Summary Plan (SP)

Since the approval of the CIWMP or the last Five-Year CIWMP Review Report (whichever is most recent), the county experienced the following significant changes in funding for the SE or SP:

Analysis

- There have been no significant changes in funding for administration of the SE and SP or the changes that have occurred do not warrant a revision to any of the countywide planning documents.
- These changes in funding for the administration of the SE and SP warrant a revision to one or more of the countywide planning documents. Specifically, _____. See Section 7 for the revision schedule(s).

Additional Analysis (optional)

The basic funding sources for the administration of the Countywide Siting Element and the Summary Plan have not changed significantly since the CIWMP was approved. The sources of funding continue to include tipping fees, generated through the County's disposal system of landfills and transfer/collection stations, and solid waste collection and franchise fees at the city or local level. The County continues to manage and maintain a countywide disposal system that provides for the disposal needs of all Riverside County residents. The user tipping fees generated from waste disposal and processing continue to be the primary source of revenues to fund capital expenditures, landfill operations, landfill closures, environmental remediation, waste inspection programs that allow for the diversion of recyclable materials and hazardous materials from landfill disposal, and a variety of AB 939 programs. The County also utilizes State grants, when available, to fund its recycling programs, such as tires, household hazardous waste and used oil collection.

Section 4.4 Changes in Administrative Responsibilities

The county experienced significant changes in the following administrative responsibilities since the approval of the CIWMP or the last Five-Year CIWMP Review Report (whichever is most recent):

Analysis

- There have been no significant changes in administrative responsibilities or the changes in administrative responsibilities do not warrant a revision to any of the planning documents.

²³ <http://www.calrecycle.ca.gov/LGCentral/reports/diversionprogram/JurisdictionDiversionPost2006.aspx>

- These changes in administrative responsibilities warrant a revision to one or more of the planning documents. Specifically, _____. See Section 7 for the revision schedule(s).

Additional Analysis (optional)

No significant changes have occurred in the administration of the CIWMP, other than normal personnel turnover. Within the unincorporated County, the Waste Management Department continues to be the responsible agency. The government agency or office in each jurisdiction that is responsible for solid waste management and diversion activities is identified below. The individuals responsible for AB 939 implementation in each jurisdiction are identified in the annual reports prepared by each jurisdiction.

Jurisdiction	Department or Office Responsible for Solid Waste Management Activities
Banning	Public Works Department
Beaumont	City Manager's Office
Blythe	Public Works Department
Calimesa	Public Works Department
Canyon Lake	Administration/City Clerk's Office
Cathedral City	Department of Environmental Conservation
Coachella	City Manager/Community Service
Corona	Public Works Department
Desert Hot Springs	City Manager's Office
Eastvale	City Manager's Office
Hemet	Public Works Department
Indian Wells	City Manager's Office
Indio	Environmental Programs
Jurupa Valley	City Manager's Office
La Quinta	City Manager's Office
Lake Elsinore	Public Works Department
Moreno Valley	Public Works Administration
Menifee	City Manager's Office
Murrieta	City Manager's Office
Norco	Public Works Department
Palm Desert	Community Services Division
Palm Springs	Public Works Department
Perris	Public Services Department
Rancho Mirage	City Manager's Office
Riverside	Department of Public Works
San Jacinto	Public Works Department
Temecula	Community Services Department
Wildomar	Public Works Department
Unincorporated	Waste Management Department

Section 4.5 Programs that Were Scheduled to Be Implemented, But Were Not

This section addresses programs that were scheduled to be implemented, but were not; why they were not implemented; the progress of programs that were implemented; a statement as to whether programs are meeting their goals; and if not, what contingency measures are being enacted to ensure compliance with Public Resources Code Section 41751.

1. Progress of Program Implementation

a. SRRE and Household Hazardous Waste Element (HHWE)

- All program implementation information has been updated in the CalRecycle Electronic Annual Report (EAR), including the reason for not implementing specific programs, if applicable.
- All program implementation information has not been updated in the EAR. Attachment _____ lists the SRRE and/or HHWE programs selected for implementation, but which have not yet been implemented, including a statement as to why they were not implemented.

b. Nondisposal Facility Element (NDFE)

- There have been no changes in the use of nondisposal facilities (based on the current NDFEs and any amendments).
- Attachment _____ lists changes in the use of nondisposal facilities (based on the current NDFEs).

c. Countywide Siting Element (SE)

- There have been no changes to the information provided in the current SE.
- Attachment _____ lists changes to the information provided in the current SE.

d. Summary Plan

- There have been no changes to the information provided in the current SP.
- Attachment _____ lists changes to the information provided in the current SP.

2. Statement regarding whether Programs are Meeting their Goals

- The programs are meeting their goals.
- The programs are not meeting their goals. The discussion that follows in the analysis section below addresses the contingency measures that are being enacted to ensure compliance with PRC Section 41751 (i.e., specific steps are being taken by local agencies, acting independently and in concert, to achieve the purposes of the California Integrated Waste Management Act of 1989) and whether the listed changes in program implementation necessitate a revision to one or more of the planning documents. _____

Analysis

- The aforementioned changes in program implementation do not warrant a revision to any of the planning documents.
- Changes in program implementation warrant a revision to one or more of the planning documents. Specifically, _____. The revision schedule(s) is included in Section 7.

Additional Analysis (optional)

See the following table for Current Facilities Identified and Described in Riverside County Nondisposal Facility Element (NDFE) and in City NDFEs

(This page left intentionally blank)

(This page left intentionally blank)

Section 4.6 Changes in Available Markets for Recyclable Materials

The county experienced changes in the following available markets for recyclable materials since the approval of the CIWMP or the last Five-Year CIWMP Review Report (whichever is most recent):

Analysis

- There are no significant changes in available markets for recycled materials to warrant a revision to any of the planning documents. Specifically, the markets for recyclable materials are dynamic; market supply, demand, and prices often fluctuate in response to the economy and other variables, such as increasing regulatory requirements, which can potentially add to operating cost or create siting issues.
- Changes in available markets for recycled materials warrant a revision to one or more of the planning documents. Specifically, _____. The revision schedule(s) is included in Section 7.

Additional Analysis (optional)

Section 4.7 Changes in the Implementation Schedule

The following addresses changes to the county's implementation schedule that are not already addressed in Section 4.5 above.

Analysis

- There are no significant changes in the implementation schedule to warrant a revision to any of the planning documents.
- Changes in the implementation schedule warrant a revision to one or more of the planning documents. Specifically, _____.

Additional Analysis (optional)

Note: Consider for each jurisdiction within the county or regional agency the changes noted in sections 4.1 through 4.7 and explain whether the changes necessitate revisions to any of the jurisdictions' planning documents.

SECTION 5.0 OTHER ISSUES OR SUPPLEMENTARY INFORMATION (optional)

The following addresses any other significant issues/changes in the county and whether these changes affect the adequacy of the CIWMP to the extent that a revision to one or more of the planning documents is needed:

Analysis

The overall framework of the CIWMP is still applicable. The goals, objectives, policies, waste management infrastructure, funding sources and responsible administrative organizational units noted throughout the CIWMP still are accurately described. Nearly all of the selected and contingent programs have been, and are continuing to be, implemented. The existing and selected programs for each contingent program were reviewed. Nearly all programs have been implemented. The annual reports and the Planning Annual Report Information System (PARIS) for the County and each city are updated yearly and reviewed by CalRecycle staff. Although there have been some changes in program implementation, schedules, costs and results, these changes are not considered to be

significant. Although a few programs have been either revised or deleted, overall program implementation has been discussed in all prior annual reports and the PARIS has been kept updated. The unincorporated County and cities continue to monitor evolving compliance issues. Consequently, the LTF, the County and its cities have decided that the most effective allocation of available resources at this time is to continue to utilize the existing CIWMP as a planning tool augmented by the annual reports. For these reasons, the County deems that a revision of its CIWMP is not warranted or justified at this time.

SECTION 6.0 ANNUAL REPORT REVIEW

- The Annual Reports for each jurisdiction in the county have been reviewed, specifically those sections that address the adequacy of the **CIWMP** elements. No jurisdictions reported the need to revise one or more of these planning documents.
- The Annual Reports for each jurisdiction in the county have been reviewed, specifically those sections that address the adequacy of the CIWMP or RAIWMP elements. The following jurisdictions reported the need to revise one or more of these planning documents, as listed.

Analysis

SECTION 7.0 REVISION SCHEDULE (if required)

The County deems that a revision of its CIWMP is not warranted or justified at this time.

Appendix A – LTF Comments

Subject: RE: Five-Year Review Report tonnage numbers from CalRecycle

Good Morning Dale –

I spoke to Karla and she said that the amount of the discrepancy in disposal tonnage for the City is not critical to the 2013 Five Year Review. Hopefully, Sasha will find out where the difference is coming from. The County recently had questions about some calculations and they were from rounding errors and potentially data entry mistakes.

Thank you,
Kathleen Utter

Subject: RE: Five-Year Review Report tonnage numbers from CalRecycle

Thanks Kathleen. There's a slight discrepancy with CalRecycle's data for years 2008 and 2009; they're off by 13 and 9 tons respectively. I'll work with them to resolve it. How critical is the accuracy of the data for the 5-year report?

Thanks,

Dale West

Subject: Five-Year Review Report tonnage numbers from CalRecycle

Dale –

Attached are the sheets that I took from the CalRecycle website for tonnage information. The information was from the DRS: Single-year Countywide Origin Detail www.calrecycle.ca.gov/lgcentral/Reports/DRS/Origin/WFOrgin.aspx and there is a note that the data is updated continuously, but they do not list the dates that it is updated.

Please do not hesitate to contact me with any further questions or concerns.

Thank you,

Frances,

The City of Riverside offers the following comment on the subject report:

The table on page 18 lists disposal locations. We no longer dispose of solids at Synagro. We last disposed of biosolids at Synagro in 2008. We currently have a contract with Terra Renewal to haul and dispose of our biosolids. Terra Renewal disposes of our biosolids at two locations:

- Farmland application in Arizona (three farm sites in Mesa)
- Nursery Products Composting facility in Helendale, CA

Thank you for the opportunity to review the report.

Best Regards,

Mike Gardner
Councilmember, Ward 1
City of Riverside

Subject: CIWMP 5-Year Report

LTF Members and City Representatives:

On April 8, 2013, a draft 2013 Five-Year Review Report dated April 2013 was mailed to each LTF member and city representative for comments. During the April 18, 2013, LTF meeting, County staff gave an overview of the report. Comments were requested by May 6, 2013. The LTF and city representatives reviewed the report and the following comments were received:

The City of Temecula contacted the County via e-mail on April 22, 2013 to inform them that there is a discrepancy in the disposal tonnage for the years 2008 and 2009 (13 and 9 tons respectively). County staff gathered the disposal tonnage information directly from the CalRecycle website. County staff spoke to Karla Miller at CalRecycle and she said that the difference in tonnage is not enough to warrant a revision in the CIWMP documents. The City of Temecula staff will work with their CalRecycle representative to correct the disposal tonnage reported on the CalRecycle website.

The City of Calimesa representative phoned the County on May 6, 2013 to inform staff that he had no corrections or comments on the CIWMP document.

The County incorporated the comments received during the public review period into the final report. In our April 8, 2013 memo, it was anticipated that the final report would be discussed at an LTF meeting planned for June 20, 2013. As there were no significant comments on the draft report and no other pending items that require LTF action, the final report is being transmitted via e-mail rather than at a meeting. According to AB341 regulations, no LTF action is required.

Pending no significant comments, the attached document will be presented to the Riverside County Board of Supervisors for approval in July 2013. Once the Riverside County Board of Supervisors approves the 2013 Five-Year Review Report, the document will be forwarded to CalRecycle for final approval.

Upon review, please forward any comments or suggestions to Kathleen Utter, RCWMD staff, at kutter@co.riverside.ca.us, or 951-486-3286. All comments must be received no later than 5:00 p.m. on June 20, 2013.
