SUBMITTAL TO THE BOARD OF SUPERVISORS, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

FORM 11: Authorize the Director of the County of Riverside Department of Public Health to execute agreements with various agencies for Countywide HazMat Operation Group related to the FY13 State Homeland Security Program Grant. All Districts. [\$940,000]100% Federal Funds.

DATE: April 30, 2014

PAGE: 2 of 2

BACKGROUND:

On November 5, 2013, Agenda Item 3-23, the Board of Supervisors authorized Riverside County Fire Department/Office of Emergency Services to accept Fiscal Year (FY)13 State Homeland Security Program (SHSP) pass-through grant funding in the amount of \$2,143,822 to enhance local agencies and jurisdiction's abilities to prevent, deter, respond to and recover from threats and incidents of terrorism and other catastrophic events.

Through Riverside County Fire's Form 11, DOPH was awarded \$940,000 to purchase pharmaceuticals, coordinate and develop medical surge operations and to fund members of CHOG. The funds will be distributed as listed below:

Project	<u>Amount</u>
Pharmaceuticals/First Responders	\$125,000
HazMat Operations	\$500,000
Medical Surge	\$315,000

SHSP funding will be used to support planning for and distribution of a cache of pharmaceuticals for the first responders and their families. The goal of the cache is to provide a three-day supply of medication, thereby sustaining the first responder community until additional resources can be obtained through regional or state caches or from the federally deployed Strategic National Stockpile (SNS).

The HazMat Operations project provides funding to each of the six HazMat response agencies in the county: Riverside County California Fire, County of Riverside Environmental Health, County of Riverside Sheriff's Department, City of Corona Fire Department/HazMat, City of Hemet Fire Department/HazMat and City of Riverside Fire Department/HazMat. Funded agencies purchase equipment, attend trainings and conduct exercises to maintain Type II HazMat status and to ensure a coordinated HazMat response in the event of an emergency in the County.

The Medical Surge Project is designed to improve the coordination and response to multi-casualty incidents throughout the County. SHSP funding will be used to develop a plan to prioritize destinations and transport requirements for patient distribution to healthcare facilities throughout the County and region.

The Form 11 for the allocation to fund these agreements was approved by the Board on November 5, 2013. This Form 11 and agreements were subsequently submitted through the County approval process.

Impact on Residents and Businesses

These funds are used to enhance medical/health preparedness and response capabilities countywide. The Pharmaceutical Project will help to ensure that first responders are able to remain working and responding to the needs of the public during an emergency. The CHOG Project will ensure that the Fire Departments with HazMat Teams, the Sheriff's Bomb Squad and the Department of Environmental Health are trained to respond together and equipped to mitigate hazardous materials incidents. The Medical Surge Project will result in the development of a comprehensive patient distribution plan during an emergency which will ultimately support the emergency medical needs of all residents of Riverside County.

Additional Fiscal Information

This grant is 100% Federally-funded through the California Office of Emergency Services. DOPH's awarded funds for August 29, 2013 through February 28, 2015 are \$940,000. The \$511,117 is allocated in FY13/14 and was included in the FY13/14 County Budget submission and the remaining \$428,883 will be included as part of the DOPH FY14/15 County budget submission.
