**BACKGROUND:**

**Summary (continued)**

No matching funds are required for this reimbursement grant. Applications for this grant are site specific and can be submitted four times a year. Grants are limited to \$50,000 per cleanup or abatement project, with a limit of \$200,000 per fiscal year. Utilization of this grant will allow the Code Enforcement Department to abate solid waste on properties where recovery of abatement costs may not be practical due to high cost or other factors. This grant should allow the Code Enforcement Department to conduct more solid waste abatements annually with the limited resources available.

Upon approval of the grant application, and in accordance with Board of Supervisors' Policy A-30, the department will return to the Board with the appropriate budget adjustments. No additional staffing is requested to carry out the objectives of this grant.

Since the inception of the resolution, the County of Riverside has received approximately \$126,276, which has allowed agency staff to abate approximately 1,015 tons of solid wastes, 485 tons of tires, and 45 gallons of hazardous waste.

The current resolution is set to expire March 2014. Adoption of the attached resolution is the next step necessary to continue authorizing the application for a Farm and Ranch Solid Waste Cleanup and Abatement Grant for eligible properties within unincorporated Riverside County.

**Impact on Citizens and Businesses**

As previously stated above, the utilization of this grant will allow additional funding for the Code Enforcement Department to abate large amounts of illegal solid waste on farm and ranch properties within Riverside County improving the Health and Safety of the surrounding neighborhoods and communities.
