3. Accept the assignment of the Purchase Order issued to Bakersfield Well and Pump Company in the amount of \$28,150 for the rental of a temporary water tank and lines and authorize the Successor Agency to reimburse EDA/PMO for rents paid on the rental equipment for the benefit of the Successor Agency property; and
4. Submit the above items to the Oversight Board for approval.

**BACKGROUND:**

**Summary**

On February 26, 2008, the Board of Directors approved the Consulting Services Agreement with RHA Landscape Architects Planners, Inc. (RHA) to design the Rancho Jurupa Regional Sports Park (Park). During design, protected habitat areas were discovered which required a redesign of the westernmost soccer fields and modification of the site drainage plan. On June 29, 2010, the Board of Directors approved the First Amendment to the agreement with RHA for redesign services. Shortly after construction began in February 2011, RHA was required to perform additional staking due to the adjustments made for the protected habitat areas, as well as perform additional electrical engineering for permanent power to the well site and provide additional construction support services. The Successor Agency is therefore amending and extending the contract for these additional services until completion of the project which is anticipated September 2014.

The costs associated with the Second Amendment are listed on the Recognized Obligation Payment Schedule 13-14A (ROPS) for the period of July 1, 2013 through December 31, 2013, and have been approved by the Oversight Board and the California Department of Finance.

During design of the Park, the water supply was found to be insufficient and use of non-potable ground water from a well would be necessary. The well work consists of a new irrigation water well, pumping plant, irrigation water storage reservoir and irrigation booster station. The well project required completion in two separate phases; Phase 1, for the exploration to determine if the well site provided adequate amount of water volume and pressure, and Phase 2, to install the permanent pumping equipment and water storage reservoir.

On June 29, 2010, the Board approved the plans and specifications for the Rancho Jurupa Regional Sports Park Well Pumping Equipment and Storage Reservoir Project (Phase 1) for the drilling of the well and authorized the Clerk of the Board to advertise for bids. On October 5, 2010, the Board of Directors awarded the construction of Phase 1 for the well to Bakersfield Well & Pump Company. Phase 1 was successfully completed and a Notice of Completion was filed on May 1, 2012.

To provide water to the park until completion of Phase 2 of the Well Pumping Equipment and Storage Reservoir, a temporary water reservoir tank and supply lines were rented. Installation of the temporary tank, supply lines and rental fees through December 2012, were included in ASR Constructor's construction contract, however, those payments ceased when ASR filed bankruptcy. To avoid the removal of the temporary tank and supply lines, EDA paid rents to keep the equipment onsite for the benefit of the project on behalf of the Successor Agency through a Purchase Order issued by Riverside County Purchasing in the amount of \$28,150 which covers the rental fees through December 2014, or until construction of the permanent water reservoir tank is complete.

**BACKGROUND:**

**Summary (continued)**

On December 10, 2013 the Board approved the revised plans and specifications for the Well Pumping Equipment and Storage Reservoir for the completion of Phase 2 of the well installation. A bidders conference was held on January 7<sup>th</sup> with bids closing on January 27<sup>th</sup>. Once the contract is awarded, construction is estimated to take 150 calendar days to complete. During construction it is required to have a material testing and inspection firm oversee grading, compaction, and perform testing on materials installed. CHJ Consultants was selected from a list of pre-qualified consultants (MO 3.34 8/28/12) based on their qualifications to provide these required services in the amount of \$19,969.

Staff recommends that the Board approve the attached Second Amendment with RHA, accept assignment of the purchase order issued by the county to the Successor Agency, and approve the attached consulting services agreement with CHJ Consultants in the cumulative amount of \$111,119.

**Impact on Residents and Businesses**

The Park is heavily utilized by the surrounding community and soccer clubs throughout the area. To maintain the viability of this thriving park, it is imperative to have the permanent water supply and service.

**Additional Fiscal Information**

Expenditures for FY 2013/14 are estimated at \$95,000; expenditures for FY 2014/15 are estimated at \$16,119 for a combined total of \$111,119. All costs associated with these agreements have been included on the ROPS 13-14B and are within the overall approved budget for the project. The costs will be fully funded through Jurupa Valley Redevelopment Capital Improvement Bond Proceeds, thus no net county costs will be incurred and no budget adjustment will be required.

8 CONSULTANT to fulfill its obligations under this Agreement, CONSULTANT shall be  
9 compensated for those services which have been completed and accepted by the AGENCY. In  
10 such case, the AGENCY may take over the work and prosecute the same to completion by  
11 contract or otherwise. Further, CONSULTANT shall be liable to the AGENCY for any  
12 reasonable additional costs incurred by the AGENCY to revise work for which the AGENCY has  
13 compensated CONSULTANT under this Agreement, but which the AGENCY has determined in  
14 its sole discretion needs to be revised in part or whole to complete the services. Following  
15 discontinuance of services, the AGENCY may arrange for a meeting with CONSULTANT to  
16 determine what steps, if any, CONSULTANT can take to adequately fulfill its requirements  
17 under this Agreement. In its sole discretion, AGENCY'S Representative may propose an  
18 adjustment to the terms and conditions of the Agreement, including the contract price. Such  
19 contract adjustments, if accepted in writing by the Parties, shall become binding on

21 cause, unless otherwise agreed to in writing by the parties, this Agreement shall terminate  
22 immediately upon providing the Notice of Termination. Termination of this Agreement for cause

**Subject: Proposal to Provide Construction Materials Testing, Geotechnical Observation  
and Compaction Testing Services  
Rancho Jurupa Sports Park Well Pumping Plant and Storage Reservoir  
Riverside, California**

Dear Ms. Tsagris:

CHJ Consultants has extensive experience in providing special inspection and geotechnical services and has an accredited materials testing laboratory that is certified with Caltrans, LEA, AMRL, CCRL and the City of Los Angeles. Our laboratory and inspectors have provided the services needed for this project on a variety of similar projects including the Smith Creek stabilization project and the Interstate 215 widening project. Our team works closely with many clients in the public and private sectors to provide excellent services throughout Southern California and surrounding regions. We are looking forward to working with the EDA on this project throughout the construction phases and have prepared this proposal letter in order to advise you of the details of our services and procedures.

We have prepared this proposal after reviewing the plans and specifications provided. As we understand it, the project consists of observing and testing the compaction during grading and construction of a 24-foot-diameter steel water tank, a well pump and discharge pipeline and

infrastructure associated with the water tank, as well as the testing of hot mix asphalt (HMA) that is placed.

To allow for continuous monitoring of the costs involved, we would request that daily time charge tickets be signed by your on-site representative for our field services. Observation and compaction testing are proposed for site grading and utility backfill. Other geotechnical costs that are generally incurred during a project of this nature are optimum moisture - maximum dry density determinations, maximum density determinations to calculate relative compaction of the HMA concrete pavement, gradation and stability tests of the HMA, and office and engineering costs associated with the preparation of final reports. Costs are also provided for sampling and testing concrete. The cost projection may require revision based on the contractor's actual construction schedule. All costs will be according to our current Schedule of Fees.

Based on the plans and project schedule provided, we have formulated the enclosed costs. The final cost shown includes a 5 percent discount that will be applied to all services for the County. **Charges will be billed only for the actual services performed.** We will make every effort to minimize costs throughout the project while still providing sufficient testing to adequately monitor the project. We will work closely with EDA personnel and construction managers throughout the project to ensure efficient coordination. CHJ will comply with the Davis-Bacon Fair Labor Standards Act, the implementation regulations issued pursuant thereto, any amendments thereof and the California Labor Code, pursuant to the said regulations, entitled, "Federal Labor Standards Provisions", "Federal Prevailing Wage Decision", and State of California prevailing wage rates, respectively.

We want to emphasize that efficient project coordination and scheduling of our technicians and inspectors by the construction superintendent could have a significant effect on work hours and, in turn, the costs involved with the project.

We thank you for the opportunity to provide you with this cost proposal to provide the construction materials testing and inspection services, as well as the geotechnical observation and compaction testing for the Rancho Jurupa Sports Park Well Pumping Plant and Storage Reservoir Project and

County of Riverside

8 Landscape, INC., (hereinafter "ARCHITECT") for the Rancho Jurupa Regional Sports  
9 Park Project (PROJECT).

10 **WHEREAS**, AGENCY is the successor in interest to the Redevelopment  
11 Agency for the County of Riverside pursuant to the provisions of Section 34173 of the  
12 California Health and Safety Code, acting in its capacity as Successor Agency;

13 **WHEREAS**, the Redevelopment Agency for the County of Riverside (Former  
14 RDA) was a redevelopment agency duly created, established and authorized to  
15 transact business and exercise its powers, all under and pursuant to the provisions of  
16 the Community Redevelopment Law, which is Part 1 of Division 24 of the California  
17 Health and Safety Code (commencing with Section 33000 et seq.); the Former RDA  
18 was terminated as of February 1, 2012 pursuant to section 34172;

19 **WHEREAS**, the County of Riverside and the Former RDA adopted by  
20 Ordinance No. 763, on July 9, 1996, a redevelopment plan for the Jurupa Valley  
21 Redevelopment Project Area (hereinafter the "PROJECT AREA");

22 **WHEREAS**, the Jurupa Valley Redevelopment Plan was adopted in order to  
23 eliminate blight and revitalize the substandard physical and economic conditions that  
24 exist within the PROJECT AREA;

25 **WHEREAS**, pursuant to Section 34177-34181 of the Health and Safety Code,  
26 the AGENCY is authorized to make and execute contracts and other instruments  
27 necessary or convenient in compliance with the Enforceable Obligation Payment  
28

1 Schedule (EOPS) as superseded by the Recognized Obligation Payment Schedule  
2 (ROPS) as adopted by the AGENCY and the Oversight Board;

3 **WHEREAS**, the proposed services are necessary in performance of an  
4 obligation of the Former RDA pursuant to the EOPS or as later superseded by the  
5 ROPS;

6 **WHEREAS**, pursuant to CRL 33020(a) of the California Community  
7 Redevelopment Law "redevelopment" means to conduct planning, development, and  
8 re-planning of all or part of a survey area as may be appropriate and necessary in the  
9 interest of general welfare, including recreational and other facilities incidental or  
10 appurtenant to them;

11 **WHEREAS**, during the design of the PROJECT it was discovered that there was  
12 an inadequate supply of water for irrigation and the use of non-potable ground water  
13 from a well would be necessary for the park;

14 **WHEREAS**, the completion of the well required two separate phases; a first  
15 phase for exploration to determine if the well site would provide an adequate amount of  
16 water volume and pressure, and a second phase to install the permanent pumping  
17 equipment and water storage tank reservoir and supply lines;

18 **WHEREAS**, the construction of the first phase of the well was completed on May  
19 1, 2012 and a temporary water storage tank reservoir and supply lines were installed  
20 until the second phase could be completed;

21 **WHEREAS**, during construction of the PROJECT, the contractor filed for  
22 bankruptcy and the AGENCY was unable to complete the remaining phase of the well  
23 with Federal Insurance Company, the Surety for the contractor;

24 **WHEREAS**, on December 10, 2013, the Board of Supervisors approved the  
25 plans and specifications and allowed the AGENCY to bid the remaining phase of the  
26 well;  
27  
28

1           **WHEREAS**, the proposed services provided in this Second Amendment to the  
2 Agreement are necessary to construct the permanent irrigation well, water storage  
3 reservoir, and pumping plant to provide irrigation water for the PROJECT. It is  
4 anticipated that the well and property it will be located on will be owned, operated, and  
5 maintained by Riverside County Regional Park and Open-Space District.

6           **WHEREAS**, the parties entered into the original Agreement (“AGREEMENT”) on  
7 February 26, 2008, to provide architectural design and consulting services for the  
8 PROJECT, in the amount of Four Hundred Twenty-Three Thousand, Eight Hundred  
9 Dollars (\$423,800);

10           **WHEREAS**, a First Amendment to the Agreement was entered into on June 29,  
11 2010 to cover additional scope of services required for successful completion of the  
12 PROJECT including, but not limited to, the redesign of the Water Quality Management  
13 Plan, recalculation of the electrical Title 24 Design Calculations, redesign of the  
14 Hydrology Report, and design of the public street improvement plans;

15           **WHEREAS**, unanticipated modifications to the PROJECT scope, including  
16 avoidance of protected species habitat and sensitive wildlife areas, caused additional  
17 staking and electrical engineering during construction and were completed by the  
18 ARCHITECT;

19           **WHEREAS**, extended construction administration is necessary to cover the  
20 construction of the permanent well and complete the PROJECT;

21           **WHEREAS**, the additional fee for those services is Sixty-Three Thousand  
22 Dollars (\$63,000), for a total project budget of Five Hundred Eighty-Four Thousand,  
23 Four Hundred Dollars (\$584,400);

26 and allow the AGENCY to effectuate the existing enforceable obligations; and

27           **WHEREAS**, ARCHITECT has agreed to provide such services to AGENCY.
