BACKGROUND:

Summary (continued)

CCS:

The Riverside County CCS Program currently serves over 11,700 cases for children age birth to 21 years who have significant medical conditions (also known as physically-handicapping conditions) requiring complex medical care from approved specialists. Children eligible for the program have cancer, cerebral palsy, heart defects, hemophilia, need organ transplants, or have other catastrophic health conditions. The CCS Program receives referrals from medical facilities, health plans and providers and determines the child/family financial, residential and medical eligibility for the program. Cases are managed by Public Health Nurses. The CCS Program also authorizes and provides payment to health care providers, medical facilities and medical suppliers for services including diagnoses and treatment.

The State requires Riverside County to certify that our community's Children's Services of California program (CCS) is compliant with all State and Federal policies and guidelines by signing the Certification Statement.

CHDP:

The continued services provided through the CHDP Program are:

1. Early Periodic Screening, Diagnosis and Treatment services to be made available to Medi-Cal beneficiaries from birth through twenty (20) years of age.
2. Health Screening and referral for diagnosis and treatment services to be made available for children who are not Medi-cal beneficiaries from birth through eighteen (18) years of age.

The state requires Riverside County to certify that our community's Child Health Program is compliant with all State and Federal policies and guidelines by signing the Certification Statement.

Impact on Citizens and Businesses

The CCS and CHDP programs promote early detection and prevention of disease and disability and treat children with certain physical limitations and chronic health conditions or diseases, thus allowing the children of Riverside County to live healthier lives.
