**SUBMITTAL TO THE BOARD OF SUPERVISORS, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA  
FORM 11: Revision of Ordinance No. 580 Relating to Mobile Food Facilities. Countywide. (0);  
Funded by permits, service fees, and potential fines for non-compliance.**

**PAGE:** 2 of 2

**BACKGROUND (continued):**

**Summary**

Ordinance 580 currently limits the operation of mobile food preparation vehicles such as food trucks to approved and permitted community events. Food carts are also currently limited to sell prepackaged items, hot dogs, popcorn, shaved ice, coffee, cocoa, churros, pretzels, and nuts.

This revision will allow the Department to expand opportunities for mobile food facility operators to include full service food preparation and sales on a daily basis as outlined in the California Retail Food Code. This revision will allow the Department to expand opportunities for mobile food facility operators to include full service food preparation and sales on a daily basis as outlined in the California Retail Food Code. The ordinance eliminates the current restriction of a mobile food facility and allows operation in Riverside County and its 28 cities without the need for a special events permit. It will be up to city governments and other appropriate agencies of the County to assert local authority for additional requirements concerning public safety, including reasonable time, place, and manner restrictions.

Some of the additional health and safety considerations for mobile food facility operators will include Food Handler and Food Manager Certifications; posting of letter grades to inform the public of operational conditions; enhanced enforcement and penalties for major violations; requirements for commissary use; and use of available technology options for locating and inspecting during operation. All mobile food facilities which operate in Riverside County will be required to meet current California Health and Safety Code standards and be permitted annually. A one year phase-in period will allow the option for food trucks to continue to operate at community events with permits for temporary food facilities.

The proposed ordinance is exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15061(b)(3) because it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment. Approval of the proposed amendment to Riverside County Ordinance 580 establishes a food truck permit and grading system and does not approve any development project. The proposed amendment would not individually or cumulatively result in the possibility of creating significant effects on the environment.

**Impact on Citizens and Businesses**

The expected impacts on citizens would be an increase in retail food options and regulatory oversight of mobile food operations. The proposed changes will provide expanded business opportunities for mobile food operations within the County. Potential negative fiscal impacts on business that have been raised include the competition with brick-and-mortar retail food facilities (such as lower overhead and staffing costs). However, these fiscal impacts cannot be determined until there is an understanding of the number of food truck operators within the County and the useful locations to operate mobile food facilities.

**SUPPLEMENTAL:**

**Additional Fiscal Information**

The Department will collect permit fees, service fees, and potential fines to fund the expanded program. Initially, current staffing will be diverted to handle the anticipated influx of new applicants. A future Budget Adjustment will be necessary to request additional positions based upon revenue and workload.

SUMMARY OF PROPOSED ORDINANCE NO. 580  
(AS AMENDED THROUGH 580.5)

AN ORDINANCE OF THE COUNTY OF RIVERSIDE  
AMENDING ORDINANCE NO. 580 RELATING TO MOBILE FOOD FACILITIES AND  
COMMISSARY REQUIREMENTS AND INCORPORATING BY REFERENCE RIVERSIDE  
COUNTY ORDINANCE NO. 725

This summary is presented pursuant to California Government Code Section 25124(b); a certified copy of the full text of Ordinance No. 580.5 may be examined at the Office of the Clerk of the Board of Supervisors of the County of Riverside located at 4080 Lemon Street, 1<sup>st</sup> Floor, Riverside, California.

Ordinance No. 580.5 amends Ordinance 580, regulating Mobile Food Facilities and Commissaries, in order to allow for expanded opportunities for mobile food facility operators to include full service food preparation and sales on a daily basis, as outlined in the California Retail Food Code. Additionally, it includes posting of letter grades to inform the public of operational conditions; requirements for commissary usage; use of technology options for locating and inspecting the mobile units during operation; requirements for food handler and food manager certifications; and enforcement actions and penalties for violations. This ordinance allows a one-year phase-in period for food trucks to continue to operate at community events with temporary food facility permits before requiring an annual permit to operate per California Health and Safety Code standards with an annual mobile food facility permit.

Ordinance 580 was adopted by the Board of Supervisors of Riverside County on August 14, 1980, and last amended June 14, 2007. The Riverside County Board of Supervisors approved a Form 11 initiating revisions to the ordinance for Riverside County Environmental Health Department on June 25, 2013.

**Reasons Why Project is Exempt:**

The adoption of Ordinance No. 580.5 is exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines section 15061(b)(3), the "General Rule" exemption, in that the amending of Ordinance 580 pertains to the inspection and permitting requirements related to mobile food truck operations and with the adoption of the amendments it can be seen with certainty that there is no possibility that the ordinance may have a significant effect on the environment. Approval of the proposed amendment to Riverside County Ordinance 580 does not approve any development project. The proposed amendment would not individually or cumulatively result in the possibility of creating significant effects on the environment.
