**Summary (continued)**

The County requires an Electronic Patient Care Record (ePCR) to be in compliance with the California Code of Regulations, Title 22, §100147(e), which requires that the local Emergency Medical Services (EMS) agency has a system for prehospital data collection to evaluate emergency medical care.

**Impact on Residents and Businesses**

There is no negative impact on citizens or businesses in the County of Riverside.

**SUPPLEMENTAL:**

**Additional Fiscal Information**

Funding for this agreement comes from fees paid by EMS providers. No net county funds will be used.

**Contract History and Price Reasonableness**

Sansio was awarded Prehospital Data Collection on Board Agenda Items 3.13, May 18, 2010 for five years, annually renewable.

Recently, Purchasing released a Request for Proposals #HSARC285, soliciting proposals from 20 companies and advertising on the County's website. Five competitive responses were received for the ePRC system. An evaluation team consisting of representatives from REMSA, a base hospital, and county and city fire departments evaluated the proposals and selected ImageTrend as the lowest cost, most responsive/responsible bidder. The ImageTrend agreement will appear as a separate item on today's agenda. However, to ensure uninterrupted service a transition period is needed. Therefore, the department is requesting an amendment to the SANSIO agreement, on a month to month basis, until the transition can be completed. It is anticipated that the transition period will be completed by January 1, 2016.
