BACKGROUND:

Summary

On February 11, 2014, the Board approved Grant Agreements between the Riverside County Office on Aging (OoA) and three entities: (1) Desert Healthcare District, (2) JFK Memorial Hospital, and (3) Eisenhower Medical Center for Care Transitions Intervention (CTI) services for the period January 1 – December 31, 2014. Due to unforeseen challenges of obtaining qualified Social Service Workers for the desert region, the program had a later than anticipated start; therefore, requesting a no cost Grant Agreement extension for Desert Healthcare District and JFK from original end date of December 31, 2014 to December 31, 2015 and with Eisenhower Medical Center from December 31, 2014 to June 30, 2015.

The CTI program assists the hospitals by preventing needless hospital readmissions in the first 30 days post-discharge among referred patients. Trained CTI coaches work with discharging patients to assess their home environment via a home visit, reconcile medications, maintain a personal health record, and coordinate post-discharge care with their primary care physician.

Impact on Citizens and Businesses

It is anticipated 330 people will benefit from this CTI program over the period of the contract.
