**SUBMITTAL TO THE BOARD OF SUPERVISORS, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA
FORM 11: Resolution No. 2015-079 authorizing an application for an Acquisition and Development
Grant from the California Department of Transportation.**

BACKGROUND:

Summary

The current Countywide Policies of the Riverside County Airport Land Use Compatibility Plan were adopted in 2004, and the Jacqueline Cochran Regional Airport Land Use Compatibility Plan was adopted the following year. A new California Airport Land Use Planning Handbook (2011) has now been issued, replacing the 2002 edition that had served as a basis for the Countywide Policies. The Riverside County Planning Commission has also considered establishment of policies for the Vista Santa Rosa community northwesterly of Jacqueline Cochran Regional Airport.

The 2014 Aeronautics Program approved by the California Transportation Commission awards an allocation of up to \$135,000 for amendments to this Compatibility Plan, and concurrent updates of our Countywide Policies to more closely align them with new data from the 2011 Handbook update. However, there is a fiscal requirement that the County of Riverside contribute 10 percent of the total cost of the project (\$150,000) - that is, a \$15,000 Grant match. These matching funds may be in the form of allocation of staff time to said project.

It is anticipated that the process of updating the Countywide Policies and the Jacqueline Cochran Regional Airport Land Use Compatibility Plan and associated environmental documentation will start in FY2015-16 and so the financial data on page one reflect an anticipated work program that begins next fiscal year, with no budget adjustments necessary, if the Board approves this resolution for application.

Adoption of the attached resolution authorizing the grant application and certifying the availability of matching funds is a necessary step in the process of accepting the Acquisition and Development Grant.

Impact on Citizens and Businesses

Updating the Plans to consistency with the 2011 Handbook will allow for increased allowable intensity within Compatibility Zone D on a Countywide basis (affecting the Airport Influence Areas of all airports except March Air Reserve Base/Inland Port Airport and Hemet-Ryan Airport) and allow increased opportunities for establishment of businesses in the general vicinity of airports.

Incorporation of the Vista Santa Rosa Additional Compatibility Policies into the Jacqueline Cochran Regional Airport Land Use Compatibility Plan will assist in allowing this community to achieve its future vision as articulated in numerous meetings and workshops over the past decade.

SUPPLEMENTAL:

Additional Fiscal Information

The State Division of Aeronautics has confirmed that a matching contribution may be in the form of "in-kind" costs, i.e., staff time. This salary cost would be included as part of ALUC's FY2015-16 budget; therefore, no additional allocation is required in order to commit to the 10 percent match and accept the grant.
