**FORM 11:** Approval of the Plans and Specifications for the 66th Avenue, Harrison Street, and Tyler Street Resurfacing Projects in the Thermal and Oasis Communities of the Coachella Valley. 4th/4th District (Clerk to Advertise); [\$930,000]; Local Funds 100%

**DATE:** November 3, 2014

**PAGE:** 2 of 2

**BACKGROUND:**

**Summary**

The County Transportation Improvement Program (TIP) provides for resurfacing of these road segments in the communities of Thermal and Oasis of the Coachella Valley.

The road segments included are as follows:

<b>Road</b>	<b>Segment Location</b>	<b>Length</b>
66th Avenue	Van Buren Street to Harrison Street	0.95 mile
Harrison Street	Northwesterly Pierce Street 0.38 Mile to Southerly Pierce Street 0.21 Mile	0.55 mile
Tyler Street	Northerly 66th Avenue 0.46 Mile to Northerly 66th Avenue 1 Mile	0.52 mile

The roads are classified as “rural collectors” with some truck traffic from local farms and businesses in the area. Various sections of road within these road segments have moderate damage with some alligator cracking and block cracking, which is normally caused by heavy wheel loads and thermal effects, and are in need of repair.

The purpose of this project is to resurface these road segments to provide the public with a smooth, paved roadway that will improve the safety and efficiency of vehicular traffic.

The resurfacing works consist of coldplane existing asphalt and/or grinding existing pavement in place and installation of hot mix asphalt and/or rubber hot mix asphalt concrete pavement overlay. Shoulder backing material will be placed to protect the outside edge of pavement and prevent edge cracking and pavement edge deterioration. Safety improvement items include striping, reflective pavement markers, and the construction of a pavement “safety edge.” The safety edge is engineered to enable drivers who drift off of the paved surface to return to the traveled surface safely.

The submitted plans and specifications have been approved as to form by County Counsel, and environmental clearance is complete.

Project Numbers: C3-0059, C3-0061, and C3-0063

**Impact on Residents and Businesses**

The proposed improvements will benefit the project area by significantly improving the existing infrastructure, preserving and extending the service life as well as providing upgrades to enhance safety.

The work is scheduled to begin in early 2015. The work will be phased to keep the roads open during construction and will take approximately five weeks to complete.

**SUPPLEMENTAL:**

**Additional Fiscal Information**

The construction contract is estimated to cost approximately \$930,000, and construction is expected to finish in FY 2014/2015 and will be funded with Measure A/Coachella Valley funds.

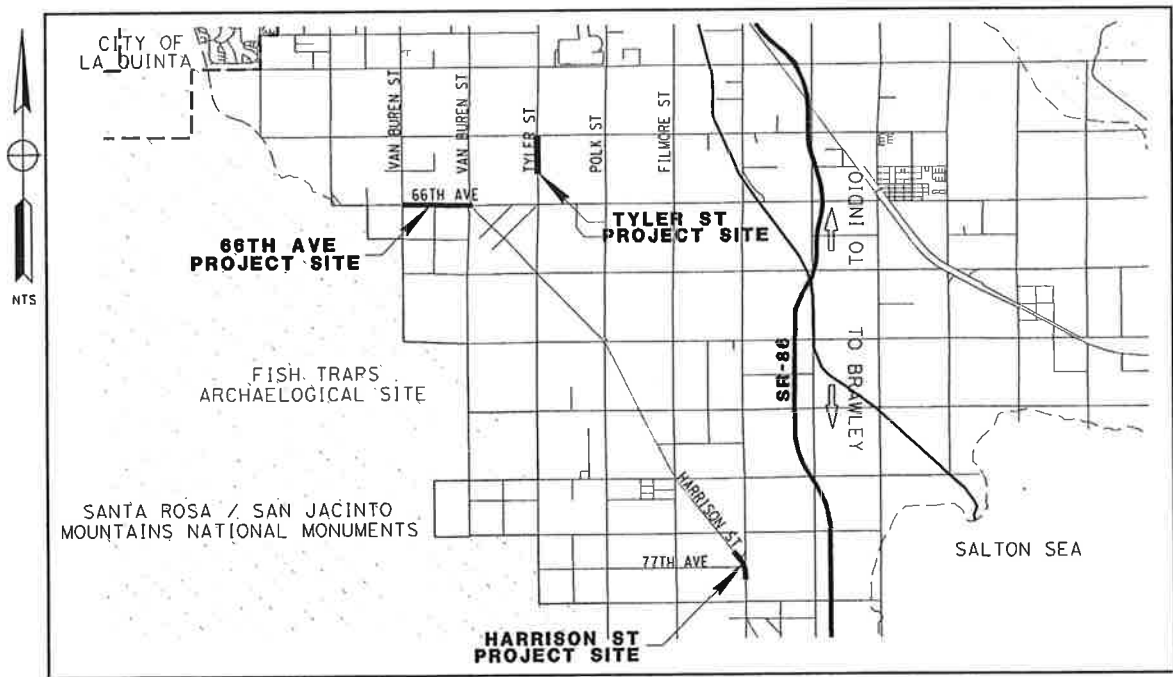

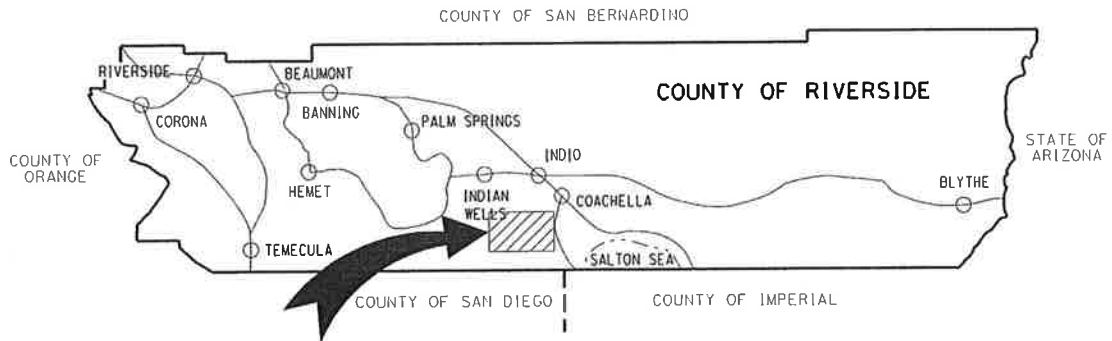

There are no General Funds used in this project.
