BACKGROUND:

Summary

On June 16, 2015, the Board approved the contract documents for the Excavation, Hauling, and Stockpiling Daily Cover Material at the Badlands and Lamb Canyon Landfills, and authorized the Department to advertise for bids. On July 9, 2015, a total of four (4) bids were received, with Road Builders, Inc. submitting the lowest bid. After review of the bid results, Department staff has determined that Road Builders, Inc. has the necessary experience and capability to perform the work, and County Counsel has determined that the bid documents are in order. A summary of the received bids along with the Contract Agreement between the County and Road Builders, are attached herewith.

California Environmental Quality Act (CEQA) Findings

The Project is exempt from CEQA pursuant to Section 15061(b)(3) (General Rule for Exemption), and categorically exempt from CEQA pursuant to Section 15301 Existing Facilities. As part of landfill operations, the Department currently excavates, hauls, and stockpiles daily cover material for use at the Badlands and Lamb Canyon landfills. The Project merely proposes to contract out for these same services- excavation, hauling, and stockpiling of daily cover material, with no expansion of uses/services. As such, this Project would not have a direct, indirect, or cumulatively significant effect on the environment. A Notice of Exemption (NOE) to this effect will be filed with the County Clerk upon Project approval.

Impact on Citizens and Businesses

None

Additional Fiscal Information

Budget for this project will be provided from Fund 40200, Department ID – 4500100000.

Price Reasonableness

Due to the competitive bid process, and also based on similar earthwork excavation and stockpiling work performed recently at both sites, Department engineering staff believes that the submitted bid amount is reasonable.
