- G. Nurse Practitioner Neurology Privilege Form Department of Medicine – see attached  
A request for approval was submitted for the new NP Neurology Privilege form.

**Impact on Citizens and Businesses**

Approval of this request will ensure that the County's healthcare practitioners meet all of the necessary credentialing/privileging requirements and are appropriately qualified to care for and treat the County's patient population.

**Initial Appointment**

**Reappointment**

**Applicant:** CHECK (✓) the "Requested" box for each privilege requested and SIGN and DATE this form as indicated. New applicants may be requested to provide documentation of the number and types of hospital cases during the past 24 months. Applicants have the burden of producing information deemed adequate by the hospital for a proper evaluation of current competence, and other qualifications and for resolving any doubts. Privileges may only be exercised at the site(s) and/or setting(s) that have the appropriate equipment, license, beds, staff, and other support required to provide the services defined in this document.

**QUALIFICATIONS FOR NURSE PRACTITIONER (NP)**

**CRITERIA:** To be eligible to apply for clinical privileges as a Nurse Practitioner (NP), the applicant must meet the following criteria:

Hold a valid and active registered nurse license in the State of California and a current active certificate by the California Board of Registered Nursing (CA BRN) as a nurse practitioner.

**AND** (for initial certification prior to January 1, 2008)

Completion of a master's degree in nursing or satisfactorily completed a nurse practitioner program approved by the CA BRN.

**OR** (for initial certification after January 1, 2008)

Completion of a master's degree in nursing, a master's degree in a clinical field related to nursing, or a graduate degree in nursing and to have satisfactorily completed a nurse practitioner program approved by the CA BRN.

**AND**

Current Basic Life Support

**AND**

Professional liability insurance coverage issued by a recognized company and of a type and in an amount equal to or greater than the limits established by the Governing Body

**AND**

County employment, or employment by or a formal agreement with a physician(s) currently appointed to the active or consulting medical staff of this hospital with scope of practice in the same area of specialty practice. According to a written agreement, the physician must:

- Assume responsibility for supervision or monitoring of the Nurse Practitioner's (NP) practice as stated in the appropriate hospital or medical staff policy governing NPs;
- Be continuously available or provide an alternate to provide consultation when requested and to intervene when necessary;
- Assume total responsibility for the care of any patient when requested by the NP or required by this policy or in the interest of patient care;

---

**CATEGORIES OF PATIENTS PRACTITIONER MAY TREAT**

May provide services consistent with the policies stated herein to patients of the medical staff member(s) with whom the NP has a documented formal affiliation or to such patients as are assigned by the chair of the department to which the NP is assigned. Nurse practitioners may not admit patients to the hospital.

**SUPERVISION**

The exercise of these clinical privileges requires a designated collaborating/supervising physician with clinical privileges at this hospital. All practice is performed under the supervision of this physician/ designee and in accordance with written policies and protocols developed and approved by the relevant clinical department or service, the Medical Executive Committee, Nursing Administration, and the Governing Body. Collaborating / supervising physician must be physically present, on hospital premises or readily available by electronic communication.

**MEDICAL RECORD CHARTING RESPONSIBILITIES**

Clearly, legibly, completely, and in timely fashion, describe each service the NP provides to a patient in the hospital or clinic setting and relevant observations. Standard rules regarding authentication of, necessary content of, and required time frames for preparing and completing the medical record and portions thereof are applicable to all entries made.

**GENERAL RELATIONSHIP TO OTHERS**

Nurse Practitioners have authority to direct any hospital personnel in the provision of clinical services to patients to the extent that such direction is necessary in order to carry out the services required by the patient and which the NP is authorized to provide.

**PERIODIC COMPETENCE ASSESSMENT**

Applicants must also be able to demonstrate they have maintained competence based on unbiased, objective results of care according to the hospital's existing quality assurance mechanisms and by showing evidence that they have met the continued competence requirements established by the state licensing authority, applicable to the functions for which they are seeking to provide at this hospital. In addition, continuing education related to the specialty area of practice is required as mandated by licensure.

**ACKNOWLEDGMENT OF PRACTITIONER**

I have requested only those privileges which by education, training, current experience, and demonstrated performance that I am qualified to perform and which I wish to exercise at RCRMC.

I understand that:

- a. In exercising any clinical privileges granted and in carrying out the responsibilities assigned to me, I am constrained by Hospital and Medical Staff policies and rules applicable generally and any applicable to the particular situation.
- b. Any restriction on the clinical privileges granted to me is waived in an emergency situation and in such situation my actions are governed by the applicable section of the policies governing allied health professionals or related documents.
