BACKGROUND:

Summary

1. The City of Desert Hot Springs is funding the Verbena and Hacienda safe intersection project. This intersection is south of Cabot Yerxa Elementary School where students ages 5-11 cross Hacienda to attend school. Hacienda is a busy street without a crosswalk or a traffic signal which makes it difficult for students and residents to cross. The safe intersection project will include; installing a pedestrian activated flashing yellow signal, posting caution signs and installing a crosswalk. The goal of this project is to assist students and residents to safely cross the street. CID funds will be used to support this project.
1. The Desert Recreation District is funding the North Shore Project. The goal of the North Shore project is to create a public place to improve the quality of life for the residents of North Shore. There are several components to this project that will create a thriving hub including; a soccer field, sports court, small enterprise training program, youth-run bike program, residential-led farmer's market and a program for community-created art. North Shore consists of four residential areas with limited physical and social connection between them. Residents lack easy access to usable public space, healthy services and healthy foods. The benefits of this project for the residents will be community interaction, increased economy, exercise, healthy food, safe place for youth, education, and improved community cohesiveness. CID funding will be used towards the design completion, construction drawings and environmental reports.
