BACKGROUND:

Summary (continued)

The Public Guardian provides services to individuals who are unable to care properly for themselves and/or are unable to manage their finances. The Public Guardian conducts investigations into conservatorship matters and acts as the legally appointed guardian or conservator for persons found by the Superior Courts as unable to provide for his/her basic personal needs for food, clothing, or shelter.

The Department of Mental Health (DMH) has used CompuTrust Software System exclusively for the past fifteen (15) years to manage the estates and assets of consumers. The software's features include: court accounting, accounts payable, accounts receivable, check processing, vendor disbursements, accounting receipts and reports. CompuTrust is the developer of the software and is the only company able to provide upgrades and support to the existing system.

Impact on Citizens and Businesses

These services are a component of the Department's system of care aimed at improving the health and safety of consumers and the community.

Contract History and Price Reasonableness

Pricing for the user software licenses, support and maintenance has been deemed to be fair and reasonable when compared with other software service providers; however, similar services by other providers are not compatible with the existing DMH system due to proprietary use of CompuTrust software. The annual price of the software has remained the same since 2008. DMH is currently working with Purchasing to develop a multi-year RFP plan for all contracts and agreements. DMH is requesting approval of this vendor in the interim to avoid interruption of services and ensure continuity of care for consumers.

Subject: Sole Source Procurement; Request to Renew CompuTrust Software Usage License

The below information is provided in support of my Department requesting approval for a sole source. Outside of a duly declared emergency, the time to develop a statement of work or specifications is not in itself justification for sole source.

1. Supply/Service being requested:

Renewal of the software license and maintenance, which is used solely by the Public Guardian. CompuTrust produces and maintains the software for Public Guardian to manage the estate/assets of consumers it serves. Complete accounting and check writing system provided through CompuTrust is independent of the Department of Mental Health's (DMH) software system.

2. Supplier being requested:

CompuTrust Software Corporation

3. Alternative suppliers that can or might be able to provide supply/service:

There are no comparable services or goods available for the existing software system that has been in place with DMH Public Guardian since 1998.

4. Extent of market search conducted:

CompuTrust Software Corporation provides exclusive software licenses and services that cannot be substituted with other software or services due to compatibility of current software.

5. Unique features of the supply/service being requested from this supplier, which no alternative supplier can provide:

No other authorized sources are known for the current system. The known software for Public Guardian provided by CompuTrust is proprietary to CompuTrust Software Corporation.

6. Reasons why my department requires these unique features and what benefit will accrue to the county:

The DMH Public Guardian utilizes the financial software to issue checks, track deposits, disbursements and receipts on behalf of its consumers. The unique features of the system allow the Public Guardian Program to collaborate on reports, court accounting and third party payments for consumers as needed.

7. Price Reasonableness including purchase price and any ongoing maintenance or ancillary costs from the supplier:

FY 13/14 and the anticipated cost for FY 14/15 is \$46,202 per year. Pricing for the user software license, support and maintenance has been deemed fair and reasonable when compared with other service providers that provide similar services; however, similar services by other providers are not compatible with the existing DMH system due to the proprietary use of CompuTrust software.

The historical cost for the software is as follows:

- a. FY 97/98 through FY 05/06 = \$40,320.00 per year
- b. FY 06/07 = \$41,184.00
- c. FY 07/08 = \$45,302.00
- d. FY 08/09 through FY 12/13 = \$46,202.00 per year

8. Does moving forward on this product or service further obligate the county to future similar contractual arrangements or any ongoing costs affiliated with this sole source? (Maintenance, support, or upgrades, if so, please explain).

No

9. Period of Performance:

July 1, 2013 through June 30, 2014 with the option to renew, based on the availability of funding, for one (1) additional year for a total of two (2) years

In no event shall either party be liable to the other for any consequential, indirect, special, or incidental damages, even if such party has been advised of the possibility of such potential loss or damage. The foregoing limitation of liability and exclusion of certain damages shall apply regardless of the success or effectiveness of other remedies.

12. INDEMNIFICATION

12.1. Indemnification. If a third party claims that the Program infringes any U.S. patent, copyright, or trade secret, CTSC will (as long as you are not in default under this Agreement or any other agreement with CTSC) defend you against such claim at CTSC's expense and pay all damages that a court finally awards, provided that you promptly notify CTSC in writing of the claim, cooperate with CTSC, and allow CTSC to control the

defense or any related settlement negotiations.

12.2. Right to Cure. If such a claim is made or appears possible, CTSC may, at its option, secure for you the right to continue to use the Program, modify or replace the Program so they are non-infringing, or, if neither of the foregoing options is available in CTSC's judgment, require you to return the Program at CTSC's cost, or to destroy the Program, for a credit equal to the portion of previously paid license fees allocable to the remaining term of your license.

12.3. No Obligation. However, CTSC has no obligation for any claim based on a modified version of the Program or their combination, operation, or use with any product, data, or apparatus not provided by CTSC. **THIS PARAGRAPH STATES CTSC'S ENTIRE OBLIGATION TO YOU WITH RESPECT TO ANY CLAIM OF INFRINGEMENT.**

13. MISCELLANEOUS

13.1. Notices. All notices or other communications required to be given under this Agreement shall be in writing and delivered either personally or by U.S. mail, certified, return receipt requested, postage prepaid, and addressed as provided on the first page of this Agreement or as otherwise requested by the receiving party. Notices delivered personally shall be effective upon delivery and notices delivered by mail shall be effective upon their receipt by the party to whom they are addressed.

13.2. Governing Law. This Agreement shall be governed by and construed and enforced in accordance with the laws of the State of California as it applies to a contract made and performed in such state.

13.3. Modifications and Waivers. This Agreement may not be modified except by a writing signed by authorized representatives of both parties. A waiver by either party of its rights hereunder shall not be binding unless contained in a writing signed by an authorized representative of the party waiving its rights. The non-enforcement or waiver of any provision on one (1) occasion shall not constitute a waiver of such provision on any other occasions unless expressly so agreed in writing. It is agreed that no use of trade or other regular practice or method of dealing between the parties hereto shall be used to modify, interpret, supplement, or alter in any manner the terms of this Agreement.

13.4. Attorneys' Fees. In the event of any dispute with respect to this Agreement, the prevailing party shall be entitled to reasonable attorneys' fees and other costs and expenses incurred in resolving such dispute.
