BACKGROUND:

Summary

Landscaping and Lighting Maintenance District No. 89-1-Consolidated (District) maintains and services 138 locations throughout Riverside County. The District contains 63 separate assessment zones and 57 street lighting assessment zones as described in Attachment A.

Consistent with the Board's direction regarding compliance with Article XIID of the California Constitution and the Landscaping and Lighting Act of 1972, the attached resolutions have been prepared and a public hearing scheduled for 9:30 a.m. on July 1, 2014, to receive testimony for and against the proposed assessments.

Impact on Residents and Businesses

Only the property owners within the boundaries of each Zone within L&LMD No. 89-1-C are impacted by the assessments collected for the maintenance of the improvements within these zones, as described in Attachment A and the Engineer's Report.

Depending on the time the Zones were annexed into L&LMD No. 89-1-C, and the type of improvements, the mailed assessment ballot proposition approved by the property owners provides for these assessments and that either no inflation factor was established (Zones 1 and 3), a two percent (2%) inflation factor was established, or the annual assessment may be increased each year by the greater of two percent (2%) or the cumulative percentage increase, if any, in the Consumer Price Index (CPI-U), or the Consumer Price Index for electricity (CPI-U "for electricity"), for the Los Angeles-Riverside-Orange County California Standard Metropolitan Statistical Area (the "Index") as the Index stands as of March of each calendar year.

SUPPLEMENTAL:

Additional Fiscal Information

The annual budget for fiscal year 2014-15 totals \$1,467,609. For Fiscal Year 2014-15 the inflation factor, when appropriate, will be two percent (2%).

The inflation factor affects the maximum assessment, which is the maximum allowable assessment to be placed on a parcel, acre, or equivalent dwelling unit (EDU) within L&LMD No. 89-1-C. Zones may be assessed at the maximum assessment if needed, however some zones are assessed less depending on overall annual maintenance costs and existing reserves, if any.
