BACKGROUND:

Summary

The District Attorney's Office Drug Impaired Driver Vertical Prosecution Unit provides a central location throughout the western region of the county for law enforcement, victims, and the community.

The Riverside County District Attorney's Office will assign one Deputy District Attorney, located in the Western Region of the county, to vertically prosecute misdemeanor drug impaired driving cases. The DUID prosecutor will handle cases throughout each step of the criminal process. The DUID prosecutor will work with the Traffic Safety Resource Prosecutor Program (TSRP), funded by OTS, to increase capabilities of the prosecutor and the office by obtaining and delivering specialized training. The DUID prosecutor will share information with peers and law enforcement personnel throughout the county and across the state. The office will accomplish these objectives as a means to prevent impaired driving and reduce drug-involved traffic fatalities and injuries.

The Riverside County District Attorney's Office will recruit and assign three Deputy District Attorney (DDA) to vertically prosecute misdemeanor DUID cases in the county. The DDAs will identify dates and schedule the four (one each quarter) Regional Roundtable Meetings. Cases will be referred to the DDAs upon project funding. The DDAs will attend specialized training, including DUID prosecution and Vehicular Homicide Seminars sponsored by OTS and CDAA. A database for tracking the number and disposition of DUID filing requests received by the Riverside County District Attorney's Office, as well as the dispositions and conviction rate on DUID cases, will be developed. A roundtable meeting will be convened by the Riverside County District Attorney's Office, with representatives from each law enforcement agency from involved contract cities through the Sheriff's Department, as well as the regional CDAA TSRP prosecutor and OTS grant coordinator invited to attend.

The assigned DUID vertical prosecutors will continue to review, charge, and handle courtroom proceedings (including trials) of misdemeanor DUID cases throughout the county. Both in-house training for other deputy district attorneys, as well as "investigation protocol" training for law enforcement and DUID prosecutor will be developed and presented in collaboration with the CDAA TSRP Program. Roundtable meetings including law enforcement and prosecutors will be conducted quarterly during the grant period to assess technical needs for training on DUI investigation and court testimony.

The grant requires collection and reporting of appropriate statistical data quarterly that supports the progress of each goal and objective.

Based on an estimated award, the DA's Office budgeted \$480,000 for FY14-15 in this revenue category. A reduction of \$20,000 to \$460,000 is required based on the nine month pro-rata amount of the grant period in Fiscal Year 2014-2015 (See Attachment A). The remaining portion of the grant award (\$28,280) will be included in the budget process for FY2015-2016.

The grant award and resolution have been reviewed and approved as to form by County Counsel.

Impact on Citizens and Businesses

All costs under this program will be recovered through grant funding.

1. PROBLEM STATEMENT

For each of the past six years (2007-2012), Riverside County law enforcement officials have arrested over 10,000 impaired drivers, placing it among only five counties in the State of California with a similarly high incidence of impaired driving. The Riverside County District Attorney's Office filed 10,402 DUI cases in FY 2010, 10,034 DUI cases in FY 2011 and 10,806 DUI cases in FY 2012.

Although the number of alcohol and drug-related vehicular fatalities has declined, the proportion of fatalities involving drug or drug and alcohol combination impairment has increased. A 2010 NHTSA study found that in 2009, among fatally injured drivers, 18 percent tested positive for at least one drug (e.g., illicit, prescription, or over-the-counter), an increase from 13 percent in 2005.¹ In February, 2012, the California Office of Traffic Safety (OTS), citing data from the National Highway Traffic Safety Administration, indicated that 30 percent of all drivers who were killed in motor vehicle crashes in California in 2010 tested positive for legal and/or illegal drugs, a percentage that has been increasing since 2006.

The actual extent and prevalence of drug-impaired driving in Riverside County was unknown until the Riverside County District Attorney's Office was awarded OTS grant #AL1359 for FFY 2013. DDA Kristen Buie was the sole prosecutor assigned to the grant, and vertically prosecuted misdemeanor drug-only DUIs and combination alcohol and drug DUI cases in the Western region of the county. DDA Buie also handled felony drug-impaired driving cases in an effort to maintain continuity and promote overall efficiency. With the institution of the grant very detailed and accurate statistics for drug-only DUIs and combination alcohol and drug DUIs were kept by the District Attorney's Office for the very first time. In the past, numerous prosecutors at the Riverside County District Attorney's Office handled thousands of DUI cases every year without documenting whether a particular case was an alcohol-only DUI, drug-only DUI, or combination drug and alcohol DUI. Therefore, the statistics this grant enables the office to collect are extremely helpful in identifying the prevalence of drug-impaired driving and combination drug and alcohol impaired driving in Riverside County. With continued financial support from OTS, the statistics gathered by the vertical prosecution team in Riverside County will produce baseline data that will serve as a measure to evaluate the impact of this grant, as well as other law enforcement grants awarded in Riverside County.

In FFY 2013, 829 DUID filing requests were submitted to, and reviewed by DDA Buie, who filed 748 DUID cases. Of those 829 filing requests, there were 441 misdemeanor combination drug and alcohol DUIs, 374 misdemeanor drug-only DUIs, 7 felony combination drug and alcohol DUIs and 7 felony drug-only DUIs. Of the 748 DUID cases that were filed, there were 417 misdemeanor combination drug and alcohol DUIs, 318 misdemeanor drug-only DUIs, 9 felony combination drug and alcohol DUIs and 4 felony drug-only DUIs. These are just a few examples of the types of detailed statistics this grant enables the office to gather, that otherwise would not be collected.

The DUI arrest rates in Riverside County in recent years, and DUID filing and conviction rates documented in FFY 2013, coupled with increasing awareness of the frequency of drug and combination drug and alcohol-impaired driving statewide and nationally, clearly indicates that Riverside County law enforcement officers and

prosecutors must continue to be prepared to tackle the threat presented to traffic safety by drug-impaired drivers. A team approach focusing on specialized training for law enforcement, combined with vertical prosecution by experienced, focused prosecutors, is critical to success. Of special importance to the successful prosecution of DUID cases is the ability of investigating officers to recognize and document driving irregularities, symptoms of drug and/or alcohol impairment, and poor performance on standardized field sobriety tests, and correlate these factors, among others, to safe motor vehicle operation. Because California does not have a “per se” DUID statute, the qualification in court of investigating officer(s) as experts for purposes of expressing opinions regarding the effects of drug impairment on driving ability is often the cornerstone of the prosecution case. We must continue to train law enforcement on these issues. A common challenge for DUID prosecutors is the reluctance or inability of toxicologists from the Department of Justice laboratories to express specific opinions regarding impairment for purposes of driving resulting from drug ingestion is a definite challenge. This problem is exacerbated by DOJ’s common practice of only performing a “screen” on blood samples, rather conducting quantitative analysis. This practice often puts prosecutors in the difficult situation of having an expert from DOJ unable to render any opinion regarding impairment because the lab does not conduct quantitative analysis on samples unless specifically requested by a prosecutor, and the results take about 3-4 months to reach the prosecuting agency. Failure of the investigating officer(s) to conduct thorough and complete investigations results either in prosecutors declining to file charges in DUID cases based on perceived insufficiency of the evidence, or unsatisfactory results at trial. Either way, the drug-impaired driver escapes accountability. In sum, we must ensure investigating officers are specially trained on how to conduct DUID investigations, and how to effectively testify in DUID jury trials.

Successful prosecution of DUID cases also depends upon deputy district attorneys who are able to properly evaluate DUID cases submitted for charging, have both technical and tactical expertise in the trial prosecution of such cases, and who can rely on officers to properly investigate DUID cases and most importantly, effectively testify about the effects of drug impairment on driving. Cooperation and communication between law enforcement and prosecutors fosters the ability to quickly address developing issues and concerns (e.g., the *McNeely decision of the U.S. Supreme Court*) of both the logistical and technical varieties. This strategy is working – under the current grant the office is filing more DUID cases, obtaining more DUID convictions, and ultimately making the streets and highways of Riverside County safer. Continued funding for the vertical prosecution of DUID cases in Riverside County is necessary to ensure the continuation of this team effort aimed at holding DUID offenders accountable.

It is clear that greater accountability of DUID offenders resulted from the vertical prosecution program in FFY 2013, because 90% of DUID filing submissions were filed when they first came across DDA Buie’s desk. Because the grant enabled DDA Buie to work closely with traffic officers, if she was contemplating rejecting or sending back a DUID filing submission she would first try calling the investigating officer, or meet with the officer face-to-face. DDA Buie’s participation at law enforcement roundtables, DUI Checkpoints, press briefings, trainings and meetings made it much easier to communicate with officers effectively in order streamline the DUID filing process. She was so successful at communicating to law enforcement the evidentiary standards applicable to filing DUID cases that her rejection rate was only 4.58%, and only 5.42% of DUID filing submissions were returned to law enforcement for further investigation. The previous grant award resulted in greater accountability of DUID offenders as evidenced by the 301 guilty pleas obtained in DUID cases in FFY 2013. On average, DDA Buie obtained almost 6 guilty pleas per week. The vertical prosecution

program further proved an effective mechanism for holding drug impaired drivers accountable as evidenced by the three guilty verdicts (and no acquittals) obtained at jury trial. DDA Buie, utilizing the specialized training and expertise acquired due to grant funds, obtained one felony DUID guilty verdict and two misdemeanor DUID guilty verdicts.

Due to last year's success the Drug-Impaired Driver Vertical Prosecution Program expanded to reach the other two regions of the county – the Southwest Division and the Indio Division. Riverside County is the 4th most populous county in the state – home to over 2 million people, and is geographically large – encompassing over 7,000 square miles. The addition of two experienced DUI prosecutors to cover this large county this year will result in more DUID offenders being held accountable, and inevitably, safer roads for the millions of people that travel throughout the county. The Riverside County District Attorney's Office is committed to enhancing traffic safety, as demonstrated by the completion of each objective and goal in grant award # AL1359, and the ongoing success of the expanded vertical prosecution program in grant award # DI1427.
