Summary (continued)

CAP Riverside coordinates fifty (50) Cool Centers throughout the county to provide drop-in sites for residents seeking temporary relief from the heat. Cool Centers are activated when the Riverside County Department of Public Health issues a "Heat Warning" when temperatures exceed 97 degrees for three consecutive days.

Impact on Citizens and Businesses

CAP Riverside has administered the Cool Center Program since 2001 as part of its Energy Crisis Response Plan. The plan is a comprehensive response to the impact of extreme temperatures on low-income residents, especially targeting vulnerable seniors, disabled individuals, and small children, with emphasis in the desert areas of eastern Riverside County where temperatures often exceed 105 degrees from May through October.
