SUBMITTAL TO THE BOARD OF SUPERVISORS COUNTY OF RIVERSIDE, STATE OF CALIFORNIA

704B

SUBMITTAL DATE: July 14, 2015

FROM: TLMA - Planning Department

SUBJECT: RECEIVE AND FILE THE PLANNING DIRECTOR'S DECISION TO APPROVE TENTATIVE PARCEL MAP NO. 36925 AND VARIANCE NO. 1897 – Applicant: Russell Crha – Engineer: Blaine Womer – First Supervisorial District – Cajalco Zoning District – Lake Matthews/Woodcrest Area Plan: Rural Community: Estate Density Residential (RC:EDR) (2 Acre Minimum) – Location: Bisected by Harley John Road, northerly of Cajalco Road, southerly of Twyla Jane Lane, easterly of El Sobrante Road, and westerly of Wyler Road – Zoning: Residential Agricultural – 2½ Acre Minimum (R-A-2½) - REQUEST: The Tentative Parcel Map is a Schedule H subdivision of a 4.97 acre parcel into two (2) residential parcels that would include one (1) 3.31 acre parcel and one (1) 1.66 acre parcel. The proposed variance would allow for the proposed 1.66 acre parcel to be less than the required minimum lot size of 2½ acres required by the current R-A-2½ zone of the project site due to shape, location, and topographical constraints.

RECOMMENDED MOTION: That the Board of Supervisors:

<u>RECEIVE AND FILE</u> the Notice of Decision for the above referenced cases acted on by the Planning Director on July 6, 2015.

Steve Weiss, AICP Planning Director (Continued on next page)

SUBMITTAL TO THE BOARD OF SUPERVISORS, COUNTY OF RIVERSIDE, STATE OF CALIFORNIA FORM 11: TENTATIVE PARCEL MAP NO. 36925, VARIANCE NO. 1897 DATE: July 14, 2015 PAGE: Page 2 of 2

The Planning Department recommended approval; and,

THE PLANNING DIRECTOR:

<u>ADOPTED</u> a NEGATIVE DECLARATION for ENVIRONMENTAL ASSESSMENT NO. 42787 based on the findings incorporated in the Initial Study and the conclusion that the project will not have a significant impact on the environment; and

<u>APPROVED</u> TENTATIVE PARCEL MAP NO. 36925 subject to the attached Conditions of Approval, and based upon the findings and conclusions incorporated in the staff report; and,

<u>APPROVED</u> VARIANCE NO. 1897 permitting one (1) of the proposed parcels to be less than the required minimum lot size of 2¹/₂ acres, based upon the findings and conclusions incorporated in the staff report.

BACKGROUND: Summary

Tentative Parcel Map No. 36925 is a Schedule H subdivision of a 4.97 acre parcel into two (2) residential parcels that would include one (1) 3.31 acre parcel and one (1) 1.66 acre parcel.

Variance No. 1897 allows for the proposed 1.66 acre parcel to be less than the required minimum lot size of 2½ acres required by the current R-A-2½ zone of the project site due to shape, location, and topography. It is appropriate to grant a variance for the proposed project due to the special circumstance resulting from the County's construction of Harley John Road many decades ago which bisects the property and creates two irregularly shaped lots.

The proposed project was presented to the Planning Director on July 6, 2015. The Planning Director approved Tentative Parcel Map No. 36925, Variance No. 1897, and adopted the Negative Declaration on July 6, 2015.

Impact on Citizens and Businesses

The impacts of this project have been evaluated through the environmental review and public hearing process by Planning staff and the Planning Director.

Steve Weiss, AICP

Planning Director

COUNTY OF RIVERSIDE PLANNING DEPARTMENT STAFF REPORT

PROJECT DESCRIPTION AND LOCATION:

The Tentative Parcel Map is a Schedule H subdivision of a 4.97 acre parcel into two (2) residential parcels that would include one (1) 3.31 acre parcel and one (1) 1.66 acre parcel. The proposed variance would allow for the proposed 1.66 acre parcel to be less than the required minimum lot size of 2 and ½ acres required by the current R-A-2½ zone of the project site due to shape, location, and topographical constraints.

The proposed project is bisected from north to south by Harley John Road and it is located southerly of Twyla Jane Lane, westerly of Green Acres Drive, northerly of Cajalco Road, and easterly of El Sobrante Road at 19350 Harley John Road, Riverside.

SUMMARY OF FINDINGS:

Evisting General Plan Land Lise:

| , | | (RC:EDR) (2 Acre Minimum) |
|---|------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| 2 | Surrounding General Plan Land Use: | Rural Community: Estate Density Residential (RC:EDR) to the north, east, and south, and Open Space: Conservation Habitat (OS:CH) to the west |
| 3 | Existing Zoning: | Residential Agricultural - 2 and ½ Acre Minimum (R-A-2½) |
| 4 | Surrounding Zoning: | Residential Agricultural - 2½ Acre Minimum (R-A- 2½) to the north, east, south, and west |
| 5 | Existing Land Use: | Single Family Residence |
| 6 | Surrounding Land Use: | Single Family Residence to the north, east, and south, and conservation land to the west |
| 7 | Project Data: | Total Acreage: 4.97 Total Proposed Parcels: 2 Proposed Min. Parcel Size: 1.66 Acres Schedule: H |
| 8 | . Environmental Concerns: | See attached EA No. 42787 |
| | | |

RECOMMENDATIONS:

<u>ADOPT</u> a **NEGATIVE DECLARATION** for **ENVIRONMENTAL ASSESSMENT NO. 42787** based on the findings incorporated in the initial study and the conclusion that the project will not have a significant effect on the environment.

<u>APPROVE</u> VARIANCE NO. 1897 permitting one (1) of the proposed parcels to be less than the required minimum lot size of 2 and ½ acres based upon the findings and conclusions incorporated in the staff report.

<u>APPROVE</u> **TENTATIVE PARCEL MAP NO. 36925**, subject to the attached conditions of approval, and based upon the findings and conclusions incorporated in the staff report.

FINDINGS: The following findings are in addition to those incorporated in the summary of findings, and the attached environmental assessment which are incorporated herein by reference.

- 1. The project site is designated Rural Community: Estate Density Residential (RC:EDR) (2 Acre Minimum) on the Lake Matthews / Woodcrest Area Plan.
- 2. The General Plan explains that the RC:EDR designation provides for the development of detached single family residential dwellings on large parcels.
- 3. The subdivision is consistent with the General Plan because it is creating two large parcels for detached single family residential dwellings.
- 4. The project site is surrounded by properties which are designated RC:EDR which provides for the development of single family residential dwellings.
- 5. The zoning for the subject site is Residential Agricultural 2 and ½ Acre Minimum (R-A-2½).
- 6. The project site is surrounded to the north, east, south and west by properties that are zoned Residential Agricultural 2 and ½ Acre Minimum (R-A-2½).
- 7. A variance from the terms of Ordinance No. 348 may be granted when special circumstances applicable to the subject property, including size, shape topography, location, or surroundings deprives such property of privileges enjoyed by other property in the vicinity that is under the same zoning classification.
- 8. It is appropriate to grant a variance for the proposed project due to the special circumstance resulting from Harley John Road bisecting the project site. The location of the road results in a diagonal barrier within the existing parcel that impedes full use of the property. In addition, the diagonal barrier of Harley John Road also creates two uneven segments of land on the east and west side of the road that differ in their width from north to south. In comparison to other parcels in the vicinity, these uneven segments are irregularly shaped because many of the nearby parcels are rectangular or square. The irregular shape of the two segments created by Harley John Road deprives the existing parcel of privileges enjoyed by other property in the vicinity that is within the R-A-2½ zone.

- 9. Additionally, the proposed subdivision of land would not result in any use or activity on the project site that is not otherwise expressly authorized by the R-A-2½ zone.
- 10. With the approval of Variance No. 1897, the proposed subdivision is consistent with the development standards set forth in the R-A-2½ zone.
- 11. Residential uses have been constructed and are operating in the project vicinity.
- 12. This project is not located within a Criteria Area of the Western Riverside County Multiple Species Habitat Conservation Plan (WRCMSHCP).
- 13. The approval of Variance No. 1897 will allow for the proposed project to be consistent with the current R-A-2½ zone of the project site and therefore consistent with Section 3.1A of Article II of Ordinance 460.
- 14. The proposed project is bisected by Harley John Road which is already improved and it does not include any proposed streets. Both of the parcels resulting from an approval of the proposed project will be consistent with the minimum lot width, length, area, and street frontage requirements for a Schedule "H" subdivision and all other provisions of Ordinance No. 460.
- 15. This project is within the City Sphere of Influence of Riverside. As such, it is required to conform to the County's Memorandum of Understanding (MOU) with that city. This project conforms to the MOU.
- 16. This land division is located within a CAL FIRE state responsibility area.
- 17. This land division has been designed so that each lot, and the subdivision as a whole, is in compliance sections 4290 and 4291 of the Public Resources Code by providing a defensible space within each lot of 100 feet from each side, front and rear of a pad site, requiring that the site have fuel modification standards acceptable to the Riverside County Fire Department, requiring a minimum 10-foot clearance of all chimneys or stovetop exhaust pipes, no buildings shall covered or have dead brush overhang the roof line and requiring that the roof structure shall be maintained free of leaves, needles, or other vegetation.
- 18. Fire protection and suppression services will be available for the subdivision by the California Department of Forestry and Fire Protection.
- 19. Environmental Assessment No. 42787 concluded that the proposed project will not have a significant effect on the environment.

CONCLUSIONS:

 The proposed project is in conformance with the Rural Community: Estate Density Residential (RC: EDR) (2 Acre Minimum) Land Use Designation, and with all other elements of the Riverside County General Plan.

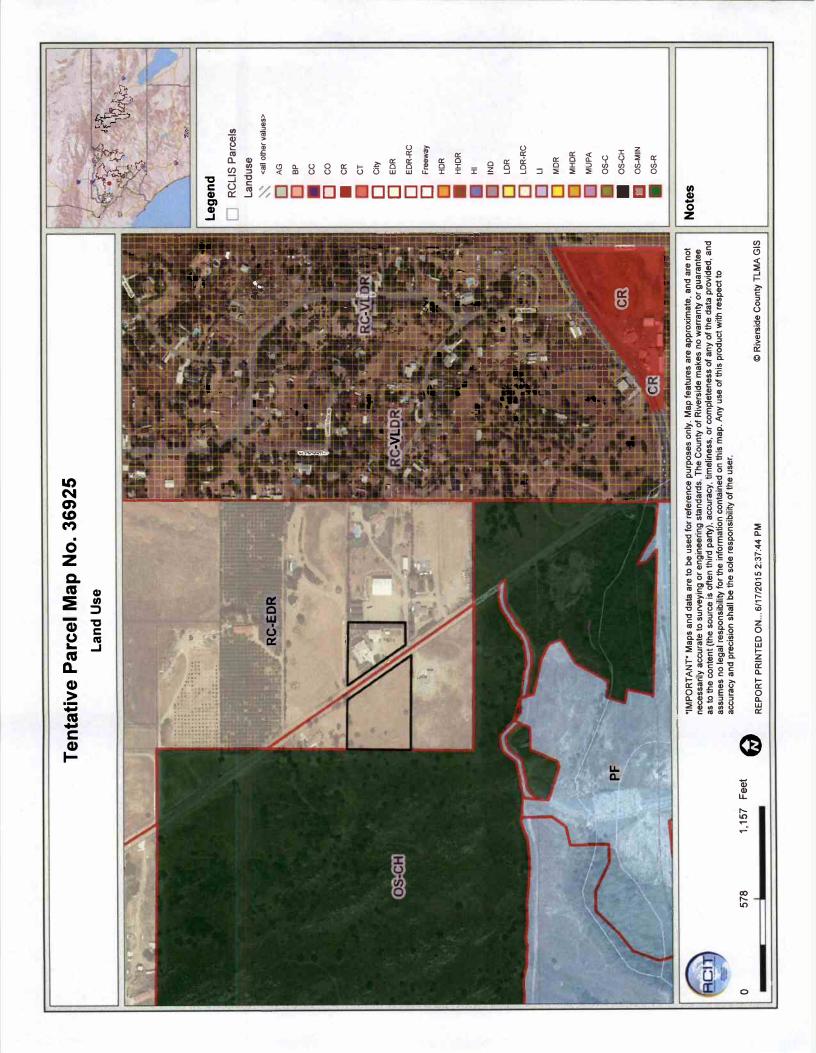

- 2. With the approval of the variance, the proposed project is consistent with the Residential Agricultural 2 and ½ Acre Minimum (R-A-2½) zoning classification of Ordinance No. 348, and with all other applicable provisions of Ordinance No. 348.
- 3. The proposed project is consistent with the Schedule H map requirements of Ordinance No. 460, and with other applicable provisions of Ordinance No. 460.
- 4. The public's health, safety, and general welfare are protected through project design.
- 5. The proposed project is conditionally compatible with the present and future logical development of the area.
- 6. The proposed project will not preclude reserve design for the Western Riverside County Multiple Species Habitat Conservation Plan (WRCMSHCP).

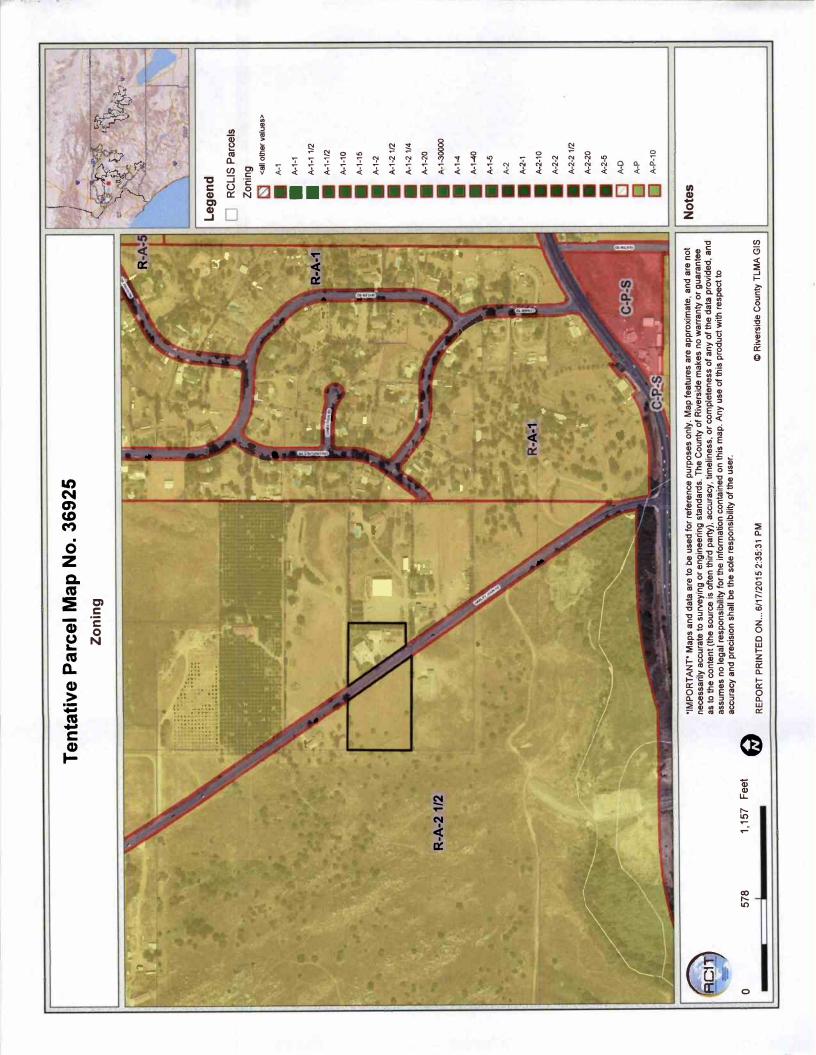

INFORMATIONAL ITEMS:

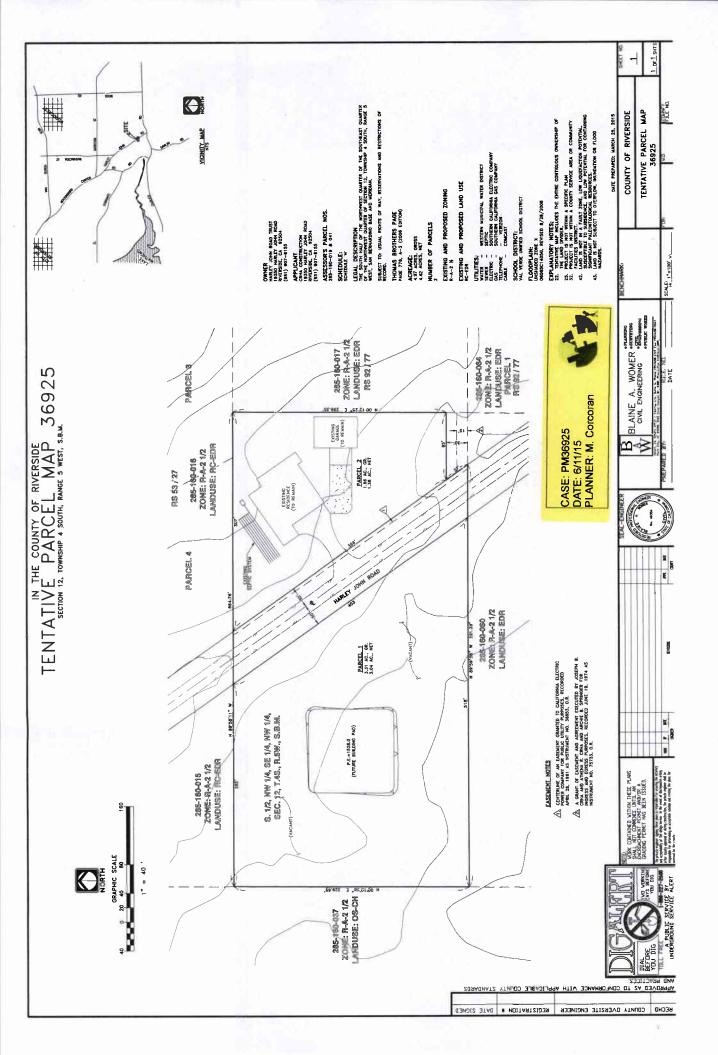

- 1. As of this writing, no letters, in support or opposition have been received.
- 2. The project site is <u>not</u> located within:
 - a. A 100-year flood plain, an area drainage plan, or dam inundation area;
 - b. An Area Drainage Plan;
 - c. A High Fire Area;
 - d. An area with high potential for liquefaction; or,
 - e. A County Service Area or Parks and Recreation District.
- 3. The project site is located within:
 - a. The boundaries of the Val Verde Unified School District;
 - b. The Stephens Kangaroo Rat Fee Area; and,
 - c. The city of Riverside sphere of influence;
- 4. The subject site is currently designated as Assessor's Parcel Numbers 285-160-019 and 285-160-041.

I. PROJECT INFORMATION

A. Project Description:

The Tentative Parcel Map is a Schedule H subdivision of a 4.97 acre parcel into two (2) residential parcels that would include one (1) 3.31 acre parcel and one (1) 1.66 acre parcel. The proposed variance would allow for the proposed 1.66 acre parcel to be less than the required minimum lot size of 2 and ½ acres required by the current R-A-2½ zone of the project site due to shape, location, and topographical constraints.

B. Type of Project: Site Specific \boxtimes ; Countywide \square ; Community \square ; Policy \square .

C. Total Project Area: 4.97 Gross Acres

| Residential Acres: 4.97 | Lots: 2 | Units: | Projected No. of Residents: |

- E. Street References: Bisected by Harley John Road, northerly of Cajalico Road, southerly of Twyla Jane Lane, easterly of El Sobrante Road, and westerly of Wyler Road
- **F. Section, Township & Range Description or reference/attach a Legal Description:** Township 4 South, Range 5 West, Section 12
- **G.** Brief description of the existing environmental setting of the project site and its surroundings: The project site is currently vacant except for a single family residence that will remain on parcel 2 of the proposed project; surrounding land uses include single family residences to the north, south, and east and vacant land to the west.

II. APPLICABLE GENERAL PLAN AND ZONING REGULATIONS

A. General Plan Elements/Policies:

1. Land Use: The General Plan explains that the RC:EDR designation provides for the development of detached single family residential dwelling and the subdivision is consistent with the General Plan because it is creating two large parcels for detached

Page 1 of 36

EA No. 42787

single family residential dwellings. The proposed land division will be consistent with all other standards of the RC:EDR Land Use Designation.

- **2. Circulation:** Adequate circulation facilities exist and are proposed to serve the project. The proposed project meets with all applicable circulation policies of the General Plan.
- 3. Multipurpose Open Space: No natural open space land was required to be preserved within the boundaries of this project. The proposed project meets with all other applicable Multipurpose Open Space element policies.
- 4. Safety: The proposed project is not within a high fire hazard area, high liquefaction area, or any other special hazard zone (including fault zone, dam inundation zone, etc.). The proposed project has allowed for sufficient provision of emergency response services to the future users of this project through the project design and payment of development impact fees. The proposed project meets with all other applicable Safety Element policies.
- 5. Noise: Sufficient mitigation against any foreseeable noise sources in the area have been provided for in the design of the project. The project will not generate noise levels in excess of standards established in the General Plan or noise ordinance. The project meets all other applicable Noise Element Policies.
- 6. Housing: The proposed project meets all applicable Housing Element Policies.
- 7. Air Quality: The proposed project has been conditioned to control any fugitive dust during grading and construction activities. The proposed project meets all other applicable Air Quality element policies.
- B. General Plan Area Plan(s): Lake Mathews/Woodcrest
- C. Foundation Component(s): Rural Community
- **D. Land Use Designation(s):** Estate Density Residential (EDR) (2 Acre Minimum)
- E. Overlay(s), if any: Not Applicable
- F. Policy Area(s), if any: Not Applicable
- G. Adjacent and Surrounding Area Plan(s), Foundation Component(s), Land Use Designation(s), and Overlay(s) and Policy Area(s), if any: Property to the north, east, and south of the project site is designated Rural Community: Estate Density Residential (RC: EDR), and property to the west of the project site is designated Open Space: Conservation Habitat (OS: CH).
- H. Adopted Specific Plan Information
 - 1. Name and Number of Specific Plan, if any: Not Applicable
 - 2. Specific Plan Planning Area, and Policies, if any: Not Applicable
- I. Existing Zoning: Residential Agricultural 2 and ½ Acre Minimum (R-A-2½)
- J. Proposed Zoning, if any: Not Applicable

K. Adjacent and Surrounding Zoning: The project site is surrounded by properties which are zoned Residential Agricultural – 2 and ½ Acre Minimum (R-2½).

III. ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED

The environmental factors checked below (x) would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" or "Less than Significant with Mitigation Incorporated" as indicated by the checklist on the following pages.

| Aesthetics | Hazards & Hazardous Materials | Recreation |
|--------------------------------|-------------------------------|-----------------------------|
| Agriculture & Forest Resources | Hydrology / Water Quality | Transportation / Traffic |
| Air Quality | Land Use / Planning | Utilities / Service Systems |
| Biological Resources | Mineral Resources | Other: |
| Cultural Resources | 🗌 Noise | Other: |
| Geology / Soils | Population / Housing | Mandatory Findings of |
| Greenhouse Gas Emissions | Public Services | Significance |
| | | |

IV. DETERMINATION

On the basis of this initial evaluation:

A PREVIOUS ENVIRONMENTAL IMPACT REPORT/NEGATIVE DECLARATION WAS NOT PREPARED

☐ I find that the proposed project COULD NOT have a significant effect on the environment, and a **NEGATIVE DECLARATION** will be prepared.

□ I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project, described in this document, have been made or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.

I find that the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.

A PREVIOUS ENVIRONMENTAL IMPACT REPORT/NEGATIVE DECLARATION WAS PREPARED

I find that although the proposed project could have a significant effect on the environment, **NO NEW ENVIRONMENTAL DOCUMENTATION IS REQUIRED** because (a) all potentially significant effects of the proposed project have been adequately analyzed in an earlier EIR or Negative Declaration pursuant to applicable legal standards, (b) all potentially significant effects of the proposed project have been avoided or mitigated pursuant to that earlier EIR or Negative Declaration, (c) the proposed project will not result in any new significant environmental effects not identified in the earlier EIR or Negative Declaration, (d) the proposed project will not substantially increase the severity of the environmental effects identified in the earlier EIR or Negative Declaration, (e) no considerably different mitigation measures have been identified and (f) no mitigation measures found infeasible have become feasible.

☐ I find that although all potentially significant effects have been adequately analyzed in an earlier EIR or Negative Declaration pursuant to applicable legal standards, some changes or additions are necessary but none of the conditions described in California Code of Regulations, Section 15162 exist. An **ADDENDUM** to a previously-certified EIR or Negative Declaration has been prepared and will be considered by the approving body or bodies.

☐ I find that at least one of the conditions described in California Code of Regulations, Section 15162 exist, but I further find that only minor additions or changes are necessary to make the previous EIR adequately apply to the project in the changed situation; therefore a **SUPPLEMENT TO THE ENVIRONMENTAL IMPACT REPORT** is required that need only contain the information necessary to make the previous EIR adequate for the project as revised.

I find that at least one of the following conditions described in California Code of Regulations, Section 15162, exist and a SUBSEQUENT ENVIRONMENTAL IMPACT REPORT is required: (1) Substantial changes are proposed in the project which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; (2) Substantial changes have occurred with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR or negative declaration due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or (3) New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the previous EIR was certified as complete or the negative declaration was adopted, shows any the following:(A) The project will have one or more significant effects not discussed in the previous EIR or negative declaration;(B) Significant effects previously examined will be substantially more severe than shown in the previous EIR or negative declaration;(C) Mitigation measures or alternatives previously found not to be feasible would in fact be feasible, and would substantially reduce one or more significant effects of the project. but the project proponents decline to adopt the mitigation measures or alternatives; or,(D) Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR or negative declaration would substantially reduce one or more significant effects of the project on the environment, but the project proponents decline to adopt the mitigation measures or alternatives.

V. ENVIRONMENTAL ISSUES ASSESSMENT

In accordance with the California Environmental Quality Act (CEQA) (Public Resources Code Section 21000-21178.1), this Initial Study has been prepared to analyze the proposed project to determine any potential significant impacts upon the environment that would result from construction and implementation of the project. In accordance with California Code of Regulations, Section 15063, this Initial Study is a preliminary analysis prepared by the Lead Agency, the County of Riverside, in consultation with other jurisdictional agencies, to determine whether a Negative Declaration, Mitigated Negative Declaration, or an Environmental Impact Report is required for the proposed project. The purpose of this Initial Study is to inform the decision-makers, affected agencies, and the public of potential environmental impacts associated with the implementation of the proposed project.

| | Potentially Significant Impact | Less than Significant with Mitigation Incorporated | Less Than Significant Impact | No Impact |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|----------------------------------------------------------------|---------------------------------------|--------------|
| AESTHETICS Would the project | | | | |
| Scenic Resources a) Have a substantial effect upon a scenic highway corridor within which it is located? | | | | \boxtimes |
| b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings and unique or landmark features; obstruct any prominent scenic vista or view open to the public; or result in the creation of an aesthetically offensive site open to public view? | | | | |

Source: Riverside County General Plan Figure C-9 "Scenic Highways"

Findings of Fact:

a) The General Plan indicates that the project is not located within or visible from a designated scenic corridor; therefore, the project will have no significant impact.

b) The proposed project will not substantially damage scenic resources, including, but not limited to, trees, rock outcroppings and unique or landmark features, open to the public, as these features do not exist on the project site. Additionally, the project will not result in the creation of an aesthetically offensive site open to public view. The project will be developed pursuant to the Countywide Design Standards and Guidelines and therefore will not create an aesthetically offensive project.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| Mt. Palomar Observatory a) Interfere with the nighttime use of the Mt. Palomar Observatory, as protected through Riverside County Ordinance No. 655? | | | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|--|--|
| Source: GIS database, Ord. No. 655 (Regulating Light Pollut | ion) | | |
| Findings of Fact: | | | |

| Potentially | Less than | Less | No |
|-------------|--------------|-------------|--------|
| Significant | Significant | Than | Impact |
| Impact | with | Significant | • |
| | Mitigation | Impact | |
| | Incorporated | | |

a) According to the GIS Database, the project site is located 43.65 miles away from the Mt. Palomar Observatory; which is within the designated 45-mile (ZONE B) Special Lighting Area that surrounds the Mt. Palomar Observatory. Ordinance No. 655 requires methods of installation, definition, requirements for lamp source and shielding, prohibition and exceptions. With incorporation of project lighting requirements of the Riverside County Ordinance No. 655 into the proposed project, this impact will be reduced to a less than significant impact. A note will be made on the Environmental Constraints Sheet that the properties are located within Zone B of County Ordinance No. 655 and are subject to outdoor lighting restrictions. (COA 50.PLANNING.21) This is a standard condition of approval and is not considered mitigation pursuant to CEQA.

Mitigation: No mitigation measures are required.

Monitoring: No mitigation measures are required.

| Other Lighting Issues a) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area? | | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|-------------|--|
| b) Expose residential property to unacceptable light levels? | | \boxtimes | |

Source: On-site Inspection, Project Application Description

Findings of Fact:

a-b) The parcels created by this tentative map will ultimately be developed with residential units similar in character with any surrounding residential development. Therefore, the project is not anticipated to create a significant new source of light or glare in the area or expose adjacent residential properties to unacceptable light levels.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| 625 "Right-to-Farm")? | | | | |
| d) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use? | | | | |

<u>Source:</u> Riverside County General Plan Figure OS-2 "Agricultural Resources," GIS database, Ord. No. 509 (Agricultural Preserves), and Project Application Materials.

Findings of Fact:

a) The project is located on a land designated as "Local Importance" under the Farmlands layer of the County GIS database. Therefore, the proposed project will not convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance to non-agricultural use.

b) The project is not located within an Agricultural Preserve or under a Williamson Act contract; therefore, no impact will occur as a result of the proposed project.

c) The project site is not surrounded by agriculturally zoned land (A-1, A-2, A-P, A-D, & C/V). Therefore, the project will not cause development of a non-agricultural use within 300 feet of agriculturally zoned property.

d) The project will not involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| Forest a) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Govt. Code section 51104(g))? | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|-------------|
| b) Result in the loss of forest land or conversion of forest land to non-forest use? | | \boxtimes |
| c) Involve other changes in the existing environment | | |
| which, due to their location or nature, could result in con- version of forest land to non-forest use? | | |

<u>Source:</u> Riverside County General Plan Figure OS-3 "Parks, Forests and Recreation Areas," and Project Application Materials.

Findings of Fact:

a) The project is not located within the boundaries of a forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Govt. Code section 51104(g)). Therefore, the

| Potentially Significant | Less than Significant | Less Than | No Impact |
|----------------------------|--------------------------|--------------|--------------|
| Impact | with Mitigation | Significant | impact |
| | Incorporated | | |

proposed project will not impact land designated as forest land, timberland, or timberland zoned Timberland Production.

b) The project is not located within forest land and will not result in the loss of forest land or conversion of forest land to non-forest use; therefore, no impact will occur as a result of the proposed project.

c) The project will not involve other changes in the existing environment which, due to their location or nature, could result in conversion of forest land to non-forest use.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| AIR QUALITY Would the project | | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|-------------|-------------|
| Air Quality Impacts a) Conflict with or obstruct implementation of the applicable air quality plan? | | | |
| b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation? | | \boxtimes | |
| c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non- attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)? | | \boxtimes | |
| d) Expose sensitive receptors which are located within 1 mile of the project site to project substantial point source emissions? | | | |
| e) Involve the construction of a sensitive receptor located within one mile of an existing substantial point source emitter? | | | |
| f) Create objectionable odors affecting a substantial number of people? | | | \boxtimes |

Source: SCAQMD CEQA Air Quality Handbook

Findings of Fact:

CEQA Guidelines indicate that a project will significantly impact air quality if the project violates any ambient air quality standard, contributes substantially to an existing air quality violation, or exposes sensitive receptors to substantial pollutant concentrations.

a) The project site is located in the South Coast Air Basin (SCAB). The South Coast Air Quality Management District (SCAQMD) Governing Board adopted its most recent Air Quality Management Plan (AQMP) for the SCAB on August 1, 2003. The AQMP is a plan for the regional improvement of air quality. As part of adoption of the County's General Plan in 2003, the General Plan EIR (SCH No. 2002051143) analyzed the General Plan growth projections for consistency with the AQMP and

| Potentially | Less than | Less | No |
|-------------|--------------|-------------|--------|
| Significant | Significant | Than | Impact |
| Impact | with | Significant | |
| | Mitigation | Impact | |
| | Incorporated | • | |

concluded that the General Plan is consistent with the SCAQMD's AQMP. The project is consistent with the County General Plan and would therefore be consistent with the SCAQMD's AQMP.

b-c) The South Coast Air Basin (SCAB) is in a non-attainment status for federal ozone standards, federal carbon monoxide standards, and state and federal particulate matter standards. Any development in the SCAB, including the proposed Project, would cumulatively contribute to these pollutant violations.

The project is consistent with the General Plan and the Lake Mathews/Woodcrest Area Plan land use designations. The General Plan (2003) is a policy document that reflects the County's vision for the future of Riverside County. The General Plan is organized into eight separate elements, including an Air Quality Element. The purpose of the Air Quality Element is to protect County residents from the harmful effects of poor air quality. The Air Quality Element identifies goals, policies, and programs that are meant to balance actions regarding land use, circulation, and other issues with their potential effects on air quality. The Air Quality Element, in conjunction with local and regional air quality planning efforts, addresses ambient air quality standards set forth by the Federal Environmental Protection Agency (EPA) and the California Air Resources Board (CARB). Potential air quality impacts resulting from the proposed Project would not exceed emissions projected by the Air Quality Element. The County is charged with implementing the policies in the General Plan Air Quality Element, which are focused on reducing concentrations of criteria pollutants, reducing negative impacts to sensitive receptors, reducing mobile and stationary pollutant sources, increasing energy conservation and efficiency, improving the jobs to housing balance, and facilitating multi-jurisdictional coordination for the improvement of air quality.

Implementation of the project would not impact air quality beyond the levels documented in EIR No. 441 prepared for the General Plan. The project would impact air quality in the short-term during construction and in the long-term through operation. In accordance with standard county requirements, dust control measures and maintenance of construction equipment shall be utilized on the property to limit the amount of particulate matter generated. These are standard requirements and are not considered mitigation pursuant to CEQA.

The proposed project would primarily impact air quality through increased automotive emissions. Projects of this type do not generate enough traffic and associated air pollutants to violate clean air standards or contribute enough air pollutants to be considered a cumulatively considerable significant impact. Therefore, the impacts to air quality are considered less than significant.

d) A sensitive receptor is a person in the population who is particularly susceptible to health effects due to exposure to an air contaminant than is the population at large. Sensitive receptors (and the facilities that house them) in proximity to localized CO sources, toxic air contaminants or odors are of particular concern. High levels of CO are associated with major traffic sources, such as freeways and major intersections, and toxic air contaminants are normally associated with manufacturing and commercial operations. Land uses considered to be sensitive receptors include long-term health care facilities, rehabilitation centers, convalescent centers, retirement homes, residences, schools, playgrounds, child care centers, and athletic facilities. Surrounding land uses include residential, which is considered a sensitive receptor, however, the project is not expected to generate substantial point source emissions. The project will not include commercial or manufacturing uses, or generate significant odors.

a) This project is not located within a WRMSHCP Criteria Cell Group, and the project will not conflict with the provisions of an adopted Habitat Conservation Plan, Natural Conservation Community Plan, or other approved local, regional, or state conservation plan.

b) This project will not have a substantial adverse effect, either directly or through habitat modifications, on any endangered, or threatened species, as listed in Title 14 of the California Code of Regulations (Sections 670.2 or 670.5) or in Title 50, Code of Federal Regulations (Sections 17.11 or 17.12).

c) This project will not have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Wildlife Service.

d) The proposed project will not interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident migratory wildlife corridors, or impede the use of native wildlife nursery sites.

e) The proposed project will not have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, and regulations or by the California Department of Fish and Game or U. S. Fish and Wildlife Service.

f) The proposed project will not have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means.

g) The proposed project will not conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance. 2½

Mitigation: No mitigation is required.

Monitoring: No monitoring is required.

| CULTURAL RESOURCES Would the project | | | |
|---------------------------------------------------------------------------------------------------------|--|-----------|--|
| 8. Historic Resourcesa) Alter or destroy an historic site? | | \bowtie | |
| b) Cause a substantial adverse change in the | | | |
| significance of a historical resource as defined in California Code of Regulations, Section 15064.5? | | | |

Source: Project Application Materials

Findings of Fact:

a-b) The project site has been previously disturbed. The project does not propose the demolishing of historic structures. Since ground disturbance has already occurred, and no significant disturbance is required for the project, the likelihood of the project altering or destroying historic resources is less than significant.

Page 11 of 36

| 9. Archaeological Resources a) Alter or destroy an archaeological site. | | | | |
| b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to California Code of Regulations, Section 15064.5? | | | \boxtimes | |
| c) Disturb any human remains, including those interred outside of formal cemeteries? | | | \boxtimes | |
| d) Restrict existing religious or sacred uses within the potential impact area? | | | | \boxtimes |

Source: Project Application Materials

Findings of Fact:

a-b) The project site has been previously disturbed. Since ground disturbance has already occurred, and no significant disturbance is required for the project, the likelihood of the project altering or destroying an archaeological site is less than significant.

c) There may be a possibility that ground disturbing activities will expose human remains. The project is subject to State Health and Safety Code Section 7050.5 which requires that if human remains are discovered during ground disturbing activities all ground-disturbing activities must be stopped and the County Corner be notified. Any impact would be less than significant.

d) The project will not restrict existing religious or sacred uses within the potential impact area. Therefore, there is no significant impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

10. Paleontological Resources a) Directly or indirectly destroy a unique paleonto

logical resource, or site, or unique geologic feature?

Source: Riverside County General Plan Figure OS-8 "Paleontological Sensitivity"

Findings of Fact:

a) The site is mapped in the County's General Plan as having a low potential for paleontological resources (fossils). In addition, the project site has been previously disturbed, and development of the project site will be limited to a single family home therefore limiting the extent of any ground disturbance or disturbance to undiscovered resources. Any impact would be less than significant.

| GEOLOGY AND SOILS Would the project | EC. | | | |
| 11. Alquist-Priolo Earthquake Fault Zone or County Fault Hazard Zones | | | \boxtimes | |
| a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death? | | | | |
| b) Be subject to rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? | | | | |

Findings of Fact:

a) The project site is not located within an Alquist-Priolo Earthquake Fault Zone. The proposed project will not expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death. California Building Code (CBC) requirements pertaining to residential development will mitigate the potential impact to less than significant. As CBC requirements are applicable to all residential development they are not considered mitigation for CEQA implementation purposes. Therefore, the impact is considered less than significant.

b) The project site is not located within an Alquist-Priolo Earthquake Fault Zone and no known fault lines are present on or adjacent to the project site. Therefore, there is a low potential for rupture of a known fault. Therefore, the impact is considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| 12. Liquefaction Potential Zone | | | | |
|----------------------------------|--------|----------|------|--|
| a) Be subject to seismic-related | ground | failure, | | |
| including liquefaction? | | | | |

Source: Riverside County General Plan Figure S-3 "Generalized Liquefaction", GIS Database

Findings of Fact:

a) The proposed project is located within an area identified by Riverside County General Plan Figure S-3 "Generalized Liquefaction" to have no potential for liquefaction. In addition, any future development will be required to adhere to the 2010 CBC, which contains provisions for soil preparation to minimize hazards from liquefaction and other seismic-related ground failures. No impact will occur.

| | Potentially Significant Impact | Less than Significant with Mitigation Incorporated | Less Than Significant Impact | No Impact |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|----------------------------------------------------------------|---------------------------------------|--------------|
| <u>Monitoring</u> : No monitoring measures are required. 18. Soils a) Result in substantial soil erosion or the loss of | | | | |
| b) Be located on expansive soil, as defined in Section 1802.3.2 of the California Building Code (2007), creating substantial risks to life or property? | | | | |
| c) Have soils incapable of adequately supporting use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water? | | | | |

Source: General Plan figure S-6 "Engineering Geologic Materials Map", Project Application Materials

Findings of Fact:

a) The development of the site could result in the loss of topsoil from grading activities, but not in a manner that would result in significant amounts of soil erosion. Implementation of Best Management Practices (BMPs) would reduce the impact to below a level of significance. Impacts would be less than significant.

b) The project may be located on expansive soil; however, California Building Code (CBC) requirements pertaining to development will mitigate the potential impact to less than significant. As CBC requirements are applicable to all development, they are not considered mitigation for CEQA implementation purposes.

c) The project will not result in grading that affects or negates subsurface sewage disposal systems. Any impact would be less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| 19. Erosiona) Change deposition, siltation, or erosion that may modify the channel of a river or stream or the bed of a lake? | | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|--|-------------|--|
| b) Result in any increase in water erosion either on or off site? | | \boxtimes | |

Source: Project Application Materials

Findings of Fact:

a) Implementation of the proposed project will involve grading and various construction activities. Standard construction procedures, and federal, state and local regulations implemented in conjunction with the site's storm water pollution prevention plan (SWPPP) and its Best Management Practices (BMPs) required under the National Pollution Discharge System (NPDES) general construction

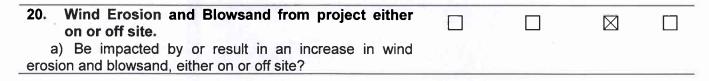

| 120 | Potentially | Less than | Less | No |
|-----|-------------|--------------|-------------|--------|
| | Significant | Significant | Than | Impact |
| | Impact | with | Significant | |
| | | Mitigation | Impact | |
| | | Incorporated | | |

permit, will minimize potential for erosion during construction. These practices will keep substantial amounts of soil material from eroding from the project site and prevent deposition within receiving waters located downstream.

b) The potential for on-site erosion will increase due to grading and excavating activities during the construction phase. However, BMPs will be implemented for maintaining water quality and reducing erosion.

<u>Mitigation:</u> No mitigation measures are required.

Monitoring: No monitoring measures are required.

<u>Source</u>: Riverside County General Plan Figure S-8 "Wind Erosion Susceptibility Map," Ord. No. 460, Article XV & Ord. No. 484

Findings of Fact:

a) The site is located in an area of Moderate Wind Erodibility rating. The General Plan, Safety Element Policy for Wind Erosion requires buildings and structures to be designed to resist wind loads which are covered by the Universal Building Code. With such compliance, the project will not result in an increase in wind erosion and blowsand, either on or off site. The project will have no significant impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| GREENHOUSE GAS EMISSIONS Would the project | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
| 21. Greenhouse Gas Emissions a) Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment? | | |
| b) Conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases? | | |
| Source: Project application materials | | |

Findings of Fact:

a) The proposed project is a land subdivision creating two (2) residential parcels with Parcel 1 proposed to be 3.31 gross acres and Parcel 2 proposed to be 1.66 gross acres. Approval of this

| Potentially | Less than | Less | No |
|-------------|--------------|-------------|--------|
| Significant | Significant | Than | Impact |
| Impact | with | Significant | |
| | Mitigation | Impact | |
| | Incorporated | | |

tentative parcel map does not expressly authorize the construction of any buildings; however, construction of a single family residence on Parcel 1 is likely to occur thereafter. The type of smallscale residential development authorized by this project would not generate enough GHG emissions from its construction or operation to be deemed cumulatively significant sufficient to warrant quantitative or qualitative GHG analysis. More specifically, the California Air Pollution Control Officers Association (CAPCOA) proposed a very aggressive 900 metric tons per year of GHG emissions threshold for residential and commercial projects. The intent of the 900-ton threshold is to capture 90% of all new residential and commercial development projects. CAPCOA's threshold was based on the amount of GHG emissions associated with 50 single-family residential units, which accounts for 84% of the projects in California. The 900-ton threshold would also correspond to apartments/condominiums of 70 units, office projects of approximately 35,000 square feet, retail projects of 11,000 square feet, and supermarkets of 6,300 square feet, but would exclude smaller residential developments, offices and retail stores from having to quantify and mitigate GHG emissions under CEQA. The type of residential development proposed by this project would not exceed 2 units, and thus their contribution to GHG emissions is far below the 900-ton threshold that might otherwise trigger GHG analysis according to CAPCOAs model. The impact is considered less than significant.

b) The project does not conflict with a plan, policy or regulation adopted for the purpose of reducing greenhouse gases. This project does not conflict with the requirements of AB 32. The impact is considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| HAZARDS AND HAZARDOUS MATERIALS Would the proje | ect | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-------------|-------------|
| 22. Hazards and Hazardous Materials a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials? | | \boxtimes | |
| b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment? | | | |
| c) Impair implementation of or physically interfere with an adopted emergency response plan or an emergency evacuation plan? | | | |
| d) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school? | | | \boxtimes |
| e) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment? | | | |

| Potentially | Less than | Less | No |
|-------------|--------------|-------------|--------|
| Significant | Significant | Than | Impact |
| Impact | with | Significant | |
| | Mitigation | Impact | |
| | Incorporated | · | |

Findings of Fact:

a-b) During construction of the proposed project, there is a limited potential for accidental release of construction-related products although not in sufficient quantity to pose a significant hazard to people and the environment. The proposed project will not create a hazard to the public or the environment. Impacts would be less than significant.

c) The project has been reviewed by the Riverside County Fire Department for emergency access, and will not impair implementation of or physically interfere with an adopted emergency response plan or an emergency evacuation plan.

d) The project will not emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.

e) The project is not located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would not create a significant hazard to the public or the environment.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| 23. Airports a) Result in an inconsistency with an Airport Master Plan? | | | |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|-------------|--|
| b) Require review by the Airport Land Use Commission? | | \boxtimes | |
| c) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area? | | | |
| d) For a project within the vicinity of a private airstrip, or heliport, would the project result in a safety hazard for people residing or working in the project area? | | | |

<u>Source</u>: Riverside County General Plan Figure S-19 "Airport Locations," GIS database, March Air Reserve Base Airport Land Use Compatibility Plan

Findings of Fact:

a) The project site is located within Zone E of the March Air Reserve Base Airport Land Use Compatibility Plan (ALUCP) that was adopted on March 13, 2014. The ALUCP states that noise impacts within Zone E are predicted to be low and that portions of airspace within Zone E are occasionally used as a flight corridor. Since any future development of the proposed project site would be limited to a single family home, the proposed project is not included in the prohibited uses of Zone E and the proposed project would not result in the construction of structure prohibited to occur within

Page 19 of 36

| Potentially | Less than | Less | No |
|-------------|--------------|-------------|--------|
| Significant | Significant | Than | Impact |
| Impact | with | Significant | • |
| | Mitigation | Impact | |
| | Incorporated | | |

Zone E. Finally, standard condition of approval 10.PLANNING.17 will require a disclosure consistent with Riverside Countywide Policy 4.4.2 to occur as a part of certain real estate transactions. Any impact would be less than significant.

b) Proposed projects occurring within Zone E of the March Air Reserve Base ALUCP that are less than 100 feet tall are not required to be reviewed by the Airport Land Use Commission. The future development of the proposed project site with a single residential home would not be taller than 100 feet. Any impact would be less than significant.

c) The March Air Reserve Base ALUCP assigns a low level of risk to properties occurring within Zone E. Any impact would be less than significant.

d) The project is not within the vicinity of a private airstrip, or heliport and would not result in a safety hazard for people residing or working in the project area.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| 24. Hazardous Fire Area | | \boxtimes | |
|-----------------------------------------------------------------|--|-------------|--|
| a) Expose people or structures to a significant risk of | | | |
| loss, injury or death involving wildland fires, including where | | | |
| wildlands are adjacent to urbanized areas or where | | | |

residences are intermixed with wildlands?

Source: Riverside County General Plan Figure S-11 "Wildfire Susceptibility," GIS database

Findings of Fact:

a) According to the General Plan, the project site is not located in a High Fire Area. In addition, any development of the proposed project site would be required to adhere to Riverside County Ordinance No. 787 and the California Building Code which contain provisions for the prevention of fire hazards. Any impact would be less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| HYDROLOGY AND WATER QUALITY Would the project | | | |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|-------------|-------------|
| 25. Water Quality Impacts a) Substantially alter the existing drainage pattern of the site or area, including the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation on- or off-site? | | | |
| b) Violate any water quality standards or waste discharge requirements? | | | \boxtimes |
| c) Substantially deplete groundwater supplies or | | \boxtimes | |
| Page 20 of 36 | EA | No. 4278 | 37 |

| interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)? | | | | |
| d) Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff? | | | | |
| e) Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map? | | | | |
| f) Place within a 100-year flood hazard area structures which would impede or redirect flood flows? | | | | \boxtimes |
| g) Otherwise substantially degrade water quality? | | | \boxtimes | |
| h) Include new or retrofitted stormwater Treatment Control Best Management Practices (BMPs) (e.g. water quality treatment basins, constructed treatment wetlands), the operation of which could result in significant environ- mental effects (e.g. increased vectors or odors)? | | | | |

Source: Riverside County General Plan, Safety Element, Figure S-9, 100 and 500-year Flood Hazard Areas

Findings of Fact:

a) There is no identified existing drainage pattern, stream or river occurring on the project site and any future development within the project site would be subject to plan check review by the County which would ultimately address any concerns regarding drainage. Any impact would be less than significant.

b) Compliance with NPDES will be required as a prerequisite for any grading or building permit for the project site. This compliance will ensure that the project will not violate any water quality standards or waste discharge requirements. No impact will occur.

c) The proposed project will receive potable water service from the Western Municipal Water District (WMWD). At this time, the WMWD has not indicated that the addition of two residential lots within their service boundaries would have the potential to deplete groundwater or interfere with groundwater recharge. Any impact would be less than significant.

d) The project will not create or contribute runoff water that would exceed the capacity of existing or planned storm water drainage systems. No impact will occur.

e-f) The project is not located within a 100-year flood hazard area. No impact will occur.

g) The proposed project is not anticipated to otherwise substantially degrade water quality. To avoid the substantial degradation of water quality, prior to the issuance of any grading or construction permits, compliance with the National Pollutant Discharge Elimination System through the

| | Potentially | Less than | Less | No |

|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|-------------|-------|
| a) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or off-site? | | | |
| b) Changes in absorption rates or the rate and amount of surface runoff? | | \boxtimes | |
| c) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam (Dam Inundation Area)? | | | |
| d) Changes in the amount of surface water in any water body? | | \boxtimes | |

<u>Source</u>: Riverside County General Plan Figure S-9 "100- and 500-Year Flood Hazard Zones," Figure S-10 "Dam Failure Inundation Zone," GIS database

Findings of Fact:

a) The project will not substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or off-site. Any impact would be less than significant.

b) The project will not substantially change absorption rates or the rate and amount of surface runoff.

c) The project will not place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map.

d) The project will not cause changes in the amount of surface water in any water body.

Mitigation: No mitigation measures are necessary.

| LAND USE/PLANNING Would the project 27. Land Use a) Result in a substantial alteration of the present or planned land use of an area? | | | | |

Source: Riverside County General Plan, GIS database, Project Application Materials

Findings of Fact:

a) The Tentative Parcel Map is a Schedule H subdivision of 4.97 acres into two (2) residential parcels with Parcel 1 proposed to be 3.31 acres and Parcel 2 proposed to be 1.66 acres. The existing General Plan Land Use Designation and the existing zoning classification, Residential Agricultural – 2 and $\frac{1}{2}$ Acre Minimum (R-A-2 $\frac{1}{2}$), are intended for residential uses. Therefore, the proposed project will not alter the planned land use at the site. Any impact would be less than significant.

b) The project is located within the City of Riverside sphere of influence. No information provided suggested that the proposed project would affect land uses within Riverside or adjacent city or county boundaries. Any impact would be less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| 28. Planninga) Be consistent with the site's existing or proposed zoning? | | | | | | |
|-------------------------------------------------------------------------------------------------------------------------------------|--|--|-------------|--|--|--|
| b) Be compatible with existing surrounding zoning? | | | \boxtimes | | | |
| c) Be compatible with existing and planned sur- rounding land uses? | | | \boxtimes | | | |
| d) Be consistent with the land use designations and policies of the General Plan (including those of any applicable Specific Plan)? | | | \boxtimes | | | |

|-------------|--------------|-------------|--------|
| Significant | Significant | Than | Impact |
| Impact | with | Significant | |
| | Mitigation | Impact | |
| | Incorporated | | |

a) The proposed project is currently zoned Residential Agricultural, 2 and ½ Acre Minimum (R-A-2½). The subdivision of 4.97 acres into two (2) residential parcels that will be 3.31 acres and 1.66 acres is generally consistent with the intent of the R-A-2½ zone and it will not result in a use of the project site that is inconsistent with the existing zone. In addition, the approval of Variance No. 1897 due to the special circumstances created by Harley John Road bisecting the existing parcel to create a barrier of use within the parcel and two land segments that vary in width, will allow for the proposed project to be consistent with all development standards of the R-A-2½ zone. The project will have no significant impact.

b) The site is surrounded by land that is zoned Residential Agricultural – 2 and $\frac{1}{2}$ Acre Minimum (R-A-2 $\frac{1}{2}$). Therefore, the proposed project is compatible with the existing surrounding zoning. Any impact would be less than significant.

c) Vacant land and single family residences exist within the vicinity of the project. The project proposes residential uses which are compatible with the current land uses in the area.

d) The land use designation for the proposed project site is Rural Community: Estate Density Residential (RC: EDR). The project is proposing to subdivide 4.97 acres into two (2) residential parcels. Because the proposed project will result in two large parcels that will contain detached, single family residential dwellings, the proposed project will be consistent with the building intensity of the Rural Community: Estate Density Residential (RC: EDR) Land Use Designation. Therefore, the project is consistent and will not result in an alteration of the present or planned land use of this area. Any impact would be less than significant.

e) The project will not disrupt or divide the physical arrangement of an established community. No impact will occur.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required

| MINERAL RESOURCES Would the project | | | |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|-------|--|
| 29. Mineral Resources a) Result in the loss of availability of a known mineral resource that would be of value to the region or the residents of the State? | | | |

|--|-------------|--------------|-------------|--------|
| | Significant | Significant | Than | Impact |
| | Impact | with | Significant | |
| | | Mitigation | Impact | |
| | | Incorporated | | |

a) The project site is within MRZ-3, which is defined as areas where the available geologic information indicates that mineral deposits are likely to exist; however, the significance of the deposit is undetermined. The General Plan identifies policies that encourage protection for existing mining operations and for appropriate management of mineral extraction. A significant impact that would constitute a loss of availability of a known mineral resource would include unmanaged extraction or encroach on existing extraction. No existing or abandoned quarries or mines exist in the area surrounding the project site. The project does not propose any mineral extraction on the project site. Any mineral resources on the project site will be unavailable for the life of the project; however, the project will not result in the permanent loss of significant mineral resources.

b) The project will not result in the loss of availability of a known mineral resource in an area classified or designated by the State that would be of value to the region or the residents of the State. The project will not result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan.

c) The project will not be an incompatible land use located adjacent to a State classified or designated area or existing surface mine.

d) The project will not expose people or property to hazards from proposed, existing or abandoned quarries or mines.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| Potentially | Less than | Less | No |
|-------------|--------------|-------------|--------|
| Significant | Significant | Than | Impact |
| Impact | with | Significant | |
| | Mitigation | Impact | |
| | Incorporated | | |

Source: Riverside County General Plan Safety Element

<u>Findings of Fact</u>: The project area is serviced by the Riverside County Fire Department. Any potential significant effects will be mitigated by the payment of standard fees to the County of Riverside. The project will not directly physically alter existing facilities or result in the construction of new facilities. Any construction of new facilities required by the cumulative effects of surrounding projects would have to meet all applicable environmental standards. The project shall comply with County Ordinance No. 659 to mitigate the potential effects to fire services. (COA 10.PLANNING.11) This is a standard Condition of Approval and pursuant to CEQA is not considered mitigation.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| 37. | Sheriff Services | | \boxtimes | |
|-----|------------------|--|-------------|--|

Source: Riverside County General Plan

<u>Findings of Fact</u>: The proposed area is serviced by the Riverside County Sheriff's Department. The proposed project would not have an incremental effect on the level of sheriff services provided in the vicinity of the project area. Any construction of new facilities required by the cumulative effects of this project and surrounding projects would have to meet all applicable environmental standards. The project shall comply with County Ordinance No. 659 to mitigate the potential effects to sheriff services. (COA 10.PLANNING.11) This is a standard Condition of Approval and pursuant to CEQA, is not considered mitigation.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

Source: Riverside County GIS database

<u>Findings of Fact</u>: The project will not physically alter existing facilities or result in the construction of new or physically altered facilities. The proposed project is located within the Val Verde Unified School District. Any construction of new facilities required by the cumulative effects of this project and surrounding projects would have to meet all applicable environmental standards. This project has been conditioned to comply with School Mitigation Impact fees in order to mitigate the potential effects to school services. (COA 80.PLANNING.7) This is a standard Condition of Approval and pursuant to CEQA, is not considered mitigation.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

|-----|-----------|--------------------------------------|----------------------------------------------------------------|---------------------------------------|--------------|
| 39. | Libraries | | | \boxtimes | |

Source: Riverside County General Plan

<u>Findings of Fact</u>: The proposed project will not create a significant incremental demand for library services. The project will not require the provision of new or altered government facilities at this time. Any construction of new facilities required by the cumulative effects of surrounding projects would have to meet all applicable environmental standards. This project shall comply with County Ordinance No. 659 to mitigate the potential effects to library services. (COA 10.PLANNING.11) This is a standard Condition of Approval and pursuant to CEQA is not considered mitigation.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| 40. Health Services | | | |
|---------------------|--|--|--|
|---------------------|--|--|--|

Source: Riverside County General Plan

<u>Findings of Fact</u>: The proposed project would not cause an impact on health services. The site is located within the service parameters of County health centers. The project will not physically alter existing facilities or result in the construction of new or physically altered facilities. The project will have no impact. Any construction of new facilities required by the cumulative effects of this project and surrounding projects would have to meet all applicable environmental standards.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| RECREATION | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
| 41. Parks and Recreation a) Would the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment? | | |
| b) Would the project include the use of existing neighborhood or regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated? | | |
| c) Is the project located within a Community Service Area (CSA) or recreation and park district with a Com- munity Parks and Recreation Plan (Quimby fees)? | | |

<u>Source</u>: GIS database, Ord. No. 460, Section 10.35 (Regulating the Division of Land – Park and Recreation Fees and Dedications), Ord. No. 659 (Establishing Development Impact Fees), Parks & Open Space Department Review

a) The project will not include recreation facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.

b) The project will not include the use of existing neighborhood or regional parks or other recreational facilities in such that substantial physical deterioration of the facility would occur.

c) The project site is not located within a C.S.A. or recreation and park district with a Community Parks and Recreation Plan (Quimby fees). Impacts are considered less than significant.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| 42. | Recreational Trails | | \bowtie |
|-----|---------------------|--|-----------|
| | | | |

Source: Riverside County General Plan, Figure C-7

<u>Findings of Fact</u>: The proposed project has not incorporated any trails into its design; therefore, the project will have no impacts recreational trails.

Mitigation: No mitigation measures are required.

Monitoring: No mitigation measures are required.

TRANSPORTATION/TRAFFIC Would the project

| 43. Circulation a) Conflict with an applicable plan, ordinance or policy establishing a measure of effectiveness for the performance of the circulation system, taking into account all modes of transportation, including mass transit and non- motorized travel and relevant components of the circulation system, including but not limited to intersections, streets, highways and freeways, pedestrian and bicycle paths, and mass transit? | | |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|-------------|
| b) Conflict with an applicable congestion management program, including, but not limited to level of service standards and travel demand measures, or other standards established by the county congestion management agency for designated roads or highways? | | |
| c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks? | | |
| d) Alter waterborne, rail or air traffic? | | \boxtimes |
| e) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g. farm equipment)? | | |
| f) Cause an effect upon, or a need for new or altered maintenance of roads? | | |
| | | |

EA No. 42787

| | Potentially Significant Impact | Less than Significant with Mitigation Incorporated | Less Than Significant Impact | No Impact |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|----------------------------------------------------------------|---------------------------------------|--------------|
| g) Cause an effect upon circulation during the project's construction? | | | \boxtimes | |
| h) Result in inadequate emergency access or access to nearby uses? | | | | \boxtimes |
| i) Conflict with adopted policies, plans or programs regarding public transit, bikeways or pedestrian facilities, or otherwise substantially decrease the performance or safety of such facilities? | | | | |

Source: Riverside County General Plan

Findings of Fact:

a) The proposed project site will have a less than significant impact on an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system. The project site would not result in a substantial increase in either the number of vehicle trips, the volume to capacity ratio on roads or congestion at intersections.

b) The project will have a less than significant impact on the level of service standard established by the county congestion management agency for designated road or highways.

c) The project will have a less than significant impact on circulation that would result in a change in traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks.

d) The project site will have no impact on circulation altering waterborne, rail or air traffic.

e) The proposed project site would have no impact on circulation substantially increasing hazards to a design feature or incompatible uses.

f) The proposed project site would have less than significant impact on circulation causing an effect upon, or need for new or altered maintenance of roads.

g) The proposed project site would have a less than significant impact on circulation because there are improvements that are going to be constructed.

h) The proposed project site would have no impact on circulation resulting in inadequate emergency access or access to nearby uses.

i) Development of this project will not conflict with adopted policies supporting alternative transportation such as bus turnouts or bicycle racks.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

| Potentially | Less than | Less | No |
|-------------|--------------|-------------|--------|
| Significant | Significant | Than | Impact |
| Impact | with | Significant | |
| | Mitigation | Impact | |
| | Incorporated | | |

Findings of Fact:

a-b) The project proposes to utilize an Onsite Wastewater Treat System (OWTS). Standard condition (10.PLANNING.18) will require the applicant to participate in the certification process and to obtain certification from the Riverside County Department of Environmental Health prior to the installation of an OWTS. This is a standard Condition of Approval and pursuant to CEQA is not considered mitigation. Therefore, the project will have less than significant impact.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

47. Solid Waste

| a) Is the project served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs? | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
| b) Does the project comply with federal, state, and local statutes and regulations related to solid wastes including the CIWMP (County Integrated Waste Manage- ment Plan)? | | |

Source: Riverside County General Plan, Riverside County Waste Management District correspondence

Findings of Fact:

a) The project will not substantially alter existing or future solid waste generation patterns and disposal services. The landfill that will serve the project has sufficient capacity to accommodate the project's anticipated solid waste disposal needs.

b) The development will comply with federal, state, and local statutes and regulations related to solid wastes (including the CIWMP- County Integrated Waste Management Plan).

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

48. Utilities

Would the project impact the following facilities requiring or resulting in the construction of new facilities or the expansion of existing facilities; the construction of which could cause significant environmental effects?

| | \boxtimes | |
|--|-------------|--|
| | \boxtimes | |
| | | |

| Potentially | Less than | Less | No |
|-------------|--------------|-------------|--------|
| Significant | Significant | Than | Impact |
| Impact | with | Significant | , |
| | Mitigation | Impact | |
| | Incorporated | | |

Source:

Findings of Fact:

a-g) The project will not require or result in the construction of new community utilities or the expansion of existing community utility facilities. Implementation of the project will result in an incremental system capacity demand for energy systems, communication systems, storm water drainage systems, street lighting systems, maintenance of public facilities, including roads and potentially other governmental services. These impacts are considered less than significant based on the availability of existing public facilities such as drainage facilities and wastewater collection and treatment systems that support local systems. The applicant or applicant-in-successor shall make arrangements with each utility provider to ensure each building is connected to the appropriate utilities.

Mitigation: No mitigation measures are required.

Monitoring: No monitoring measures are required.

49. Energy Conservation

a) Would the project conflict with any adopted energy conservation plans?

Source:

Findings of Fact:

a-b) The proposed project will not conflict with any adopted energy conservation plans. The project will have no significant impact.

Riverside County LMS CONDITIONS OF APPROVAL

Parcel: 285-160-019

10. GENERAL CONDITIONS

EVERY DEPARTMENT

10. EVERY. 1

MAP - PROJECT DESCRIPTION

The land division hereby permitted is a Schedule H subdivision of a 4.97 acre parcel into two (2) residential parcels that will include one (1) 3.31 acre parcel and one (1) 1.66 acre parcel.

10. EVERY. 2 MAP - HOLD HARMLESS

The applicant/permittee or any successor-in-interest shall defend, indemnify, and hold harmless the County of Riverside or its agents, officers, and employees (COUNTY) from the following:

(a) any claim, action, or proceeding against the COUNTY to attack, set aside, void, or annul an approval of the COUNTY, its advisory agencies, appeal boards, or legislative body concerning the TENTATIVE MAP, which action is brought within the time period provided for in California Government Code, Section 66499.37; and,

(b) any claim, action or proceeding against the COUNTY to attack, set aside, void or annul any other decision made by the COUNTY concerning the TENTATIVE MAP, including, but not limited to, decisions made in response to California Public Records Act requests.

The COUNTY shall promptly notify the applicant/permittee of any such claim, action, or proceeding and shall cooperate fully in the defense. If the COUNTY fails to promptly notify the applicant/permittee of any such claim, action, or proceeding or fails to cooperate fully in the defense, the applicant/permittee shall not, thereafter, be responsible to defend, indemnify or hold harmless the COUNTY.

The obligations imposed by this condition include, but are not limited to, the following: the applicant/permittee shall pay all legal services expenses the COUNTY incurs in connection with any such claim, action or proceeding, whether it incurs such expenses directly, whether it is ordered by a court to pay such expenses, or whether it incurs such expenses by providing legal services through its Office of County Counsel. 10. GENERAL CONDITIONS

10. EVERY. 3 MAP - DEFINITIONS

The words identified in the following list that appear in all capitals in the attached conditions of Tentative Parcel Map No. 36925 shall be henceforth defined as follows:

TENTATIVE MAP = Tentative Parcel Map No. 36925, dated 3/27/15.

FINAL MAP = Final Map or Parcel Map for the TENTATIVE MAP whether recorded in whole or in phases.

10. EVERY. 4 MAP - 90 DAYS TO PROTEST

The land divider has 90 days from the date of approval of these conditions to protest, in accordance with the procedures set forth in Government Code Section 66020, the imposition of any and all fees, dedications, reservations and/or other exactions imposed on this project as a result of the approval or conditional approval of this project.

PLANNING DEPARTMENT

10.PLANNING. 1 MAP - MAP ACT COMPLIANCE

This land division shall comply with the State of California Subdivision Map Act and to all requirements of County Ordinance No. 460, Schedule H, unless modified by the conditions listed herein.

10.PLANNING. 2 MAP - FEES FOR REVIEW

Any subsequent review/approvals required by the conditions of approval, including but not limited to grading or building plan review or review of any mitigation monitoring requirement, shall be reviewed on an hourly basis, or other appropriate fee, as listed in ounty Ordinance No. 671. Each submittal shall be accompanied with a letter clearly indicating which condition or conditions the submittal is intended to comply with.

10.PLANNING. 7 MAP - ZONING STANDARDS

Lots created by this TENTATIVE MAP shall be in conformance with the development standards of the Residential Agricultural 2 and 1/2 Acre Minimum (R-A-2 1/2) zone.

10. GENERAL CONDITIONS

PARCEL MAP Parcel Map #: PM36925

10.PLANNING. 10 MAP - ORD 810 OPN SPACE FEE

Prior to the issuance of either a certificate of occupancy or prior to building permit final inspection, the applicant shall comply with the provisions of Riverside County Ordinance No. 810, which requires payment of the appropriate fee set forth in the Ordinance. Riverside County Ordinance No. 810 has been established to set forth policies, regulations and fees related to the funding and acquisition of open space and habitat necessary to address the direct and cumulative environmental effects generated by new development projects described and defined in this Ordinance.

The fee shall be paid for each residential unit to be constructed within this land division.

In the event Riverside County Ordinance No. 810 is rescinded, this condition will no longer be applicable. However, should Riverside County Ordinance No. 810 be rescinded and superseded by a subsequent mitigation fee ordinance, payment of the appropriate fee set forth in that ordinance shall be required.

10.PLANNING. 11 MAP - ORD NO. 659 (DIF)

Prior to the issuance of either a certificate of occupancy or prior to building permit final inspection, the applicant shall comply with the provisions of Riverside County Ordinance No. 659, which requires the payment of the appropriate fee set forth in the Ordinance. Riverside County Ordinance No. 659 has been established to set forth policies, regulations and fees related to the funding and construction of facilities necessary to address the direct and cummulative environmental effects generated by new development projects described and defined in this Ordinance, and it establishes the authorized uses of the fees collected.

The fee shall be paid for each residential unit to be constructed within this land division. In the event Riverside County Ordinance No. 659 is recinded, this condition will no longer be applicable. However, should Riverside County Ordinance No. 659 be rescinded and superseded by a subsequent mitigation fee ordinance, payment of the appropriate fee set forth in that ordinance shall be required. PLANNING DEPARTMENT

50.PLANNING. 1 MAP - PREPARE A FINAL MAP

After the approval of the TENTATIVE MAP and prior to the expiration of said map, the land divider shall cause the real property included within the TENTATIVE MAP, or any part thereof, to be surveyed and a FINAL MAP thereof prepared in accordance with the current County Transportation Department - Survey Division requirements, the conditionally approved TENTATIVE MAP, and in accordance with Article IX of County Ordinance No. 460.

| 50 PLANNING. 2 | MAP - SURVEYOR | CHECK LIST |
|----------------|----------------|------------|
|----------------|----------------|------------|

he County Transportation Department - Survey Division shall review any FINAL MAP and ensure compliance with the following:

A. All lots on the FINAL MAP shall be in substantial conformance with the approved TENTATIVE MAP relative to size and configuration.

C. All lot sizes and dimensions on the FINAL MAP shall be in conformance with the development standards of the R-A-2 and 1/2 zone, and with the Riverside County General Plan.

D. All lots on the FINAL MAP shall comply with the length to width ratios, as established by Section 3.8.C. of County Ordinance No. 460.

50.PLANNING. 13 MAP - FINAL MAP PREPARER

The FINAL MAP shall be prepared by a licensed land surveyor or registered civil engineer.

50.PLANNING. 14 MAP - ECS SHALL BE PREPARED

The land divider shall prepare an Environmental Constraints Sheet (ECS) in accordance with Section 2.2. E. & F. of County Ordinance No. 460, which shall be submitted as part of the plan check review of the FINAL MAP.

50.PLANNING. 15 MAP - ECS EXHIBIT

The constrained areas shall conform to the approved Exhibit E, Environmental Constraints Exhibit, and shall be mapped

NOTICE OF PUBLIC HEARING

and

INTENT TO ADOPT A NEGATIVE DECLARATION

A PUBLIC HEARING has been scheduled, pursuant to Riverside County Subdivision Ordinance No. 460, before the **RIVERSIDE COUNTY** DIRECTOR'S HEARING to consider the project shown below:

TENTATIVE PARCEL MAP NO. 36925 AND VARIANCE NO. 1897 – Intent to Adopt a Negative Declaration – Applicant: Russell Crha – Engineer: Blaine Womer – First Supervisorial District – Cajalco Zoning District – Lake Mathews/Woodcrest Area Plan – Rural Community: Estate Density Residential (RC:EDR) (2 Acre Minimum) – Location: Bisected by Harley John Road, northerly of Cajalco Road, southerly of Twyla Jane Lane, easterly of El Sobrante Road, and westerly of Wyler Road – Zoning: Residential Agricultural – 2½ Acre Minimum (R-A-2½) - **REQUEST:** The Tentative Parcel Map is a Schedule H subdivision of a 5.02 acre parcel into two (2) residential parcels that would include one (1) 3.31 acre parcel and one (1) 1.71 acre parcel. The proposed variance would allow for the proposed 1.71 acre parcel to be less than the required minimum lot size of 2½ acres required by the current R-A-2½ zone of the project site due to constraints created by improvements to Harley John Road.

| TIME OF HEARING: | 1:30 pm or as soon as possible thereafter JULY 6, 2015 RIVERSIDE COUNTRY ADMINISTRATIVE CENTER 4080 LEMON STREET, 1 ST FLOOR, CONFERENCE ROOM 2A RIVERSIDE, CA 92501 |
|------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | |

For further information regarding this project, please contact Project Planner, Mark Corcoran, at 951-955-3025 or email <u>mcorcora@rctlma.org</u> or go to the County Planning Department's Director's Hearing agenda web page at <u>http://planning.rctlma.org/PublicHearings.aspx</u>.

The Riverside County Planning Department has determined that the above project will not have a significant effect on the environment and has recommended adoption of a negative declaration. The Planning Director will consider the proposed project and the proposed negative declaration, at the public hearing. The case file for the proposed project and the proposed mitigated negative declaration may be viewed Monday through Thursday, 8:30 a.m. to 5:00 p.m., at the County of Riverside Planning Department, 4080 Lemon Street, 12th Floor, Riverside, CA 92501. For further information or an appointment, contact the project planner.

Any person wishing to comment on a proposed project may do so, in writing, between the date of this notice and the public hearing or appear and be heard at the time and place noted above. All comments received prior to the public hearing will be submitted to the Planning Director, and the Planning Director will consider such comments, in addition to any oral testimony, before making a decision on the proposed project.

If you challenge this project in court, you may be limited to raising only those issues you or someone else raised at the public hearing, described in this notice, or in written correspondence delivered to the Planning Director at, or prior to, the public hearing. Be advised that, as a result of public hearings and comment, the Planning Director may amend, in whole or in part, the proposed project. Accordingly, the designations, development standards, design or improvements, or any properties or lands, within the boundaries of the proposed project, may be changed in a way other than specifically proposed.

Please send all written correspondence to: RIVERSIDE COUNTY PLANNING DEPARTMENT Attn: Mark Corcoran P.O. Box 1409, Riverside, CA 92502-1409

PROPERTY OWNERS CERTIFICATION FORM

INDEMNIFICATION AGREEMENT

This INDEMNIFICATION AGREEMENT ("Agreement"), made by and between the COUNTY OF RIVERSIDE, a political subdivision of the State of California ("COUNTY"), and Harley John Road Trust dated October 25, 2013 ("PROPERTY OWNER"), relating to the PROPERTY OWNER'S indemnification of the COUNTY under the terms set forth herein:

WITNESSETH:

WHEREAS, the PROPERTY OWNER has a legal interest in the certain real property described as APN 285-160-019 and 285-160-041 ("PROPERTY"); and,

WHEREAS, on March 27, 2015, PROPERTY OWNER filed an application for Tentative Parcel Map No. 36925 and Variance No. 1897 ("PROJECT"); and,

WHEREAS, judicial challenges of projects requiring discretionary approvals, including, but not limited to, California Environmental Quality Act determinations, are costly and time consuming. Additionally, project opponents often seek an award of attorneys' fees in such challenges; and,

WHEREAS, since property owners are the primary beneficiaries of such approvals, it is appropriate that such owners bear the expense of defending against any such judicial challenge, and bear the responsibility of any costs, attorneys' fees and damages which may be awarded to a successful challenger; and,

WHEREAS, in the event a judicial challenge is commenced against the PROJECT, the COUNTY has requested and the PROPERTY OWNER has agreed to defend, indemnify and hold harmless the COUNTY, its agents, officers, or employees from any claim, action or proceeding against the COUNTY, its agents, officers, or employees to attack, set aside, void or annul any approval of the COUNTY, its advisory agencies, appeal boards, or legislative body concerning the PROJECT or its associated environmental documentation ("LITIGATION"); and,

WHEREAS, this Agreement is entered into by the COUNTY and PROPERTY OWNER to establish specific terms concerning PROPERTY OWNER'S indemnification obligation for the PROJECT.

NOW, THEREFORE, it is mutually agreed between COUNTY and PROPERTY OWNER as follows:

1. Indemnification. PROPERTY OWNER, at its own expense, shall defend, indemnify and hold harmless the COUNTY, its agents, officers, and employees from and against any claim, action or proceeding brought against the

COUNTY, its agents, officers, and employees to attack, set aside, void or annul any approval of the PROJECT including any associated costs, damages, and expenses including, but not limited to, costs associated with Public Records Act requests submitted to the COUNTY related to the PROJECT and an award of attorneys' fees and costs incurred or arising out of the above-referenced claim, action or proceeding brought against the COUNTY ("Indemnification Obligation.")

2. **Defense Cooperation.** PROPERTY OWNER and the COUNTY shall reasonably cooperate in all aspects of the LITIGATION. Nothing contained in this Agreement, however, shall be construed to limit the discretion of COUNTY, in the interest of the public welfare, to settle, defend, appeal or to decline to settle or to terminate or forego defense or appeal of the LITIGATION. It is also understood and agreed that all litigation pleadings are subject to review, revision and approval by COUNTY's Office of County Counsel.

3. **Representation and Payment for Legal Services Rendered.** COUNTY shall have the absolute right to approve any and all counsel retained to defend COUNTY in the LITIGATION. PROPERTY OWNER shall pay the attorneys' fees and costs of the legal firm retained by APPLICANT to represent the COUNTY in the LITIGATION. Failure by PROPERTY OWNER to pay such attorneys' fees and costs may be treated as an abandonment of the PROJECT and as a default of APPLICANT's obligations under this Agreement.

Payment for COUNTY's LITIGATION Costs. Payment for 4. COUNTY's costs related to the LITIGATION shall be made on a deposit basis. LITIGATION costs include any associated costs, fees, damages, and expenses as further described in Section 1. herein as Indemnification Obligation. Within thirty (30) days of receipt of notice from COUNTY that LITIGATION has been initiated against the PROJECT, PROPERTY OWNER shall initially deposit with the COUNTY's Planning Department the total amount of Twenty Thousand Dollars PROPERTY OWNER shall deposit with COUNTY such additional (\$20,000). amounts as COUNTY reasonably and in good faith determines, from time to time, are necessary to cover costs and expenses incurred by the COUNTY, including but not limited to, the Office of County Counsel, Riverside County Planning Department and the Riverside County Clerk of the Board associated with the Within ten (10) days of written notice from COUNTY, LITIGATION. PROPERTY OWNER shall make such additional deposits. Collectively, the initial deposit and additional deposits shall be referred to herein as the "Deposit."

5. *Return of Deposit.* COUNTY shall return to PROPERTY OWNER any funds remaining on deposit after ninety (90) days have passed since final adjudication of the LITIGATION.

6. *Notices.* For all purposes herein, notices shall be effective when personally delivered, delivered by commercial overnight delivery service, or sent by

certified or registered mail, return receipt requested, to the appropriate address set forth below:

COUNTY: Office of County Counsel Attn: Melissa Cushman 3960 Orange Street, Suite 500 Riverside, CA 92501 PROPERTY OWNER : Harley John Road Trust Attn: Russell Crha 19350 Harley John Road Riverside, CA 92504

7. **Default and Termination**. This Agreement is not subject to termination, except by mutual agreement or as otherwise provided herein. In the event of a default of PROPERTY OWNER's obligations under this Agreement, COUNTY shall provide written notification to PROPERTY OWNER of such alleged default and PROPERTY OWNER shall have ten (10) days after receipt of written notification to cure any such alleged default. If PROPERTY fails to cure such alleged default within the specified time period or otherwise reach agreement with the COUNTY on a resolution of the alleged default, COUNTY may, in its sole discretion, do any of the following or combination thereof:

- a. Deem PROPERTY OWNER's default of PROPERTY OWNER's obligations as abandonment of the PROJECT and as a breach of this Agreement;
- b. Rescind any PROJECT approvals previously granted;
- c. Settle the LITIGATION.

In the event of a default, PROPERTY OWNER shall remain responsible for any costs and attorney's fees awarded by the Court or as a result of settlement and other expenses incurred by the COUNTY related to the LITIGATION or settlement.

8. **COUNTY Review of the PROJECT.** Nothing is this Agreement shall be construed to limit, direct, impede or influence the COUNTY's review and consideration of the PROJECT.

9. Complete Agreement/Governing Law. This Agreement represents the complete understanding between the parties with respect to matters set forth herein. This Agreement shall be construed in accordance with the laws of the State of California.

10. *Successors and Assigns*. The obligations specific herein shall be made, and are binding on the successors in interest of the PROPERTY OWNER, whether the succession is by agreement, by operation of law or by any other means.

11. Amendment and Waiver. No modification, waiver, amendment or discharge of this Agreement shall be valid unless the same is in writing and signed by all parties.

12. **Severability**. If any term, provision, covenant or condition of this Agreement is held to be invalid, void or otherwise unenforceable, to any extent, by any court of competent jurisdiction, the remainder of this Agreement shall not be affected thereby, and each term, provision, covenant or condition of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

13. Survival of Indemnification. The parties agree that this Agreement shall constitute a separate agreement from any PROJECT approval, and if the PROJECT, in part or in whole, is invalidated, rendered null or set aside by a court of competent jurisdiction, the parties agree to be bound by the terms of this Agreement, which shall survive such invalidation, nullification or setting aside.

14. *Interpretation.* The parties have been advised by their respective attorneys, or if not represented by an attorney, represent that they had an opportunity to be so represented in the review of this Agreement. Any rule of construction to the effect that ambiguities are to be resolved against the drafting party shall not be applied in interpreting this Agreement.

15. *Captions and Headings.* The captions and section headings used in this Agreement are inserted for convenience of reference only and are not intended to define, limit or affect the construction or interpretation of any term or provision hereof.

16. Jurisdiction and Venue. Any action at law or in equity arising under this Agreement or brought by a party hereto for the purpose of enforcing, construing or determining the validity of any provision of this Agreement shall be filed in the Courts of Riverside County, State of California, and the parties hereto waive all provisions of law providing for the filing, removal or change of venue to any other court or jurisdiction.

17. Counterparts; Facsimile & Electronic Execution. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same document. To facilitate execution of this Agreement, the parties may execute and exchange facsimile or electronic counterparts, and facsimile or electronic counterparts shall serve as originals.

18. Joint and Several Liability. In the event there is more than one PROPERTY OWNER, the liability of PROPERTY OWNER shall be joint and several, and PROPERTY OWNER each of them shall be jointly and severally liable for performance of all of the obligations of PROPERTY OWNER under this Agreement.

19. *Effective Date.* The effective date of this Agreement is the date the parties sign the Agreement. If the parties sign the Agreement on more than one date, then the last date the Agreement is signed by a party shall be the effective date.

IN WITNESS WHEREOF, the parties hereto have duly caused this Agreement to be executed by their authorized representatives as of the date written.
