BACKGROUND: (Continued)

Summary

The California State Emergency Management Agency (CalEMA) designated six regions responsible for the overall coordination of disaster mutual aid. Riverside County is within Region VI, which includes San Bernardino, San Diego, Imperial, Inyo and Mono counties. Riverside County serves as the Regional Disaster Medical Health System Coordinator (RDMHC) for Region VI and is therefore required to facilitate the medical health response for the region in the event of a disaster or major event.

The functions of the Regional Disaster Medical Health System (RDMHS) are to manage and improve the regional medical and health mutual aid and mutual cooperation systems; coordinate medical and health resources; support development of the Operational Area Medical and Health Disaster Response System; and support the State medical and health response system through the development of information and emergency management systems.

DOPH proposes to conduct a tabletop exercise that will test the region's ability to respond to a disaster or major event, identify gaps or weaknesses, and provide information on ways to improve readiness. The exercise will test key elements outlined in the department's Multi-Patient Management Plan (RFP # HSARC-278), the Medical Health Operational Area Coordination Plan (MHOAC) and the Medical Health Department Operations Center (DOC) Plan (HSARC -202).

As author of the Multi-Patient Management Plan, MHOAC and DOC Plans, WillDan Homeland Solutions has a comprehensive understanding of the Public Health and Medical System in Riverside County and has the knowledge of the key objectives that need to be exercised. In this Third Amendment, DOPH is requesting for WillDan Homeland Solutions to implement a tabletop exercise using the multi-Patient Management Plan, MHOAC Plan and DOC Plans.

Impact on Citizens and Business

There is no negative impact on citizens or business in the County of Riverside.

SUPPLEMENTAL:

Additional Fiscal Information

The amount of \$40,000 is available in the Fiscal Year (FY) 14/15 RDMHS grant budget which is State General Funds (50%) and Hospital Preparedness Program (HPP) funds (50%) provided by the EMS Authority through the California Department of Public Health (CDPH).

This third amendment in the amount of \$40,000 will increase the total amount of the contract from \$98,747 to \$138,747.

Contract History and Price Reasonableness

On June 3, 2014, Item 3.63, the Board of Supervisors approved the agreement with WillDan Homeland Solutions for the development of the Multi-Patient Management Plan, MHOAC and DOC Plans. The Board authorized the Purchasing Agent to sign subsequent amendments without increasing the amount approved.

The price of \$40,000 is consistent with previous tabletop exercises such as EG&G (3/4/08 Item 3-11) tabletop exercise in the amount of \$43,232.
