ARROYO DEL TORO CHANNEL

STAGE 1

PROJECT NO.

3-0-0170

The Arroyo Del Toro Channel, Stage 1 project involves the construction within the City of Lake Elsinore of a combination of open channel and reinforced concrete box. Beginning at Collier Marsh, an open trapezoidal channel extends southeast 560' upstream to Highway 74 (Riverside Drive), then as a reinforced concrete box continues to the northeast for 2,100' under Highway 74 (Collier Avenue) and through Elsinore Valley Cemetery. The alignment turns again to parallel the I-15 Freeway for 770' as concrete rectangular channel, then as a double 24" reinforced concrete pipe which connects to existing culverts under the I-15 Freeway.
