RE: CONSISTENCY FOR PROPOSED CHANGES TO PLOT PLAN NO. 06934 and PP12661 IN THE TEMECULA VALLEY WINE COUNTRY POLICY AREA

Mr. Steyn,

Thank you for submitting your request regarding the proposed minor modification to Plot Plan No. 06934 and PP12661, located in the Temecula Valley Wine Country Policy Area. The modifications you are requesting, as Planning understands it, are shown in the attached exhibits and described as:

1. The uses outlined for the Building C remodel includes a tasting room, a retail sales area, a wine sales area, and a delicatessen. These uses were permitted through PP6934 and PP1266.
2. The picnic area was permitted through PP6934. The applicant is proposing to relocate the picnic area adjacent to Building A, D and C to be on top of the existing parking lot located next to Building C. This will serve as a seating area for tasters and guests of the delicatessen.
3. The parking stalls shown on Phase I Exhibit are consistent with what is permitted for PP12661. There are 40 marked parking stalls on the property currently and an additional 35 overflow parking stalls located along the driveway that runs from the entry way to Building B. The number of parking stalls that are displaced by relocation of the picnic area are proposed to be located directly west of Building C next to Rancho California Rd. Approximately 35 parking spaces located along the driveway running from the entrance of the property through the current landscaped area to Building B are proposed to be relocated to the North of Building D and the West of Building C. (Please Note: Area Occupancy and Parking Tables are on the Floor Plans and Elevations Attached)
4. The proposed patio cover additions to Building A, B and C supports the uses permitted through PP6931 and PP12661 and are proposed to be architecturally consistent with the winery building.
5. The addition of office space and restrooms for employees in Building B are proposed to support the wine processing/warehouse storage permitted through PP6934 and PP12661.

In addition, the applicant has indicated a desire to submit an application for a Conditional Use Permit and Zone Change in order to facilitate further modifications to the site. This letter in no way approves or authorizes any other changes that will require a CUP.

Planning Staff has reviewed the proposed modification listed above and show in the attached exhibits, and determined all requests to be consistent with the original Plot Plans, in that it will not increase the intensity of the use, the Plot Plan has not expired, will not impact public health and safety, does not qualify as a substantial conformance pursuant to Ordinance No. 348, and will not qualify as a project under the terms of the California Environmental Quality Act.

Please keep this letter and the stamped exhibits (attached) and provide it to the Land Use Technician upon Building Plan Check submittal when requesting any building permits affected by the listed modifications above.

Since most of the buildings are existing the District has no objection to the proposal.

The site is located within the bounds of the Murrieta Creek/Santa Gertrudis Valley Area Drainage Plan (ADP) for which drainage fees have been established by the Board of Supervisors. The supervising paleontologist will have the authority to reduce monitoring once he/she determines the probability of encountering any additional fossils has dropped below an acceptable level.

6.If fossil remains are encountered by earthmoving activities when the paleontologist is not onsite, these activities will be diverted around the fossil site and the paleontologist called to the site immediately to recover the remains.

7.Any recovered fossil remains will be prepared to the point of identification and identified to the lowest taxonomic level possible by knowledgeable paleontologists. The remains then will be curated (assigned and labeled with museum* repository fossil specimen numbers and corresponding fossil site numbers, as appropriate; places in specimen trays and, if necessary, vials with completed specimen data cards) and catalogued, an associated specimen data and corresponding geologic and geographic site data

RE: Conditional Use Permit (CUP) No. 3711
Proposal: The CUP proposes to convert an existing winery into a Class V Winery
APN: 951-140-041

Dear Ms. Nanthavongdouangsy:

The Riverside County Waste Management Department (RCWMD) has reviewed the proposed project located north of Calle Bella Loma, south of Rancho California Road, west of Anza Road, and east of Calle Contento Road, in the Southwest Area Plan. In order to mitigate the project's potential solid waste impacts and help the County comply with AB 939 (Integrated Waste Management Act), AB 1327 (California Solid Waste Reuse and Recycling Access Act), the California Green Building Standards, and AB 341 (Mandatory Commercial Recycling) through diverting solid waste from landfill disposal, the RCWMD recommends that the following conditions be made a part of any Conditions of Approval for the project:

1. **Prior to issuance of a building permit**, the applicant shall submit three (3) copies of a Recyclables Collection and Loading Area plot plan to the Riverside County Waste Management Department for review and approval. The plot plan shall conform to ***Design Guidelines for Recyclables Collection and Loading Areas***, provided by the Waste Management Department, and shall show the location of and access to the collection area for recyclable materials, along with its dimensions and construction detail, including elevation/façade, construction materials and signage. The plot plan shall clearly indicate how the trash and recycling enclosures shall be accessed by the hauler.
2. **Prior to final building inspection**, the applicant shall construct the recyclables collection and loading area in compliance with the Recyclables Collection and Loading Area plot plan, as approved and stamped by the Riverside County Waste Management Department.
3. **Prior to issuance of a building permit**, A Waste Recycling Plan (WRP) shall be submitted to the Riverside County Waste Management Department for approval. At a minimum, the WRP must identify the materials (i.e., concrete, asphalt, wood, etc.) that will be generated by construction and development, the projected amounts, the measures/methods that will be taken to recycle, reuse, and/or reduce the amount of materials, the facilities and/or haulers that will be utilized, and the targeted recycling or reduction rate. During project construction, the project site shall have, at a minimum, two (2) bins: one for waste disposal and the other for the recycling of Construction and Demolition (C&D) materials. Additional bins are encouraged to be used for further source separation of C&D recyclable materials. Accurate record keeping (receipts) for recycling of C&D recyclable materials and solid waste disposal must be kept. Arrangements can be made through the franchise hauler.

4. **Prior to issuance of an occupancy permit**, evidence (i.e., receipts or other type of verification) to demonstrate project compliance with the approved WRP shall be presented by the project proponent to the Planning Division of the Riverside County Waste Management Department in order to clear the project for occupancy permits. Receipts must clearly identify the amount of waste disposed and Construction and Demolition (C&D) materials recycled.
5. Hazardous materials are not accepted at Riverside County landfills. In compliance with federal, state, and local regulations and ordinances, any hazardous waste generated in association with the project shall be disposed of at a permitted Hazardous Waste disposal facility. Hazardous waste materials include, but are not limited to, paint, batteries, oil, asbestos, and solvents. For further information regarding the determination, transport, and disposal of hazardous waste, please contact the Riverside County Department of Environmental Health, Environmental Protection and Oversight Division, at 1.888.722.4234.
6. AB 341 focuses on increased commercial waste recycling as a method to reduce greenhouse gas (GHG) emissions. The regulation requires businesses and organizations that generate four or more cubic yards of waste per week and multifamily units of 5 or more, to recycle. A business shall take at least one of the following actions in order to reuse, recycle, compost, or otherwise divert commercial solid waste from disposal:
 - Source separate recyclable and/or compostable material from solid waste and donate or self-haul the material to recycling facilities.
 - Subscribe to a recycling service with their waste hauler.
 - Provide recycling service to their tenants (if commercial or multi-family complex).
 - Demonstrate compliance with the requirements of California Code of Regulations Title 14.

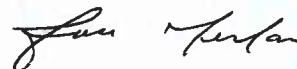

For more information, please visit:

www.rivcowm.org/opencms/recycling/recycling_and_compost_business.html#mandatory

7. Consider xeriscaping and using drought tolerant/low maintenance vegetation in all landscaped areas of the project.

Thank you for the opportunity to review this proposal. If you have any questions, please call me at (951) 486-3200.

Dear Mr. Phayvanh Nanthavongdouangsy,

**Chairman of the Board,
The Metropolitan Water
District of So. Calif.**

Randy A. Record

The subject project is located in EMWD's sewer service area. If this project requires service connections to EMWD's sewer system, then, details of said service connection points will be further detailed in a separate document, known as EMWD's Plan of Service (POS), to be developed by the project proponent.

Legal Counsel

Lemieux & O'Neill

To that end, EMWD requires beginning dialogue with the project proponent at an early stage in site design and development, via a one-hour complimentary Due Diligence meeting. To set up this meeting, the project proponent should complete a Project Questionnaire (form NBD-058) and submit to EMWD. To download this form or for additional information, please visit our "New Development Process" web page, under the "Businesses" tab, at www.emwd.org. This meeting will offer the following benefits:

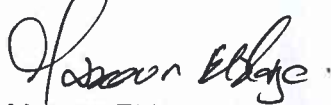

1. Describe EMWD's development work-flow process
2. Identify project scope and parameters
3. Preliminary, high level review of the project within the context of existing infrastructure
4. Discuss potential candidacy for recycled water service

Following the Due Diligence meeting, to proceed with this project, a Plan Of Service (POS) will need to be developed by the developer's engineer, and reviewed/approved by EMWD prior to submitting improvement plans for Plan Check. The POS process will provide the following:

- 1- Technical evaluation of the project's preliminary design
- 2- Defined facility requirements, i.e. approved POS
- 3- Exception: for feasibility evaluation of a purchase acquisition, only a conceptual facilities assessment may be developed.

If you have questions or concerns, please do not hesitate to contact me.

Sincerely,

Maroun El-Hage, M.S., P.E.

Ladies and Gentlemen:

Re: Change of Zone 7848
Area: Rancho California

We have reviewed this case and have the following comment:

The proposed zoning is consistent with existing flood hazards. Some flood control facilities or floodproofing may be required to fully develop to the implied density.

Questions concerning this matter may be referred to Shaheen Mooman of this office at 951.955.1318.

Very truly yours,

Review Stage: First Review

Information Provided: Avensole Winery, Noise Impact Study, County of Riverside, California, February 16, 2014

COUNTY OF RIVERSIDE DEPARTMENT OF ENVIRONMENTAL HEALTH

For Stationary Noise Sources:

Facility-related noise, as projected to any portion of any surrounding property containing a “habitable dwelling, hospital, school, library or nursing home”, must not exceed the following worst-case noise levels:

- a) 45 dB (A) – 10 minute noise equivalent level (“leq”), between the hours of 10:00 p.m. to 7:00 a.m. (nighttime standard).
- b) 65 dB (A) – 10 minute leq, between 7:00 a.m. and 10:00 p.m. (daytime standard).

Page | 3

Findings:

The consultant's report is adequate. The recommendation listed below should provide sufficient attenuation to reduce the exterior noise levels to below the required standards

Recommendations:

The following conditions shall be applied to the project based on the information provided by the acoustical consultant:

- 1) The hours of operation for tasting rooms associated with the winery shall be limited to 9 am to 7 pm Monday through Saturday.
- 2) Mechanical equipment including but not limited to de-stemming, crushing and refrigeration equipment shall be enclosed or shielded for noise attenuation. Alternatively, the proponent may submit a noise study prepared by a qualified acoustical analyst that demonstrates that the unenclosed/unshielded equipment would not exceed the County's allowable noise levels.
- 3) The hours of operation for shipping facilities associated with the winery shall be limited to 9:00 am to 7:00 pm Monday through Sunday
- 4) Shipping facilities and parking areas which abut residential parcels shall be located away from sensitive land uses and be designed to minimize potential noise impacts upon nearby sensitive land uses.
- 5) Site-specific noise attenuating features such as hills, berms, setbacks, block walls or other measures shall be considered for noise attenuation in noise producing areas including, but not limited to, locations of mechanical equipment, locations of shipping facilities, access and parking areas.
- 6) Live amplified music/bands/DJ equipment must face in a south or southeast direction. Speaker placement on top of a hill is to be avoided.

COUNTY OF RIVERSIDE
DEPARTMENT OF ENVIRONMENTAL HEALTH

- 3) The proponent shall be required to pay fees assessed per the Department's hourly rate pursuant to Ordinance #671.

LAND USE and PERMIT APPLICATION PROCESSING AGREEMENT
Agreement for Payment of Costs of Application Processing

TO BE COMPLETED BY APPLICANT:

This agreement is by and between the County of Riverside, hereafter "County of Riverside",

and RTN Development hereafter "Applicant" and LITTON VINEYARDS "Property Owner".

Description of application/permit use: WINDY L.P.

REDEVELOPMENT OF PP 6934 & PP 12661

If your application is subject to Deposit-based Fee, the following applies

Section 1. Deposit-based Fees

Purpose: The Riverside County Board of Supervisors has adopted ordinances to collect "Deposit-based Fees" for the costs of reviewing certain applications for land use review and permits. The Applicant is required to deposit funds to initiate staff review of an application. The initial deposit may be supplemented by additional fees, based upon actual and projected labor costs for the permit. County departments draw against these deposited funds at the staff hourly rates adopted by the Board of Supervisors. The Applicant and Property Owner are responsible for any supplemental fees necessary to cover any costs which were not covered by the initial deposit.

Section 2. Applicant and Property Owner Responsibilities for Deposit-based Fee Applications

- A. Applicant agrees to make an initial deposit in the amount as indicated by County ordinance, at the time this Agreement is signed and submitted with a complete application to the County of Riverside. Applicant acknowledges that this is an initial deposit and additional funds may be needed to complete their case. The County of Riverside will not pay interest on deposits. Applicant understands that any delays in making a subsequent deposit from the date of written notice requesting such additional deposit by County of Riverside, may result in the stoppage of work.
- B. Within 15 days of the service by mail of the County of Riverside's written notice that the application permit deposit has been reduced to a balance of less than 20% of the initial deposit or that the deposit is otherwise insufficient to cover the expected costs to completion, the Applicant agrees to make an additional payment of an amount as determined by the County of Riverside to replenish the deposit. Please note that the processing of the application or permit may stop if the amount on deposit has been expended. The Applicant agrees to continue making such payments until the County of Riverside is reimbursed for all costs related to this application or permit. The County of Riverside is entitled to recover its costs, including attorney's fees, in collecting unpaid accounts that would have been drawn on the deposit were it not depleted.
- C. The Property Owner acknowledges that the Applicant is authorized to submit this agreement and related application(s) for land use review or permit on this property. The Property Owner also acknowledges that should the Applicant not reimburse the County of Riverside for all costs related to this application or permit, the Property Owner shall become immediately liable for these costs which shall be paid within 15 days of the service by mail of notice to said property Owner by the County.
- D. This Agreement shall only be executed by an authorized representative of the Applicant and the Property Owner. The person(s) executing this Agreement represents that he/she has the express authority to enter into this agreement on behalf of the Applicant and/or Property Owner.

- E. This Agreement is not assignable without written consent by the County of Riverside. The County of Riverside will not consent to assignment of this Agreement until all outstanding costs have been paid by Applicant.
- F. Deposit statements, requests for deposits or refunds shall be directed to Applicant at the address identified in Section 4.

Section 3. To ensure quality service, Applicant is responsible to provide one-week written notice to the County of Riverside Transportation and Land Management Agency (TLMA) Permit Assistance Centers if any of the information below changes.

Change of Zone No. 7848 proposes to change the existing zoning of Citrus Vineyard-10 acre mini(CV-10) zone to Wine Country-Winery (WC-W) zone. Conditional Use Permit No. 3711 proposes to update an existing winery into a Class V Winery that is permitted in the WC-W Zone. The modification of uses are within the existing development envelop of 5.40 acres and existing buildings. The changes includes converting a deli into a restaurant and including an outdoor fireplace, converting an office building into a one bedroom-bed and breakfast inn to be used by reservations only for weddings, converting an office building into a special occasion facility that will include a wine tasting area and storage, modifying the winery facility to include special occasion facility with an outdoor events area. The winery facility will include a groundskeeper quarter, production area, events area, catering prep area, and wine tasting area. The project proposes to establish the overflow parking area to add an additional 95 parking spaces. The total parking spaces for the project site is 172 spaces plus 4 limo spaces; the project site will also include a pond located in the center of the project site. The special events includes 125 wedding/receptions, 24 ticketed events, 24 wine club events, 4 wine association events and 12 outdoor evening concerts. The existing uses that will remain onsite include 16.21 acres of vineyards, marketplace and a barrel storage facility. Noise Exemption No. 00007 was applied to allow amplified sounds to be used during continuous events. Events such as outdoor concerts and indoor weddings/receptions will utilize amplified sounds. All other events will not use amplified sounds. Based on the Environmental Assessment No. 42724 evaluation, it was determined that although the proposed Project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the Project have been made or agreed to by the Project proponent. A Mitigation Negative Declaration was prepared.
