BACKGROUND:

Summary (continued)

The improvements included widening SR-79 from Thompson Road to Domenigoni Parkway from two to four lanes and the addition of traffic signals at Garbani Road, Holland Road, Keller Road, and Newport Road. Signal modifications were made at Abelia Street, Construction Road, and Scott Road.

The agreement provided for the preparation of the project report, environmental document, plans, specifications, and estimates. Amendment No. 1 to the engineering services agreement was approved by the Board on September 2, 2008 (Item 3-143) and incorporated alignment alternatives and additional modifications required to phase construction. Amendment No. 2 was approved by the Board on January 24, 2012 (Item 3-33) to include scope modifications to prepare design alternatives to minimize property acquisitions, update environmental documents to reflect the design changes, and address the need for blasting. The widening was complete and opened to traffic in September 2014.

CH2MHILL is currently providing construction support services and project close-out tasks including project management, construction support, coordination of field design changes with the contractor and Caltrans, and preparation of as-built plans, all of which are covered under the current contract. The current contract term expired on December 30, 2014. Amendment No. 3 extends the term of the contract to June 30, 2016. The extension will provide time to finalize all work authorized under the Agreement and does not include any new tasks. This Amendment No. 3 is for a time extension only and does not increase the existing contract budget. No net County costs will be incurred as a result of this contract amendment.
