RECOMMENDED MOTION: (continued from page 1)

3. Approve the Agreement for Purchase and Sale of Real Property between the District and the Eastern Municipal Water District ("Agreement") and authorize the Chairman of the Board to execute the Agreement and Easement Deeds for the conveyance of Easement Interests in Real Property from the District to the Eastern Municipal Water District; and
4. Authorize the District's General Manager-Chief Engineer, or his designee, to execute any other documents and administer all actions necessary to complete the transaction.
5. Direct the Clerk of the Board to file the attached Notice of Exemption with the County Clerk upon approval of the Project.

BACKGROUND:

The District owns fee simple title to RCFC Parcel Nos. 7020-101A and 7020-102K with Assessor's Parcel Numbers 909-120-016 and 909-120-055, respectively, for the future improvement of Murrieta Creek Channel, Phase II. The property is located in the city of Temecula parallel to Diaz Road. The two (2) parcels consist of approximately 19.36 acres. Eastern Municipal Water District ("EMWD") currently owns and operates a lift station within APN 909-120-044 which is surrounded by RCFC Parcel No. 7020-102K.

EMWD contacted the District to express a desire to acquire easements from the District. The District has reviewed plans for the construction of 4,245 lineal feet of 30-inch diameter force main from the existing Warm Spring's Lift Station. This facility would be traversing District Parcel Nos. 7020-101A and 7020-102K along Diaz Road, approximately 1,493 lineal feet. EMWD would require variable width easements between 25 and 35 feet to install, construct, operate and maintain this pipeline facility. The District has determined that proposed pipelines described in the construction plans would not interfere with the future development of Murrieta Creek Channel or the use of the real property for the District's purposes. EMWD has provided an independent appraisal establishing the adequate just compensation to be \$8,400 for the two (2) easements, being approximately 30,578 square feet. EMWD desires to purchase the two (2) easements for its pipeline project and the party's desire to enter into an Agreement for the Purchase and Sale of Real Property to provide the terms and conditions of this acquisition by EMWD.

Pursuant to the California Water Code Appendix Ch. 48, §9, the Board of Supervisors for the District has the power to grant any interest in real property it owns to public agencies where such grant does not interfere with the use of the property for the purposes of the District.

Therefore, staff is recommending the approval of the Agreement and adoption of Resolution No. F2013-24 to authorize conveyance of easements within Parcel Nos. 7020-101A and 7020-102K because it was determined that such conveyance to EMWD would not interfere with the use of the real property for the District's purposes.

BACKGROUND: (continued from page 2)

Pursuant to the California Environmental Quality Act (CEQA), the Project was reviewed and determined to be statutorily exempt from CEQA under CEQA Guidelines Section 15282(k) Pipelines of Less than One Mile and categorically exempt under CEQA Guidelines Section 15061(b)(3). The conveyance of the easement interest is needed by EMWD in order for EMWD to further its project of installing and constructing of a 30-inch diameter parallel force main pipeline from EMWD's Warm Springs Lift Station to the Temecula Valley Regional Water Reclamation Facilities. Public Resources Code Section 21080.21 (CEQA Guidelines Section 15282(k)) statutorily exempts and excludes from CEQA any project of less than a mile in length within a public right of way for the installation of a new pipeline. The easement interest is to be granted specifically for the installation of such a pipeline within the District's right of way interest. This conveyance falls within the scope of what is reasonably foreseeable to be included in EMWD's project because EMWD did not yet have the right or ownership interest when it identified its project. In addition, it can be seen with certainty that there is no possibility that the activity in question will have a significant effect on the environment because the District is merely conveying an easement interest in real property and this conveyance does not effect a change in the environment.

Resolution No. F2013-24 has been approved as to form by County Counsel.

FINANCIAL:

All costs shall be borne by Eastern Municipal Water District.

FOR VALUABLE CONSIDERATION, receipt of which is hereby acknowledged,

RIVERSIDE COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT,

(hereinafter referred to as "Grantor") does hereby grant to **EASTERN MUNICIPAL WATER DISTRICT**, a public agency of the State of California, its successors and assigns (hereinafter referred to as "Grantee") a perpetual non-exclusive easement and right of way to construct, enlarge, reconstruct, remove and replace, operate, inspect, maintain, repair, improve and relocate, sewage transmission and collection facilities, including, but not limited to, gravity pipelines, pressure pipelines, manholes, connections, and appurtenant equipment for the collection and transmission of sewage, in, on, over, under, upon, along, through and across the property hereinafter described, together with reasonable right of access to and from said easement for the purpose of exercising the rights granted in said easement.

Said easement shall be in, under, over and across that certain property situated in the County of Riverside, State of California, described as follows:

(SEE EXHIBITS "A" AND "B" ATTACHED HERETO AND MADE A PART HEREOF)

The foregoing easement shall include the right to enter upon and pass and repass over and along said strip or strips of land, and to deposit tools, implements and other materials thereon by Grantee, its officers, agents and employees, and by persons under contract to construct said pipeline or pipelines, and their employees, whenever and wherever necessary for the purpose of exercising the rights herein granted.

Grantor retains the right to the use of the land described herein except as to any use in derogation of the easement contained herein, and specifically agrees that no trees shall be planted thereon and no buildings or other structures of any kind will be placed, constructed or maintained over the real property described herein. Any work by Grantor, or any one working through or under Grantor, affecting the surface or subsurface of the ground subject to this easement shall be performed only after giving written notice by certified mail, postage paid, addressed to Grantee at Grantee's office setting forth the proposed changes in detail. Such notice is to be given to the Grantee at least thirty (30) business days prior to commencement of such work and is subject to approval by Grantee.

Notwithstanding the foregoing, the surface of the ground with respect to the distance from the ground surface to the top of any pipes, as of the date of this easement, shall not be changed by any party other than Grantee, if it results in:

- (a) "Cutting" or removing the soil, which leaves less than forty-eight (48) inches of soil over the top of the pipe; and
- (b) "Hauling" in of soil or "filling" which will leave more than twelve (12) feet of soil over the top of any pipe.

It is understood that the permanent easements and the rights of way above described shall be acquired subject to the rights of the Grantor, Grantor's successors, heirs and assigns, to use the surface of the real property within the boundaries of such easements and rights of way. It is understood that any use of the surface rights by Grantor, and Grantor's successors, heirs and assigns, shall be deemed a continuing permissive use allowed by Grantee, its successors, heirs and assigns, and each successor-in-interest of the Grantor, by acceptance of a conveyance of said property or interest therein admits and agrees that any such use is a continuing permissive use. It is understood that each and every right and privilege hereby granted is free and alienable. Notwithstanding the foregoing, it is understood and agreed that this Grant of Easement shall not be construed as a Grant of Fee Title.

Grantee, its successors and assigns, shall restore, or cause to be restored, the surface or subsurface of the real property hereinabove described to the condition said property was in as of the time of performance of any enlargement, construction, reconstruction, removal and replacement, operation, inspection, maintenance, repair, improvement and relocation, and such restoration shall be performed with due diligence and dispatch.
