BACKGROUND:

Summary (continued)

other is located at the Inpatient Treatment Facility (ITF) in the city of Riverside, CA. The security guard service for both facilities is required to ensure a safe, calm, secure, peaceful environment for employees and patients. Buildings and contents should be protected against theft, pilferage and vandalism. More specifically at the ITF campus, security personnel present a level of visible deterrent to prevent clients from becoming violent belligerent and unruly. These unarmed security guard services are provided with a minimum of three security guard officers, twenty-four (24) hours a day, seven (7) days per week, and three hundred sixty-five days a year.

Impact on Citizens and Businesses

This service has a positive impact to patients, visitors and surrounding businesses in Riverside County by providing a safer and peaceful environment at the facilities.

Contract History and Price Reasonableness

Formerly, each facility conducted separate Request for Proposals (RFPs) and maintained its own separate contracts agreements. General Security Services, Inc. was the awarded vendor for each facility. On April 23, 2013, agenda item #3-51, the Board approved to combine both contracts for a combined aggregate amount of \$770,500 annually. Combining the contracts has resulted in more efficient contract administration.

General Security's current contract agreement ends February 28, 2014, with no additional renewal options remaining. This four month extension amendment is to secure continuity of services at both campuses through June 30, 2014 and until the RFP for a new contract is complete. The contract rate will remain the same as awarded through the previous RFP RCRMC conducted previously in Mach 2010.
